

#### ALPHA SERVICES AND HOLDINGS S.A.

(incorporated with limited liability in the Hellenic Republic)

and

# ALPHA BANK S.A.

(incorporated with limited liability in the Hellenic Republic)

### as Issuers

# EUR 15,000,000,000 Euro Medium Term Note Programme

Under this EUR 15,000,000,000 Euro Medium Term Note Programme (the "Programme"), each of Alpha Services and Holdings S.A. ("Alpha Holdings") and Alpha Bank S.A. ("Alpha Bank" or the "Bank" and, together with Alpha Holdings, the "Issuers" and each an "Issuer", with references herein to the "relevant Issuer" being to the Issuer of the relevant Notes) may from time to time issue notes (the "Notes") denominated in any currency agreed with the relevant Dealer(s) (as defined below). Notes may be issued as Senior Preferred Notes, Senior Non-Preferred Notes or Tier 2 Notes (each as defined under "Terms and Conditions of the Notes"), as specified in the applicable Pricing Supplement (as defined below).

The maximum aggregate nominal amount of all Notes from time to time outstanding will not exceed EUR 15,000,000,000 (or its equivalent in other currencies calculated as described herein), subject to increase as described herein.

The Notes may be issued on a continuous basis to the Dealers specified herein and any additional Dealer appointed under the Programme from time to time, which appointment may be for a specific issue or on an ongoing basis (each a "Dealer" and together the "Dealers"). References in this Offering Circular to the "relevant Dealer" shall, in relation to any issue of Notes, be to the Dealer or Dealers agreeing to purchase such Notes.

This Offering Circular has been approved by the Luxembourg Stock Exchange pursuant to Part IV of the Luxembourg act dated 16 July 2019 on prospectuses for securities (the "Luxembourg Act") for the purpose of admitting Notes on the Euro MTF market of the Luxembourg Stock Exchange (the "Euro MTF") and shall be valid for a period of 12 months from the date of its approval. Application has been made to the Luxembourg Stock Exchange for Notes issued under the Programme to be admitted to trading on the Euro MTF and to be listed on the Official List of the Luxembourg Stock Exchange (the "Official List"). References in this Offering Circular to Notes being "listed" (and all related references) shall, where the context so permits, mean that such Notes have been admitted to the Official List and to trading on the Euro MTF. The Euro MTF is a multilateral trading facility and not a regulated market for the purposes of Directive 2014/65/EU (as amended) ("MiFID II").

This Offering Circular is valid for 12 months from its date. The obligation to supplement this Offering Circular in the event of a significant new factor, material mistake or material inaccuracy does not apply when this Offering Circular is no longer valid.

Notice of the aggregate nominal amount of Notes, interest (if any) payable in respect of Notes, the issue price of Notes and certain other information which is applicable to each Tranche (as defined under "Terms and Conditions of the Notes") of Notes will be set out in a pricing supplement (the "Pricing Supplement"), which, with respect to Notes to be listed, will be delivered to the Luxembourg Stock Exchange on or before the date of issue of the Notes of such Tranche. Copies of the Pricing Supplement in relation to listed Notes will also be published on the website of the Luxembourg Stock Exchange (www.bourse.lu).

Subject to applicable laws, the relevant Issuer may agree with the relevant Dealer(s) that Notes may be issued in a form not contemplated by the Terms and Conditions of the Notes, in which event the relevant provisions will be included in the applicable Pricing Supplement.

The Programme provides that Notes may be listed or admitted to trading, as the case may be, on such other or further stock exchanges or markets (other than in respect of an admission to trading on any market in the European Economic Area ("EEA") which has been designated as a regulated market for the purposes of MiFID II) as may be agreed between the relevant Issuer and the relevant Dealer(s). The Issuers may also issue unlisted Notes and/or Notes not admitted to trading on any market.

The Notes have not been and will not be registered under the United States Securities Act of 1933, as amended (the "Securities Act") and are subject to U.S. tax law requirements. Subject to certain exceptions, Notes may not be offered, sold or delivered within the United States or to U.S. persons (see "Subscription and Sale" below).

The Notes of each Tranche will be in bearer form and (unless otherwise specified in the Pricing Supplement) will initially be represented by a temporary global Note which will be deposited on the issue date thereof with a common depositary or common safekeeper on behalf of Euroclear Bank SA/NV ("Euroclear") and Clearstream Banking S.A. ("Clearstream, Luxembourg") and/or any other agreed clearing system and which will be exchangeable, as specified in the applicable Pricing Supplement, for either a permanent global Note or Notes in definitive form, in each case upon certification as to non-U.S. beneficial ownership as required by U.S. Treasury regulations. The applicable Pricing Supplement will specify that a permanent global Note either (i) is exchangeable (in whole but not in part) for definitive Notes upon not less than 60 days' notice or (ii) is only exchangeable (in whole but not in part) for definitive Notes following the occurrence of an Exchange Event, as defined and further described in "Form of the Notes" and "Form of Pricing Supplement" below.

An investment in Notes issued under the Programme involves certain risks. Prospective purchasers of Notes should ensure that they understand the nature of the relevant Notes and the extent of their exposure to risks and that they consider the suitability of the relevant Notes as an investment in the light of their own circumstances and financial condition. ISSUES OF NOTES INVOLVE RISK AND POTENTIAL INVESTORS SHOULD BE PREPARED TO SUSTAIN A LOSS OF ALL OR PART OF THEIR INVESTMENT. It is the responsibility of prospective purchasers to ensure that they have sufficient knowledge, experience and professional advice to make their own legal, financial, tax, accounting and other business evaluation of the merits and risks of investing in the relevant Notes and are not relying on the advice of the relevant Issuer or any Dealer in that regard. For a discussion of these risks see "Risk Factors".

Alpha Holdings has been rated B- (senior unsecured preferred), CCC (senior subordinated) and CCC (subordinated) by S&P Global Ratings Europe Limited ("S&P") and B3 (senior unsecured), B3 (junior senior unsecured) and B3 (subordinated) by Moody's Investors Service Cyprus Limited ("Moody's"). Alpha Bank has been rated B+ (senior unsecured preferred), B- (senior subordinated) and CCC+ (subordinated) by S&P and B2 (senior unsecured), B3 (junior senior unsecured) and B3 (subordinated) by Moody's.

With respect to Alpha Holdings, the Programme has been rated: B- (senior unsecured preferred), CCC (senior subordinated) and CCC (subordinated) by S&P and B3 (senior unsecured), B3 (junior senior unsecured) and B3 (subordinated) by Moody's.

With respect to Alpha Bank, the Programme has been rated: B+ (senior unsecured preferred), B- (senior subordinated) and CCC+ (subordinated) by S&P and B2 (senior unsecured), B3 (junior senior unsecured) and B3 (subordinated) by Moody's.

Each of S&P and Moody's is established in the European Union and is registered under Regulation (EC) No. 1060/2009 (as amended) (the "CRA Regulation"). As such, each of S&P and Moody's is included in the list of credit rating agencies published by the European Securities and Markets Authority on its website at <a href="http://www.esma.europa.eu/page/List-registered-and-certified-CRAs">http://www.esma.europa.eu/page/List-registered-and-certified-CRAs</a> in accordance with the CRA Regulation. Tranches of Notes issued under the Programme may be rated or unrated by any one or more of the rating agencies referred to above. None of S&P and Moody's is established in the United Kingdom (the "UK"). Accordingly the ratings issued by each of S&P and Moody's have been endorsed by S&P Global Ratings UK Limited (in respect of S&P) and Moody's Investors Service Ltd (in respect of Moody's) each in accordance with Regulation (EC) No. 1060/2009 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 ("EUWA") (the "UK CRA Regulation"). As such, ratings issued by each of S&P and Moody's may be used for regulatory purposes in the UK in accordance with the UK CRA Regulation. Where a Tranche of Notes is rated, such rating will be disclosed in the applicable Pricing Supplement and will not necessarily be the same as the ratings assigned to the Programme. A security rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency.

The date of this Offering Circular is 6 July 2022.

# IMPORTANT INFORMATION

This Offering Circular does not comprise a base prospectus for the purposes of Article 8 of Regulation (EU) 2017/1129 (as amended, the "**Prospectus Regulation**").

This Offering Circular comprises a base prospectus for the purposes of Part IV of the Luxembourg Act.

Each of Alpha Holdings and Alpha Bank (the "Responsible Persons") accepts responsibility for the information contained in this Offering Circular and the Pricing Supplement for each Tranche of Notes issued under the Programme. To the best of the knowledge and belief of the Responsible Persons (each having taken all reasonable care to ensure that such is the case) the information contained in this Offering Circular is in accordance with the facts and does not omit anything which in the context of the issuance and offering of Notes would be misleading and affect the import of such information.

This Offering Circular is to be read in conjunction with all documents which are deemed to be incorporated herein by reference (see "Documents Incorporated by Reference" below). This Offering Circular shall be read and construed on the basis that such documents are incorporated into and form part of this Offering Circular.

Other than in relation to the documents which are deemed to be incorporated by reference (see "Documents Incorporated by Reference" below), the information on the websites to which this Offering Circular refers does not form part of this Offering Circular and has not been scrutinised or approved by the Luxembourg Stock Exchange.

The Dealers have not independently verified the information contained herein. Accordingly, no representation, warranty or undertaking, express or implied, is made and no responsibility or liability is accepted by the Dealers as to the accuracy or completeness of the information contained in this Offering Circular or any other information provided by Alpha Holdings and/or Alpha Bank in connection with the Programme or any Notes or their distribution.

No person is or has been authorised by Alpha Holdings and/or Alpha Bank to give any information or to make any representation not contained in or not consistent with this Offering Circular or any other information provided in connection with the Programme or any Notes and, if given or made, such information or representation must not be relied upon as having been authorised by Alpha Holdings and/or Alpha Bank or any Dealer.

Neither this Offering Circular nor any other information supplied in connection with the Programme or any Notes (i) is intended to provide the basis of any credit or other evaluation or (ii) should be considered as a recommendation or as constituting an invitation or offer by Alpha Holdings and/or Alpha Bank or any Dealer that any recipient of this Offering Circular or any other information supplied in connection with the Programme or any Notes should purchase any Notes. Each investor contemplating purchasing Notes should make its own independent investigation of the financial condition and affairs, and its own appraisal of the creditworthiness, of the relevant Issuer. Neither this Offering Circular nor any other information supplied in connection with the Programme or any Notes constitutes an offer or invitation by or on behalf of Alpha Holdings and/or Alpha Bank or any Dealer to any person to subscribe for or to purchase any Notes.

Neither the delivery of this Offering Circular nor the offering, sale or delivery of any Notes shall in any circumstances imply that the information contained in it concerning Alpha Holdings and/or Alpha Bank is correct at any time subsequent to its date or that any other information supplied in connection with the Programme is correct as of any time subsequent to the date indicated in the document containing the same. The Dealers expressly do not undertake to review the financial condition or affairs of Alpha Holdings and/or Alpha Bank during the life of the Programme or to advise any investor in Notes issued under the Programme of any information coming to their attention.

Investors should review *inter alia* the most recently published financial statements and, if published later, the most recently published interim financial statements (if any) of the relevant Issuer when deciding whether or not to purchase any Notes.

IMPORTANT – EEA RETAIL INVESTORS – If the Pricing Supplement in respect of any Notes includes a legend entitled "Prohibition of Sales to EEA Retail Investors", the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to, any retail investor in the EEA. For these purposes, a retail investor means a person who is one (or more) of (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; (ii) a customer within the meaning of Directive (EU) 2016/97 (the "Insurance Distribution Directive"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in the Prospectus Regulation. Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the "PRIIPs Regulation") for offering or selling the Notes or otherwise making them available to any retail investor in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

IMPORTANT – UK RETAIL INVESTORS – If the Pricing Supplement in respect of any Notes includes a legend entitled "Prohibition of Sales to UK Retail Investors", the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the UK. For these purposes, a "retail investor" means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the EUWA; (ii) a customer within the meaning of the provisions of the Financial Services and Markets Act 2000 (the "FSMA") and any rules or regulations made under the FSMA to implement the Insurance Distribution Directive, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA ("UK MiFIR"); or (iii) not a qualified investor as defined in Article 2 of the Prospectus Regulation as it forms part of UK domestic law by virtue of the EUWA. Consequently no key information document required by the PRIIPs Regulation as it forms part of domestic law by virtue of the EUWA (the "UK PRIIPs Regulation") for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

MiFID II product governance / target market – The Pricing Supplement in respect of any Notes may include a legend entitled "MiFID II product governance" which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a "distributor") should take into consideration the target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the Product Governance rules under EU Delegated Directive 2017/593 (the "MiFID Product Governance Rules"), any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MiFID Product Governance Rules.

**UK MiFIR product governance** / **target market** — The Pricing Supplement in respect of any Notes may include a legend entitled "UK MiFIR Product Governance" which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any distributor should take into consideration the target market assessment; however, a distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the "UK MiFIR Product Governance Rules") is

responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the UK MiFIR Product Governance Rules, any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the UK MiFIR Product Governance Rules.

# PRODUCT CLASSIFICATION PURSUANT TO SECTION 309B(1) OF THE SECURITIES AND FUTURES ACT 2001 (2020 REVISED EDITION) OF SINGAPORE, AS MODIFIED OR AMENDED FROM TIME TO TIME (THE "SFA")

The Pricing Supplement in respect of any Notes may include a legend entitled "Singapore SFA Product Classification" which will state the product classification of the Notes pursuant to section 309B(1) of SFA.

The relevant Issuer will make a determination in relation to each issue under the Programme of the classification of the Notes being offered for purposes of section 309B(1)(a). Any such legend included in the applicable Pricing Supplement will constitute notice to each of the "relevant persons" for purposes of section 309B(1)(c) of the SFA.

**NOTICE TO INVESTORS IN CANADA** – Securities legislation in certain provinces or territories of Canada may provide a purchaser with remedies for rescission or damages if this Offering Circular (including any amendment thereto) contains a misrepresentation, provided that the remedies for rescission or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser's province or territory. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser's province or territory for particulars of these rights or consult with a legal adviser.

An investment in the Notes is not an equivalent to an investment in a bank deposit. Although an investment in Notes may give rise to higher yields than a bank deposit placed with Alpha Bank or with any other investment firm in the Group (as defined below), an investment in the Notes carries risks which are very different from the risk profile of such a deposit. The Notes may have no established trading market when issued, and one may never develop.

Investments in the Notes do not benefit from any protection provided pursuant to Directive 2014/49/EU of the European Parliament and of the Council on deposit guarantee schemes or any national implementing measures implementing this Directive in any jurisdiction. Therefore, if the relevant Issuer becomes insolvent or defaults on its obligations, investors investing in the Notes in a worst case scenario could lose their entire investment.

# IMPORTANT INFORMATION RELATING TO THE USE OF THIS OFFERING CIRCULAR AND OFFERS OF NOTES GENERALLY

This Offering Circular does not constitute an offer to sell or the solicitation of an offer to buy any Notes in any jurisdiction to any person to whom it is unlawful to make the offer or solicitation in such jurisdiction. The distribution of this Offering Circular and the offer or sale of Notes may be restricted by law in certain jurisdictions. None of Alpha Holdings, Alpha Bank or the Dealers represents that this Offering Circular may be lawfully distributed, or that any Notes may be lawfully offered, in compliance with any applicable registration or other requirements in any such jurisdiction, or pursuant to an exemption available thereunder, or assumes any responsibility for facilitating any such distribution or offering. In particular, unless specifically indicated to the contrary in the applicable Pricing Supplement, no action has been taken by Alpha Holdings, Alpha Bank or any of the Dealers which is intended to permit a public offering of any Notes or distribution of this Offering Circular in any jurisdiction where action for that purpose is required. Accordingly, no Notes may be offered or sold, directly or indirectly, and neither this Offering Circular nor any advertisement or other offering material may be distributed or published in any jurisdiction, except under circumstances that will result in compliance with any applicable laws and regulations. Persons into whose possession this Offering Circular or any Notes may come must inform themselves about, and observe, any such restrictions on the distribution of this Offering Circular and the offering and sale of Notes. For details of certain restrictions on the distribution of this Offering Circular and the offer or sale of Notes in the United States, the UK, the EEA (including France, Greece and the Republic of Italy), Japan and Singapore, see "Subscription and Sale" below.

The Notes have not been and will not be registered under the Securities Act and are subject to U.S. tax law requirements. Subject to certain exceptions, Notes may not be offered, sold or delivered within the United States or to, or for the account or benefit of, U.S. persons (see "Subscription and Sale").

The Notes may not be a suitable investment for all investors. Each potential investor in the Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor may wish to consider, either on its own or with the help of its financial and other professional advisers, whether it:

- (i) has sufficient knowledge and experience to make a meaningful evaluation of the Notes, the merits and risks of investing in the Notes and the information contained or incorporated by reference in this Offering Circular, the applicable Pricing Supplement or any applicable supplement;
- (ii) has access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;
- (iii) has sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes, including Notes where the currency for principal or interest payments is different from the potential investor's currency;
- (iv) understands thoroughly the terms of the Notes and is familiar with the behaviour of any relevant indices and financial markets; and
- (v) is able to evaluate possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Legal investment considerations may restrict certain investments. The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (1) Notes are legal

investments for it, (2) Notes can be used as collateral for various types of borrowing and (3) other restrictions apply to its purchase or pledge of any Notes. Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk-based capital or similar rules.

Some Notes are complex financial instruments and such Notes may be purchased as a way to reduce risk or enhance yield with an understood, measured, appropriate addition of risk to their overall portfolios. A potential investor should not invest in Notes which are complex financial instruments unless it has the expertise to evaluate how such Notes will perform under changing conditions, the resulting effects on the value of such Notes and the impact this investment will have on the potential investor's overall investment portfolio.

This Offering Circular shall only be used for the purposes for which it has been published.

# PRESENTATION OF CERTAIN FINANCIAL AND OTHER INFORMATION

Unless otherwise specified herein, all references in this Offering Circular to the "**Group**" are to Alpha Holdings and its subsidiaries and subsidiary undertakings from time to time.

Following the Hive Down (as described in "*The Group – Hive Down*" and as defined below), Alpha Holdings (which, prior to the Hive Down, was called Alpha Bank S.A.) became the holding company of the Group and Alpha Bank was incorporated and registered in the Hellenic Republic as the operating company of the Group. Alpha Holdings is the parent of Alpha Bank and owns all of its shares.

All references in this Offering Circular to Alpha Holdings and Alpha Bank should be read and construed in accordance with the Hive Down. Accordingly, references in this Offering Circular to Alpha Holdings or to Alpha Bank in relation to events or actions that took place prior to the completion of the Hive Down are references to Alpha Bank S.A. (as that company existed and operated at the relevant time).

All references in this Offering Circular to:

- the "2019 Strategic Plan" are to the strategic plan of Alpha Holdings approved and announced by the Board of Directors of Alpha Holdings in November 2019; and
- the "Updated Strategic Plan" are to the updated strategic plan of Alpha Holdings and Alpha Bank approved and announced by the Board of Directors of Alpha Holdings on 24 May 2021.

All references in this Offering Circular to "€", "euro", "Euro" and "EUR" are to the single currency introduced at the start of the third stage of European economic and monetary union pursuant to the Treaty on the Functioning of the European Union, as amended and all references in this Offering Circular to "RON" are to Romanian New Lei.

All references in this Offering Circular to "Greece" or to the "Greek state" are to the Hellenic Republic.

In this Offering Circular, unless the contrary intention appears, a reference to a law or provision of a law is a reference to that law or provision as extended, amended or re-enacted.

#### CAUTIONARY STATEMENT REGARDING FORWARD LOOKING STATEMENTS

Some statements in this Offering Circular may be deemed to be forward looking statements. Forward looking statements include statements concerning either Issuer's plans, objectives, goals, strategies, future operations and performance and the assumptions underlying these forward looking statements. When used in this Offering Circular, the words "anticipates", "estimates", "expects", "believes", "intends", "plans", "aims", "seeks", "may", "will", "should" and any similar expressions generally identify forward looking statements. The Issuers have based these forward looking statements on the current view of their management with respect to future events and financial performance. Although the Issuers believe that the expectations, estimates and projections reflected in these forward looking statements are reasonable as of the date of this Offering Circular, if one or more of the risks or uncertainties materialises, including those identified below or which the Issuers have otherwise identified in this Offering Circular, or if either of the Issuers' underlying assumptions proves to be incomplete or inaccurate, the relevant Issuer's actual results of operation may vary from those expected, estimated or predicted.

The risks and uncertainties referred to above include (but are not limited to):

- the Group's ability to achieve and manage the growth of its business;
- the performance of the markets in Greece and the wider region in which the Group operates;
- the Group's ability to realise the benefits it expects from existing and future projects and investments it is undertaking or plans to or may undertake including, without limitation, the Group's ability to meet any of the targets set out in its Updated Strategic Plan in whole or in part or otherwise that the Updated Strategic Plan will be implemented in whole or in part;
- the Group's ability to obtain external financing or maintain sufficient capital to fund its existing and future investments and projects; and
- changes in political, social, legal or economic conditions in the markets in which the Group and its customers operate.

Any forward looking statements contained in this Offering Circular speak only as at the date of this Offering Circular. Without prejudice to any requirements under applicable laws and regulations, each Issuer expressly disclaims any obligation or undertaking to disseminate after the date of this Offering Circular any updates or revisions to any forward looking statements contained in it to reflect any change in expectations or any change in events, conditions or circumstances on which any such forward looking statement is based.

# **STABILISATION**

In connection with the issue of any Tranche of Notes, the Dealer or Dealers (if any) named as the Stabilisation Manager(s) (or persons acting on behalf of any Stabilisation Manager(s)) in the applicable Pricing Supplement may over-allot Notes or effect transactions with a view to supporting the market price of the Notes at a level higher than that which might otherwise prevail. However, stabilisation may not necessarily occur. Any stabilisation action may begin on or after the date on which adequate public disclosure of the terms of the offer of the relevant Tranche of Notes is made and, if begun, may cease at any time, but it must end no later than the earlier of 30 days after the issue date of the relevant Tranche of Notes and 60 days after the date of the allotment of the relevant Tranche of Notes. Any stabilisation action or over-allotment must be conducted by the relevant Stabilisation Manager(s) (or persons acting on behalf of any Stabilisation Manager(s)) in accordance with all applicable laws and rules.

# RISK FACTORS

Each of Alpha Holdings and Alpha Bank believes that the following factors may affect its ability to fulfil its obligations under Notes issued under the Programme. Most of these factors are contingencies which may or may not occur and neither Alpha Holdings nor Alpha Bank is in a position to express a view on the likelihood of any such contingency occurring.

In addition, factors which are material for the purpose of assessing the market risks associated with Notes issued under the Programme are also described below.

Each of Alpha Holdings and Alpha Bank believes that the factors described below represent the principal risks inherent in investing in Notes issued under the Programme, but the inability of Alpha Holdings or Alpha Bank to pay interest, principal or other amounts on or in connection with any Notes may occur for other unknown reasons. Prospective investors should also read the detailed information set out elsewhere in this Offering Circular and reach their own views prior to making any investment decision.

THE PURCHASE OF NOTES MAY INVOLVE SUBSTANTIAL RISKS AND MAY BE SUITABLE ONLY FOR INVESTORS WHO HAVE THE KNOWLEDGE AND EXPERIENCE IN FINANCIAL AND BUSINESS MATTERS NECESSARY TO ENABLE THEM TO EVALUATE THE RISKS AND THE MERITS OF AN INVESTMENT IN THE NOTES. PRIOR TO MAKING AN INVESTMENT DECISION, PROSPECTIVE INVESTORS SHOULD CONSIDER CAREFULLY, IN LIGHT OF THEIR OWN FINANCIAL CIRCUMSTANCES AND INVESTMENT OBJECTIVES, (I) ALL THE INFORMATION SET FORTH IN THIS OFFERING CIRCULAR AND, IN PARTICULAR, THE CONSIDERATIONS SET FORTH BELOW AND (II) ALL THE INFORMATION SET FORTH IN THE APPLICABLE PRICING SUPPLEMENT. PROSPECTIVE INVESTORS SHOULD MAKE SUCH ENQUIRIES AS THEY DEEM NECESSARY WITHOUT RELYING ON THE RELEVANT ISSUER OR ANY DEALER.

# ISSUES OF NOTES INVOLVE RISK AND POTENTIAL INVESTORS SHOULD BE PREPARED TO SUSTAIN A LOSS OF ALL OR PART OF THEIR INVESTMENT.

Prospective investors should read the entire Offering Circular. Words and expressions defined in the "*Terms and Conditions of the Notes*" below or elsewhere in this Offering Circular have the same meanings in this section. Investing in the Notes involves certain risks. Prospective investors should consider, among other things, the following:

Factors that may affect the relevant Issuer's ability to fulfil its obligations under Notes issued by it under the Programme

# RISKS RELATING TO ALPHA HOLDINGS

Alpha Holdings is a holding company.

Notes issued by Alpha Holdings are the obligation of Alpha Holdings only. Alpha Holdings is a holding company and conducts substantially all of its trading activities through its direct subsidiary, Alpha Bank, and the other members of the Group. Alpha Holdings' subsidiaries are separate and distinct legal entities, and have no obligations to pay any amounts due to Noteholders from Alpha Holdings or to provide Alpha Holdings with funds to meet any of its payment obligations under Notes issued by it under the Programme. As Alpha Holdings is a holding company, its ability to make payments to the Noteholders in respect of the Notes issued by it depends largely upon the receipt of dividends, distributions, loans or advances from its subsidiaries. The ability of those subsidiaries to pay dividends, distributions, loans or advances may be subject to applicable laws.

Alpha Holdings' rights to participate in the assets of any subsidiary (including Alpha Bank) if such subsidiary is liquidated will be subject to the prior claims of such subsidiary's creditors, except in the circumstance where Alpha Holdings is also a creditor of such subsidiary with claims that are recognised to be ranked ahead of or which rank *pari passu* with such claims. Accordingly, if one of Alpha Holdings' subsidiaries were to be wound up, liquidated or dissolved, (i) Noteholders would have no right to proceed against the assets of such subsidiary, and (ii) Alpha Holdings would only recover any amounts (directly, or indirectly through its holdings of other subsidiaries) in the liquidation of that subsidiary in respect of its direct or indirect holding of ordinary shares in such subsidiary, if and to the extent that any surplus assets remain following payment in full of the claims of the creditors and preference shareholders (if any) of that subsidiary or if Alpha Holdings is itself a creditor of such subsidiary.

As well as the risk of losses in the event of a Group member's insolvency, Alpha Holdings may suffer losses if any of its loans to, or investments in, its subsidiaries are subject to statutory write-down and conversion powers or if the subsidiary is otherwise subject to resolution proceedings. Alpha Holdings may in the future make loans to Alpha Bank and its other subsidiaries with the proceeds received from Alpha Holdings' issuance of debt instruments (including the issuance of Notes under the Programme). Any loans made with the proceeds from subordinated debt instruments (such as Tier 2 Notes issued by Alpha Holdings) should be expected to be similarly subordinated and replicate, to the maximum extent permitted by applicable laws, the terms of such subordinated debt instruments.

Alpha Holdings retains absolute discretion to restructure such loans to (or any other investments in) any of its subsidiaries, including Alpha Bank, at any time and for any purpose including, without limitation, in order to provide different amounts or types of capital or funding to such subsidiary as part of meeting regulatory requirements, including the implementation of MREL (as defined herein) or the total loss-absorbing capacity requirements in respect of the Group. A restructuring of a loan or investment made by Alpha Holdings in a Group member could include changes to any or all features of such loan, including its legal or regulatory form and how it would rank in the event of resolution and/or insolvency proceedings in relation to the Group member. Any restructuring of Alpha Holdings' loans to any of the members of the Group may be implemented by Alpha Holdings without prior notification to, or consent of, Noteholders.

# RISKS RELATING TO THE GROUP

# Risks relating to macroeconomic and financial developments in the Hellenic Republic

Uncertainty resulting from the Hellenic Republic's financial and economic crisis has had and is likely to continue to have a significant adverse impact on the Group's business, financial condition, results of operations and prospects.

The Group's business is heavily dependent on macroeconomic and political conditions in Greece. As of 31 December 2021, 89 per cent. of the Group's total net loans and advances to customers and 86 per cent. of net interest income were derived from operations in Greece and, as of 31 December 2021, exposure to Greek government securities and derivative financial assets less derivative financial liabilities to the Greek public sector amounted to  $\epsilon$ 6.44 billion.

Greece experienced an unprecedented financial crisis from 2008 to 2016. During this period, the Hellenic Republic faced significant pressure on its public finances and received financial assistance under consecutive stabilisation programmes sponsored by the International Monetary Fund ("IMF"), the European Union ("EU"), the European Central Bank ("ECB") and the European Stability Mechanism ("ESM"). The last financial assistance and stabilisation programme was agreed in August 2015 and was completed in August 2018 (the "ESM Programme"). In accordance with these programmes, the Hellenic Republic committed to certain substantial structural measures intended to restore competitiveness and promote economic growth in the country.

In August 2018, the Hellenic Republic concluded the ESM Programme with a successful exit and no fourth stabilisation programme was imposed. Nevertheless, as part of the post-stabilisation programme period, the Hellenic Republic has made specific policy commitments to complete key structural reforms initiated under the ESM Programme within agreed deadlines and has made a general commitment to continue to implement all key reforms adopted under the ESM Programme. Progress on the implementation of such reforms, as well as economic developments and policies in Greece, are monitored under an enhanced surveillance framework in accordance with Regulation (EU) No 472/2013.

According to Eurostat data published in October 2021, the Greek economy contracted by 9.0 per cent. in 2020, as economic activity was adversely affected by measures designed to constrain the spread of the COVID-19 pandemic.

The swift and strong recovery of economic activity in 2021 recouped a significant part of the losses registered in 2020, as GDP at constant prices increased by 8.3 per cent. on an annual basis (ELSTAT, preliminary data published on early March 2022), driven by the sharp increase of private consumption, the rise in investment, and the notable recovery of tourist inflows over the summer of 2021.

The European Commission (European Economic Forecast, Spring, May 2022) projected for Greece a further GDP increase of 3.5 per cent. in 2022 and a milder 3.1 per cent. increase in 2023. Growth in 2022 is forecast to be driven by investment, supported by the impetus from the Recovery and Resilience Facility (the "RRF"). Private consumption is also expected to support growth, whereas the external environment is forecast to remain supportive.

The forecasts have considered the impact of Russia's invasion in Ukraine and the sanctions imposed by the European Union to Russia. Geopolitical risks are pushing energy prices upwards, due to the fact that Russia is currently the main supplier of natural gas to the European Union. The Greek economy might be impacted by the geopolitical developments through two additional channels: the tourism sector (directly, as regards tourist arrivals from Russia and Ukraine and indirectly, through the expected reduction in the purchasing power of consumers in the origin countries, as a consequence of the increasing energy prices) and a possible postponement of investment plans.

In addition, the evolution of the COVID-19 pandemic remains a source of uncertainty for the Greek economy.

Further, according to the Hellenic Statistical Authority, the primary balance reached -7.1 per cent. of GDP in 2020 (*EL.STAT.*, "The Greek Economy" 19 November 2021). Apart from the decline in revenues triggered by the recession, the prolongation of economic measures adopted by the relevant authorities to cushion the economic downturn weighed on the result.

On 20 December 2021, the Greek Parliament voted the Final Budgetary Plan for 2022, which expects the primary deficit monitored under enhanced surveillance to decrease from 7.3 per cent. of GDP in 2021 to 1.2 per cent. of GDP in 2022.

Potential delays in the completion of remaining reforms, the funds inflow from the RRF and the rest of the commitments of the Hellenic Republic *vis-à-vis* the Eurogroup could impact the market assessment of the risks surrounding the creditworthiness of the Hellenic Republic and, therefore, create uncertainty regarding its ability to maintain continuous access to market financing. Such a development could, in turn, have a material adverse impact on the Group's liquidity position, business, results of operations, financial condition or prospects.

Critically, however, none of the existing forecasts considers the impact of Russia's invasion of Ukraine and the resulting sanctions imposed on Russia, which are expected to adversely affect the Greek economy. Further, the Hellenic Republic remains subject to downside risks in view of the very gradual improvement in household disposable income and the vulnerable financial position of a number of business entities. A continued

depression in the Greek economy will have a significant material adverse effect on the Group's business, financial condition, results of operations and prospects.

The COVID-19 pandemic has impacted and is expected to further impact the Group's business, its customers, contractual counterparties and employees.

The COVID-19 pandemic is a severe public health emergency for citizens, societies and economies. COVID-19 cases have been detected in all EU member states and most countries globally, imposing a heavy burden on individuals and societies, and putting health care systems under severe strain. In addition to its significant social impacts, the COVID-19 pandemic has led to a major economic shock, causing disruption of global supply chains, volatility in financial markets, falls in consumer demand and negative impact in key sectors like travel and tourism.

Sizeable and swift fiscal, monetary, and regulatory responses (such as the €750 billion Next Generation EU recovery instrument ("NGEU") (more than half of which is grant-based)) and a wide range of temporary lifeline policies were put in place to maintain disposable income for households, protect cash flow for firms, and support credit provision. At the national level, governments have responded with a variety of fiscal countermeasures that include efforts to cushion income losses, incentivise hiring, expand social assistance, guarantee credit, and inject equity into firms.

The extent of the impact of the COVID-19 pandemic on the Group's business, results of operations, capital, liquidity and prospects will depend on a number of evolving factors, including:

- The duration, extent and severity of the COVID-19 pandemic, which cannot be predicted with certainty at this time. This will depend on the availability and uptake of vaccines and improvement of therapies for COVID-19, but also potential mutations of the virus that causes COVID-19, which may affect the efficacy of such vaccines and therapies. As per the January 2022 WEO Update, although the global economic recovery is continuing, the pandemic continues to resurge from time to time. The major concern is that more aggressive SARS-CoV-2 variants could emerge before widespread vaccination is reached. The rapid spread of the Delta and Omicron variants and the threat of new variants (such as the Omicron BA.2 variant) have increased uncertainty about how quickly the pandemic can be overcome.
- The effect on the Group's borrowers, counterparties, employees and third-party service providers. The impact of the COVID-19 pandemic has been multi-level and uneven on household and business income. These factors may adversely impact corporate and personal borrowers' ability to repay their loans, which could have a material adverse effect on the Group's results of operations, financial condition and/or liquidity.
- The reaction and measures adopted by governments. According to the Fourteenth Enhanced Surveillance Framework Report on Greece by the EU, most of the measures have already been lifted by May 2022 and the remaining ones will be gradually phased out until the end of the year, for example an extended recruitment subsidy programme to create 50,000 new jobs by subsidising social security contributions for six months for each new employment contract and increased healthcare expenditure partly linked to the vaccination campaign. The fiscal impact of the pandemic-related measures is expected to reach 1.8 per cent. of GDP in 2022, down from 7.2 per cent. of GDP in 2021.
- The reaction of the EU to the COVID-19 pandemic. The ECB's Pandemic Emergency Purchase Programme ("PEPP") amounts to approximately €1,850 billion, of which approximately €38.504 billion was made available for the purchase of Greek public and private sector securities until the end of March 2022. Although on 16 December 2021 the ECB's Governing Council decided to discontinue net asset purchases under the PEPP at the end of March 2022, maturing principal payments from securities purchased under the PEPP will be reinvested until at least the end of 2024. The European

Council's financial package includes the future Multiannual Financial Framework ("MFF") and a specific recovery effort under the NGEU. The NGEU fund amounts to  $\epsilon$ 750 billion, out of which approximately  $\epsilon$ 30.5 billion for the period 2021 to 2026 is available for Greece (provisionally comprising  $\epsilon$ 17.8 billion in grants and  $\epsilon$ 12.7 billion in loans, as per the 2022 Budget). The amount for the MFF is  $\epsilon$ 1,100 billion, with approximately  $\epsilon$ 40 billion earmarked for Greece. However, any measures by monetary authorities may be insufficient in the future, which could have a material adverse effect on the Group's results of operations, financial condition and/or liquidity.

If the COVID-19 pandemic is prolonged, worsens or there are further waves of outbreaks, or other diseases emerge that give rise to similar effects, this could have a further adverse impact on the global economy and/or financial markets and, in turn, adversely impact the Group's business, financial results and operations.

Recessionary pressures in Greece have had and may continue to have an adverse effect on the Group's business.

The Group's business activities are dependent on demand for its banking, finance and financial products and the services it offers, as well as on customers' capacity to repay their obligations, all of which have been adversely affected by the COVID-19 pandemic. The levels of savings and credit demand are heavily dependent on customer confidence, employment trends and the availability and cost of funding.

During the period between 2008 and 2016 the decline in GDP and protracted recession in Greece resulted in significantly reduced disposable income and significantly reduced spending and debt repayment capacity in the Greek private sector. This led to further increases in non-performing loans ("NPLs"), impairment charges on the Group's loans and other financial assets, decreased demand for borrowings in general and increased deposit outflows.

The uncertainty created by the prolonged financial crisis in Greece and doubts as to the ability of the Greek economy to recover resulted in a significant outflow of deposits in the Greek banking sector of approximately €37 billion from 31 December 2014 to 31 December 2015 (Source: *Bank of Greece*).

The Group's NPL ratio (defined as NPLs divided by gross loans at the end of the relevant reference period) stood at 6.6 per cent. as of 31 March 2022. The decline in loan portfolios, in combination with a high NPL ratio, may result in decreased net interest income, and this could have a material adverse effect on the Group's business, financial condition, results of operations and prospects.

The Bank of Greece also assesses NPLs based on the European Banking Authority ("**EBA**") standards in order to monitor Greek banks' NPLs. The Group's NPE ratio amounted to 12.2 per cent. as of 31 March 2022.

In response to the COVID-19 pandemic, Greek banks, including the Bank, offered payment moratoria to their borrowers, with a temporary prudential flexibility put in place by regulators. According to the data submitted by the Greek systemic banks as of 31 December 2020, €27.6 billion of loans have been covered by the non-legislative moratoria put in place by servicers and banks for debtors affected by the COVID-19 pandemic. According to the Bank of Greece, the balance of these loans was less than €4 billion as of 31 December 2020 as most of the moratoria had expired (Source: *Bank of Greece*). The moratoria mitigated the impact of the COVID-19 pandemic on the Greek banks' asset quality, as supervisory guidance allowed public and private moratoria announced and applied before 30 September 2020 not to be automatically classified as forbearance measures. As at 31 December 2021, the Group had a total of €5.5 billion of non performing exposures that were subject to COVID-19 EBA-compliant moratoria (though all such moratoria had previously expired). The non-performing exposure ("NPE") inflows from moratoria expirations in 2021 reached €0.9 billion.

The Bank has implemented a troubled assets management plan to reduce NPL/NPE volumes. Nevertheless, the implementation of the management plan (as described in more detail under "Business of the Group – Other Activities – NPE Management") is affected by a number of external and systemic factors and there is no

guarantee such a management plan will be effective, especially given the risk of future loan reclassifications to non-performing status (leading to increased provisioning needs and deteriorating asset quality ratios).

Volatile macroeconomic conditions, coupled with low consumer spending and business investment, which may be further exacerbated by, amongst other things, the COVID-19 pandemic and the war in Ukraine, may adversely affect the value of assets collateralising secured loans, including houses and other real estate. Such a decline could result in impairment of the value of the Bank's loan assets or an increase in the level of the Bank's NPLs and NPEs, either of which may have a material adverse effect on the Group's business, financial condition, results of operations and prospects.

Inflationary pressures may have an adverse effect on the Group's business.

The Group's business and operations may be affected by the current inflation surge, which started around mid 2021 after a few decades of very low inflation and was accelerated by Russia's invasion of Ukraine.

In Greece, inflation started increasing in August 2021 and increased by 10.2 per cent. in April 2022 on an annual basis (Source: ELSTAT, Consumer Price Index (CPI) – National Index / April 2022).

The causes of the recent inflationary pressures are disputed among economists, with most of them attributing inflation to shortages resulting from global supply-chain problems, largely caused by the COVID-19 pandemic, shift in demand toward goods and away from services, post-pandemic recovery and turmoil in the labour market, as well as significant increases in energy prices, and therefore, it is not clear whether the inflation will remain high and persist. The answer depends largely on the distribution of shocks to the economy and how central banks (and finance ministries) react, as well as on the duration of the war in Ukraine and its impact on energy prices, food prices, and global growth.

The exact impact of inflationary pressures on the Group's activities depends on the duration and the actual inflation rate and, therefore, it is difficult to predict. It is possible that there will be a significant, and economically important, negative relationship between inflation and both banking sector development and equity market activity, which may have a material adverse effect on the business operations and economic results of the Group. Moreover, inflation is expected to put upward pressure on the Group's expenses, particularly wages.

If inflation persists, the Group may have to identify effective means for hedging interest rate risk related to inflationary pressures and adjust its operations. Any failure of the Group to address or hedge persisting inflationary pressures could adversely affect its financial condition, capital adequacy and operating results.

Political, geopolitical and economic developments could adversely affect the Group's business and operations.

External factors, including political, geopolitical, and economic developments in the Hellenic Republic and the region (or elsewhere in the world – for example, the ongoing war in Ukraine) may negatively affect the Group's business, operations, and prospects in and outside of Greece. The Group's financial condition and results of operation may be adversely affected by various events outside of its control, including, but not limited to, the following:

- changes in government and economic policies;
- political instability, military conflicts or geopolitical tensions that impact South-Eastern Mediterranean Europe and/or other regions, including tensions between Greece and Turkey and the war in Ukraine;
- changes in the level of interest rates set by the ECB;
- regulations and directives relating to the banking and other sectors; and

 taxation and other political, geopolitical, economic or social risks affecting the Group's business development.

# Risks relating to the Group's business

The Group may not be able to reduce its NPE levels in line with its targets or at all, which may materially impact its financial condition, capital adequacy or results of operations.

NPEs represent one of the most significant challenges for the Greek banking system. Based on data from the Bank of Greece, the NPE ratio for Greek banks stood at 12.8 per cent. on a solo basis in December 2021, having declined strongly from 30.1 per cent. at the end of 2020 and 40.6 per cent. at the end of 2019. Net inflows of NPEs continued, but remained below initial expectations. Due to the COVID-19 pandemic, in September 2020, Greek banks submitted to the Bank of Greece updated interim NPE plans to reduce their NPEs and submitted revised NPE plans for the period up to 2023 in March 2021.

The level and amount of NPEs adversely affects the Bank's net income through credit risk and impairment expenses, recovery strategy costs, other operating expenses and taxes. The Bank intends to accelerate its efforts to reduce its NPE levels through inorganic NPE disposals, including securitisations, utilisation of the flexibility provided by the Hellenic Asset Protection Scheme, introduced by virtue of Greek Law 4649/2019 (the "HAPS"), as well as through additional direct sales of NPEs. The NPE ratio for the Group on 31 March 2022 stood at 12.2 per cent. and the NPL ratio at 6.6 per cent., whilst the Group is targeting a 7 per cent. NPE ratio by 31 December 2022 and targeting an NPL ratio of 5 per cent. by the same date. The Group is targeting an NPE ratio of 3 per cent. by the end of 2024.

In order to reduce its cost of risk and to reduce the amount of NPEs on its balance sheet, the Group announced the 2019 Strategic Plan in November 2019. The main priority and objective of the 2019 Strategic Plan was the improvement of the Group's financial structure through the reduction of its NPEs and cost of risk, which constituted the main factors impacting profitability over the past years, while also aiming to optimise the organisational and capital structure of the Group. The 2019 Strategic Plan entailed, amongst other things, a securitisation of an NPE portfolio, known as "Galaxy", up to an amount of €10.8 billion (the "Galaxy Securitisation") and the transfer of the Bank's business of servicing of NPEs to Cepal Hellas Financial Services Single Member S.A.-Servicing of Receivables from Loans and Credits ("Cepal Hellas"), a wholly-owned, licensed servicing company for loan receivables under Greek Law 4354/2015.

On 22 February 2021, Alpha Holdings announced that it had reached definitive agreement with funds managed by Davidson Kempner Capital Management LP ("Davidson Kempner") for the sale and transfer of 80 per cent. of the shares in the holding company of Cepal Hellas ("Cepal Hellas HoldCo") along with 51 per cent. of the mezzanine and the junior notes issued under the Galaxy Securitisation, which was completed on 18 June 2021. The 2019 Strategic Plan also envisaged the demerger of Alpha Holdings by way of hive-down of its banking activities, which include the assets and liabilities related to the exercise of banking business, with the incorporation of the Bank as a new wholly owned subsidiary, pursuant to article 16 of Greek Law 2515/1997, par. 3 of article 54, par. 3 of article 57 and articles 59-74 (inclusive) and 140 of Greek Law 4601/2019 and article 145 of Greek Law 4261/2014, as in force (the "Hive Down"). The Hive Down was completed on 16 April 2021. For more information about the Hive Down, see "The Group – Hive Down".

As part of its further capital enhancing actions, and following completion of the Galaxy Securitisation, the Bank set out its intention, under its Updated Strategic Plan, to dispose of further NPE portfolios with an aggregate gross book value of more than  $\in 8.1$  billion by the end of 2022. In particular, the Group has launched five NPE transactions with total gross book value of  $\in 8.1$  billion including (a) an NPE securitisation transaction of gross book value of  $\in 3.4$  billion ("**Project Cosmos**"), for which a binding agreement was signed on 22 October 2021 with an application submitted under the HAPS scheme extension (the "**HAPS 2**") on 15 October 2021, and which was completed on 17 December 2021; (b) together with the other Greek systemic banks, a securitisation

under "Project Solar", for which an application will be submitted under the HAPS 2 scheme and in which the Bank's participation shall be  $\epsilon$ 0.4 billion; (c) an outright sale of a portfolio of retail unsecured NPLs with a total outstanding balance of  $\epsilon$ 2.1 billion and a total gross book value of  $\epsilon$ 1.3 billion, for which a binding agreement with Hoist Finance AB (publ) was concluded on 28 December 2021 (known as "**Project Orbit**"); (d) an outright sale of a portfolio of Cypriot NPLs and real estate properties with a total gross book value of around  $\epsilon$ 2.2 billion, which will be sold by Alpha International Holdings S.M.S.A., the 100 per cent. (indirect) subsidiary of Alpha Holdings (known as "**Project Sky**") and for which a binding agreement with an affiliate of Cerberus Capital Management L.P. was announced on 14 February 2022; and (e) a selected wholesale, shipping and leasing receivables disposal of  $\epsilon$ 1.1 billion in Greece.

Nevertheless, the Bank's ability to complete these portfolio securitisations and sales may be negatively impacted by deteriorating market conditions, which could decrease demand for outright NPE portfolio sales or negatively affect the pricing terms in such transactions. In addition, notwithstanding the progress achieved towards the reduction of the Bank's NPE levels to date, the execution of each of the above-mentioned transactions aiming at the NPE reduction will be complex and entails certain operational and execution risks, such as the worsening of market conditions, the deterioration in the financial condition of the Bank's borrowers, the satisfaction of applicable conditions for the transfer of the mezzanine notes included in the relevant transaction documents, receipt of necessary approvals from third parties, the most important of which are the approval of significant risk transfer by the Single Supervisory Mechanism ("SSM") so that the relevant securitisation transaction is compliant with the applicable regulatory framework and the approval of the granting of the Greek state guarantee under the HAPS 2 scheme, and other constraints stemming from events beyond the Bank's control, any of which could cause significant interruptions or delays in the implementation of its plans or require it to complete such transactions on less favourable terms (see "Regulation and Supervision – Securitisations – the Hellenic Asset Protection Scheme (HAPS and HAPS 2)").

Failure to be assigned the required rating by rating agencies may result in particular transactions not being eligible for inclusion in the HAPS 2 scheme, as currently applicable, which may significantly affect the pricing of the relevant transactions. For more details on the legislation governing NPL securitisations under the HAPS scheme, please see "Regulation and Supervision – Securitisations – the Hellenic Asset Protection Scheme (HAPS and HAPS 2)". If the Bank is not able to benefit from the HAPS 2 scheme, or if it is required to accelerate the reduction of its NPE portfolio to comply with regulatory expectations or recommendations, it may be effectively compelled to increase the number of outright NPE portfolio and individual NPE sales, and this may lead to greater capital losses as a result of the difference between the value at which NPLs are recorded on the Bank's balance sheet and the consideration that investors specialised in NPE acquisitions are prepared to offer, or may lead to greater write-down of loans or a requirement to create additional provisions.

Furthermore, notwithstanding the efforts of the Greek government and the EU to address the economic impact of the COVID-19 pandemic, there can be no assurance that the expected improvement in the macroeconomic performance and growth will indeed materialise, particularly in light of other intervening events that have weighed on global economic conditions, such as the war in Ukraine. Additionally, any potential change in the regulatory framework could result in an increase of future provisions, the need for additional capital, the classification of loans and exposures as "non-performing" and a corresponding significant decrease in the Group's revenue, which could materially and adversely affect its financial position, capital adequacy and results of operations.

The Group's failure to reduce its NPE levels on a timely basis, or in its entirety, or on the terms that it currently expects, could adversely affect its financial condition, capital adequacy and operating results.

The Bank is exposed to the financial performance and creditworthiness of companies and individuals in Greece.

The Bank is one of the four systemic Greek banks. Its business, results of operations and financial condition are significantly exposed to the economic and financial performance, creditworthiness, prospects and economic

outlook of companies and individuals in Greece or with a significant economic exposure to the Greek economy. In addition, its business activities depend on the level of customer demand for banking, and financial products and services, as well as customers' capacity to service their obligations or maintain or increase their demand for its services. Customer demand and customers' ability to service their liabilities depend considerably on their overall economic confidence, prospects, employment status, the state of the public finances in Greece, investment and procurement by the central government and municipalities and the general availability of liquidity and funding on reasonable terms.

In an environment that is subject to continuing market turbulence, uncertain macroeconomic conditions and elevated levels of unemployment, combined with decreasing private consumption and corporate investment and the deterioration of credit profiles of corporate and retail borrowers further due to the COVID-19 pandemic, the value of the assets which collateralise the loans the Bank has extended, including houses and other immovable property, could be significantly reduced. Such reduction may lead to the reduction in the value of the loans made by the Bank or an increase in loans in arrears. Further waves of the COVID-19 pandemic have delayed the economic recovery in Greece. The Greek economy may not achieve the sustained and robust growth that is necessary to ease the financial constraints of the country and improve conditions for foreign direct investment and the availability of funding from the capital markets. Notwithstanding the recent completion of the Third Economic Adjustment Programme, the Greek economy will continue to be affected by the creditworthiness of commercial counterparties internationally and the repercussions arising from the global economic downturn resulting from the COVID-19 pandemic and, more recently, the war in Ukraine. The prospect of a severe economic recession, coupled with prolonged market uncertainty and volatility in asset prices, higher unemployment rates, and declining consumer spending and business investment, could result in substantial impairments in the values of the Bank's loan assets, decreased demand for borrowings, increased deposit outflows and a significant increase in the level of the Bank's NPEs.

Deteriorating asset valuations resulting from poor market conditions, particularly in relation to developments in the real estate markets, may adversely affect the Bank's future earnings, capital adequacy, financial condition and results of operations.

The global economic slowdown has resulted in an increase in NPEs and changes in the fair values of the Bank's exposures. A substantial portion of the Bank's loans to corporate and individual borrowers is secured by collateral such as real estate, personal guarantees, vessels, term deposits and receivables. In particular, as residential mortgage loans and mortgage-backed loans are one of the Bank's principal assets, it is highly exposed to the Greek real estate market. Real estate property values depend on various factors including, among others, current rental values and occupancy rates, prospective rental growth, lease length, tenant creditworthiness and solvency, together with the nature, location and physical condition of the property concerned, changes in laws, inflation and governmental regulations governing real estate usage, zoning and taxes. In addition, real estate markets are typically cyclical in nature, difficult to predict and are affected by the condition of the economy as a whole.

Under the unprecedented conditions created by the COVID-19 pandemic, there have been significant changes in the real estate market, several of which are expected to remain and affect market balances, even in the long run, despite the fact that the impact of the current health crisis has not yet been fully reflected in real estate prices and trends. In particular, property prices have been adversely affected by, amongst other things, weak credit flows, oversupply in low demand areas and a high unemployment rate (12.8 per cent. in December 2021 (EL.STAT., Labour Force Survey, Monthly data, Press Release, December 2021, published on 16 February 2022)). Fluctuations in the real estate market affect the value of the Group's real estate collateral.

Moreover, the fallout from the conflict in Ukraine is expected to impact materially the global economic recovery this year, with the greatest impact in Europe. The increase in oil prices and renewed supply chain disruptions are also likely to further increase inflation.

A further decline in the value of collateral may also result from deterioration of financial conditions in Greece or the other markets where collateral is located. In addition, failure to recover the expected value of collateral may expose the Bank to losses. Further, Greek Law 4605/2019 offers limited protections to borrowers (individuals) who have pledged their primary residence as collateral. For a detailed description, see "Regulation and Supervision – Extrajudicial debt settlement mechanism – Settlement of amounts due by over-indebted individuals under Law 3869/2010—protection of main residence of the debtor". This may also limit the Bank's ability to recover collateral. In addition, an increase in financial markets volatility or adverse changes in the liquidity of the Bank's assets could impair its ability to value certain of its assets and exposures. The value of any asset ultimately realised by the Bank will depend on the fair value determined at that time, and may be materially different from the current market value. Any decrease in the value of such assets and exposures could require the Bank to recognise additional impairment charges, which could adversely affect its future earnings and its capital adequacy and, as a result, its financial condition and results of operations.

The Bank may be unable to implement its cost reduction strategies or transformation plan, and thus fail to reduce its operating expenditures, which may have a material adverse effect on its business, financial position, and results of operations.

As part of its cost savings strategy, the Bank expects a substantial part of its total cost reduction to come from its enhanced operational efficiency and optimisation projects, which will require a reduction in its non-core operating expenditures and the implementation of its Updated Strategic Plan, which includes, among other things, moving its distribution model to digital channels, digitally transforming the end-to-end lending process in its Retail and Wholesale Banking units, optimising third-party costs and streamlining its cost structure. Although the Bank has developed dedicated teams, including a general management team focused on transformation and a general management team focused on growth and innovation, in order to support the implementation of its Updated Strategic Plan, such implementation may be delayed or adversely impacted by factors beyond its control, or the positive impact of the Updated Strategic Plan may be less than anticipated. Inability to implement or to implement in a timely manner these strategies and achieve the Group's transformation objectives may adversely affect its business, financial position, and results of operations.

The Bank is exposed to credit risk, market risk, operational risk, liquidity risk and litigation risk.

As a result of its day-to-day activities, the Bank is exposed to a variety of risks, including credit risk, market risk, operational risk, liquidity risk and litigation risk. For more information on these and other risks facing the Bank's business, see below and "Risk Management". The Bank's failure to effectively manage any of these risks could have a material adverse effect on its business, financial condition, results of operations and prospects.

# Credit risk.

Risks arising from changes in credit quality and the recoverability of loans and amounts due from counterparties are inherent in a wide range of the Bank's businesses. Its exposure to credit risk mainly arises from corporate and retail credit, various investments, over-the-counter derivative transactions, as well as from the settlement of transactions. The amount of risk associated with such credit exposures depends on various factors, including general economic conditions, market developments, the debtor's financial condition, the amount, type or duration of the relevant exposure and the existence of collateral and guarantees, which the Bank may not be able to assess with accuracy at the time of undertaking the relevant activity. Adverse changes in the credit quality of the Bank's borrowers and counterparties or a general deterioration in the Greek, European and global economic conditions, or arising from systemic risks in the financial systems, could affect the recoverability and value of its assets and require an increase in its impairment losses and provisions to cover credit risk.

# Market risk.

The most significant market risks that the Bank faces are interest rate, foreign exchange and bond and equity price risks. Changes in interest rate levels, yield curves and spreads may affect the interest rate margin realised

between the Bank's lending and borrowing costs. Changes in currency rates affect the value of the Bank's assets and liabilities denominated in foreign currencies and may affect income from foreign exchange dealing. The performance of financial markets may cause changes in the value of the Bank's investment and trading portfolios. Moreover, the Bank does not hedge all of its risk exposure in all market environments or against all types of risk. In addition, the manner in which gains and losses resulting from certain hedges are recorded may result in additional volatility in the Bank's reported earnings. The undiversified 1 day value at risk ("VaR") estimate for the Bank's trading book as of 31 December 2021 was  $\epsilon$ 5.1 million (rounded) (consisting of  $\epsilon$ 3.5 million for interest rate risk,  $\epsilon$ 1.6 million for foreign exchange risk and  $\epsilon$ 0.04 million for price risk). The 1 day VaR as of 31 December 2021 is reduced by  $\epsilon$ 1.1 million to  $\epsilon$ 4 million due to the diversification effect of the Bank's portfolio. The Group's subsidiaries and branches have limited trading positions, which are immaterial compared to the positions of the Bank. As a result, the market risk effect deriving from these positions on the total income is immaterial. The VaR measure is an estimate of the potential reduction in the net present value of a portfolio, over a specified period and with a specified confidence level. For a detailed discussion on the various methods of calculating the VaR and its use for the calculation of the market risk see *Risk Management – Market Risk*".

# Operational risk.

The Bank's businesses are dependent on their ability to process a very large number of transactions efficiently and accurately. Operational risk and losses can result from inadequate or failed internal processes, people and systems or from external events such as fraud or other malicious acts from third parties (such as robberies or terrorist activities), cyber-attacks, errors by employees, failure to document transactions properly or to obtain proper internal authorisation, failure to comply with regulatory requirements and conduct of business rules, equipment failures, natural disasters or the failure of external systems including those of the Bank's suppliers or counterparties. Furthermore, the Bank faces the risk of legal and regulatory sanctions, financial loss and/or impacts on its reputation, which may result from a breach of, or non-compliance with, the applicable legal and regulatory framework, contractual obligations and codes of conduct related to its activities.

#### Liquidity risk.

The Bank's inability to anticipate and take appropriate measures regarding unforeseen decreases or changes in funding sources could have an adverse effect on its ability to meet its obligations when they fall due.

#### Litigation risk.

In the context of its day-to-day operations the Bank is exposed to litigation risk, among other things, as a result of changing and developing consumer protection legislation and legislation on the provision of banking and investment services. The cost of defending any claims and any associated settlement costs can be substantial, even with respect to claims that have no merit. In addition, adverse judgments arising from litigation could result in restrictions or limitations on the Bank's operations or result in a material adverse impact on its reputation or financial condition. Although the Bank believes that it conducts its operations pursuant to applicable laws and takes all necessary measures for adapting its operations to legislative amendments, there can be no assurance that significant litigation will not arise in the future.

In 2015 and 2016, orders for preliminary investigation were made in respect of the credit process for the extension of loans by certain Greek banks to borrowers in certain business sectors, including publishing groups, as well as to certain individuals. These investigation orders concerned, among other things, three Executive Members of the Board of Directors of the Bank (not including the Chief Executive Officer) and one Non-Executive Member of the Board of Directors of the Bank (who was formerly an Executive Member), together with certain other officers of the Bank. Indictments have been issued and orders for main investigations made in respect of each case, whilst one case has reached the level of public hearings. The individuals have been charged with "breach of trust" (pursuant to Article 390 of the Greek Criminal Code). The charges relate to

certain loans made by the Bank to certain companies or individuals and concern the making of such loans, ongoing maintenance and forbearance in respect of such loans and/or writing off such loans in settlement for other claims. One of these cases reached the level of a public hearing and, in October 2019, an acquittal for all Members of the Board of Directors and officers of the Bank was ordered by the court in respect of such case. Further, on 13 November 2019, the Hellenic Parliament approved an amendment of the Greek Criminal Code (the "Amendment of the Criminal Code"), as a result of which cases of "breach of trust" will be pursued only following complaints by the person having suffered damage from the alleged breach. Any pending proceedings, such as those described above, where no such complaint has been filed, will be continued only if such person specifically requests that the proceedings be continued within a period of four months as of the date of enactment of the Amendment of the Criminal Code. Otherwise they will be dismissed.

The Board of Directors of the Bank has considered, in the context of the Amendment of the Criminal Code, whether any request should be made or not in connection with the above cases. Such consideration was made on the basis of legal opinions sought on all such cases, which concluded that in the view of the experts issuing the relevant opinions, the existing or previous Members of the Board or the Senior Management of the Bank, investigated or charged with the crime of breach of trust in the above cases, should be acquitted. On this basis the Board of Directors has decided not to file any request that the relevant proceedings of the aforesaid cases should continue.

Certain Judicial Councils (convening in Chambers), considering whether cases involving Greek bank officials, including existing or previous Members of the Board or the Senior Management of the Bank, should be dismissed, expressed the view that the Amendment of the Criminal Code is against the Greek Constitution and the matter was referred to the Greek Supreme Court (in Greek "Αρειος Πάγος"), again convening in Chambers. The Greek Supreme Court by virtue of its Decision 158/2021 ruled in favour of the compliance of the Amendment of the Criminal Code with the Greek Constitution, a ruling which has already been followed in one of the cases, involving existing or previous Members of the Board or the Senior Management of the Bank, which is now expected to be followed by all Courts and Judicial Councils.

Whilst the Bank is co-operating with the public prosecutor in relation to such charges, neither the Bank itself nor any other member of the Group is the subject of any related proceedings.

Hellenic Competition Commission ("HCC") officials visited, among other entities, the Bank's headquarters on 7 and 8 November 2019, with authorisation to inspect documents and data in connection with alleged infringements of Article 101 of the Treaty of the Functioning of the European Union and its Greek equivalent. The Bank is cooperating with and will continue to cooperate with the HCC. As per a press release of the HCC, the fact that the HCC carries out inspections does not mean that the inspected companies are involved in any sort of anti-competitive behaviour, nor does it prejudge the outcome of the investigation itself.

In July 2021 a Court of First Instance ruled against the Bank and certain members of its current and previous management in relation to an aborted initial public offering which was launched in 2000 by a hotel business, ordering the payment of an amount of €65 million, accepting the allegations of the claimant (the proposed issuer of the shares) that it decided to abort the initial public offering on the basis of advice and commitments by the Bank, which the claimant alleges were not met. Although the Bank has obtained external legal advice and believes that the decision of the Court of First Instance is unsubstantiated and has no merit, and thus has filed an appeal against it, there can be no assurance that the Bank will overturn partly or wholly the decision at the Court of Second Instance.

Legal and regulatory actions (including those referred to above) are subject to many uncertainties, and their outcomes, including the timing, amount of fines or settlements or the form of any settlements, which may be material and in excess of any related provisions, are often difficult to predict, particularly in the early stages of a case or investigation, and the Bank's expectation for resolution may change. In addition, responding to and defending any current or potential proceedings involving the Group or any of its directors and other employees

(including those referred to above) may be expensive and may result in diversion of management resources (including the time of the affected persons or other Group employees) even if the actions are ultimately unsuccessful.

Adverse outcomes or resolution of current or future legal or regulatory actions (including those referred to above) may result in additional supervision by the Group's regulators and/or changes in the directors, officers or other employees of the Group and could result in further proceedings or actions being brought against any of the Group's directors, officers or other employees. They may also adversely impact investor confidence and the Group's broader reputation.

In addition, legal and regulatory actions involving the Group (for the avoidance of doubt, not including those referred to above) may also result in fines, administrative sanctions (including restrictions on operations, regulatory licence revocation, etc.), settlements or damages being awarded against the Group, further actions or civil proceedings being brought against Alpha Holdings or any of its subsidiaries and potentially have other adverse effects on the business of the Group.

Accordingly, any such legal proceedings and other actions involving the Bank, any member of the Group or any of its directors or other employees may adversely affect the Group's profitability, reputation and business.

Volatility in interest rates may negatively affect the Group's net interest income and have other adverse consequences.

Interest rates are highly sensitive to many factors beyond the Bank's control, including monetary policies and domestic and international economic and political conditions. As such, there can be no assurance that further domestic or international events will not alter the interest rate environment in Greece and the other markets in which the Group operates. Cost of funding is especially at risk for the Group due to increased Eurosystem funding (the "Eurozone" being the monetary authority of the euro area and being comprised of the ECB and the national central banks of EU member states whose currency is the euro). See "Risk Management – Interest Rate Risk of the Banking Book".

As with any credit institution, changes in market interest rates may affect the interest rates charged on interestearning assets differently from the interest rates paid on interest-bearing liabilities. This difference could reduce the Bank's net interest income. Since the majority of the Bank's loan portfolio effectively re-prices within a year, rising interest rates may also result in an increase in its allowance for impairment on loans and advances to customers if customers cannot refinance in a higher interest rate environment. Further, an increase in interest rates may reduce clients' capacity to repay in the current economic circumstances.

The Hellenic Financial Stability Fund (the "**HFSF**"), in its capacity as shareholder of Alpha Holdings, has certain rights in relation to the operation and business decisions of the Bank.

The first Stabilisation Programme, as established in May 2010, introduced restructuring measures such as the establishment of the HFSF whose only shareholder is the Hellenic Republic and whose role is to maintain the stability of the Greek banking system by providing capital support in the form of ordinary shares or contingent convertible securities or other convertible securities to credit institutions licensed by the Bank of Greece and operating in Greece. The ESM Programme and Greek Law 3864/2010, as amended and in force (the "HFSF Law") provide the HFSF, through its representative, with specific shareholders' rights in the credit institutions in which it has committed to participate by means of the share capital increases.

The HFSF became a shareholder of Alpha Holdings in 2013, in the context of the recapitalisation of Greek credit institutions by the HFSF, whereby it acquired 83.70 per cent. of its share capital. The Group has not received since then any further recapitalisation funds from the HFSF, and the HFSF's shareholding amounted to 9 per cent. as of 15 June 2022. Accordingly, the HFSF is entitled to exercise significant influence over the operations of the Group.

More specifically, the HFSF is entitled to the appointment of a member to Alpha Holdings' and the Bank's Board of Directors and has the power, according to the HFSF Law, to veto, through such member, decisions relating to dividend distributions and remuneration policies for so long as the NPE ratio remains above 10 per cent., and other specifically enumerated commercial and management decisions. Additionally, the HFSF may appoint at least one member of each of the Audit Committee, the Risk Management Committee, the Remuneration Committee and the Corporate Governance and Nominations Committee of each of Alpha Holdings and the Bank. For additional information on the HFSF Law, see "Regulation and Supervision – The HFSF".

In addition to the provisions of the HFSF Law, and pursuant to the Relationship Framework Agreement originally entered into on 12 June 2013 and subsequently replaced by the New Relationship Framework Agreement (the "New RFA"), entered into on 23 November 2015, the HFSF has a series of information rights with respect to matters pertaining to the Group and the Bank. Finally, the Bank is obliged to obtain the prior approval of the HFSF on certain material issues, such as the Group's risk and capital strategy and the Group's strategy in terms of NPLs, etc. (for more information please refer to "Regulation and Supervision – Provision of Capital Support by the HFSF")

Consequently, as a result of the powers that the HFSF has under the HFSF Law and the New RFA, the HFSF may exercise significant influence over the functioning and decision making of Alpha Holdings' and the Bank's Board of Directors and such influence may affect the Group's business and strategy.

Existing market fluctuations and volatility may result in significant losses in the commercial and investment activities of the Group, which could adversely affect its profitability.

Positions in the Group's trading and investment portfolio which relate to the debt, currency, equity and other markets could be adversely affected by continuing volatility in financial and other markets, creating a risk of substantial losses.

Continuing volatility and further dislocation affecting certain financial markets and asset classes could also further impact the Group's results of operations, financial condition and prospects. In the future, these factors could have an impact on the mark-to-market valuations of assets in the Group's investment securities, trading securities, loans measured at fair value through profit and loss and financial assets and liabilities for which the fair value option has been elected.

Volatility can also lead to losses relating to a broad range of other trading securities and derivatives held, including swaps, futures, options and structured products. Losses in the commercial and investment activities of the Group may adversely affect its ability to lend and its profitability.

The Group is vulnerable to the ongoing disruptions and volatility in the global financial markets.

The Group's results of operations are materially affected by many factors of a global nature, including: political and regulatory risks and the condition of public finances; the availability and cost of capital; the liquidity of global markets; the level and volatility of equity prices, commodity prices and interest rates; currency values; the availability and cost of funding; inflation; the stability and solvency of financial institutions and other companies; investor sentiment and confidence in the financial markets; or a combination of the above factors.

Most of the economics with which Greece has strong export links are currently encountering significant economic headwinds, have been and continue to be adversely affected by the COVID-19 pandemic and continue to face high levels of private or public debt and in certain cases high unemployment rates. Increasing downside risks on the back of a weaker external environment may restrict the European economic recovery, which remains greatly dependent on accommodative monetary policy. Moreover, the fallout from the conflict in Ukraine is expected to impact materially the global economic recovery this year, with the greatest impact in

Europe. The increase in oil prices and renewed supply chain disruptions also are likely to further increase inflation.

In financial markets, concerns about, amongst other things, the longer-term economic impact of the COVID-19 pandemic and geopolitical tensions (including the war in Ukraine), which among other impacts have created significant inflationary pressures in the global economy, are expected to continue to affect market sentiment and contribute to volatility, with a corresponding negative impact on the Group's financial condition, results of operations and prospects.

Soundness of other financial institutions.

The Group routinely transacts with counterparties in the financial services industry, including brokers and dealers, commercial banks, investment banks, mutual and hedge funds, and other institutional clients. Such financial counterparties are subject to many of the pressures faced by the Group as described above. Concerns about, or a default by, one financial institution could lead to significant liquidity problems and losses or defaults by other financial institutions.

The exclusion of Russian banks from SWIFT and the sanctions imposed on Russian persons and assets in the US, Europe and Canada are expected to have a material adverse effect not only on Russian borrowers, increasing the risk of defaults, but also the global economy as a whole.

Many of the routine transactions into which the Group enters expose it to significant credit risk in the event of default by one of its significant counterparties. Such default by a significant financial counterparty, or liquidity problems in the financial services industry in general, could have a material adverse effect on the Group's business, financial condition, results of operations, prospects and capital position.

The Bank faces significant competition from Greek and foreign banks and may not be able to preserve its customer base, especially if it fails to complete its digital transformation.

The general scarcity of wholesale funding since the onset of the economic crisis has led to a significant increase in competition for retail deposits in Greece and significant consolidation of the Greek banking system. The Bank also faces competition from foreign banks. The Bank may not be able to continue to compete successfully with domestic and international banks in the future. These competitive pressures on the Group may have an adverse effect on its business, financial condition, results of operations and prospects.

The Group's success depends on its ability to maintain high levels of loyalty among its customer base and to offer a wide range of competitive and high-quality products and services to its customers. In order to pursue these objectives, the Group has adopted a strategy of segmentation of its customer base, aimed at serving the various needs of each segment in the most suitable manner. Moreover, the Group seeks to maintain long-term financial relations with its customers through the sale of anchor products and services, namely mortgage loans, salary accounts, standing transfers, credit cards, saving products and bank assurance products. Nevertheless, high levels of competition in Greece and in other countries where the Group operates, and an increased emphasis on cost reduction, may result in an inability to maintain high loyalty levels of the Group's customer base, provide competitive products and services, or maintain high customer service standards, each of which may adversely affect the Group's business, financial condition, results of operations and prospects.

Additionally, the banking sector as a whole is undergoing a digital and technological transformation, with new entrants in the banking and payment processing sectors who in the future may challenge the competitive position of traditional credit institutions, including the Bank. A failure or delay by the Group to achieve its Updated Strategic Plan with respect to service and operational digitisation may impact its ability to compete with new industry entrants.

Laws regarding the bankruptcy of individuals and regulations governing creditors' rights may limit the Group's ability to receive payments on NPEs, increasing the requirements for provisioning in its financial statements and impacting its results and operations.

Laws regarding the bankruptcy of individuals and other laws and regulations governing creditors' rights generally vary significantly within the countries in which the Group operates. In some countries, including Greece, bankruptcy, insolvency, enforcement and other laws and regulations affecting creditors' rights offer less protection for creditors compared with the bankruptcy regime in the UK or the United States.

In October 2020 a new bankruptcy code was enacted in Greece by virtue of Greek Law 4738/2020, as most recently amended by virtue of Greek Laws 4818/2021, 4820/2021 and 4821/2021 (the "Insolvency Code"). The Insolvency Code introduced a major reform of the Greek bankruptcy and insolvency regime, aimed at facilitating and enhancing resolution of insolvency cases and pre-insolvency debt restructuring. Key changes of the Insolvency Code include the introduction of a new out-of-court workout process, based on the development of an electronic platform and an algorithm determining the viability of the debtor's debts post-restructuring, the introduction of a bankruptcy regime for over-indebted individuals who are not entrepreneurs, a new sale-and-lease-back scheme for primary residence protection, and shorter and automatic debt discharge periods. The new out-of-court workout process and the new bankruptcy proceedings set out in the Insolvency Code entered into force on 1 June 2021 as they required the issuance of 53 pieces of secondary legislation as well as the development of an electronic platform and a special algorithm for debt viability analysis purposes. For those whose business activity exceeds €350,000 and whose turnover exceeds €700,000, the pre-bankruptcy rehabilitation proceedings (in Greek "Eξυγίανση") and second chance process came into effect from 1 March 2021.

If the adverse effects of the COVID-19 pandemic persist or worsen, or the economic environment otherwise deteriorates, including as a result of the adverse economic impact expected from the war in Ukraine, bankruptcies, other insolvency procedures and governmental measures, including payment and enforcement moratoria, could intensify or applicable laws and regulations may be amended to limit the impact of the crisis on corporate and retail debtors. Furthermore, the heavy workload that local courts may face, and the cumbersome and time consuming administrative and other processes and requirements which apply to restructuring, insolvency and enforcement measures, may delay final court judgements on insolvency, rehabilitation and enforcement proceedings. Such changes or an unsuccessful implementation of the new insolvency framework in Greece may have an adverse effect on the Group's business, financial condition, results of operations and prospects. In addition, any potential further measures (including any measures related to efforts to alleviate the effect of the COVID-19 pandemic that may be introduced or reinstated from time to time) that may increase the protection of debtors and/or impede the Group's ability to collect overdue debts or enforce securities in a timely manner (which would lead to an increase in the number of NPEs and/or a reduction in the amount of collections on NPEs compared to the Group's plans), resulting in a corresponding increase in provisions, may have an adverse effect on the Group's business, results of operations, capital position and financial condition. For more information on COVID-19 protective measures that may be reinstated from time to time, see "Regulation and Supervision – Extrajudicial debt settlement mechanisms/Further protective measures related to the COVID-19 pandemic".

Changes in consumer protection laws might limit the fees that the Group may charge in certain banking transactions.

Changes in consumer protection laws in Greece and other jurisdictions where the Group has operations could limit the fees that banks may charge for certain products and services such as mortgages, unsecured loans and credit cards. If introduced, such laws could reduce the Group's net income, though the amount of any such reduction cannot be estimated at this time. Such effects could have a material adverse effect on the Group's business, financial condition, results of operations and prospects.

The planned creation of a deposit guarantee system applicable throughout the EU may result in additional costs to the Group.

The harmonisation of deposit guarantee systems throughout the EU will represent significant changes to the mechanisms of the deposit guarantee systems currently in force in individual countries.

Greece has transposed Directive 94/19/EC of the European Parliament and of the Council of 30 May 1994 on deposit-guarantee schemes by virtue of Greek Law 3746/2009, which established the Hellenic Deposit and Investment Guarantee Fund (the "HDIGF"). Greek Law 3746/2009 was abolished by Greek Law 4370/2016, which transposed Directive 2014/49/EC into Greek law. Three different schemes are run by the HDIGF, each regulated by a different set of legal provisions: the first is the deposit guarantee scheme (the "DGS"), the second is the investment guarantee scheme and the third is the scheme funding resolutions. The DGS is financed both on an *ex ante* and on an *ex post* basis. All credit institutions licensed by the Bank of Greece are obliged, by virtue of article 5 of Greek Law 4370/2016, to participate in the DGS.

The Bank may be required, pursuant to EU law, to make contributions that are higher than those currently required under applicable national law, which may adversely affect the Bank's operating results.

The Group may not be able to treat its deferred tax assets as regulatory capital (to the full extent or partially), which may have an adverse effect on its capital position

The Group currently includes deferred tax assets ("DTAs") calculated in accordance with International Financial Reporting Standards ("IFRS") in calculating its capital and capital adequacy ratios.

Under applicable capital requirements regulations, DTAs recognised pursuant to IFRS, which are based on the assumption of the future profitability of a credit institution and which exceed certain thresholds, must be deducted from the Group's CET1 capital. This deduction is to be implemented gradually until 2024 and had a significant impact on Greek credit institutions, including the Bank, when it was introduced in 2013.

Since then, new Greek legislation has been introduced that permits Greek credit institutions, including the Bank, to deduct the transaction loss from the exchange of Greek government bonds or corporate bonds guaranteed by the Greek state, in application of a participation programme in the redistribution of Greek debt (of par. 2 of article 27 of law 4172/2013) as a priority compared to the transaction loss due to credit risk. The amount of the annual transaction loss from credit risk deduction is limited to the amount of the annual gains determined under tax law, before the deduction of these losses resulting from credit risk and after the deduction of the loss resulting from the PSI bond exchange, see "Regulation and Supervision - PSI Programme". The remaining amount of the annual deduction that has not been offset is carried forward for deduction in subsequent tax years within the twenty-year period, in which the remaining profits will remain after the annual deduction of the transaction losses corresponding to those years. The order of deduction of the transferred amounts is preceded by the older transaction loss balances compared to the newer ones. If at the end of the twenty-year amortisation period there are balances that have not been offset, these are losses subject to the five-year transfer rule. It is noted that the above provision does not affect the rate of the depreciation for regulatory purposes of the DTA, neither retrospectively nor in the future, i.e. the DTA will continue to be depreciated on a straight line basis (one-twentieth per year), for both previous, as well as for future sales of NPLs. This legislation permits Greek credit institutions, including the Bank, to treat such eligible DTAs as not "relying on future profitability" for the purpose of Regulation (EU) No 575/2013 (as amended, the "CRR"). As a result, such DTAs are not deducted from CET1 capital but are rather assigned a risk weight of 100 per cent., thereby improving an institution's capital position, see "Regulation and Supervision - Deferred Tax Assets (DTAs)". As at 31 December 2021, the Group's eligible DTAs were €2.9 billion.

As at 31 December 2021, 62 per cent. of the Group's CET1 capital was comprised of deferred tax credits ("DTCs"). Any adverse change in the regulations governing the use of DTCs as part of the Group's regulatory

capital could also affect the Group's capital base and capital ratios. If any of the above risks materialises, this could have a material adverse effect on the Group's ability to maintain sufficient regulatory capital, which may in turn require the Group to issue additional instruments qualifying as regulatory capital, to liquidate assets, to curtail business or to take any other actions, any of which may have a material adverse effect on the Group's operating results, financial condition and prospects.

The Group could be exposed to future pension and post-employment benefit liabilities.

The personnel of the Group in Greece are insured with funds providing social security (main pension, auxiliary pension, health and welfare). As of 31 December 2021 on a consolidated basis, the Group's employee defined benefit obligations amounted to €29.5 million. These amounts were calculated on the basis of specific economic and demographic assumptions. These include assumptions relating to changes in interest rates, which may not actually occur. Should future events deviate from these assumptions, the Bank's liabilities may significantly increase.

The Bank's liabilities may further increase with respect to employees who have been insured members and were hired prior to 31 December 2004 as, pursuant to the amendments of Greek Law 3455/2006 which transposed Directive 2002/87/EC into Greek law, the social contributions that are paid over the service life of said employees for the supplementary pension are larger compared to the respective contributions which are stipulated by law for other salaried employees.

The passing of Greek Law 4387/2016, as well as several other pension and social insurance reform laws, including Greek Law 4670/2020, introduced radical changes to the structure and mode of operation of the insurance system. These developments, which are targeted at creating a viable and sustainable general pension system and minimising state subsidies through, among other things, the consolidation of pension funds, may alter the liabilities of the banking sector and hence of the Group in respect of contributions to meet actuarial or operational deficits of the pension funds. Moreover, it is impossible to predict potential legal challenges against the consolidations of pension funds, or the outcome of such disputes.

If the Group's reputation is damaged, this would affect its image and customer relations, which could adversely affect business, financial condition, results of operation and prospects.

Reputational risk is inherent to the Group's business activities. Negative public opinion towards the Group or the financial services sector as a whole could result from real or perceived practices in the banking sector, such as money laundering, internal or external fraud, negligence during the provision of financial products or services, or even from the way that the Group conducts, or is perceived to conduct, its business. Although the Group makes all possible efforts to comply with applicable regulatory requirements, negative publicity and negative public opinion could adversely affect the Group's ability to maintain and attract customers, in particular, institutional and retail depositors, which could adversely affect the Group's business, financial condition, results of operations and prospects.

The Greek banking sector is subject to strikes, which may adversely affect the Group's operations.

Most of the Bank's employees belong to a union and the Greek banking industry has been subject to strikes over wage and pension issues. Prolonged strikes could have a material adverse effect on the Bank's operations in the Hellenic Republic, either directly or indirectly – for example, it could have an impact on the willingness or ability of the Greek government to pass the reforms necessary to successfully implement its post-ESM Programme commitments.

The value of certain financial instruments recorded at fair value is determined using financial models incorporating assumptions, judgements and estimates that may change over time or may not be accurate.

In establishing the fair value of certain financial instruments, the Group relies on quoted market prices or, where the market for a financial instrument is not sufficiently active, internal valuation models that utilise observable financial market data. In certain circumstances, the data for individual financial instruments or classes of financial instruments utilised by such valuation models may not be available or may become unavailable due to changes in financial market conditions. In such circumstances, the Group's internal valuation models require the Group to make assumptions, judgements and estimates to establish fair value. These internal valuation models are complex, and the assumptions, judgements and estimates the Group is required to make often relate to matters that are inherently uncertain, such as expected cash flows. Such assumptions, judgements and estimates may need to be updated to reflect changing facts, trends and market conditions. The resulting change in the fair values of the financial instruments could have a material adverse effect on the Group's earnings and financial condition. Also, market volatility and illiquidity make it difficult to value certain of the Group's financial instruments. Valuations in future periods, reflecting prevailing market conditions, may result in changes in the fair values of these instruments, which could have a material adverse effect on the Group's results, financial condition and prospects, particularly if any of the various instruments and strategies that are used to economically hedge exposure to market risk is not effective.

The Group is exposed to risk of fraud and illegal activities of other forms which, if they are not dealt with successfully or in a timely manner, could have negative effects on its business, financial condition, results of operation and prospects.

The Group is subject to rules and regulations related to money laundering and terrorism financing. Compliance with anti-money laundering and anti-terrorist financing rules entails significant cost and effort, especially after the imposition of a new set of sanctions on Russia, Russian individuals and Russian assets in light of the war in Ukraine. Non-compliance with these rules may have serious consequences, including adverse legal and reputational consequences. Although current anti-money laundering and anti-terrorism financing policies and procedures are adequate to ensure compliance with applicable legislation, it cannot be guaranteed that they will comply at all times with all rules applicable to money laundering and terrorism financing as extended to the whole Group and applied to its workers in all circumstances. A possible violation, or even any suspicion of a violation of these rules, may have serious legal and financial consequences, which could have a material and adverse effect on the Group's business, financial condition, results of operations and prospects.

Economic hedging may not prevent losses.

If any of the various instruments and strategies that are used to economically hedge exposure to market risk is not effective, the Group may incur losses. Many of the Group's hedging strategies are based on historical trading patterns and correlations. Unexpected market developments may therefore adversely affect the effectiveness of these hedging strategies.

The Group may have to bear additional costs in regard to staff costs.

Under the measures for the implementation of its strategy, the number of the Group's employees in Greece during 2020 and 2021 was significantly reduced (7,361 employees as of 31 December 2020 and 5,931 employees as of 31 December 2021) as a result of the voluntary separation schemes described below as well as completion of the transfer of the Bank's business of servicing NPEs to Cepal Hellas. In September 2019, the Group announced a voluntary exit scheme with a total cost of €46.9 million for the year ended 31 December 2019 and, in 2021, announced voluntary separation schemes with a total cost of €97.2 million. While the Group is fully compliant with the relevant provisions of applicable legislation, it cannot know whether, nor guarantee that, these measures or any other future action relating to the implementation of any potential further reduction in the number of the Group's employees will not result in legal disputes or disruption to its business activities. Such initiatives on a large scale may lead to additional restructuring expenditure in terms of staff costs.

The Group's systems and networks have been, and will continue to be, vulnerable to an increasing risk of continually evolving cyber security risks or other technological risks which could result in the disclosure of confidential client or customer information, damage to the Group's reputation, additional costs to the Group, regulatory penalties and financial losses.

A significant portion of the Group's operations relies heavily on the secure processing, storage and transmission of confidential and other information as well as the monitoring of a large number of complex transactions on a constant basis. The Group stores an extensive amount of personal and client-specific information for its retail, corporate and governmental customers and clients and must accurately record and reflect their extensive account transactions. The proper functioning of the Group's payment systems, financial and sanctions controls, risk management, credit analysis and reporting, accounting, customer service and other information technology systems, as well as the communication networks between its branches and main data processing centres, is critical to the Group's operations. These activities have been, and will continue to be, subject to an increasing risk of cyber-attacks, the nature of which is also continually evolving. The Group's computer systems, software and networks have been and will continue to be threatened by unauthorised access, loss or destruction of data (including confidential client information), account takeovers, unavailability of service, computer viruses or other malicious code, cyber-attacks and other events. These threats may derive from human error, fraud or malice on the part of employees or third parties, or may result from accidental technological failure. If one or more of these events occurs, it could result in the disclosure of confidential client information, damage to the Group's reputation with its clients and the market, additional costs to the Group (such as repairing systems or adding new personnel or protection technologies), regulatory penalties and financial losses to both the Group and its clients. Such events could also cause interruptions or malfunctions in the operations of the Group (such as the lack of availability of the Group's online banking systems), as well as the operations of its clients, customers or other third parties. Given the volume of transactions at the Group, certain errors or actions may be repeated or compounded before they are discovered and rectified, which would further increase these costs and consequences.

In addition, third parties with which the Group does business may also be sources of cyber security risks or other technological risks. The Group outsources a limited number of supporting functions, such as printing of customer credit card statements and processing of cards, which results in the storage and processing of customer information externally. Although the Group adopts a range of actions to eliminate the exposure resulting from outsourcing, such as not allowing third-party access to the production systems and operating a highly controlled IT environment with a multi-layered defence-in-depth approach, unauthorised access, loss or destruction of data or other cyber incidents could occur, resulting in similar costs and consequences to the Group as those discussed above. While the Group maintains insurance coverage that may, subject to policy terms and conditions, cover certain aspects of cyber security risks such as fraud and financial crime, such insurance coverage may be insufficient to cover all losses.

Enforcement of the EU General Data Protection Regulation may affect the Group's business.

Regulation (EU) No. 2016/679 of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data (also known as the EU General Data Protection Regulation or the "GDPR") represents a new legal framework for data protection in the EU. It has applied directly in all EU Member States since 25 May 2018. Although a number of basic principles under the previous Greek data privacy legal framework remain the same under the GDPR, the GDPR also introduces new obligations on data controllers and enhanced rights for data subjects.

The GDPR applies to the processing of personal data in the context of the activities of an establishment of a controller or a processor in the EU, regardless of whether the processing takes place in the EU or not, and also extends to the processing of personal data of data subjects who are in the EU by a controller or processor not established in the EU, where the processing activities are related to the offering of goods or services to such data subjects in the EU. Regulators have the power to impose administrative fines and penalties for a breach of

obligations under the GDPR, including fines for serious breaches of up to 4 per cent. of the relevant company's total worldwide annual turnover in the preceding financial year or €20 million (whichever is higher) and fines of up to 2 per cent. of the relevant company's total worldwide annual turnover in the preceding financial year or €10 million (whichever is higher) for other specified infringements. The GDPR identifies a list of points to consider when imposing fines (including the nature, gravity and duration of the infringement).

Additionally, on 29 August 2019, Greek Law 4624/2019 was enacted into Greek law, which, in conjunction with Greek Law 2472/1997 (some articles of which remain in force), *inter alia*, implements the GDPR and, together with Greek Law 3471/2006 and other relevant regulations, legislation and guidelines, provides for protections relating to the processing of personal data. The Hellenic Data Protection Authority is the competent authority which supervises the application of the GDPR, national data protection laws, as well as other regulations, legislation and guidelines with respect to the protection of personal data.

The Group, due to the nature of its activities, processes various types of personal information. Non-compliance with any applicable regulations or legislation could entail very substantial regulatory sanctions and civil claims.

# Risks relating to funding

The Group has limited sources of liquidity, which are not guaranteed and the cost of which may increase materially.

The recent economic recession in Greece has adversely affected the Group's credit risk profile, which has, from time to time, restricted the Group from obtaining funding in the capital markets, and increased the cost of such funding and the need for additional collateral requirements in repurchase contracts and other secured funding arrangements, including those with the Eurosystem. Although access to capital markets has gradually been reinstated over the last few years, concerns relating to the ongoing impact of current economic conditions (especially in the post-COVID-19 era), Russia's invasion of Ukraine and potential delays in the completion by the Hellenic Republic of key structural reforms (as part of its post-ESM Programme commitments) may restrict the Bank's ability to obtain funding in the capital markets in the medium term.

The Bank's principal sources of liquidity are (i) its deposit base, (ii) Eurosystem funding via the Targeted Longer-term Refinancing Operations ("TLTROs") with the ECB and (iii) repurchase securities agreements ("repos") with major foreign financial institutions. ECB funding and repos with financial institutions are collateralised by high quality liquid assets, such as European Financial Stability Fund ("EFSF") bonds, EU sovereign bonds, Greek government bonds and Treasury Bills, as well as by other assets, such as highly rated corporate loans, covered bonds and asset backed securities issued by the Bank. As of 24 June 2020, the Bank had fully repaid the ECB its TLTRO II participation (€3.1 billion) and participated in the TLTRO III operation (€11.9 billion). As of 31 December 2021, the Bank's total Eurosystem funding was €13 billion. Any change in the terms of TLTRO III could affect the Bank's liquidity position and costs. Although the Bank's liquidity position has improved, with no dependence on emergency liquidity assistance ("ELA") since February 2019, there can be no assurance that the Bank's funding needs will continue to be met by, or that it will continue to have access to, Eurosystem funding in the future.

In addition, deposit outflows could have a material adverse impact on the Bank's deposit base and on the amount of the Bank's ECB and ELA eligible collateral, which could have a material adverse impact on the Group's liquidity and the Group's access to Eurosystem funding in the future, which may in turn threaten the Bank's ability to continue as a going concern.

Furthermore, the liquidity that the Bank is able to access from the ECB or ELA may be adversely affected by changes in ECB and Bank of Greece rules relating to collateral. If the ECB or the Bank of Greece were to revise their respective collateral standards, remove asset classes from being accepted, or increase the rating requirements for collateral securities such that certain instruments were no longer eligible to serve as collateral

with the ECB or the Bank of Greece, or the credit rating of the Hellenic Republic is downgraded, the Bank's access to these facilities could be diminished and the cost of obtaining such funds could increase.

An accelerated outflow of funds from customer deposits could cause an increase in the Bank's costs of funding and have a material adverse effect on the Group's and the Bank's business, financial condition, results of operations and prospects.

Historically, one of the Bank's principal sources of funds has been customer deposits. If depositors withdraw their funds at a rate faster than the rate at which borrowers repay their loans, or if the Bank is unable to obtain the necessary liquidity by other means, it would be unable to maintain its current levels of funding without incurring significantly higher funding costs, having to liquidate certain assets or increasing its Eurosystem borrowings.

The on-going availability of customer deposits to fund the Bank's loan portfolio is subject to potential changes in certain factors outside the Bank's control, such as depositors' concerns relating to the economy in general, the financial services industry or the Bank specifically, an increasing tax burden thus leading depositors to use their funds (and subsequently decrease their deposits), increased competition by Greek and foreign banks through internet deposit products, perceived risks relating to bail-in measures and the availability and extent of deposit guarantees. Any of these factors individually or in combination could lead to a sustained reduction in the Bank's ability to access customer deposit funding on appropriate terms in the future, which would impact the Bank's ability to fund its operations and meet its minimum liquidity requirements and have an adverse effect on the Bank's business, financial condition, results of operations and prospects.

# Risks relating to regulation

The Group is subject to extensive and complex regulation, which is the subject of ongoing change and reform in each jurisdiction in which it operates, imposing a significant compliance burden on the Group and increasing the risk of non-compliance.

The Group is subject to financial services laws, regulations, administrative actions and policies in each jurisdiction in which it operates. All of these regulatory requirements are subject to change, particularly in the current market environment, where there have been unprecedented levels of government intervention and changes to the regulations governing financial institutions. In response to the global financial crisis, national governments as well as supranational groups, such as the EU, have been considering and implementing significant changes to current bank regulatory frameworks, including those pertaining to capital adequacy, liquidity and the scope of banks' operations. For example, significant amendments to Regulation (EU) No 575/2013, Directive 2014/59/EU and Regulation (EU) No 806/2014 were published in the Official Journal of the EU in June 2019. The amendments to Regulation (EU) No 575/2013 introduced by virtue of Regulation (EU) 2019/876 have been directly applicable since 28 June 2021, subject to certain exceptions, with further amendments introduced by Regulation (EU) 2020/873 and 2021/558 to mitigate the economic effects of the COVID-19 pandemic. Moreover, Directives (EU) 2019/878 and 2019/2034, which amend Directive 2013/36/EU, was transposed into Greek law by virtue of Greek Laws 4799/2021 and 4920/2022 respectively.

Compliance with new requirements may also restrict certain types of transactions, affect the Group's strategy and limit or adversely affect the way in which the Group prices its products, any of which could have a material adverse effect on the Group's business, financial condition, results of operations and prospects.

As regulation becomes increasingly complex, the risk of non-compliance with applicable regulation increases. Actual or perceived non-compliance with applicable regulation could result in litigation or regulatory investigation, either of which could result in sanctions, monetary or otherwise. Any such sanctions could have a material adverse effect on the Group's business, financial condition, results of operations and prospects.

Moreover, any determination (by a regulator or otherwise) that the Group has not complied with applicable regulation may have an adverse effect on the Group's reputation.

The Group and the Bank are required to maintain minimum capital ratios, and changes in regulation may result in uncertainty about their ability to achieve and maintain required capital levels and liquidity.

The Group and the Bank are required by their regulators to maintain minimum capital ratios – see "*Regulation and Supervision – Capital Adequacy Framework*". These required levels may increase in the future, for example pursuant to the supervisory review and evaluation process ("SREP") as applied to the Bank. In addition, the manner in which the requirements are applied may adversely affect the Group and/or the Bank's capital ratios.

The Bank, its regulated subsidiaries and its branches are subject to the risk of having insufficient capital resources or a lack of liquidity to meet the minimum regulatory capital and/or liquidity requirements set by their regulators. In addition, those minimum regulatory capital requirements are likely to increase in the future and the methods of calculating capital resources may change, including in ways that result in the Bank or the Group's capital ratios being worse than under the existing methodology for calculating them. The SSM could introduce risk-weighted asset ("RWA") floors (as it has done in other jurisdictions), and further harmonisation of booking of RWAs could increase the risk weighting of exposures. In addition, proposals have been discussed that would cap the amount of sovereign bonds banks could hold, or assign risk weights to sovereign bond holdings, which could require banks to raise additional capital.

For example, under the HAPS, introduced by virtue of Law 4649/2019, and HAPS 2, the Greek government grants its irrevocable and unconditional guarantee in favour of the senior notes issued in the context of securitisation structures and submitted in the scope of HAPS. The prudential regulator has communicated that such senior notes with the benefit of the Greek State guarantee will receive a 0 per cent. risk weighting. The Bank has retained the whole of the senior notes issued under Project Galaxy for the securitisation of NPEs, which has been submitted under the HAPS and has received the State irrevocable and unconditional guarantee and under Project Cosmos, for which a binding agreement was signed on 22 October 2021 with an application submitted under the HAPS scheme extension. Nevertheless, there can be no assurance that such regulatory treatment will be retained in the future or that a higher risk weighting, in the light of any adverse developments causing underperformance of the securitisation structures, will not be introduced.

Likewise, the Group is obliged under applicable regulations to retain a certain liquidity coverage ratio – see "Regulation and Supervision – Capital Adequacy Framework – Liquidity Requirements". Such liquidity requirements may come under increased scrutiny and may place additional stress on the Group's liquidity demands in the jurisdictions in which it operates. Compliance with new requirements may increase the Group's regulatory capital and liquidity requirements and costs, disclosure requirements, restrict certain types of transactions, affect its strategy and limit or require the modification of rates or fees that are charged on certain loan and other products, any of which could lower the return on the Group's investments, assets and equity. Any of these factors may result in the need for additional capital for the Group. If the Group is not able to meet its capital requirements by raising funds from the capital markets, it may need to seek additional funding by means of state aid and/or from the applicable resolution authority, thereby increasing the likelihood that shareholders will be subject to limitations on their rights and/or incur significant losses in their investments, inter alia, by operation of the applicable provisions of the BRRD Law (as defined below) and the HFSF Law. Similarly, holders of the Notes ("Noteholders" or "holders") may be subjected to resolution measures by the competent authority by operation of the BRRD Law – see further "Regulation and Supervision – Recovery and resolution of credit institutions/The HFSF".

Negative results in the Group's stress testing may have an adverse effect on the Group's funding cost or the public's confidence in the Group and, consequently, may adversely affect its business, financial condition, results of operations and prospects.

The EBA conducts stress tests in order to evaluate the capital base of EU banks and identify potential capital shortfalls. Stress tests analysing the European banking sector have been, and the Bank anticipates that they will continue to be, published by national and supranational regulatory authorities. For example, on 30 July 2020 the Board of Supervisors of the EBA agreed on the tentative timeline and sample for the 2021 EU-wide stress test. The exercise launched on 29 January 2021 and its results were announced on 30 July 2021. As per such results, Alpha Holdings successfully concluded the 2021 EU-wide stress test. In particular, the starting point of the exercise was 31 December 2020, when the Bank had a CET1 transitional ratio of 17.1 per cent., a CET1 fully loaded ratio of 14.6 per cent. as well as a leverage ratio (transitional) of 12.5 per cent. and a leverage ratio (fully loaded) of 10.7 per cent.

- Under the baseline scenario, the capital generation for the 3-year period was 2.8 per cent. absorbing 2.4 per cent. IFRS 9 phase-in, resulting in a 2023 CET1 transitional ratio of 17.4 per cent. The 2023 CET1 fully loaded ratio reached 17.3 per cent. while the 2023 leverage ratio (fully loaded) came to 13.0 per cent.
- Under the adverse scenario, the 2023 CET1 transitional ratio stood at 8.4 per cent., largely driven by the negative impact of credit risk. The 2023 CET1 fully loaded ratio came to 8.3 per cent., while the 2023 leverage ratio (fully loaded) resulted in 6.1 per cent.

On 8 December 2021, the Board of Supervisors of the EBA decided to carry out the next EU-wide stress test in 2023.

Asset quality reviews and stress testing exercises in countries where the Group operates may result in additional capital requirements. In addition, a loss of confidence in the banking sector following the announcement of any stress tests that take place from time to time regarding the Group or the Greek banking system as conducted in accordance with the legislative framework in force, or a market perception that any such stress tests are not rigorous enough, could also have a negative effect on the Group's cost of funding and may thus have a material adverse effect on its results of operations and financial condition.

The Bank Recovery and Resolution Directive may have a material adverse effect on the Group's and the Bank's business, financial condition, results of operations and prospects.

Directive 2014/59/EU, as amended by Directive (EU) 2019/879, Directive (EU) 2019/2034 and Directive (EU) 2019/2162 and as may be further amended from time to time (the "BRRD"), sets out rules designed to harmonise and improve the tools for dealing with bank crises across the EU to ensure that shareholders, creditors and unsecured depositors mandatorily participate in the recapitalisation and/or the liquidation of troubled banks. The BRRD has been implemented in Greece by virtue of Greek Law 4335/2015, as amended by Greek Law 4799/2021 and most recently amended by Greek Law 4920/2022 and as amended from time to time (the "BRRD Law") and in the other EU countries in which the Group has banking operations.

Where a financial holding company (such as Alpha Holdings) and/or a credit institution (such as the Bank) is determined to be failing or likely to fail (as contemplated by the BRRD) and there is no reasonable prospect that any alternative solution would prevent such failure, various resolution actions are available to the relevant regulator under the BRRD comprising the asset separation tool, the bridge institution tool, the sale of business tool and the bail-in tool. These resolution actions are described under "Regulation and Supervision – Recovery and resolution of credit institutions – Resolution tools". The BRRD separately contemplates that certain capital instruments (including Tier 2 Notes) and eligible liabilities may be subject to non-viability loss absorption in addition to the application of the general bail-in tool. At the point of non-viability of the Bank or the Group, the SRB, in co-operation with the competent resolution authority, may write down such capital instruments and eligible liabilities and/or convert them into shares. The "no creditor worse off" principle (as set out in Article 34(1)(g) of the BRRD) does not apply to non-viability loss absorption pursuant to Article 59 of the BRRD.

Should Alpha Holdings and/or the Bank be determined to be failing or likely to fail (as contemplated by the BRRD), the application of any of the powers and tools under the banking recovery and resolution regulations applicable to it (including the BRRD) could result in the removal of its Board of Directors and management team and could adversely affect the Group's business, financial condition, results of operations and prospects. This could also result in Notes being written down, converted to equity or cancelled by the competent resolution authority, which could lead to a partial or total loss of investment by the Noteholders regardless of whether or not the financial position of Alpha Holdings and/or the Bank is restored. The resolution authorities may also decide to reduce the nominal interest rate of any Notes.

The BRRD prescribes minimum requirements for own funds and eligible liabilities in the EU legislation ("MREL"). The MREL framework provides that there should be sufficient loss-absorbing and recapitalisation capacity available in resolution of any credit institution to implement an orderly resolution that minimises any impact on financial stability, ensures the continuity of critical functions, and avoids exposing taxpayers (public funds) to loss. The Single Resolution Board ("SRB") has been authorised to calculate and determine the level of MREL for each EU systemic credit institution (including the Bank). Accordingly, the binding MREL level will apply to the Bank and not to the consolidated Group.

On 15 April 2021, the Bank received a communication from the SRB regarding its binding MREL. The requirements are based on the Bank Recovery and Resolution Directive, i.e. Directive (EU) 2019/879 ("BRRD II"), which was transposed under Greek Law 4799/2021 on 18 May 2021.

The SRB decision is based on a single point of entry resolution strategy through the Bank. Alpha Holdings will be the sole issuer of external capital instruments (such as Tier 2 Notes) and has already issued Tier 2 capital instruments. The Bank will be the Group's sole issuer of external MREL debt and funding instruments (such as Senior Non-Preferred Notes and Senior Preferred Notes) and issued €500,000,000 Fixed Rate Reset Senior Preferred Notes due 2028 on 23 September 2021 and €400,000,000 Fixed Rate Reset Senior Preferred Notes due 2024 on 10 December 2021. Although, under the terms of the Programme, Alpha Holdings has the ability to issue Senior Non-Preferred Notes and Senior Preferred Notes and Alpha Bank has the ability to issue Tier 2 Notes, this does not, as of the date of this Offering Circular, reflect any change (prospective or otherwise) to the expected issuance plans detailed above, although no assurance can be given that these plans will not be revised in the future.

According to the SRB decision, the Bank needs to meet, from 1 January 2026 on a consolidated basis, the following MREL requirements, namely 22.76 per cent. of Total Risk Exposure Amount ("TREA") and 5.91 per cent. of Leverage Exposure ("LRE"). The communication also sets out the interim MREL requirements that must be met from 1 January 2022, namely 14.02 per cent. of TREA and 5.91 per cent. of LRE. The interim MREL requirements were successfully met by the Bank.

The MREL ratio expressed as a percentage of TREA does not include the combined buffer requirement, currently at 3.25 per cent. In line with the regulatory classification of the Bank and the 'no creditor worse off' assessment, no subordination requirement has been set for the Bank.

If market conditions are limited, this could adversely affect the Bank's ability to comply with the SRB's requirements or could result in the Bank issuing MREL at very high costs, which could adversely affect the Group's business, financial condition, results of operations and prospects.

If the Group fails to meet its combined buffer requirement (which will also be considered in conjunction with its MREL resources), resolution authorities have the power to prohibit certain distributions under the BRRD Law.

The SRB's resolution powers (as the competent resolution authority under the BRRD) may also affect the confidence of the Bank's depositors and so may have a significant impact on the Group's results of operations,

business, assets, cash flows and financial condition, as well as on the Group's funding activities and the products and services it offers.

# Risks relating to credit and other financial risks

Wholesale borrowing costs and access to liquidity and capital may be negatively affected by any future downgrades of the Hellenic Republic's credit rating.

The capacity of the Hellenic Republic to maintain its credit ratings is an important element of its economic and financial recovery, and financial conditions in the private sector will, to a significant extent, depend on such credit ratings. However, there is still considerable uncertainty surrounding the prospective pace of improvement in Greece's sovereign rating.

Downgrades of the Hellenic Republic's rating could occur, for example, as a result of the deterioration of the country's public finances due to COVID-19, or in the event of uncertainty regarding the country's commitment or ability to complete all fiscal reforms or meet other related obligations within the expected timeframe, or as a result of macroeconomic impact caused by the conflict in Ukraine. Should any downgrades occur or rating outlooks turn negative, the financing costs of the Hellenic Republic would increase and its access to capital markets could be disrupted, with negative effects on the cost of capital for Greek banks (including the Bank) and the Group's business, financial condition and results of operations. Downgrades of the Hellenic Republic's credit rating could also result in a corresponding downgrade in the Bank's credit rating and, as a result, increase wholesale borrowing costs and the Group's access to liquidity, which could adversely affect the Group's business and results of operations.

# Risks relating to operations outside the Hellenic Republic

The Group conducts international activities outside of Greece.

In addition to its operations in the Hellenic Republic, the Group has operations in Cyprus, Romania, the UK and Luxembourg. The Group's operations in Cyprus and Romania are the Group's largest and most significant operations outside of the Hellenic Republic, accounting for 2.3 per cent. and 7 per cent., respectively, of the Group's total gross loans as of 31 December 2021. As of 31 December 2021, loans and advances to customers before allowance for impairment losses relating to the Group's international operations in South Eastern Europe (Cyprus and Romania) amounted to €3.6 billion and due to customers amounted to €4.9 billion. The Group's South Eastern Europe operations are exposed to the risk of adverse political, geopolitical, governmental or economic developments, as well as to changes in the regulatory and legal framework in the countries in which it operates. The war in Ukraine may adversely affect South Eastern European countries and especially the Cypriot economy which is more dependent on Russian economic activity.

The majority of the Group's South Eastern Europe operations are in economies in which the Group faces particular operational risks and unpredictability including, amongst other things, deficit and inflation increases and unexpected new legislation. Such factors could have a material adverse effect on the Group's business, results of operations and financial condition.

The Group's South Eastern Europe operations also expose the Group to foreign currency risk. A decline in the value of the currencies in which the Group's South Eastern Europe subsidiaries receive their income or value their assets relative to the value of the euro may have an adverse effect on the results of operations and financial condition. In addition, the economic crisis in Greece may materially adversely affect the Group's South Eastern Europe operations and increase depositors' concerns in these countries, which may, in turn, affect their willingness to continue to do business with the Bank's international subsidiaries.

The Group has announced its intention to divest its operations in the UK (Project Crown), and Albania (Project Riviera). On 6 December 2021, the Group announced that Alpha International Holdings Single Member S.A., a

fully owned subsidiary of Alpha Holdings, had entered into a binding agreement with OTP Bank Plc in relation to the acquisition by OTP Bank Plc of Alpha Bank Albania SHA with consideration for the transaction agreed at €55 million (the **Alpha Bank Albania Sale**). Completion of the Alpha Bank Albania Sale is expected to take place within 2022, subject to the satisfaction of certain conditions precedent (including obtaining regulatory approvals under applicable law). There can be no assurance that any transactions relating to Project Crown or Project Riviera (including the Alpha Bank Albania Sale) will be completed as per the Group's targets or at all. Even if such transactions are consummated, there is no assurance that the Group will be able to successfully realise the expected business development or the anticipated benefits.

#### RISKS RELATING TO THE NOTES

# General risks relating to a particular issue of Notes

The Notes may be subjected in the future to the bail-in resolution tool by the competent resolution authority and to the mandatory burden sharing measures for the provision of precautionary capital support, which may result in their write-down in full

The transposition of the BRRD into Greek law by virtue of the BRRD Law granted increased powers to the competent resolution authority, which for both Alpha Holdings (as the parent company of a Greek systemic bank) and Alpha Bank (as a Greek systemic bank) is the Board of the SRM, for the imposition of resolution measures to failing entities, as further described in "Regulation and Supervision – Recovery and resolution of credit institutions".

These measures include the bail-in tool, through which an entity subjected to resolution may be recapitalised either by way of the permanent write-down or the conversion into common shares of some or all of its liabilities (including Notes issued under the Programme). Any such shares issued upon any such conversion into equity may also be subject to future cancellation, transfer or dilution. The bail-in tool may be imposed either as a sole resolution measure or in combination with any of the other resolution tools that may be used by the resolution authority.

The Notes may, in the future, be subject to the exercise of the resolution measures. Exercise of such measures could involve, *inter alia*: transferring the Notes to another entity notwithstanding any restrictions on transfer; delisting the Notes; amending or altering the maturity of the Notes; amending or altering the date on which interest becomes payable under the Notes, including by suspending payments for a temporary period; and rendering unenforceable any right to terminate or accelerate the Notes that would be triggered by exercise of the resolution measures. In a worst case scenario, the value of the Notes may be written down to zero.

Moreover, the conditions for the HFSF granting precautionary recapitalisation support include, to the extent applicable and among others, the imposition, by virtue of a Cabinet Act, pursuant to article 6a of Greek Law 3864/2010, as amended and in force, of mandatory burden sharing measures on the holders of capital instruments and other liabilities of the entity receiving such support ("Mandatory Burden Sharing Measures"). The Mandatory Burden Sharing Measures include the absorption of losses by existing subordinated creditors (which, following the issue of any Tier 2 Notes, include the relevant Noteholders) by writing down the nominal value of their claims. Such write-down is implemented by way of a resolution of the competent corporate body of the entity such that its equity position becomes zero. Although the prevailing view is that Senior Preferred Notes and Senior Non-Preferred Notes are not currently subject to the above provisions of article 6a of Greek Law 3864/2010, as amended and in force, there is no guarantee that such exemption will continue to be applicable in the future nor that a different view may not be adopted by the Cabinet in case of application of the Mandatory Burden Sharing Measures.

The circumstances in which the competent resolution authority may exercise the bail-in tool or other resolution tools are uncertain and such uncertainty may have an impact on the value of the Notes

The conditions in which Alpha Holdings or Alpha Bank may be subject to resolution and the application of the relevant powers of the competent resolution authority are set out in the BRRD and the BRRD Law. Such conditions include the determination by the resolution authority that: (a) the entity is failing or is likely to fail; (b) no reasonable prospect exists that any alternative private sector measures or supervisory action (including early intervention measures or the write-down or conversion of relevant capital instruments and eligible liabilities) would prevent the failure within a reasonable timeframe; and (c) a resolution action is necessary in the public interest, whilst the resolution objectives would not be met to the same extent by the special liquidation of the entity in the sense of article 145 of Greek Law 4261/2014, in conjunction with article 153 of Greek Law 4261/2014, to the extent applicable (the "Greek Special Liquidation Rules"). Such conditions, however, are not further specified in the applicable law and very limited precedent as to their application exists so their satisfaction is left to the determination and discretion of the competent resolution authority on the basis of general concepts such as public interest. Such uncertainty may impact on the market perception as to whether an entity meets or does not meet such conditions and as such whether it may be subjected to resolution tools. This may have a material adverse impact on the present value of the Notes and other listed securities of the Issuers.

In addition, if any bail-in action is taken, interested parties, such as creditors or shareholders, may raise legal challenges. The taking of any action under the BRRD Law in relation to the relevant Issuer, or the suggestion of the exercise of any action, could materially adversely affect the rights of Noteholders, the price or value of their investment in the Notes and/or the ability of the relevant Issuer to satisfy its obligations under any Notes. If any litigation arises or is threatened in relation to bail-in actions this may negatively affect liquidity and increase the price volatility of the Issuers' securities (including Notes issued under the Programme).

The Notes may be subject to loss absorption on any application of the general bail-in tool or at the point of non-viability of the relevant Issuer

The BRRD contemplates that Tier 2 Notes may be subject to non-viability loss absorption in addition to the application of the general bail-in tool. Certain amendments to the BRRD, as implemented in the Hellenic Republic by virtue of Greek Law 4583/2018, extend non-viability loss absorption to Senior Preferred Notes and Senior Non-Preferred Notes. At the point of non-viability, the SRB in co-operation with the competent resolution authority may write down capital instruments and eligible liabilities (including Notes issued under the Programme) and/or convert them into shares. See also "The Bank Recovery and Resolution Directive may have a material adverse effect on the Group's and the Bank's business, financial condition, results of operations and prospects" and "Regulation and Supervision – Recovery and resolution of credit institutions".

The Notes provide for limited events of default. Noteholders may not be able to exercise their rights on an event of default in the event of the adoption of any early intervention or resolution measure under the BRRD (or any relevant measure implementing the same)

Noteholders have no ability to accelerate the maturity of their Notes except in the case that an order is made or an effective resolution is passed for the Winding-Up of the relevant Issuer, as provided in the Conditions. In the event that any payment on the Notes is not made when due, each Noteholder will have a right to institute proceedings for the Winding-Up of the relevant Issuer and to claim for amounts then due and payable on their Notes, as provided for in the Conditions.

In addition, as mentioned in "The Notes may be subjected in the future to the bail-in resolution tool by the competent resolution authority and to the mandatory burden sharing measures for the provision of precautionary capital support, which may result in their write-down in full", the relevant Issuer may be subject to a procedure of early intervention or resolution pursuant to the BRRD as implemented through Greek Law

4335/2015, as amended and currently in force. The adoption of any early intervention or resolution procedure shall not itself constitute an event of default or entitle any counterparty of the relevant Issuer to exercise any rights it may otherwise have in respect thereof.

Moreover, any enforcement by a Noteholder of its rights under the Notes upon the occurrence of an event of default following the adoption of any early intervention or any resolution procedure will be subject to the relevant provisions of the BRRD, the Greek banking law 4261/2014, as in force, or Greek Law 4335/2015 in relation to the exercise of the relevant measures and powers pursuant to such procedure, including the resolution tools and powers referred to therein. Any claims on the occurrence of an event of default will consequently be limited by the application of any measures pursuant to the provisions of the BRRD, the Greek banking law 4261/2014, as in force, or Greek Law 4335/2015. There can be no assurance that the taking of any such action would not adversely affect the rights of Noteholders, the price or value of their investment in the Notes and/or the ability of the relevant Issuer to satisfy its obligations under the Notes and the enforcement by a Noteholder of any rights it may otherwise have on the occurrence of any event of default may be limited in these circumstances.

### Risks relating to the structure of a particular issue of Notes

A range of Notes may be issued under the Programme. A number of these Notes may have features which contain particular risks for potential investors. Each of the risks highlighted below could adversely affect the trading price of any Notes or the rights of investors under any Notes and, as a result, investors could lose some or all of their investment. Set out below is a description of the most common such features:

An investor in Tier 2 Notes assumes an enhanced risk of loss in the event of the relevant Issuer's Winding-Up or the failure of the relevant Issuer to satisfy the solvency condition set out in Condition 2(c)

In the event of the Winding-Up of the relevant Issuer, the relevant Issuer will be required to pay Senior Creditors in full before it can make any payments on the relevant Tier 2 Notes. If this occurs, the relevant Issuer may not have enough assets remaining after these payments to pay amounts due under the relevant Tier 2 Notes.

In addition, in the event of the Winding-Up of the relevant Issuer, the relevant Issuer's obligations to make payments of principal and interest in respect of Tier 2 Notes will be conditional upon the relevant Issuer being solvent at the time of making such payments. Principal or interest will not be payable in respect of Tier 2 Notes in such Winding-Up except to the extent that, at the time of making such payments, the relevant Issuer could make such payment and still be solvent immediately thereafter. For this purpose, the relevant Issuer shall be considered to be solvent if it can pay principal and interest in respect of the Tier 2 Notes and still be able to pay its outstanding debts to Senior Creditors, which are due and payable.

In the event that the relevant Issuer is not solvent (as described above), holders of Tier 2 Notes may not be paid some or all of the principal or interest that would otherwise be due. In the case of the Winding-Up of the relevant Issuer, the holders will only be paid by the relevant Issuer after all Senior Creditors have been paid in full and the holders irrevocably waive their right to be treated equally with all other unsecured, unsubordinated creditors of the relevant Issuer in such circumstances. Any actual or perceived risk that the relevant Issuer is not solvent (as described above) may affect the market value or liquidity of the Tier 2 Notes.

There is no restriction on the amount of securities or other liabilities that the relevant Issuer may issue, incur or guarantee and which rank senior to, or *pari passu* with, the Tier 2 Notes. The issue or guaranteeing of any such securities or the incurrence of any such other liabilities may reduce the amount (if any) recoverable by holders of Tier 2 Notes during a Winding-Up of the relevant Issuer and may limit the relevant Issuer's ability to meet its obligations under the Tier 2 Notes.

Although Tier 2 Notes may pay a higher rate of interest than comparable Notes which are not subordinated, there is a significant risk that an investor in Tier 2 Notes will lose all or some of their investment in the event that the relevant Issuer becomes insolvent. Furthermore, pursuant to Greek Law 3864/2010, as amended and in force, in certain circumstances where a credit institution has been unable to cover a capital shortfall through voluntary measures, the relevant Issuer's liability in respect of Tier 2 Notes may mandatorily be converted into ordinary shares or may be written down and cancelled in part or in full.

The relevant Issuer's obligations under Senior Non-Preferred Notes rank junior to the present and future obligations of the relevant Issuer in respect of Senior Preferred Notes and other Higher Ranking Creditors

As described under Condition 2(b), the payment obligations of the relevant Issuer in respect of Senior Non-Preferred Notes issued by it will be unsubordinated. However, as provided under Condition 2(b)(ii), the rights of the holders of any Senior Non-Preferred Notes will rank junior to present and future obligations of the relevant Issuer in respect of Senior Preferred Notes and other Higher Ranking Creditors.

Although Senior Non-Preferred Notes may pay a higher rate of interest than comparable Notes which benefit from a higher or a preferential ranking, there is a real (and more probable) risk that an investor in Senior Non-Preferred Notes will lose all or some of their investment should the relevant Issuer become insolvent.

Alpha Bank's obligations under Notes issued by it rank junior to creditors having Senior Ranking Claims in the case of Winding-Up of Alpha Bank

Certain obligations of Greek credit institutions (including Alpha Bank), such as obligations vis-à-vis the Greek state, obligations of eligible deposits (within the meaning of Greek Law 4370/2016) exceeding the protection amount of the deposit guarantee scheme, etc. enjoy a higher ranking in the case of a Winding-Up of Alpha Bank ("Senior Ranking Claims"). The claims of Noteholders against Alpha Bank will rank junior to Senior Ranking Claims in the case of a Winding-Up of Alpha Bank. Thus, if Senior Ranking Claims exist against Alpha Bank, there is a risk that an investor in the relevant Notes will lose all or some of its investment should Alpha Bank become subject to Winding-Up.

The Notes may be redeemed prior to maturity

The Notes may be redeemed, as set out in the Conditions, at the option of the relevant Issuer in certain circumstances including:

- the occurrence of one or more of the tax events described in Condition 4(b);
- (in the case of Tier 2 Notes only) if applicable, upon the occurrence of a Capital Disqualification Event as described in Condition 4(c);
- if applicable, upon the occurrence of an MREL Disqualification Event as described in Condition 4(d), which shall apply if all or part of the aggregate outstanding principal amount of the Notes ceases to be included fully or partially in the MREL-Eligible Liabilities or neither the relevant Issuer nor the Group (as defined in the Conditions) is required to maintain any MREL-Eligible Liabilities pursuant to the MREL Requirements;
- if applicable, on an Optional Redemption Date as described in Condition 4(e); or
- if Clean-up Call Option is applicable, the Clean-up Call Minimum Percentage (or more) of the principal amount outstanding of a Series of Notes having been redeemed or purchased and subsequently cancelled pursuant to Condition 4(g).

An optional redemption feature is likely to limit the market value of the Notes. During any period when the relevant Issuer may elect to redeem the Notes, or during any period when it is perceived that the relevant Issuer may elect to redeem the Notes, the market value of those Notes generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period.

In respect of Notes which are conventional debt securities, the relevant Issuer may redeem such Notes when its cost of borrowing is lower than the interest rate on the Notes. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

Early redemption or purchase or substitution or variation or modification of the Notes may be restricted

Any early redemption or purchase or substitution or variation or modification of the Notes is subject to (i) the relevant Issuer giving notice to the Relevant Resolution Authority and/or the Relevant Regulator (as applicable) and such Relevant Resolution Authority and/or Relevant Regulator (as applicable) granting prior permission to redeem or purchase or substitute or vary or modify the relevant Notes, in each case to the extent and in the manner required by the MREL Requirements and/or the Capital Regulations (as applicable), and (ii) compliance by the relevant Issuer with any alternative or additional pre-conditions to redemption or purchase or substitution or variation or modification, as applicable, as set out in the MREL Requirements and/or the Capital Regulations (as applicable), in each case as provided in Condition 4(k) and/or Condition 4(l) (as applicable).

As any early redemption, purchase, substitution, variation or modification of any such Notes will be subject to the prior permission of the Relevant Resolution Authority and/or the Relevant Regulator (as applicable), the outcome may not necessarily reflect the commercial intention of the relevant Issuer or the commercial expectations of the holders of those Notes and this may have an adverse impact on the market value of the relevant Notes.

# Substitution or variation of Notes

If, in the case of any Series of Notes, "Substitution and Variation" is specified as being applicable in the applicable Pricing Supplement and an MREL Disqualification Event or Capital Disqualification Event or any of the events described in Condition 4(b) has occurred and is continuing (in each case to the extent applicable to the relevant Notes), or in order to ensure the effectiveness and enforceability of Condition 17 (including, without limitation, changing its governing law), then the relevant Issuer may, subject as provided in Conditions 4(k), 4(l) and 4(m) of the Notes (as applicable) and without the need for any consent of the Noteholders or the Couponholders, substitute all (but not some only) of such Series of Notes for, or vary the terms of such Series of Notes so that the Notes remain or become (as appropriate) Qualifying Senior Preferred Notes, Qualifying Senior Non-Preferred Notes or Qualifying Tier 2 Notes.

No assurance can be given as to whether any of these changes will negatively affect any particular holder. In addition, the tax and stamp duty consequences of holding such substituted or varied Notes could be different for some categories of Noteholders from the tax and stamp duty consequences for them of holding such Notes prior to such substitution or variation. There can also be no assurance that the terms of any Qualifying Senior Preferred Notes, Qualifying Senior Non-Preferred Notes or Qualifying Tier 2 Notes, as the case may be, will be viewed by the market as equally favourable to Noteholders, or that such Notes will trade at prices that are equal to the prices at which the Notes would have traded on the basis of their original terms.

# Waiver of Set-off

Each Noteholder unconditionally and irrevocably waives any right of Set-off which it might otherwise have, under the laws of any jurisdiction, in respect of each Note.

Limitation on gross-up obligation under the Notes

The obligation under Condition 8 to pay additional amounts in the event of any withholding or deduction in respect of taxes on any payments under the terms of the Notes applies only to payments of interest and not to payments of principal or premium (as applicable). As such, the relevant Issuer would not be required to pay any additional amounts under the terms of the Notes to the extent any withholding or deduction applied to payments of principal or premium (as applicable). Accordingly, if any such withholding or deduction were to apply to any payments of principal or premium (as applicable) under the Notes, Noteholders may receive less than the full amount of principal or premium (as applicable) due under such Notes upon redemption, and the market value of such Notes may be adversely affected.

The regulation and reform of benchmarks may adversely affect the value of Notes linked to or referencing such benchmarks

Interest rates and indices which are deemed to be benchmarks (including EURIBOR and ROBOR) are the subject of recent national and international regulatory guidance and proposals for reform. Some of these reforms are already effective whilst others are still to be implemented. These reforms may cause such benchmarks to perform differently than in the past, to disappear entirely, or have other consequences which cannot be predicted. Any such consequence could have a material adverse effect on any Notes linked to or referencing such a benchmark.

Regulation (EU) 2016/1011 (the "EU Benchmarks Regulation") applies, subject to certain transitional provisions, to the provision of benchmarks, the contribution of input data to a benchmark and the use of a benchmark within the EU. Among other things, it (i) requires benchmark administrators to be authorised or registered (or, if non-EU-based, to be subject to an equivalent regime or otherwise recognised or endorsed) and (ii) prevents certain uses by EU supervised entities (such as the Issuers) of benchmarks of administrators that are not authorised or registered (or, if non-EU-based, not deemed equivalent or recognised or endorsed). The EU Benchmarks Regulation as it forms part of UK domestic law by virtue of the EUWA (the "UK Benchmarks Regulation"), among other things, applies to the provision of benchmarks and the use of a benchmark in the UK. Similarly, it prohibits the use in the UK by UK supervised entities of benchmarks of administrators that are not authorised by the UK Financial Conduct Authority (the "FCA") or registered on the FCA register (or, if non-UK-based, not deemed equivalent or recognised or endorsed).

The EU Benchmarks Regulation and the UK Benchmarks Regulation could have a material impact on any Notes linked to or referencing a benchmark, in particular, if the methodology or other terms of the benchmark are changed in order to comply with the requirements of the Benchmarks Regulation. Such changes could, among other things, have the effect of reducing, increasing or otherwise affecting the volatility of the published rate or level of the benchmark.

More broadly, any of the international or national reforms, or the general increased regulatory scrutiny of benchmarks, could increase the costs and risks of administering or otherwise participating in the setting of a benchmark and complying with any such regulations or requirements. Such factors may have the following effects on certain benchmarks (including EURIBOR or ROBOR): (i) discourage market participants from continuing to administer or contribute to the benchmark; (ii) trigger changes in the rules or methodologies used in the benchmark; or (iii) lead to the disappearance of the benchmark. Any of the above changes or any other consequential changes as a result of international or national reforms or other initiatives or investigations, could have a material adverse effect on the value of and return on any Notes linked to or referencing a benchmark.

Investors should consult their own independent advisers and make their own assessment about the potential risks imposed by the Benchmarks Regulation reforms in making any investment decision with respect to any Notes linked to or referencing a benchmark.

Future discontinuance of a benchmark may adversely affect the value of Floating Rate Notes and/or Reset Notes which reference or are linked to such benchmark

Investors should be aware that, if a benchmark were discontinued or otherwise unavailable, the rate of interest on Floating Rate Notes and Reset Notes which reference or are linked to such benchmark will be determined for the relevant period by the fall-back provisions applicable to such Notes. If the circumstances described in the preceding paragraph occur and (i) in the case of Floating Rate Notes, Benchmark Replacement is specified in the applicable Pricing Supplement as being applicable and Screen Rate Determination is specified in the applicable Pricing Supplement as the manner in which the rate of interest is to be determined or (ii) in the case of Reset Notes, Benchmark Replacement is specified in the applicable Pricing Supplement as being applicable and the Reset Reference Rate is specified as Mid-Swap Rate in the applicable Pricing Supplement, such fall-back arrangements will include the possibility that the relevant rate of interest (or, as applicable, component thereof) could be set or, as the case may be, determined by reference to a Successor Reference Rate or an Alternative Reference Rate (as applicable) determined by an Independent Adviser or, if the relevant Issuer is unable to appoint an Independent Adviser or the Independent Adviser appointed by the relevant Issuer fails to make such determination, the relevant Issuer. An Adjustment Spread may be determined by the relevant Independent Adviser or the relevant Issuer (as applicable) and, if so determined, shall be applied to such Successor Reference Rate or Alternative Reference Rate, as the case may be.

In addition, the relevant Independent Adviser or the relevant Issuer (as applicable) may also determine (acting in good faith and in a commercially reasonable manner) that other amendments to the Conditions of the relevant Notes are necessary in order to follow market practice in relation to the relevant Successor Reference Rate or Alternative Reference Rate (as applicable) and to ensure the proper operation of the relevant Successor Reference Rate or Alternative Reference Rate (as applicable).

No consent of the Noteholders shall be required in connection with effecting any relevant Successor Reference Rate or Alternative Reference Rate (as applicable) or any other related adjustments and/or amendments described above.

In certain circumstances, the ultimate fallback of interest for a particular Interest Period or Reset Period (as applicable) may result in the rate of interest for the last preceding Interest Period or Reset Period (as applicable) being used. This may result in the effective application of a fixed rate for Floating Rate Notes or Reset Notes (as applicable) based on the rate which was last observed on the Relevant Screen Page for the purposes of determining the rate of interest in respect of an Interest Period or a Reset Period (as applicable). In addition, due to the uncertainty concerning the availability of Successor Reference Rates and Alternative Reference Rates and the involvement of an Independent Adviser, the relevant fallback provisions may not operate as intended at the relevant time.

Any such consequences could have a material adverse effect on the value of and return on any such Notes. Moreover, any of the above matters or any other significant change to the setting or existence of any relevant rate could affect the ability of the relevant Issuer to meet its obligations under the relevant Floating Rate Notes or Reset Notes or could have a material adverse effect on the value or liquidity of, and the amount payable under, the Floating Rate Notes or Reset Notes. Investors should note that the relevant Independent Adviser or the relevant Issuer (as applicable) will have discretion to adjust the relevant Successor Reference Rate or Alternative Reference Rate (as applicable) in the circumstances described above by the application of an Adjustment Spread. Any such adjustment could have unexpected commercial consequences and there can be no assurance that, due to the particular circumstances of each Noteholder, any such adjustment will be favourable to each Noteholder.

In addition, potential investors should also note that no Successor Reference Rate or Alternative Reference Rate (as applicable) will be adopted, and no other amendments to the terms of the Notes will be made if, and to the extent that, in the determination of the relevant Issuer, the same could reasonably be expected to:

- (i) prejudice the qualification of the relevant Notes as Tier 2 Capital and/or MREL Eligible Liabilities (as applicable); and/or
- (ii) result in the Relevant Regulator and/or the Relevant Resolution Authority (as applicable) treating the next Interest Payment Date or the next Reset Date, as the case may be, as the effective maturity of the Notes, rather than the relevant Maturity Date.

Investors should consider all of these matters when making their investment decision with respect to the relevant Floating Rate Notes or Reset Notes.

### Reset Notes

Reset Notes will initially bear interest at the relevant Initial Rate of Interest until (but excluding) the relevant First Reset Date. On the relevant First Reset Date, the relevant Second Reset Date (if applicable) and each relevant Subsequent Reset Date (if any) thereafter, the Rate of Interest will be reset to the sum of the relevant Reset Reference Rate and the relevant margin as determined by the Calculation Agent on the relevant Reset Determination Date (each such interest rate, a "Subsequent Rate of Interest"). The Subsequent Reset Rate of Interest for any Reset Period could be less than the relevant Initial Rate of Interest or the relevant Subsequent Rate of Interest for the prior Reset Period, which could adversely affect the market value of an investment in the relevant Reset Notes.

### Fixed Rate Notes

Investment in Fixed Rate Notes involves the risk that subsequent changes in market interest rates may adversely affect the value of the Fixed Rate Notes.

If the Notes include a feature to convert the interest basis from a fixed rate to a floating rate, or vice versa, this may affect the secondary market and the market value of the Notes concerned

Fixed/Floating Rate Notes are Notes which bear interest at a rate that converts from a fixed rate to a floating rate, or from a floating rate to a fixed rate. Such a feature to convert the interest basis, and any conversion of the interest basis, may affect the secondary market in, and the market value of, such Notes as the change of interest basis may result in a lower interest return for Noteholders. Where the Notes convert from a fixed rate to a floating rate, the spread on the Fixed/Floating Rate Notes may be less favourable than then prevailing spreads on comparable Floating Rate Notes tied to the same reference rate. In addition, the new floating rate at any time may be lower than the rates on other Notes. Where the Notes convert from a floating rate to a fixed rate, the fixed rate may be lower than then prevailing rates on those Notes and could affect the market value of an investment in the relevant Notes.

Notes which are issued at a substantial discount or premium may experience price volatility in response to changes in market interest rates

The market values of securities issued at a substantial discount (such as Zero Coupon Notes) or premium to their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for more conventional interest-bearing securities. Generally, the longer the remaining term of such securities, the greater the price volatility as compared to more conventional interest-bearing securities with comparable maturities.

# Risks relating to the Notes generally

Set out below is a description of material risks relating to the Notes generally:

The Conditions of the Notes contain provisions which may permit their modification without the consent of all investors

The Conditions of the Notes, when read together with the Greek Bond Laws, contain provisions for calling meetings of Noteholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority. The Greek Bond Laws prevent a Noteholder who holds at least one quarter of the Issuer's share capital from voting at meetings of Noteholders.

The Conditions of the Notes also provide that the relevant Issuer may, without the consent of Noteholders, substitute a Permitted Entity (including any Successor in Business of the relevant Issuer or, in the case of Notes issued by Alpha Holdings, Alpha Bank or any Successor in Business of Alpha Bank) as principal debtor under any Notes in place of the relevant Issuer, in the circumstances and subject to the conditions described in Condition 14. Furthermore, in the event that "Substitution to Holding Company" is specified as "Applicable" in the applicable Pricing Supplement, in relation to Notes issued by Alpha Bank, Alpha Holdings, any Successor in Business of Alpha Holdings or any other Holding Company of Alpha Bank may be substituted as Issuer and, in relation to Notes issued by Alpha Holdings, any Holding Company of Alpha Holdings may be substituted as Issuer (in each case, without any guarantee from the original issuer). No assurance can be given as to the impact of any substitution of the relevant Issuer as described above and any such substitution could materially adversely impact the value of any Notes affected by it.

Any such substitution may be accompanied by a change in the ranking of the Notes in the circumstances described in Condition 14, including (in the case of an issue of Senior Preferred Notes by Alpha Holdings that is substituted such that the issuer becomes Alpha Bank (or its Successor in Business)) that the Notes may be varied so that they become Senior Non-Preferred Notes, see "The relevant Issuer's obligations under Senior Non-Preferred Notes rank junior to the present and future obligations of the relevant Issuer in respect of Senior Preferred Notes and other Higher Ranking Creditors" above.

Investors who hold less than the minimum Specified Denomination may be unable to sell their Notes and may be adversely affected if definitive Notes are subsequently required to be issued

In relation to any issue of Notes which have denominations consisting of a minimum Specified Denomination plus one or more higher integral multiples of another smaller amount, it is possible that such Notes may be traded in amounts in excess of the minimum Specified Denomination that are not integral multiples of such minimum Specified Denomination. In such a case, a holder who, as a result of trading such amounts, holds an amount which is less than the minimum Specified Denomination in its account with the relevant clearing system would not be able to sell the remainder of such holding without first purchasing a principal amount of Notes at or in excess of the minimum Specified Denomination such that its holding amounts to a Specified Denomination. Further, a holder who, as a result of trading such amounts, holds an amount which is less than the minimum Specified Denomination in its account with the relevant clearing system at the relevant time may not receive a definitive Note in respect of such holding (should definitive Notes be printed) and would need to purchase a principal amount of Notes at or in excess of the minimum Specified Denomination such that its holding amounts to a Specified Denomination.

If such Notes in definitive form are issued, holders should be aware that definitive Notes which have a denomination that is not an integral multiple of the minimum Specified Denomination may be illiquid and difficult to trade. This may have a detrimental impact on the value of the Notes in the secondary market.

The value of the Notes could be adversely affected by a change in English law or Greek Law or administrative practice

The Conditions of the Notes are based on English law and Greek Law in effect as at the date of this Offering Circular (see Condition 18). No assurance can be given as to the impact of any possible judicial decision or change to English law or Greek Law or administrative practice after the date of this Offering Circular and any such change could materially adversely impact the value of any Notes affected by it.

Because the Global Notes are held on behalf of Euroclear and Clearstream, Luxembourg, investors will have to rely on their procedures for transfer, payment and communication with the relevant Issuer

Notes issued under the Programme may be represented by one or more Global Notes. Such Global Notes will be deposited with a common depositary or a common safekeeper for Euroclear and Clearstream, Luxembourg. Except in the circumstances described in the relevant Global Note, investors will not be entitled to receive definitive Notes. Euroclear and Clearstream, Luxembourg will maintain records of the beneficial interests in the Global Notes. While the Notes are represented by one or more Global Notes, investors will be able to trade their beneficial interests only through Euroclear and Clearstream, Luxembourg.

While the Notes are represented by one or more Global Notes, the relevant Issuer will discharge its payment obligations under the Notes by making payments to the common depositary or common safekeeper for Euroclear and Clearstream, Luxembourg for distribution to their accountholders. A holder of a beneficial interest in a Global Note must rely on the procedures of Euroclear and Clearstream, Luxembourg to receive payments under the relevant Notes. The relevant Issuer has no responsibility or liability for the records relating to, or payments made in respect of, beneficial interests in the Global Notes.

Holders of beneficial interests in the Global Notes will not have a direct right to vote in respect of the relevant Notes. Instead, such holders will be permitted to act only to the extent that they are enabled by Euroclear and Clearstream, Luxembourg to appoint appropriate proxies. Similarly, holders of beneficial interests in the Global Notes will not have a direct right under the Global Notes to take enforcement action against the relevant Issuer in the event of a default under the relevant Notes.

### **Taxation**

Potential investors in the Notes should consult their own tax advisers as to which countries' tax laws could be relevant to acquiring, holding and disposing of the Notes and receiving payments of interest, principal and/or other amounts under the Notes and the consequences of such actions under the tax laws of those countries. In particular, investors should note that the Greek income taxation framework was reformed by virtue of Law 4172/2013, effective as at 1 January 2014, as amended from time to time. Please see "*Taxation*" for further details. Little precedent exists as to the application of this framework. Further, non-Greek tax residents may have to submit a declaration of non-residence or produce documentation evidencing non-residence in order to claim any exemption under applicable tax laws of Greece.

# RISKS RELATING TO THE MARKET GENERALLY

An active secondary trading market in respect of the Notes may never be established or may be illiquid and this would adversely affect the value at which an investor could sell its Notes

Notes may have no established trading market when issued, and one may never develop. If a market for the Notes does develop, it may not be very liquid and may be sensitive to changes in financial markets. Therefore, investors may not be able to sell their Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. This is particularly the case should the relevant Issuer be in financial distress, which may result in any sale of the Notes having to be at a substantial discount to

their principal amount or for Notes that are especially sensitive to interest rate, currency or market risks, are designed for specific investment objectives or strategies or have been structured to meet the investment requirements of limited categories of investors. These types of Notes generally would have a more limited secondary market and more price volatility than conventional debt securities. Illiquidity may have a severely adverse effect on the market value of the Notes.

Furthermore, although application has been made for the Notes issued under the Programme on the Luxembourg Stock Exchange's Euro MTF Market, there is no assurance that such application will be accepted, that any particular Tranche of Notes will be so admitted or that an active trading market will develop. Accordingly, there is no assurance as to the development or liquidity of any trading market for any particular Tranche of Notes.

### Difference between the Notes and bank deposits

An investment in the Notes may give rise to higher yields than a bank deposit. However, an investment in the Notes carries risks which are very different from the risks associated with a bank deposit, with the higher yield of the Notes generally attributable to the greater risks associated with investment in the Notes. Holders may lose all or some of their investment in the Notes.

Bank deposits are generally repayable on demand, or with notice from the depositors, whereas holders of the Notes have no ability to require early repayment of their investment other than in an event of default (see Condition 9 of the Terms and Conditions of the Notes). Furthermore, although the Notes are transferable, the Notes may have no established trading market when issued, and one may never develop. See "An active secondary trading market in respect of the Notes may never be established or may be illiquid and this would adversely affect the value at which an investor could sell its Notes".

If an investor holds Notes which are not denominated in the investor's home currency, it will be exposed to movements in exchange rates adversely affecting the value of its holding. In addition, the imposition of exchange controls in relation to any Notes could result in an investor not receiving payments on those Notes

The relevant Issuer will pay principal and interest on the Notes in the Specified Currency. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the "Investor's Currency") other than the Specified Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Specified Currency would decrease (1) the Investor's Currency-equivalent yield on the Notes, (2) the Investor's Currency-equivalent value of the principal payable on the Notes and (3) the Investor's Currency-equivalent market value of the Notes.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate or the ability of the relevant Issuer to make payments in respect of the Notes. As a result, investors may receive less interest or principal than expected, or no interest or principal.

Credit ratings assigned to the relevant Issuer or any Notes may not reflect all the risks associated with an investment in those Notes

One or more independent credit rating agencies may assign credit ratings to the relevant Issuer or the Notes. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be revised, suspended or withdrawn by the rating agency at any time.

In addition, rating agencies may assign unsolicited ratings to the Notes. In such circumstances, there can be no assurance that the unsolicited rating(s) will not be lower than the comparable solicited ratings assigned to the Notes, which could adversely affect the market value and liquidity of the Notes.

In general, European regulated investors are restricted under the CRA Regulation from using credit ratings for regulatory purposes in the EEA, unless such ratings are issued by a credit rating agency established in the EEA and registered under the CRA Regulation (and such registration has not been withdrawn or suspended, subject to transitional provisions that apply in certain circumstances). Such general restriction will also apply in the case of credit ratings issued by third country non-EEA credit rating agencies, unless the relevant credit ratings are endorsed by an EEA-registered credit rating agency or the relevant third country rating agency is certified in accordance with the CRA Regulation (and such endorsement action or certification, as the case may be, has not been withdrawn or suspended, subject to transitional provisions that apply in certain circumstances). The list of registered and certified rating agencies published by the European Securities and Markets Authority ("ESMA") on its website in accordance with the CRA Regulation is not conclusive evidence of the status of the relevant rating agency included in such list, as there may be delays between certain supervisory measures being taken against a relevant rating agency and the publication of the updated ESMA list.

Investors regulated in the UK are subject to similar restrictions under the UK CRA Regulation. As such, UK regulated investors are required to use for UK regulatory purposes ratings issued by a credit rating agency established in the UK and registered under the UK CRA Regulation. In the case of ratings issued by third country non-UK credit rating agencies, third country credit ratings can either be: (a) endorsed by a UK registered credit rating agency; or (b) issued by a third country credit rating agency that is certified in accordance with the UK CRA Regulation. Note this is subject, in each case, to (a) the relevant UK registration, certification or endorsement, as the case may be, not having been withdrawn or suspended, and (b) transitional provisions that apply in certain circumstances. In the case of third country ratings, for a certain limited period of time, transitional relief accommodates continued use for regulatory purposes in the UK, of existing pre-2021 ratings, provided the relevant conditions are satisfied.

If the status of the rating agency rating the Notes changes for the purposes of the CRA Regulation or the UK CRA Regulation, relevant regulated investors may no longer be able to use the rating for regulatory purposes in the EEA or the UK, as applicable, and the Notes may have a different regulatory treatment, which may impact the value of the Notes and their liquidity in the secondary market. Certain information with respect to the credit rating agencies and ratings is set out on the cover of this Offering Circular.

### OVERVIEW OF THE PROGRAMME

The following overview does not purport to be complete and is taken from, and is qualified in its entirety by, the remainder of this Offering Circular and, in relation to the terms and conditions of any particular Tranche of Notes, the applicable Pricing Supplement. The relevant Issuer and any relevant Dealer may agree that Notes shall be issued in a form other than that contemplated in the Terms and Conditions, in which event the relevant provisions will be included in the applicable Pricing Supplement.

Words and expressions defined in "Form of the Notes" and "Terms and Conditions of the Notes" shall have the same meanings in this Overview.

Alpha Services and Holdings S.A., incorporated and **Issuers:** registered in the Hellenic Republic as a public company under Law 4548/2018, incorporated with limited liability (with GEMI number 000223701000 and Tax Identification Number 094014249) for the period ending 2100. Alpha Bank S.A., incorporated and registered in the Hellenic Republic as a public company under Law 4548/2018, incorporated with limited liability (with GEMI number 159029160000 and Tax Identification Number 996807331) for the period ending 2101. Alpha Holdings Legal Entity Identifier (LEI): 5299009N55YRQC69CN08 Alpha Bank Legal Entity Identifier (LEI): 213800DBQIB6VBNU5C64 **Description:** Euro Medium Term Note Programme (the "**Programme**") **Arranger:** Citigroup Global Markets Europe AG

Alpha Bank S.A.

**Dealers:** 

**Certain Restrictions:** 

Citigroup Global Markets Europe AG

and any other Dealers appointed from time to time either generally in respect of the Programme or in relation to a particular Tranche of Notes, in each case, in accordance with

the Programme Agreement.

Each issue of Notes denominated in a currency in respect of which particular laws, guidelines, regulations, restrictions or reporting requirements apply will only be issued in circumstances which comply with such laws, guidelines, regulations, restrictions or reporting requirements from time to time (see "Subscription and Sale" herein).

# Notes having a maturity of less than one year

Notes having a maturity of less than one year will constitute deposits for the purposes of the prohibition on accepting deposits contained in section 19 of the FSMA unless they are issued to a limited class of professional investors and have a denomination of at least £100,000 or its equivalent (see "Subscription and Sale" herein).

	(see Subscription and Sale Herein).
Issuing and Principal Paying Agent:	Citibank, N.A., London Branch
Noteholders Agent:	Prior to the completion of an issue of Notes, if (and for so long as the Issuers consider that it is) so required by the Greek Bond Laws (to the extent applicable), the Issuers shall appoint a Noteholders Agent by way of a Noteholders Agency Agreement and in accordance with the provisions of the Greek Bond Laws.
Luxembourg Paying Agent:	Banque Internationale à Luxembourg S.A.
Luxembourg Listing Agent:	Banque Internationale à Luxembourg S.A.
Programme Amount:	Up to EUR 15,000,000,000 (or its equivalent in other currencies calculated as described herein) outstanding at any time. The Issuers may increase the amount of the Programme in accordance with the terms of the Programme Agreement.
Distribution:	Subject to applicable selling restrictions, Notes may be distributed by way of private or public placement and in each case on a syndicated or non-syndicated basis.
Currencies:	Subject to any applicable legal or regulatory or central bank requirements, such currencies as may be agreed between the relevant Issuer and the relevant Dealer (as indicated in the applicable Pricing Supplement).
Maturities:	Such maturities as may be agreed between the relevant Issuer and the relevant Dealer and as indicated in the applicable Pricing Supplement, subject to such minimum or maximum maturities as may be allowed or required from time to time by the relevant central bank (or equivalent body) or any laws or regulations applicable to the relevant Issuer or the relevant Specified Currency.
	Tier 2 Notes must have a maturity date falling at least five years after the Issue Date of such Tier 2 Notes (as defined below).
Issue Price:	Notes may be issued on a fully-paid basis and at an issue price which is at par or at a discount to, or premium over, par, as specified in the applicable Pricing Supplement.
Form of Notes:	The Notes will be issued in bearer form, as described in

"Form of the Notes" below.

Notes to be issued under the Programme will be either (i) senior preferred Notes ("Senior Preferred Notes"), (ii) senior non-preferred Notes ("Senior Non-Preferred

**Notes**") or (iii) Tier 2 Notes ("**Tier 2 Notes**") as indicated in the applicable Pricing Supplement.

Each Tranche of Notes will (unless otherwise specified in the applicable Pricing Supplement) initially be represented by a temporary global Note. Each global Note which is not intended to be issued in new global note form, as specified in the applicable Pricing Supplement, will be deposited on the relevant Issue Date with a common depositary for Euroclear and Clearstream, Luxembourg and/or any other agreed clearing system as specified in the applicable Pricing Supplement and each global Note which is intended to be issued in new global note form (a "New Global Note" or "NGN"), as specified in the applicable Pricing Supplement, will be deposited on or around the relevant issue date with a common safekeeper for Euroclear and/or Clearstream, Luxembourg. Interests in each temporary global Note will be exchangeable, upon request as described therein, for either interests in a permanent global Note or definitive Notes (as indicated in the applicable Pricing Supplement and subject, in the case of definitive Notes, to such notice period as is specified in the applicable Pricing Supplement), in either case not earlier than 40 days after the Issue Date upon certification of non-US beneficial ownership as required by US Treasury regulations. The applicable Pricing Supplement will specify that a permanent global Note either (i) is exchangeable (in whole but not in part) for definitive Notes upon not less than 60 days' notice or (ii) is only exchangeable (in whole but not in part) for definitive Notes upon the occurrence of an Exchange Event, as described in "Form of the Notes" below. Any interest in a global Note will be transferable only in accordance with the rules and procedures for the time being of Euroclear, Clearstream, Luxembourg and/or any other agreed clearing system, as appropriate.

Fixed interest will be payable on such date or dates as may be agreed between the relevant Issuer and the relevant Dealer (as indicated in the applicable Pricing Supplement) and on redemption and will be calculated on the basis of such Day Count Fraction as may be agreed between the relevant Issuer and the relevant Dealer.

Reset Notes will, in respect of an initial period, bear interest at the initial fixed rate of interest specified in the applicable Pricing Supplement. Thereafter, the fixed rate of interest will be reset on one or more date(s) specified in the applicable Pricing Supplement by reference to a mid-market swap rate or a rate based on the yield for an identified government bond or certain government bonds (in each case relating to the relevant Specified Currency), and for a period equal to

**Fixed Rate Notes:** 

**Reset Notes:** 

the Reset Period, as adjusted for any applicable margin, in each case as may be specified in the applicable Pricing Supplement. Such interest will be payable in arrear on the Interest Payment Date(s) specified in or as determined pursuant to the applicable Pricing Supplement.

Floating Rate Notes will bear interest at a rate determined:

- (a) on the same basis as the floating rate under a notional interest-rate swap transaction in the relevant Specified Currency governed by an agreement incorporating either the 2006 ISDA Definitions, as published by the International Swaps and Derivatives Association, Inc. ("ISDA"), and as amended and updated as at the Issue Date of the first Tranche of the Notes of the relevant Series or the latest version of the 2021 ISDA Interest Rate Derivatives Definitions (as published by ISDA as at the Issue Date of the first Tranche of the Notes of the relevant Series) as specified in the applicable Pricing Supplement); or
- (b) on the basis of the reference rate set out in the applicable Pricing Supplement.

The Margin (if any) relating to such Floating Rate Notes will be agreed between the relevant Issuer and the relevant Dealer for each Series of Floating Rate Notes.

Floating Rate Notes may also have a maximum interest rate, a minimum interest rate or both.

Interest on Floating Rate Notes in respect of each Interest Period, as selected prior to issue by the relevant Issuer and the relevant Dealer, will be payable on such Interest Payment Dates specified in, or determined pursuant to, the applicable Pricing Supplement and will be calculated on the basis of the relevant Day Count Fraction as may be agreed between the relevant Issuer and the relevant Dealer.

If, in respect of any Floating Rate Notes (where Screen Rate Determination is specified as being applicable in the applicable Pricing Supplement) or Reset Notes (where the Reset Reference Rate is specified as being Mid-Swap Rate in the applicable Pricing Supplement), "Benchmark Replacement" is specified as being applicable in the applicable Pricing Supplement, upon the occurrence of a Benchmark Event (as defined in the Conditions), the provisions of Condition 3(d) will apply to the determination of the Rate of Interest for such Notes.

Zero Coupon Notes will be offered and sold at a discount to

**Floating Rate Notes:** 

**Benchmark Replacement:** 

**Zero Coupon Notes:** 

their nominal amount and will not bear interest other than in the case of late payment.

Notes may be converted from one interest basis to another if so provided in the applicable Pricing Supplement.

The applicable Pricing Supplement relating to each Tranche of Notes will indicate either that the Notes of such Tranche cannot be redeemed prior to their stated maturity (other than, subject to certain conditions, at the option of the relevant Issuer for taxation reasons, following an MREL Disqualification Event (where applicable), following a Capital Disqualification Event (where applicable) or where Clean-up Call Option is specified as applicable or following an Event of Default) or that such Notes will be redeemable at the option of the relevant Issuer upon giving not less than the minimum nor more than the maximum days' irrevocable notice as is indicated in the applicable Pricing Supplement to the Noteholders on a date or dates specified prior to such stated maturity and at a price or prices and on such terms as are indicated in the applicable Pricing Supplement.

The Notes may not be redeemed at the option of the Noteholders.

Prior to their stated maturity, the Notes may only be redeemed by the relevant Issuer with the permission of the Relevant Regulator and/or Relevant Resolution Authority (as applicable and if required) and otherwise in accordance with applicable Capital Regulations and/or MREL Requirements (as applicable).

Unless otherwise permitted by the current laws and regulations, Notes having a maturity of less than one year may be subject to restrictions on their denomination and distribution, see "Certain Restrictions: Notes having a maturity of less than one year" above and "Subscription and Sale" herein.

Unless previously redeemed, substituted or purchased and cancelled, each Note (other than a Zero Coupon Note) is expected to be redeemed by the relevant Issuer at 100 per cent. of its nominal value on its scheduled Maturity Date.

If, in the case of any Series of Notes, "Substitution and Variation" is specified as being applicable in the applicable Pricing Supplement and: (i) an MREL Disqualification Event has occurred and is continuing, (ii) with respect to any Series of Tier 2 Notes, a Capital Disqualification Event has occurred and is continuing or (iii) with respect to any Notes, any of the events described in Condition 4(b) has occurred and is continuing or in order to ensure the effectiveness and

**Change of Interest Basis Notes:** 

**Redemption:** 

**Substitution and Variation:** 

enforceability of Condition 17 (including, without limitation, changing its governing law), then the relevant Issuer may, subject as provided in Conditions 4(k), 4(l) and 4(m) of the Notes (as applicable) and without the need for any consent of the Noteholders or the Couponholders, substitute all (but not some only) of such Series of Notes for, or vary the terms of such Series of Notes so that the Notes remain or become (as appropriate) Qualifying Senior Preferred Notes, Qualifying Senior Non-Preferred Notes or Qualifying Tier 2 Notes.

All payments in respect of the Notes and Coupons will be made without withholding or deduction for or on account of Taxes imposed by a Taxing Jurisdiction (as those terms are defined in Condition 8) unless required by law, as provided in Condition 8. In such event, the relevant Issuer will, save in certain limited circumstances provided in Condition 8, be required to pay such additional amounts in respect of interest as will result in the receipt by the holders of the Notes or Coupons of such amounts of interest as would have been receivable by them had no such withholding or deduction been required.

The relevant Issuer's obligation to pay additional amounts in respect of any withholding or deduction in respect of taxes under the terms of the Notes applies only to payments of interest due and paid under such Notes and not to payments of principal. As such, the relevant Issuer would not be required to pay any additional amounts under the terms of the Notes to the extent any withholding or deduction applied to payments of principal.

Prospective purchasers of the Notes are advised to consult their own tax advisers as to the tax consequences of the purchase, ownership and disposal of the Notes.

The Notes will be issued in such denominations as may be agreed between the relevant Issuer and the relevant Dealer and as indicated in the applicable Pricing Supplement, save that the minimum denomination of each Note will be such amount as may be allowed or required from time to time by the relevant central bank (or equivalent body) or any laws or regulations applicable to the relevant Specified Currency (see "Certain Restrictions: Notes having a maturity of less than one year" above).

The Notes and the Coupons and all non-contractual obligations arising out of or in connection with each of them are governed by English law except that Conditions 2, 15 and 17 are governed by and shall be construed in accordance with Greek Law.

**Taxation:** 

**Denomination of Notes:** 

**Governing Law:** 

**Rating:** 

With respect to Alpha Holdings, the Programme has been rated: B- (senior unsecured preferred), CCC (senior subordinated) and CCC (subordinated) by S&P and B3 (senior unsecured), B3 (junior senior unsecured) and B3 (subordinated) by Moody's.

With respect to Alpha Bank, the Programme has been rated: B+ (senior unsecured preferred), B- (senior subordinated) and CCC+ (subordinated) by S&P and B2 (senior unsecured), B3 (junior senior unsecured) and B3 (subordinated) by Moody's.

Series of Notes issued under the Programme may be rated or unrated. Where a Series of Notes is rated, such rating will be disclosed in the applicable Pricing Supplement and will not necessarily be the same as the ratings assigned to the Programme.

A security rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency.

Listing, Admission to Trading and Approval:

Application has been made to the Luxembourg Stock Exchange for Notes issued under the Programme to be admitted to trading on the Euro MTF and to be listed on the Official List of the Luxembourg Stock Exchange.

The Notes may also be listed on such other or further stock exchange or stock exchanges (other than in respect of an admission to trading on any market in the EEA which has been designated as a regulated market for the purposes of MiFID II) as may be agreed between the relevant Issuer and the relevant Dealer in relation to each issue. Notes which are neither listed nor admitted to trading on any market may also be issued.

**Selling Restrictions:** 

There are restrictions on the offer, sale and transfer of the Notes in the United States, UK, Japan, Singapore, the EEA (including France, Greece and the Republic of Italy) and such other restrictions as may be required in connection with the offering and sale of a particular Tranche of Notes. See "Subscription and Sale" below. Notes may be issued to qualified investors (as defined in the Prospectus Regulation) and non-qualified investors, in each case in accordance with such restrictions.

**United States Selling Restrictions:** 

Regulation S; Category 2. TEFRA D/TEFRA C/TEFRA not applicable, as specified in the applicable Pricing Supplement.

### DOCUMENTS INCORPORATED BY REFERENCE

The following documents shall be incorporated by reference in, and form part of, this Offering Circular:

(a) Annual report of Alpha Holdings (previously known as Alpha Bank S.A.) for the year ended 31 December 2020 (available at <a href="https://www.alphaholdings.gr/-/media/alphaholdings/files/apotelesmata/20210323-fy-oikonomikes-katastaseis-en.pdf">https://www.alphaholdings.gr/-/media/alphaholdings/files/apotelesmata/20210323-fy-oikonomikes-katastaseis-en.pdf</a>) which includes the audited consolidated and separate financial statements (produced in accordance with IFRS) for the financial year ended 31 December 2020 for Alpha Holdings, including the information set out at the following pages in particular:

Any non-incorporated parts of a document referred to herein are either deemed not relevant for an investor or are otherwise covered elsewhere in this Offering Circular.

Any documents themselves incorporated by reference in the documents incorporated by reference in this Offering Circular shall not form part of this Offering Circular.

Following the publication of this Offering Circular a supplement may be prepared by the Issuers in accordance with the Rules and Regulations of the Luxembourg Stock Exchange or any other applicable rules. Statements contained in any such supplement (or contained in any document incorporated by reference therein) shall, to the extent applicable (whether expressly, by implication or otherwise), be deemed to modify or supersede statements contained in this Offering Circular or in a document which is incorporated by reference in this Offering Circular. Any statement so modified or superseded shall not, except as so modified or superseded, constitute a part of this Offering Circular.

In the event of any significant new factor arising or any material mistake or material inaccuracy relating to the information included in this Offering Circular which is capable of affecting the assessment of any Notes, the Issuers will prepare and publish a supplement to this Offering Circular or prepare and publish a new offering circular for use in connection with any subsequent issue of Notes.

All documents incorporated by reference in this Offering Circular will be made available on the website of the Luxembourg Stock Exchange (www.bourse.lu).

### FORM OF THE NOTES

Each Tranche of Notes will be in bearer form and will (unless otherwise specified in the applicable Pricing Supplement) be initially represented by a temporary global Note without interest coupons or talons. Each temporary global Note which is not intended to be issued in NGN form, as specified in the applicable Pricing Supplement, will be delivered on or prior to the original issue date of the relevant Tranche to a common depositary for Euroclear and Clearstream, Luxembourg and each temporary global Note which is intended to be issued in NGN form, as specified in the applicable Pricing Supplement, will be deposited on or around the original issue date of the relevant Tranche of Notes with a common safekeeper for Euroclear and/or Clearstream, Luxembourg. Whilst any Note is represented by a temporary global Note, payments of principal, interest (if any) and any other amount payable in respect of the Notes due prior to the Exchange Date (as defined below) will be made (against presentation of the temporary global Note if the temporary global Note is not intended to be issued in NGN form) only to the extent that certification (in a form to be provided) to the effect that the beneficial owners of interests in such Note are not US persons or persons who have purchased for resale to any U.S. person, as required by U.S. Treasury regulations, has been received by Euroclear and/or Clearstream, Luxembourg and Euroclear and/or Clearstream, Luxembourg, as applicable, has given a like certification (based on the certifications it has received) to the Agent. Any reference in this section "Form of the Notes" to Euroclear and/or Clearstream, Luxembourg shall, whenever the context so permits, be deemed to include a reference to any additional or alternative clearing system approved by the relevant Issuer and the Agent.

Where the Global Notes issued in respect of any Tranche are in NGN form, the applicable Pricing Supplement will also indicate whether or not such Global Notes are intended to be held in a manner that would allow Eurosystem eligibility. Any indication that the Global Notes are to be so held does not necessarily mean that the Notes of the relevant Tranche will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue or at any times during their life as such recognition depends upon satisfaction of the Eurosystem eligibility criteria. The common safekeeper for NGNs will either be Euroclear or Clearstream, Luxembourg or another entity approved by Euroclear and Clearstream, Luxembourg, as indicated in the applicable Pricing Supplement.

On and after the date (the "Exchange Date") which is the later of (i) 40 days after the date on which any temporary global Note is issued and (ii) 40 days after the completion of the distribution of the relevant Tranche (the "Distribution Compliance Period"), interests in such temporary global Note will be exchangeable (free of charge) upon request as described therein either for interests in a permanent global Note without interest coupons or talons, or for definitive Notes with, where applicable, interest coupons and talons attached (as indicated in the applicable Pricing Supplement and subject, in the case of definitive Notes, to such notice period as is specified in the applicable Pricing Supplement), in each case against certification of non-U.S. beneficial ownership as described above. The holder of a temporary global Note will not be entitled to collect any payment of interest, principal or other amount due on or after the Exchange Date unless, upon due certification, exchange of the temporary global Note for an interest in a permanent global Note or for definitive Notes is improperly withheld or refused.

Pursuant to the Agency Agreement (as defined under "Terms and Conditions of the Notes" below) the Agent shall arrange that, where a further Tranche of Notes is issued which is intended to form a single series with an existing Tranche of Notes at a point after the Issue Date of the further Tranche, the Notes of such further Tranche shall be temporarily assigned a common code and ISIN by Euroclear and Clearstream, Luxembourg, which are different from the common code and ISIN assigned to Notes of

any other Tranche of the same Series until such time as the Tranches are consolidated and form a single Series, which shall not be prior to the expiry of the Distribution Compliance Period applicable to Notes of such Tranche.

In the case of an issue of Notes to which the Greek Bond Laws (as defined under "Terms and Conditions of the Notes" below) apply, and for the purposes of which the appointment of a Noteholders Agent (as defined under "Terms and Conditions of the Notes" below) is required, the relevant Issuer shall appoint a Noteholders Agent (as defined under "Terms and Conditions of the Notes" below) in accordance with the Greek Bond Laws and Condition 15.

Payments of principal, interest (if any) or any other amounts on a permanent global Note will be made through Euroclear and/or Clearstream, Luxembourg (against presentation or surrender (as the case may be) of the permanent global Note if the permanent global Note is not intended to be issued in NGN form) without any requirement for certification.

The applicable Pricing Supplement will specify that a permanent global Note will be exchangeable (free of charge), in whole but not in part, for definitive Notes with, where applicable, interest coupons and talons attached only upon the occurrence of an Exchange Event as described therein. "Exchange Event" means (i) an Event of Default has occurred and is continuing, (ii) the relevant Issuer has been notified that either Euroclear or Clearstream, Luxembourg has been closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or has announced an intention permanently to cease business or has in fact done so and no alternative clearing system is available or (iii) at the option of the relevant Issuer at any time; provided that, in the case of an issue of Notes with denominations consisting of a minimum Specified Denomination plus one or more higher integral multiples of another smaller amount, only Exchange Events (i) or (ii) will apply. The relevant Issuer will promptly give notice to Noteholders in accordance with Condition 13 if an Exchange Event occurs. In the event of the occurrence of an Exchange Event as described in (i) or (ii) above, Euroclear and/or Clearstream, Luxembourg (acting on the instructions of any holder of an interest in such permanent global Note) may give notice to the Agent requesting exchange and in the event of the occurrence of an Exchange Event as described in (iii) above, the relevant Issuer may give notice to the Agent requesting exchange. Any such exchange shall occur not later than 30 days after the date of receipt of the first relevant notice by the Agent.

The following legend will appear on all permanent global Notes, definitive Notes, interest coupons and talons:

"Any United States person who holds this obligation will be subject to limitations under the United States income tax laws, including the limitations provided in Sections 165(j) and 1287(a) of the Internal Revenue Code."

The sections referred to provide that holders who are United States persons (as defined in the United States Internal Revenue Code of 1986, as amended), with certain exceptions, will not be entitled to deduct any loss on any Notes or interest coupons and will not be entitled to capital gains treatment in respect of any gain on any sale, disposition, redemption or payment of principal in respect of Notes or interest coupons.

In the event that a global Note (or any part thereof) has become due and repayable in accordance with the Terms and Conditions of the Notes or that the Maturity Date has occurred and, in either case, payment in full of the amount due has not been made in accordance with the provisions of the global Note then, unless within the period of seven days commencing on the relevant due date payment in full of the amount due in respect of the global Note is received by the bearer in accordance with the provisions of the global Note, the global Note will become void at 8.00 p.m. (London time) on such seventh day and the bearer will have no further rights under the global Note. At the same time, holders of interest in such global Note credited to their accounts with Euroclear and/or Clearstream, Luxembourg, as the case may be, will become entitled to proceed directly against the relevant Issuer on the basis of statements of account provided by Euroclear and Clearstream, Luxembourg, on and subject to the terms of a deed of covenant (the "**Deed of Covenant**") dated 6 July 2022 executed by the Issuers.

### FORM OF PRICING SUPPLEMENT

Set out below is the form of Pricing Supplement which will be completed for each Tranche of Notes issued under the Programme.

[PROHIBITION OF SALES TO EEA RETAIL INVESTORS –The Notes are not intended to be offered, sold or otherwise made available and should not be offered, sold or otherwise made available, to any retail investor in the European Economic Area ("EEA"). For these purposes, a retail investor means a person who is one (or more) of (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, "MiFID II"); (ii) a customer within the meaning of Directive (EU) 2016/97[ (the "Insurance Distribution Directive")], where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Regulation (EU) 2017/1129. Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the "PRIIPs Regulation") for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.]

[MiFID II product governance / Professional investors and ECPs only target market — Solely for the purposes of [the/each] manufacturer's product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is eligible counterparties and professional clients only, each as defined in MiFID II); and (ii) all channels for distribution of the Notes to eligible counterparties and professional clients are appropriate. [Consider any negative target market]. Any person subsequently offering, selling or recommending the Notes (a "distributor") should take into consideration the manufacturer['s/s'] target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer['s/s'] target market assessment) and determining appropriate distribution channels.]

OR

[MIFID II product governance / Retail investors, professional investors and ECPs target market – Solely for the purposes of [the/each] manufacturer's product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is eligible counterparties, professional clients and retail clients, each as defined in MiFID II; EITHER [and (ii) all channels for distribution of the Notes are appropriate, including investment advice, portfolio management, non-advised sales and pure execution services] OR [(ii) all channels for distribution to eligible counterparties and professional clients are appropriate; and (iii) the following channels for distribution of the Notes to retail clients are appropriate - investment advice[,/ and] portfolio management[,/ and][ non-advised sales ][and pure execution services][, subject to the distributor's suitability and appropriateness obligations under MiFID II, as applicable]]. [Consider any negative target market]. Any person subsequently offering, selling or recommending the Notes (a "distributor") should take into consideration the manufacturer['s/s'] target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer['s/s'] target market assessment) and determining appropriate distribution channels[, subject to the distributor's suitability and appropriateness obligations under MiFID II, as applicable].]]

[PROHIBITION OF SALES TO UK RETAIL INVESTORS – The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom ("UK"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (the "EUWA"); (ii) a customer within the meaning of the provisions of the Financial Services and Markets Act 2000 (the "FSMA") and any rules or

regulations made under the FSMA to implement [Directive (EU) 2016/97/the Insurance Distribution Directive], where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 of Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the EUWA. Consequently no key information document required by [Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA/the PRIIPs Regulation] (the "UK PRIIPs Regulation") for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.]

[UK MIFIR product governance / Professional investors and ECPs only target market — Solely for the purposes of [the/each] manufacturer's product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is only eligible counterparties, as defined in the FCA Handbook Conduct of Business Sourcebook ("COBS"), and professional clients, as defined in Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the [European Union (Withdrawal) Act 2018/EUWA] ("UK MiFIR"); and (ii) all channels for distribution of the Notes to eligible counterparties and professional clients are appropriate. [Consider any negative target market]. Any person subsequently offering, selling or recommending the Notes (a "distributor") should take into consideration the manufacturer['s/s'] target market assessment; however, a distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the "UK MiFIR Product Governance Rules") is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer['s/s'] target market assessment) and determining appropriate distribution channels.]

OR

[UK MIFIR product governance / Retail investors, professional investors and ECPs target market -Solely for the purposes of [the/each] manufacturer's product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is retail clients, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the [European Union (Withdrawal) Act 2018/EUWA] ("EUWA"), and eligible counterparties, as defined in the FCA Handbook Conduct of Business Sourcebook ("COBS"), and professional clients, as defined in Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA ("UK MiFIR"); EITHER [and (ii) all channels for distribution of the Notes are appropriate, including investment advice, portfolio management, non-advised sales and pure execution services] **OR** [(ii) all channels for distribution to eligible counterparties and professional clients are appropriate; and (iii) the following channels for distribution of the Notes to retail clients are appropriate - investment advice[,/ and] portfolio management[,/ and][ non-advised sales ][and pure execution services][, subject to the distributor's suitability and appropriateness obligations under COBS, as applicable]]. [Consider any negative target market]. Any person subsequently offering, selling or recommending the Notes (a "distributor") should take into consideration the manufacturer['s/s'] target market assessment; however, a distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the "UK MiFIR Product Governance Rules") is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer['s/s'] target market assessment) and determining appropriate distribution channels[, subject to the distributor's suitability and appropriateness obligations under COBS, as applicable].]

[Singapore SFA Product Classification: In connection with Section 309B(1) of the Securities and Futures Act 2001 (2020 Revised Edition) of Singapore, as modified or amended from time to time (the "SFA") the Issuer has determined, and hereby notifies all relevant persons (as defined in Section 309A(1) of the SFA), that the Notes are ['prescribed capital markets products']/['capital markets products other than prescribed capital markets products'] (as defined in the Securities and Futures (Capital Markets Products) Regulations 2018 of Singapore) and [Excluded Investment Products]/[Specified Investment Products] (as defined in MAS Notice SFA 04-N12:

Notice on the Sale of Investment Products and MAS Notice FAA-N16: Notice on Recommendations on Investment Products).]

of National Numbering Agencies (ANNA) or alternatively sourced from the responsible National Numbering Agency that assigned the ISIN

(v) Any clearing system(s) other than Euroclear Bank SA/NV and Clearstream Banking S.A., the relevant identification number(s) and address(es): [Not Applicable/give name(s), number(s) and address(es)]

(vi) Delivery:

Delivery [against/free of] payment

(vii) Names and addresses of additional Paying Agent(s) (if any):

[ ]/[Not Applicable]

- (viii) Name of Noteholders Agent (if [ ]/[Not Applicable] any):
- (ix) [Intended to be held in a manner which would allow Eurosystem eligibility:

[Yes. Note that the designation "yes" simply means that the Notes are intended upon issue to be deposited with one of the ICSDs as common safekeeper and does not necessarily mean that the Notes will be recognised as eligible collateral for Eurosystem monetary policy and intra day credit operations by the Eurosystem either upon issue or at any or all times during their life. Such recognition will depend upon the ECB being satisfied that Eurosystem eligibility criteria have been met.]/

[No. Whilst the designation is specified as "no" at the date of this Pricing Supplement, should the Eurosystem eligibility criteria be amended in the future such that the Notes are capable of meeting them the Notes may then be deposited with one of the ICSDs as common safekeeper. Note that this does not necessarily mean that the Notes will then be recognised as eligible collateral for Eurosystem monetary policy and intra day credit operations by the Eurosystem at any time during their life. Such recognition will depend upon the ECB being satisfied that Eurosystem eligibility criteria have been met.]]

## 7. DISTRIBUTION

(i) Method of distribution:

[Syndicated/Non-syndicated]

- (ii) If syndicated, names of [Not Applicable/give names] Managers:
- (iii) Stabilisation Manager(s) (if any): [Not Applicable/give name]

(iv) If non-syndicated, name of [Not Applicable/give name] relevant Dealer:

U.S. Selling Restrictions: [Reg. S Compliance Category 2; TEFRA D/TEFRA (v)

C/TEFRA not applicable]

(vi) Additional selling restrictions: [Not Applicable/give details]

(vii) Prohibition of Sales to EEA [Applicable/Not Applicable]

Retail Investors:

(If the Notes clearly do not constitute "packaged" products, "Not Applicable" should be specified. If the Notes may constitute "packaged" products, "Applicable"

should be specified.)

(viii) Prohibition of Sales to UK Retail [Applicable/Not Applicable] Investors:

(If the Notes clearly do not constitute "packaged" products, "Not Applicable" should be specified. If the

Notes may constitute "packaged" products, "Applicable"

should be specified.)

#### TERMS AND CONDITIONS OF THE NOTES

The following are the terms and conditions of the Notes (the "Conditions") which will be incorporated by reference into each global Note and each definitive Note, in the latter case only if permitted by the relevant stock exchange (if any) and agreed by the relevant Issuer and the relevant Dealer at the time of issue but, if not so permitted and agreed, each definitive Note will have endorsed thereon or attached thereto such Conditions. The term "Issuer" as used in these Conditions refers to the Issuer specified as such in the applicable Pricing Supplement in relation to any Tranche of Notes may specify other terms and conditions which shall, to the extent so specified or to the extent inconsistent with the following Conditions, replace or modify the following Conditions for the purpose of such Notes. The applicable Pricing Supplement (or the relevant provisions thereof) will be endorsed upon, or attached to, each global Note and each definitive Note. Reference should be made to the applicable Pricing Supplement, which will specify which terms are to apply in relation to the relevant Notes.

This Note is one of a Series of Notes issued by the Issuer specified as such in the applicable Pricing Supplement (as defined below), being either Alpha Services and Holdings S.A. ("Alpha Holdings") or Alpha Bank S.A. ("Alpha Bank") (together, the "Issuers" and references in these Conditions to the "Issuer" are to the relevant Issuer of such Notes as specified in the applicable Pricing Supplement), the notes of such Series being hereinafter called the "Notes", which expression shall mean (i) in relation to any Notes represented by a global Note, units of each Specified Denomination in the Specified Currency, (ii) definitive Notes issued in exchange for a global Note and (iii) any global Note, each as issued in accordance with an amended and restated Fiscal Agency Agreement (the "Agency Agreement", which expression shall include any amendments or supplements thereto) dated 6 July 2022 and made between the Issuers and Citibank, N.A., London Branch in its capacity as Issuing and Principal Paying Agent (the "Agent", which expression shall include any successor to Citibank, N.A., London Branch in its capacity as such) and the other Paying Agents named therein (the "Paying Agents", which expression shall include the Agent and any substitute or additional Paying Agents appointed in accordance with the Agency Agreement).

The Notes and the Coupons (as defined below) have the benefit of an amended and restated deed of covenant (the "**Deed of Covenant**", which expression shall include any amendments or supplements thereto) dated 6 July 2022 executed by the Issuers in relation to the Notes. The original Deed of Covenant is held by the Agent.

Interest bearing definitive Notes will (unless otherwise indicated in the applicable Pricing Supplement) have interest coupons ("Coupons") and, in the case of Notes which, when issued in definitive form, have more than 27 interest payments remaining, talons for further Coupons ("Talons") attached on issue. Any reference herein to Coupons or coupons shall, unless the context otherwise requires, be deemed to include a reference to Talons or talons.

The applicable final terms of the Notes are set out in Part A of the Pricing Supplement for this Note. Such Pricing Supplement (or the relevant provisions thereof) is attached hereto or endorsed hereon and may specify other terms and conditions which shall, to the extent so specified or to the extent inconsistent with these Terms and Conditions (the "Conditions" and references to a numbered "Condition" shall be construed accordingly), replace or modify these Conditions for the purposes of this Note. Supplements to these Conditions for this Note may specify other terms and conditions which shall, to the extent so specified or to the extent inconsistent with these Conditions, replace or modify these Conditions for the purposes of this Note. References herein to "applicable Pricing Supplement" are to the Pricing Supplement attached hereto or endorsed hereon.

The applicable Pricing Supplement for each Tranche of Notes will state in particular whether this Note is a senior preferred Note (a "Senior Preferred Note") a senior non-preferred Note (a "Senior Non-Preferred Note") or a tier 2 Note (a "Tier 2 Note").

The Notes shall be issued under the provisions of Articles 59 to 74 (inclusive) of Law 4548/2018 and Article 14 of Law 3156/2003 (together, the "Greek Bond Laws"). For the purposes of the Greek Bond Laws, the Issuer shall appoint an agent of the holders of such Notes (the "Noteholders Agent") in accordance with Condition 15 below. Further, for the purposes of Article 60 of Law 4548/2018, these Conditions will constitute the programme of the Notes. If, in respect of any Notes, a Noteholders Agent is not required to be so appointed, references in these Conditions to the Noteholders Agent and the Noteholders Agency Agreement (as defined below) are not applicable.

As used herein, "Tranche" means Notes which are identical in all respects (including as to listing and admission to trading) and "Series" means a Tranche of Notes together with any further Tranche or Tranches of Notes (i) with which they are expressed to be consolidated and form a single series and (ii) which have the same terms and conditions or terms and conditions which are the same in all respects save for the amount and date of the first payment of interest thereon and the date from which interest starts to accrue.

Any reference to "Noteholders" or "holders" in relation to any Notes shall mean the holders of the Notes and shall, in relation to any Notes represented by a global Note, be construed as provided below. Any reference herein to "Couponholders" shall mean the holders of the Coupons and shall, unless the context otherwise requires, include the holders of the Talons.

Certain provisions of these Conditions are summaries of the Agency Agreement and are subject to its detailed provisions. The Noteholders and the Couponholders are deemed to have notice of, and are entitled to the benefit of, all the provisions of the Agency Agreement, the Deed of Covenant and the applicable Pricing Supplement which are applicable to them. Copies of the Agency Agreement and the Deed of Covenant are available for inspection, and copies of the applicable Pricing Supplement may be obtained, during normal business hours upon reasonable request at the specified office of each of the Paying Agents and the Noteholders Agent or may be provided by email to a Noteholder or Couponholder following their prior written request to any Paying Agent and provision of proof of holding and identity (in a form satisfactory to the relevant Paying Agent). If the Notes are to be admitted to trading on the Luxembourg Stock Exchange's Euro MTF market, the applicable Pricing Supplement will be published on the website of the Luxembourg Stock Exchange (www.bourse.lu).

Words and expressions defined in the Agency Agreement or the Deed of Covenant or which are used in the applicable Pricing Supplement shall have the same meanings where used in these Conditions unless the context otherwise requires or unless otherwise stated and **provided that**, in the event of inconsistency between the Agency Agreement or the Deed of Covenant and the applicable Pricing Supplement, the applicable Pricing Supplement will prevail.

In these Conditions, "euro" means the currency introduced at the start of the third stage of European economic and monetary union pursuant to the Treaty on the Functioning of the European Union, as amended, and "RON" means Romanian New Lei.

#### 1. FORM, DENOMINATION AND TITLE

The Notes are in bearer form in the currency (the "Specified Currency") and the denomination(s) (the "Specified Denomination(s)") specified in the applicable Pricing Supplement and, in the case of definitive Notes, serially numbered. Notes of one Specified Denomination may not be exchanged for Notes of another Specified Denomination.

This Note may (i) bear interest calculated by reference to one or more fixed rates of interest (such Note, a "Fixed Rate Note"), (ii) bear interest calculated by reference to, in the case of an initial period, an initial fixed rate of interest and, thereafter, the applicable fixed rate of interest that has been determined pursuant to the reset provisions contained in these Conditions (such Note, a "Reset Note"), (iii) bear interest calculated by reference to one or more floating rates of interest (such Note, a "Floating Rate

**Note**"), (iv) be issued on a non-interest bearing basis and be offered and sold at a discount to its nominal amount (such Note, a "**Zero Coupon Note**") or (v) have an interest rate determined on the basis of a combination of any of the foregoing, depending upon the Interest Basis shown in the applicable Pricing Supplement.

This Note may be a Senior Preferred Note, a Senior Non-Preferred Note or a Tier 2 Note depending upon the Status of the Notes shown in the applicable Pricing Supplement.

Definitive Notes are issued with Coupons attached, unless they are Zero Coupon Notes in which case references to Coupons and Couponholders in these Conditions are not applicable.

Subject as set out below, title to the Notes and Coupons will pass by delivery. Except as ordered by a court of competent jurisdiction or as required by law, the Issuer, any Paying Agent and the Noteholders Agent shall (subject as provided below) be entitled to deem and treat (and no such person will be liable for so deeming and treating) the bearer of any Note or Coupon as the absolute owner thereof (whether or not overdue and notwithstanding any notice of ownership or writing thereon or notice of any previous loss or theft thereof) for all purposes but, in the case of any global Note, without prejudice to the provisions set out in the next succeeding paragraph.

For so long as any of the Notes is represented by a global Note held on behalf of Euroclear Bank SA/NV ("Euroclear") and/or Clearstream Banking S.A. ("Clearstream, Luxembourg") each person (other than Euroclear or Clearstream, Luxembourg) who is for the time being shown in the records of Euroclear or Clearstream, Luxembourg as the holder of a particular nominal amount of Notes (in which regard any certificate or other document issued by Euroclear or Clearstream, Luxembourg as to the nominal amount of Notes standing to the account of any person shall be conclusive and binding for all purposes save in the case of manifest error) shall be treated by the Issuer, the Agent, any other Paying Agent and the Noteholders Agent as the holder of such nominal amount of Notes for all purposes other than with respect to the payment of principal or interest on such Notes, for which purpose the bearer of the relevant global Note shall be treated by the Issuer, the Agent, any other Paying Agent and the Noteholders Agent as the holder of such nominal amount of Notes in accordance with and subject to the terms of the relevant global Note (and the expressions "Noteholder", "holder of Notes" and related expressions shall be construed accordingly). Notes which are represented by a global Note will be transferable only in accordance with the rules and procedures for the time being of Euroclear or of Clearstream, Luxembourg, as the case may be.

Any reference herein to Euroclear and/or Clearstream, Luxembourg shall, whenever the context so permits, be deemed to include a reference to any additional or alternative clearing system approved by the Issuer and the Agent and specified in the applicable Pricing Supplement.

## 2. STATUS OF THE NOTES; NO SET-OFF

#### (a) Status of Senior Preferred Notes

- (i) This Condition 2(a) only applies to Notes which are specified as Senior Preferred Notes in the applicable Pricing Supplement. References in this Condition 2(a) to "Notes", "Coupons" and "holders" shall be construed accordingly.
- (ii) The Notes and any relative Coupons constitute direct, unconditional, unsecured and unsubordinated obligations of the Issuer which will at all times rank:
  - (A) *pari passu* without any preference among themselves;

- (B) at least *pari passu* with all other present and future unsecured and unsubordinated obligations of the Issuer (save for such obligations as may be preferred (with a higher ranking) by mandatory provisions of applicable law in terms of ranking compared to the Notes); and
- (C) in priority to any present and future claims in respect of any obligations of the Issuer which rank or are expressed to rank junior to the Notes including (without limitation) in respect of (I) any Senior Non-Preferred Liabilities (as defined below), (II) all present and future subordinated obligations of the Issuer (including, for the avoidance of doubt, Additional Tier 1 Capital and Tier 2 Capital) and (III) the share capital of the Issuer.
- (iii) Senior Preferred Notes are intended to be MREL-Eligible Liabilities (as defined below).

## (b) Status of Senior Non-Preferred Notes

- (i) This Condition 2(b) only applies to Notes which are specified as Senior Non-Preferred Notes in the applicable Pricing Supplement. References in this Condition 2(b) to "Notes", "Coupons" and "holders" shall be construed accordingly.
- (ii) The Notes and any relative Coupons constitute direct, unconditional, unsecured and unsubordinated obligations of the Issuer which will in the event of a Winding-Up of the Issuer rank:
  - (A) *pari passu* without any preference among themselves;
  - (B) at least *pari passu* with all other Senior Non-Preferred Liabilities;
  - (C) in priority to present and future claims in respect of obligations of the Issuer which rank or are expressed to rank junior to the Notes including (without limitation) in respect of (I) all present and future subordinated obligations of the Issuer and (II) the share capital of the Issuer; and
  - (D) junior to present and future obligations of the Issuer in respect of Senior Preferred Notes and other Higher Ranking Creditors (as defined below).
- (iii) Senior Non-Preferred Notes are intended to be Senior Non-Preferred Liabilities (as defined below) and MREL-Eligible Liabilities.

## (c) Status of Tier 2 Notes

- (i) This Condition 2(c) only applies to Notes which are specified as Tier 2 Notes in the applicable Pricing Supplement. References in this Condition 2(c) to "Notes", "Coupons" and "holders" shall be construed accordingly.
- (ii) Subject to any mandatory provisions of law, the Notes and any relative Coupons constitute direct, unsecured and subordinated obligations of the Issuer which will in the event of a Winding-Up of the Issuer rank:
  - (A) pari passu without any preference among themselves and pari passu with any present and future obligations of the Issuer which rank or are expressed to rank pari passu with the Notes;

- (B) in priority to present and future claims in respect of (I) the share capital of the Issuer and (II) any obligations of the Issuer which rank or are expressed to rank junior to the Notes including (without limitation) in respect of any Additional Tier 1 Capital issued by the Issuer (and all other present and future unsecured obligations of the Issuer which rank or are expressed to rank *pari passu* with any Additional Tier 1 Capital issued by the Issuer); and
- (C) junior to any present and future claims of the Senior Creditors (as defined below).
- (iii) The claims of the Noteholders will be subordinated to the claims of the Senior Creditors in that, in the event of the Winding-Up of the Issuer, payments of principal and interest in respect of the Notes will be conditional upon the Issuer being solvent at the time of payment by the Issuer and in that no principal or interest shall be payable in respect of the Notes at such time except to the extent that the Issuer could make such payment and still be solvent immediately thereafter. For this purpose, the Issuer shall be considered to be solvent if it can pay principal and interest in respect of the Notes and still be able to pay its outstanding debts to the Senior Creditors which are due and payable.
- (iv) In the case of a Winding-Up of the Issuer, the holders will only be paid by the Issuer after all the Senior Creditors have been paid in full and the holders irrevocably waive their right to be treated equally with all other unsecured, unsubordinated creditors of the Issuer in such circumstances. Such waiver constitutes a genuine contract benefitting third parties and, according to article 411 of the Greek Civil Code, or, as the case may be, any other equivalent provision of the law applicable to the Notes, creates rights for the Senior Creditors.

## (d) No Set-off

Subject to applicable law, no holder of any Notes may exercise or claim any right of Set-off (as defined below) in respect of any amount owed to it by the Issuer arising under or in connection with the Notes or thereto, and each holder shall, by virtue of its subscription, purchase or holding of any Note, be deemed to have waived irrevocably all such rights of Set-off. Notwithstanding the provision of the foregoing sentence, to the extent that any Set-off takes place, whether by operation of law or otherwise, between: (y) any amount owed by the Issuer to a holder arising under or in connection with the Notes; and (z) any amount owed to the Issuer by such holder, such holder will immediately transfer such amount which is Set-off to the Issuer or, in the event of its Winding-Up, the liquidator, special liquidator or other relevant insolvency official (as the case may be and to the extent applicable) of the Issuer, to be held on behalf and in the name of the Higher Ranking Creditors.

#### (e) Definitions

In these Conditions:

"Additional Tier 1 Capital" has the meaning given in the Capital Regulations from time to time;

"CRR" means Regulation (EU) No 575/2013 of the European Parliament and of the Council of 26 June 2013 on the prudential requirements for credit institutions and investment firms and amending Regulation (EU) No 648/2012, as amended by Regulation (EU) 2019/876 of 20 May 2019 as regards the leverage ratio, the net stable funding ratio, requirements for own funds and eligible liabilities, counterparty credit risk, market risk, exposures to central counterparties, exposures to collective investment undertakings, large exposures, reporting and disclosure requirements, and as may be further amended or replaced from time to time;

"Higher Ranking Creditors" means creditors of the Issuer whose claims rank or are expressed to rank in priority (including creditors in respect of obligations that may rank higher in priority by mandatory provisions of applicable law, including (where relevant), as at the Issue Date of the first Tranche of the Notes and without limitation, excluded liabilities pursuant to Article 72a(2) of the CRR) to the claims of the Noteholders (whether only in the Winding-Up of the Issuer or otherwise);

"MREL-Eligible Liabilities" means, at any time, eligible liabilities available to meet the Issuer and/or the Group's (as applicable) minimum requirements for own funds and eligible liabilities under the applicable MREL Requirements;

"MREL Requirements" means, at any time, the laws, regulations, requirements, guidelines, rules, standards and policies relating to minimum requirements for own funds and eligible liabilities and/or loss-absorbing capacity instruments applicable to the Issuer and/or the Group at such time, including, without limitation to the generality of the foregoing, any delegated or implementing acts (such as regulatory technical standards) adopted by the European Commission and any regulations, requirements, guidelines, rules, standards and policies relating to minimum requirements for own funds and eligible liabilities and/or loss absorbing capacity instruments adopted by the Hellenic Republic, the Relevant Regulator or the Relevant Resolution Authority from time to time (whether or not such requirements, guidelines or policies are applied generally or specifically to the Issuer and/or the Group), as any of the preceding laws, regulations, requirements, guidelines, rules, standards, policies or interpretations may be amended, supplemented, superseded or replaced from time to time;

"Relevant Regulator" means the European Central Bank or such other body or authority having primary supervisory authority or resolution authority with respect to the Issuer and/or the Group;

"Relevant Resolution Authority" means the resolution authority of the Hellenic Republic, the Single Resolution Board established pursuant to the SRM Regulation and/or any other authority entitled to exercise or participate in the exercise of any resolution power or loss absorption power from time to time;

"Senior Creditors" means creditors of the Issuer (a) who are unsubordinated creditors of the Issuer (including, without limitation, holders of Senior Non-Preferred Notes of the Issuer) or (b) who are subordinated creditors of the Issuer whose claims rank or are expressed to rank in priority to the claims of the Noteholders (whether only in the Winding-Up of the Issuer or otherwise);

"Senior Non-Preferred Liabilities" means any present and future claims in respect of unsecured and unsubordinated obligations of the Issuer which meet the requirements of article 145A paragraph 1(1) (former paragraph 1.a) of Greek Law 4261/2014, or which rank or are expressed to rank *pari passu* with such claims (including, but not limited to, the unsecured and unsubordinated obligations of the Issuer under debt instruments issued prior to 18 December 2018 (being the date of introduction of paragraph 1.a in article 145A of Greek Law 4261/2014));

"Set-off" means set-off, netting, counterclaim, abatement or other similar remedy and, if "Set-off" is used as a verb in these Conditions, it shall be construed accordingly;

"SRM Regulation" means Regulation (EU) No 806/2014 of the European Parliament and Council of 15 July 2014 establishing uniform rules and a uniform procedure for the resolution of credit institutions and certain investment firms in the framework of a Single Resolution Mechanism and a Single Resolution Fund and amending Regulation (EU) No 1093/2010, as amended or replaced from time to time; and

"Winding-Up" means an order is made for the dissolution and liquidation, special liquidation (in the sense of Articles 153 and/or 145 of Law 4261/2014 (the "Greek Special Liquidation Rules")) and/or winding-up (as the case may be and to the extent applicable) of the Issuer.

#### 3. INTEREST

#### (a) Interest on Fixed Rate Notes

Each Fixed Rate Note bears interest on its outstanding nominal amount from (and including) the Interest Commencement Date specified in the applicable Pricing Supplement at the rate(s) per annum equal to the Rate(s) of Interest so specified payable in arrear on the Interest Payment Date(s) in each year and on the Maturity Date so specified if that does not fall on an Interest Payment Date.

If the Notes are in definitive form, except as provided in the applicable Pricing Supplement, the amount of interest payable on each Interest Payment Date in respect of the Fixed Interest Period ending on such date shall be the Fixed Coupon Amount. Payments of interest on any Interest Payment Date will, if so specified in the applicable Pricing Supplement, amount to the Broken Amount so specified.

As used in these Conditions, "Fixed Interest Period" means the period from (and including) an Interest Payment Date (or the Interest Commencement Date) to (but excluding) the next (or first) Interest Payment Date.

Except in the case of Notes in definitive form where an applicable Fixed Coupon Amount or Broken Amount is specified in the applicable Pricing Supplement, interest shall be calculated in respect of any period by applying the Rate of Interest to:

- (i) in the case of Fixed Rate Notes which are represented by a global Note, the aggregate outstanding nominal amount of the Fixed Rate Notes represented by such global Note; or
- (ii) in the case of Fixed Rate Notes in definitive form, the Calculation Amount,

and, in each case, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention. Where the Specified Denomination of a Fixed Rate Note in definitive form is a multiple of the Calculation Amount, the amount of interest payable in respect of such Fixed Rate Note shall be the product of the amount (determined in the manner provided above) per Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

In this Condition 3(a):

"Day Count Fraction" means, in respect of the calculation of an amount of interest, such day count fraction as may be specified in these Conditions or the applicable Pricing Supplement and:

- (A) if "Actual/Actual (ICMA)" is so specified, this means:
  - (a) in the case of Notes where the number of days in the relevant period from (and including) the most recent Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the relevant payment date (the "Accrual Period") is equal to or shorter than the Determination Period during which the Accrual Period ends, the number of days in such Accrual Period divided by the product of (1) the number of days in such Determination Period and (2) the number

- of Determination Dates (as specified in the applicable Pricing Supplement) that would occur in one calendar year; and
- (b) in the case of Notes where the Accrual Period is longer than the Determination Period during which the Accrual Period ends, the sum of:
  - (X) the number of days in such Accrual Period falling in the Determination Period in which the Accrual Period begins divided by the product of (I) the number of days in such Determination Period and (II) the number of Determination Dates that would occur in one calendar year; and
  - (Y) the number of days in such Accrual Period falling in the next Determination Period divided by the product of (I) the number of days in such Determination Period and (II) the number of Determination Dates that would occur in one calendar year; and
- (B) if "30/360" is so specified, means the number of days in the period from (and including) the most recent Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the relevant payment date (such number of days being calculated on the basis of a year of 360 days with 12 30-day months) divided by 360.

In these Conditions:

"Calculation Amount" will be as specified in the applicable Pricing Supplement;

"Determination Period" means each period from (and including) a Determination Date to but excluding the next Determination Date (including, where the Interest Commencement Date or the final Interest Payment Date is not a Determination Date, the period commencing on the first Determination Date prior to, and ending on the first Determination Date falling after, such date); and

"sub-unit" means, with respect to any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, with respect to euro, one cent.

#### (b) Interest on Reset Notes

(i) Rates of Interest and Interest Payment Dates

Each Reset Note bears interest:

- (A) from (and including) the Interest Commencement Date specified in the applicable Pricing Supplement to (but excluding) the First Reset Date at the rate per annum equal to the Initial Rate of Interest;
- (B) from (and including) the First Reset Date to (but excluding) the Second Reset Date or, if no such Second Reset Date is specified in the applicable Pricing Supplement, the Maturity Date at the rate per annum equal to the First Reset Rate of Interest; and
- (C) if applicable, from (and including) the Second Reset Date to (but excluding) the first Subsequent Reset Date (if any), and each successive period from (and including) any Subsequent Reset Date to (but excluding) the next succeeding Subsequent Reset Date (if any) or the Maturity Date, as the case may be (each a "Subsequent Reset

**Period**") at the rate per annum equal to the relevant Subsequent Reset Rate of Interest,

(in each case rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards) payable, in each case, in arrear on the Interest Payment Date(s) in each year and on the Maturity Date so specified if that does not fall on an Interest Payment Date.

The Rate of Interest and the amount of interest (the "Interest Amount") payable shall be determined by the Calculation Agent, (A) in the case of the Rate of Interest, at or as soon as practicable after each time at which the Rate of Interest is to be determined, and (B) in the case of the Interest Amount in accordance with the provisions for calculating amounts of interest in Condition 3(a) and, for such purposes, references in the fourth paragraph of Condition 3(a) to "Fixed Rate Notes" shall be deemed to be to "Reset Notes" and Condition 3(a) shall be construed accordingly.

In these Conditions:

"First Margin" means the margin specified as such in the applicable Pricing Supplement;

"First Reset Date" means the date specified in the applicable Pricing Supplement;

"First Reset Period" means the period from (and including) the First Reset Date until (but excluding) the Second Reset Date or, if no such Second Reset Date is specified in the applicable Pricing Supplement, the Maturity Date;

"First Reset Period Fallback Yield" means the yield specified in the applicable Pricing Supplement;

"First Reset Rate of Interest" means, in respect of the First Reset Period and subject to Condition 3(b)(ii) (if applicable), the rate of interest determined by the Calculation Agent on the relevant Reset Determination Date as the sum, converted from a basis equivalent to the Benchmark Frequency specified in the applicable Pricing Supplement to a basis equivalent to the frequency with which scheduled interest payments are payable on the Notes during the relevant Reset Period (such calculation to be determined by the Issuer in conjunction with a leading financial institution selected by it), of (A) the relevant Reset Reference Rate and (B) the First Margin;

"H.15" means the daily statistical release designated as H.15, or any successor publication, published by the board of governors of the Federal Reserve System at <a href="https://www.federalreserve.gov/releases/H15">https://www.federalreserve.gov/releases/H15</a> or such other page, section, successor site or publication as may replace it;

"Initial Rate of Interest" has the meaning specified in the applicable Pricing Supplement;

"Mid-Market Swap Rate" means, for any Reset Period, the mean of the bid and offered rates for the fixed leg payable with a frequency equivalent to the Benchmark Frequency specified in the applicable Pricing Supplement (calculated on the day count basis customary for fixed rate payments in the Specified Currency as determined by the Calculation Agent, or failing which, the Issuer) of a fixed-for-floating interest rate swap transaction in the Specified Currency which transaction (i) has a term equal to the relevant Reset Period and commencing on the relevant Reset Date, (ii) is in an amount that is representative for a single transaction in the relevant market at the relevant time with an acknowledged dealer of good credit in the swap market and (iii) has a floating leg based on the Mid-Swap Floating Leg Benchmark Rate for

the Mid-Swap Floating Leg Frequency (as specified in the applicable Pricing Supplement) (calculated on the day count basis customary for floating rate payments in the Specified Currency as determined by the Calculation Agent);

"Mid-Market Swap Rate Quotation" means a quotation (expressed as a percentage rate per annum) for the relevant Mid-Market Swap Rate;

"Mid-Swap Floating Leg Benchmark Rate" means EURIBOR if the Specified Currency is euro, ROBOR if the Specified Currency is RON or such other rate as may be specified in the applicable Pricing Supplement;

"Rate of Interest" means the Initial Rate of Interest, the First Reset Rate of Interest or the Subsequent Reset Rate of Interest, as applicable;

"Reference Bond" means, in relation to any Reset Period, a government security or securities issued by the state responsible for issuing the Specified Currency (which, if the Specified Currency is euro, shall be Germany), as selected by the Issuer on the advice of an investment bank of international repute, that would be utilised, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities denominated in the Specified Currency and of a comparable maturity to such Reset Period;

"Reference Bond Quotation" means, in relation to a Reset Reference Bank and a Reset Determination Date:

- (i) if CMT Rate is specified as the Reset Reference Rate in the applicable Pricing Supplement, the rate, as determined by the Calculation Agent, as being a yield-to-maturity based on the arithmetic mean of the secondary market bid prices of such Reset Reference Bank for the relevant Reset U.S. Treasury Securities at approximately 11.00 a.m. New York City time on the Reset Business Day following such Reset Determination Date; or
- (ii) if Reference Bond is specified as the Reset Reference Rate in the applicable Pricing Supplement, the arithmetic mean, as determined by the Calculation Agent, of the bid and offered yields for the relevant Reference Bond requested by the Issuer and provided to the Issuer by such Reset Reference Bank at approximately 11.00 a.m. in the principal financial centre of the Specified Currency on such Reset Determination Date;

"Reset Business Day" means a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in any Business Centre specified in the applicable Pricing Supplement;

"Reset Date" means the First Reset Date, the Second Reset Date and each Subsequent Reset Date (as applicable);

"Reset Determination Date" means, without prejudice to the impact of the fallbacks applicable to CMT Rate set out in paragraph (ii)(C) of the definition of Reset Reference Rate, in respect of the First Reset Period, the second Reset Business Day prior to the First Reset Date, in respect of the first Subsequent Reset Period, the second Reset Business Day prior to the Second Reset Date and, in respect of each Subsequent Reset Period thereafter, the second Business Day prior to the first day of each such Subsequent Reset Period;

"Reset Period" means the First Reset Period or a Subsequent Reset Period, as the case may be:

"Reset Reference Bank Rate" means, in relation to a Reset Period and the Reset Determination Date in relation to such Reset Period, the rate (expressed as a percentage rate per annum and rounded, if necessary, to the nearest 0.001 per cent. (0.0005 per cent. being rounded upwards)) determined on the basis of the Reference Bond Quotations requested by the Issuer and provided by the Reset Reference Banks to the Issuer at:

- (i) if CMT Rate is specified as the Reset Reference Rate in the applicable Pricing Supplement, approximately 11.00 a.m. New York City time on the next Reset Business Day following such Reset Determination Date; or
- (ii) if Reference Bond is specified as the Reset Reference Rate in the applicable Pricing Supplement, approximately 11.00 a.m. in the principal financial centre of the Specified Currency on such Reset Determination Date.

If at least four such Reference Bond Quotations are provided, the Reset Reference Bank Rate will be the arithmetic mean (rounded as aforesaid) of the Reference Bond Quotations provided, eliminating the highest quotation (or, in the event of equality, one of the highest) and the lowest quotation (or, in the event of equality, one of the lowest). If only two or three Reference Bond Quotations are provided, the Reset Reference Bank Rate will be the arithmetic mean (rounded as aforesaid) of the Reference Bond Quotations provided. If fewer than two Reference Bond Quotations are provided, the Reset Reference Bank Rate for the relevant Reset Period will be (a) in the case of each Reset Period other than the First Reset Period, the Reset Reference Bank Rate) in respect of the immediately preceding Reset Period or (b) in the case of the First Reset Period, the First Reset Period Fallback Yield;

#### "Reset Reference Banks" means:

- (i) if Mid-Swap Rate is specified as the Reset Reference Rate in the applicable Pricing Supplement, the principal office in the principal financial centre of the Specified Currency of five major banks in the swap, money, securities or other market most closely connected with the relevant Reset Reference Rate as selected by the Issuer on the advice of an investment bank of international repute;
- (ii) if CMT Rate is specified as the Reset Reference Rate in the applicable Pricing Supplement, the principal office in New York City of five major banks which are primary U.S. Treasury Securities dealers or market makers in pricing corporate bond issues denominated in U.S. dollars as selected by the Issuer on the advice of an investment bank of international repute; or
- (iii) if Reference Bond is specified as the Reset Reference Rate in the applicable Pricing Supplement, the principal office in the principal financial centre of the Specified Currency of four major banks which are primary government securities dealers or market makers in pricing corporate bond issues denominated in the Specified Currency as selected by the Issuer on the advice of an investment bank of international repute;

"Reset Reference Rate" means, in relation to a Reset Determination Date and subject to Condition 3(b)(ii) (if applicable), either:

- (i) if Mid-Swap Rate is specified in the applicable Pricing Supplement:
  - (A) if Single Mid-Swap Rate is specified in the applicable Pricing Supplement, the rate for swaps in the Specified Currency:
    - (1) with a term equal to the relevant Reset Period; and
    - (2) commencing on the relevant Reset Date,

which appears on the Relevant Screen Page or such replacement page on that service which displays the information; or

- (B) if Mean Mid-Swap Rate is specified in the applicable Pricing Supplement, the arithmetic mean (expressed as a percentage rate per annum and rounded, if necessary, to the nearest 0.001 per cent. (0.0005 per cent. being rounded upwards)) of the bid and offered swap rate quotations for swaps in the Specified Currency:
  - (1) with a term equal to the relevant Reset Period; and
  - (2) commencing on the relevant Reset Date,

which appear on the Relevant Screen Page or such replacement page on that service which displays the information,

in either case, as at approximately 11.00 a.m. in the principal financial centre of the Specified Currency on such Reset Determination Date, all as determined by the Calculation Agent;

- (ii) if CMT Rate is specified in the applicable Pricing Supplement and if the Specified Currency is U.S. dollars, the rate which is equal to:
  - (A) the yield for U.S. Treasury Securities at "constant maturity" for a period of maturity which is equal or comparable to the duration of the relevant Reset Period, as published in the H.15 under the caption "Treasury constant maturities (nominal)", as that yield is displayed on such Reset Determination Date, on the Relevant Screen Page; or
  - (B) if the yield referred to in paragraph (A) above is not published by approximately 4.30 p.m. New York City time on the Relevant Screen Page on such Reset Determination Date, the yield for the U.S. Treasury Securities at "constant maturity" having a period to maturity which is equal or comparable to the duration of the relevant Reset Period as published in H.15 under the caption "Treasury constant maturities (nominal)" on such Reset Determination Date; or
  - (C) if the yield referred to in paragraph (B) above is not published on such Reset Determination Date, the Reset Reference Bank Rate on the Reset Business Day following such Reset Determination Date; or
- (iii) if Reference Bond is specified in the applicable Pricing Supplement the Reset Reference Bank Rate on such Reset Determination Date;

"Reset U.S. Treasury Securities" means, in relation to a Reset Determination Date, U.S. Treasury Securities:

- (i) with an original term to maturity which is equal or comparable to the duration of the relevant Reset Period and a remaining term to maturity of no less than one year less than the duration of the relevant Reset Period; and
- (ii) in a principal amount equal to an amount that is representative for a single transaction in such U.S. Treasury Securities in the New York City market.

If two U.S. Treasury Securities have remaining terms to maturity of no less than one year shorter than the Reset Period, the U.S. Treasury Security with the longer remaining term to maturity will be used for the purposes of the relevant determination and if two U.S. Treasury Securities have remaining terms to maturity equally close to the duration of the relevant Reset Period, the U.S. Treasury Security with the larger principal amount outstanding will be used for the purposes of the relevant determination;

"Second Reset Date" means the date specified in the applicable Pricing Supplement;

"Subsequent Margin" means the margin specified as such in the applicable Pricing Supplement;

"Subsequent Reset Date" means the date or dates specified in the applicable Pricing Supplement;

"Subsequent Reset Rate of Interest" means, in respect of any Subsequent Reset Period and subject to Condition 3(b)(ii) (if applicable), the rate of interest determined by the Calculation Agent on the relevant Reset Determination Date as the sum, converted from a basis equivalent to the Benchmark Frequency specified in the applicable Pricing Supplement to a basis equivalent to the frequency with which scheduled interest payments are payable on the Notes during the relevant Reset Period (such calculation to be determined by the Issuer in conjunction with a leading financial institution selected by it), of (A) the relevant Reset Reference Rate and (B) the relevant Subsequent Margin; and

"U.S. Treasury Securities" means securities that are direct obligations of the United States Treasury, issued other than on a discount basis.

#### (ii) Fallbacks

This Condition 3(b)(ii) only applies if the Reset Reference Rate is specified in the applicable Pricing Supplement as Mid-Swap Rate.

Subject as provided in Condition 3(d), if on any Reset Determination Date the Relevant Screen Page is not available or the Reset Reference Rate does not appear on the Relevant Screen Page, the Issuer shall request each of the Reset Reference Banks to provide the Issuer with its Mid-Market Swap Rate Quotation as at approximately 11.00 a.m. in the principal financial centre of the Specified Currency on the Reset Determination Date in question.

If two or more of the Reset Reference Banks provide the Issuer with Mid-Market Swap Rate Quotations, the First Reset Rate of Interest or the Subsequent Reset Rate of Interest (as applicable) for the relevant Reset Period shall be equal to the sum (converted as set out in the definition of such term above) of the arithmetic mean (rounded, if necessary, to the nearest 0.001 per cent. (0.0005 per cent. being rounded upwards)) of the relevant Mid-Market Swap

Rate Quotations and the First Margin or Subsequent Margin (as applicable), all as determined by the Calculation Agent.

If on any Reset Determination Date only one of the Reset Reference Banks provides the Issuer with a Mid-Market Swap Rate Quotation as provided in the foregoing provisions of this paragraph, the First Reset Rate of Interest or the Subsequent Reset Rate of Interest (as applicable) shall be equal to the sum (converted as set out in the definition of such term above) (rounded, if necessary, to the nearest 0.001 per cent. (0.0005 per cent. being rounded upwards)) of the relevant Mid-Market Swap Rate Quotation and the First Margin or Subsequent Margin (as applicable), all as determined by the Calculation Agent.

If on any Reset Determination Date none of the Reset Reference Banks provides the Issuer with a Mid-Market Swap Rate Quotation as provided in the foregoing provisions of this paragraph, the First Reset Rate of Interest or the Subsequent Reset Rate of Interest (as applicable) shall be equal to the sum (converted as set out in the definition of such term above) (rounded, if necessary, to the nearest 0.001 per cent. (0.0005 per cent. being rounded upwards)) of the last observable mid-swap rate with an equivalent term and currency to the relevant Reset Reference Rate which appeared on the Relevant Screen Page and the First Margin or Subsequent Margin (as applicable), all as determined by the Calculation Agent.

# (iii) Notification of First Reset Rate of Interest, Subsequent Reset Rate of Interest and Interest Amount

The Calculation Agent will cause the First Reset Rate of Interest, any Subsequent Reset Rate of Interest and, in respect of a Reset Period, the Interest Amount payable on each Interest Payment Date falling in such Reset Period to be notified to the Issuer, the Agent and to any stock exchange (or to a listing agent for onwards communication to a stock exchange) on which the relevant Reset Notes are for the time being listed and notice thereof to be published in accordance with Condition 13 as soon as possible after their determination but in no event later than the fourth London Business Day (as defined in Condition 3(c)(viii)) thereafter (or where the relevant Reset Notes are listed on the Luxembourg Stock Exchange, by no later than the first day of the relevant Reset Period). Each Interest Amount so notified may be subsequently amended (or appropriate alternative arrangements made by way of adjustment) without notice in the event of an extension or shortening of the Interest Period. Any such amendment will be promptly notified by the Agent to each stock exchange on which the relevant Reset Notes are for the time being listed and to the Noteholders in accordance with Condition 13.

## (iv) Certificates to be final

All certificates, communications, opinions, determinations, calculations, quotations and decisions given, expressed, made or obtained for the purposes of the provisions of this Condition 3(b) shall (in the absence of wilful default, bad faith or manifest error) be binding on the Issuer, the Agent, the Calculation Agent, the other Paying Agents and all Noteholders and Couponholders and (in the absence of the aforesaid) no liability to the Noteholders, the Couponholders or (subject to the provisions of the Agency Agreement) the Issuer shall attach to the Calculation Agent in connection with the exercise or non-exercise by it of its powers, duties and discretions pursuant to such provisions.

#### (c) Interest on Floating Rate Notes

## (i) Interest Payment Dates

Each Floating Rate Note bears interest on its outstanding nominal amount from (and including) the Interest Commencement Date and such interest will be payable in arrear on either:

- (A) the Specified Interest Payment Date(s) (each an "Interest Payment Date") in each year specified in the applicable Pricing Supplement; or
- (B) if no Specified Interest Payment Date(s) is/are specified in the applicable Pricing Supplement, each date (each an "Interest Payment Date") which (save as otherwise mentioned in these Conditions or the applicable Pricing Supplement) falls the number of months or other period specified as the Specified Period in the applicable Pricing Supplement after the preceding Interest Payment Date or, in the case of the first Interest Payment Date, after the Interest Commencement Date.

Such interest will be payable in respect of each Interest Period. In these Conditions, "Interest Period" means the period from (and including) an Interest Payment Date (or the Interest Commencement Date) to (but excluding) the next (or first) Interest Payment Date.

If a Business Day Convention is specified in the applicable Pricing Supplement and (x) if there is no numerically corresponding day on the calendar month in which an Interest Payment Date should occur or (y) if any Interest Payment Date would otherwise fall on a day which is not a Business Day (as defined below), then, if the Business Day Convention specified is:

- (1) in any case where Specified Periods are specified in accordance with Condition 3(c)(i)(B), the Floating Rate Convention, such Interest Payment Date (i) in the case of (x) above, shall be the last day that is a Business Day in the relevant month and the provisions of (B) below shall apply *mutatis mutandis* or (ii) in the case of (y) above, shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event (A) such Interest Payment Date shall be brought forward to the immediately preceding Business Day and (B) each subsequent Interest Payment Date shall be the last Business Day in the month which falls the Specified Period after the preceding applicable Interest Payment Date occurred; or
- (2) the Following Business Day Convention, such Interest Payment Date shall be postponed to the next day which is a Business Day; or
- (3) the Modified Following Business Day Convention, such Interest Payment Date shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Interest Payment Date shall be brought forward to the immediately preceding Business Day; or
- (4) the Preceding Business Day Convention, such Interest Payment Date shall be brought forward to the immediately preceding Business Day.

In these Conditions:

"Business Day" means (unless otherwise stated in the applicable Pricing Supplement) a day which is both:

(A) a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign

currency deposits) in London and any Additional Business Centre specified in the applicable Pricing Supplement; and

(B) either (1) in relation to any sum payable in a Specified Currency other than euro, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial centre of the country of the relevant Specified Currency (which if the Specified Currency is Australian dollars or New Zealand dollars shall be Melbourne or Auckland, respectively) or (2) in relation to any sum payable in euro, a day on which the Trans-European Automated Real-Time Gross Settlement Express Transfer (TARGET2) payment system which utilises a single shared platform and which was launched on 19 November 2007 (the "TARGET2 System") is open.

### (ii) Rate of Interest

The Rate of Interest payable from time to time in respect of Floating Rate Notes will be determined in the manner specified in the applicable Pricing Supplement.

(iii) ISDA Determination for Floating Rate Notes

Where ISDA Determination is specified in the applicable Pricing Supplement as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period will be the relevant ISDA Rate plus or minus (as indicated in the applicable Pricing Supplement) the Margin (if any). For the purposes of this sub-paragraph (iii), "ISDA Rate" for an Interest Period means a rate equal to the Floating Rate that would be determined by the Agent or other person specified in the applicable Pricing Supplement under an interest rate swap transaction if the Agent or that other person were acting as Calculation Agent for that swap transaction under the terms of an agreement incorporating (i) if "2006 ISDA Definitions" is specified in the applicable Pricing Supplement, the 2006 ISDA Definitions as published by the International Swaps and Derivatives Association, Inc. ("ISDA") and as amended and updated as at the Issue Date of the first Tranche of the Notes; or (ii) if "2021 ISDA Definitions" is specified in the applicable Pricing Supplement, the latest version of the 2021 ISDA Interest Rate Derivatives Definitions, as published by ISDA as at the Issue Date of the first Tranche of the Notes (the definitions specified in the applicable Pricing Supplement being the "ISDA Definitions") and under which:

- (A) the Floating Rate Option is as specified in the applicable Pricing Supplement;
- (B) the Designated Maturity is a period specified in the applicable Pricing Supplement; and
- (C) the relevant Reset Date is the day specified in the applicable Pricing Supplement.

For purposes of this sub-paragraph (iii), (a) "Floating Rate", "Calculation Agent", "Floating Rate Option", "Designated Maturity" and "Reset Date" have the meanings given to those terms in the ISDA Definitions and (b) the definition of "Banking Day" in the ISDA Definitions shall be amended to insert after the words "are open for" in the second line the word "general".

(iv) Screen Rate Determination for Floating Rate Notes

Where Screen Rate Determination is specified in the applicable Pricing Supplement as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period will, subject as provided below, be either:

- (A) the offered quotation (if there is only one quotation on the Relevant Screen Page); or
- (B) the arithmetic mean (rounded if necessary to the fourth decimal place, with 0.00005 being rounded upwards) of the offered quotations,

(expressed as a percentage rate per annum), for the Reference Rate which appears or appear, as the case may be, on the Relevant Screen Page (or such replacement page on that service which displays the information) as at the Specified Time on the Interest Determination Date in question plus or minus (as indicated in the applicable Pricing Supplement) the Margin (if any), all as determined by the Agent. If five or more such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, only one of such quotations) shall be disregarded by the Agent for the purpose of determining the arithmetic mean (rounded as provided above) of such offered quotations.

Subject as provided in Condition 3(d), if the Relevant Screen Page is not available or if, in the case of (A) above, no such quotation appears or, in the case of (B) above, fewer than three such offered quotations appear, in each case as at the Specified Time, the Issuer shall request, if the Reference Rate is EURIBOR, the principal Eurozone office of each of the Reference Banks or, if the Reference Rate is ROBOR, the principal Bucharest office of each of the Reference Banks (as defined below), to provide the Issuer with its offered quotation (expressed as a percentage rate per annum) for deposits in the Specified Currency for the relevant Interest Period, if the Reference Rate is EURIBOR, to leading banks in the Eurozone inter-bank market as at 11.00 a.m. (Brussels time) or, if the Reference Rate is ROBOR, to leading banks in the Bucharest inter-bank market at 11.00 a.m. (Bucharest time) on the Interest Determination Date in question.

If two or more of the Reference Banks provide the Issuer with offered quotations, the Rate of Interest for the Interest Period shall be the arithmetic mean (rounded if necessary to the fourth decimal place, with 0.00005 being rounded upwards) of the offered quotations plus or minus (as appropriate) the Margin (if any), all as determined by the Agent.

If on any Interest Determination Date one only or none of the Reference Banks provides the Issuer with an offered quotation as provided in the preceding paragraph, the Rate of Interest for the relevant Interest Period shall be the rate per annum which the Agent determines as being the arithmetic mean (rounded if necessary to the fourth decimal place, with 0.00005 being rounded upwards) of the rates, as communicated to (and at the request of) the Issuer by the Reference Banks or any two or more of them, at which such banks were offered, at approximately the Specified Time on the relevant Interest Determination Date, deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate by leading banks in the Euro-zone inter-bank market (if the Reference Rate is EURIBOR), or by leading banks in the Bucharest inter-bank market (if the Reference Rate is ROBOR), plus or minus (as appropriate) the Margin (if any) or, if fewer than two of the Reference Banks provide the Issuer with offered rates, the offered rate for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, or the arithmetic mean (rounded as provided above) of the offered rates for deposits in the Specified Currency for a period equal to that which would have been used for the

Reference Rate, at which, at approximately the Specified Time on the relevant Interest Determination Date, any one or more banks (which bank or banks is or are in the opinion of the Issuer suitable for the purpose) informs the Issuer it is quoting to leading banks in the Euro-zone inter-bank market (if the Reference Rate is EURIBOR), or by leading banks in the Bucharest inter-bank market (if the Reference Rate is ROBOR), plus or minus (as appropriate) the Margin (if any), provided that, if the Rate of Interest cannot be determined in accordance with the foregoing provisions of this paragraph, the Rate of Interest shall be equal to that determined as at the last preceding Interest Determination Date (though substituting, where a different Margin is to be applied to the relevant Interest Period from that which applied to the last preceding Interest Period, the Margin relating to the relevant Interest Period in place of the Margin relating to that last preceding Interest Period).

For the purposes of this Condition 3(c)(iv):

"Reference Banks" means, in the case of a determination of EURIBOR, the principal Eurozone office of four leading banks in the Euro-zone inter-bank market, or, in the case of ROBOR, the principal Bucharest office of four leading banks in the Bucharest inter-bank market, in each case selected by the Issuer;

"Reference Rate" means the rate specified in the applicable Pricing Supplement; and

"Specified Time" means the time specified as such in the Pricing Supplement.

#### (v) Minimum and/or Maximum Rate of Interest

If the applicable Pricing Supplement specifies a Minimum Rate of Interest for any Interest Period then, in the event that the Rate of Interest in respect of such Interest Period determined in accordance with the above provisions is less than such Minimum Rate of Interest, the Rate of Interest for such Interest Period shall be such Minimum Rate of Interest. If the applicable Pricing Supplement specifies a Maximum Rate of Interest for any Interest Period then, in the event that the Rate of Interest in respect of any such Interest Period determined in accordance with the above provisions is greater than such Maximum Rate of Interest, the Rate of Interest for such Interest Period shall be such Maximum Rate of Interest.

Unless otherwise stated in the applicable Pricing Supplement the Minimum Rate of Interest shall be deemed to be zero.

#### (vi) Determination of Rate of Interest and Calculation of Interest Amount

The Agent will, at or as soon as practicable after each time at which the Rate of Interest is to be determined, determine the Rate of Interest for the relevant Interest Period. The Agent will calculate the amount of interest (the "Interest Amount") payable on the Floating Rate Notes for the relevant Interest Period by applying the Rate of Interest to:

- (A) in the case of Floating Rate Notes which are represented by a global Note, the aggregate outstanding nominal amount of the Notes represented by such global Note; and
- (B) in the case of Floating Rate Notes in definitive form, the Calculation Amount,

and, in each case, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest cent (or its approximate equivalent sub-unit of the relevant Specified Currency, half of any sub-unit being rounded upwards or otherwise in accordance with applicable market convention). Where the Specified Denomination of a Floating Rate Note in definitive form is a multiple of the Calculation Amount, the Interest Amount payable in respect of such Floating Rate Note shall be the product of the amount (determined in the manner provided above) per Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination without any further rounding.

In this Condition 3(c):

"Day Count Fraction" means, in respect of the calculation of an amount of interest for any Interest Period, such day count fraction as may be specified in these Conditions or the applicable Pricing Supplement and:

- (A) if "Actual/Actual (ISDA)" or "Actual/Actual" is so specified, means the actual number of days in the Interest Period divided by 365 (or, if any portion of that Interest Period falls in a leap year, the sum of (A) the actual number of days in that portion of the Interest Period falling in a leap year divided by 366 and (B) the actual number of days in that portion of the Interest Period falling in a non-leap year divided by 365);
- (B) if "Actual/365 (Fixed)" is so specified, means the actual number of days in the Interest Period divided by 365;
- (C) if "Actual/360" is so specified, means the actual number of days in the Interest Period divided by 360;
- (D) if "30/360" or "360/360" or "Bond Basis" is so specified, means the number of days in the Interest Period divided by 360, calculated on a formula basis as follows:

Day Count Fraction = 
$$\frac{[360 \text{ x} (Y_2 - Y_1)] + [30 \text{ x} (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

" $Y_1$ " is the year, expressed as a number, in which the first day of the Interest Period falls;

"Y<sub>2</sub>" is the year, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

"M<sub>1</sub>" is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

"M<sub>2</sub>" is the calendar month, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

" $D_1$ " is the first calendar day, expressed as a number, of the Interest Period, unless such number would be 31, in which case  $D_1$  will be 30; and

" $D_2$ " is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless such number would be 31 and  $D_1$  is greater than 29, in which case  $D_2$  will be 30;

(E) if "30E/360" or "Eurobond Basis" is so specified, means the number of days in the Interest Period divided by 360, calculated on a formula basis as follows:

Day Count Fraction = 
$$\frac{[360 \text{ x} (Y_2 - Y_1)] + [30 \text{ x} (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

"Y<sub>1</sub>" is the year, expressed as a number, in which the first day of the Interest Period falls;

"Y<sub>2</sub>" is the year, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

 $"M_1"$  is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

"M<sub>2</sub>" is the calendar month, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

" $D_1$ " is the first calendar day, expressed as a number, of the Interest Period, unless such number would be 31, in which case  $D_1$  will be 30; and

" $D_2$ " is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless such number would be 31, in which case  $D_2$  will be 30; and

(F) if "30E/360 (ISDA)" is so specified, means the number of days in the Interest Period divided by 360, calculated on a formula basis as follows:

Day Count Fraction = 
$$\frac{[360 \text{ x} (Y_2 - Y_1)] + [30 \text{ x} (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

" $Y_1$ " is the year, expressed as a number, in which the first day of the Interest Period falls:

"Y<sub>2</sub>" is the year, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

 $"M_1"$  is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

"M<sub>2</sub>" is the calendar month, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

" $D_1$ " is the first calendar day, expressed as a number, of the Interest Period, unless (i) that day is the last day of February or (ii) such number would be 31, in which case  $D_1$  will be 30; and

"D<sub>2</sub>" is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless (i) that day is the last day of February but not the Maturity Date or (ii) such number would be 31, in which case D<sub>2</sub> will be 30.

#### (vii) Linear Interpolation

Where Linear Interpolation is specified as applicable in respect of an Interest Period in the applicable Pricing Supplement, the Rate of Interest for such Interest Period shall be calculated by the Agent by straight line linear interpolation by reference to two rates based on the relevant Reference Rate (where Screen Rate Determination is specified as applicable in the applicable Pricing Supplement) or the relevant Floating Rate Option (where ISDA Determination is specified as applicable in the applicable Pricing Supplement), one of which shall be determined as if the Designated Maturity were the period of time for which rates are available next shorter than the length of the relevant Interest Period and the other of which shall be determined as if the Designated Maturity were the period of time for which rates are available next longer than the length of the relevant Interest Period provided however that if there is no rate available for a period of time next shorter or, as the case may be, next longer, then the Issuer shall determine such rate at such time and by reference to such sources as it determines appropriate.

"Designated Maturity" means, in relation to Screen Rate Determination, the period of time designated in the Reference Rate.

#### (viii) Notification of Rate of Interest and Interest Amount

The Agent will cause the Rate of Interest and each Interest Amount for each Interest Period and the relevant Interest Payment Date to be notified to the Issuer and to any stock exchange on which the relevant Floating Rate Notes are for the time being listed, and notice thereof to be published in accordance with Condition 13 as soon as possible after their determination but in no event later than the fourth London Business Day thereafter (or, where the relevant Floating Rate Notes are listed on the Luxembourg Stock Exchange, by no later than the first day of the relevant Interest Period). Each Interest Amount and Interest Payment Date so notified may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without notice in the event of an extension or shortening of the Interest Period. Any such amendment will promptly be notified to each stock exchange on which the relevant Floating Rate Notes are for the time being listed and to the Noteholders in accordance with Condition 13. For the purposes of this paragraph, the expression "London Business Day" means a day (other than a Saturday or a Sunday) on which commercial banks and foreign exchange markets are open for general business in London.

## (ix) Certificates to be final

All certificates, communications, opinions, determinations, calculations, quotations and decisions given, expressed, made or obtained for the purposes of the provisions of this Condition 3(c) shall (in the absence of wilful default, bad faith or manifest error) be binding on the Issuer, the Agent, the Calculation Agent (if applicable), the other Paying Agents and all Noteholders and Couponholders and (in the absence as aforesaid) no liability to the Issuer, the Noteholders or the Couponholders shall attach to the Agent or the Calculation Agent (if applicable) in connection with the exercise or non-exercise by it of its powers, duties and discretions pursuant to such provisions.

## (d) Benchmark Replacement

If:

(1) the Reset Note provisions are specified as being applicable in the applicable Pricing Supplement and the Reset Reference Rate is specified as Mid-Swap Rate in the applicable Pricing Supplement; or

(2) the Floating Rate Note provisions are specified as being applicable in the applicable Pricing Supplement and Screen Rate Determination is specified in the applicable Pricing Supplement as the manner in which the Rate of Interest is to be determined,

and, in each case, if Benchmark Replacement is also specified as being applicable in the applicable Pricing Supplement, then the provisions of this Condition 3(d) shall apply.

If, notwithstanding the provisions of Condition 3(b) or Condition 3(c), as applicable, the Issuer determines that a Benchmark Event has occurred when any Rate of Interest (or component thereof) remains to be determined by reference to an Original Reference Rate, then the following provisions shall apply to the relevant Series of Notes:

- (A) the Issuer shall use reasonable endeavours, as soon as reasonably practicable, to appoint an Independent Adviser to determine:
  - I. a Successor Reference Rate; or
  - II. if such Independent Adviser fails so to determine a Successor Reference Rate, an Alternative Reference Rate,

and, in each case, an Adjustment Spread (in any such case, acting in good faith and in a commercially reasonable manner) by no later than the relevant IA Determination Cut-off Date for the purposes of determining the Rate of Interest (or the relevant component part thereof) for all relevant future payments of interest on the Notes (in respect of periods beginning after the end of the then current Reset Period or, as the case may be, the then current Interest Period or, if the Issuer determines on or prior to the first Reset Determination Date or, as the case may be, the next occurring Interest Determination Date, that a Benchmark Event has occurred, in respect of periods beginning from the First Reset Date or, as the case may be, the next occurring Interest Determination Date onwards) for which the Rate of Interest (or the relevant component part thereof) was otherwise to be determined by reference to such Original Reference Rate (subject to the subsequent operation of, and adjustment as provided in, this Condition 3(d));

- (B) if the Issuer is unable to appoint an Independent Adviser, or the Independent Adviser appointed by the Issuer fails to determine a Successor Reference Rate or an Alternative Reference Rate (as applicable) prior to the relevant IA Determination Cut-off Date, the Issuer (acting in good faith and in a commercially reasonable manner) may determine:
  - I. a Successor Reference Rate; or
  - II. if the Issuer fails so to determine a Successor Reference Rate, an Alternative Reference Rate,

and, in each case, an Adjustment Spread no later than the relevant Issuer Determination Cutoff Date for the purposes of determining the Rate of Interest (or the relevant component part
thereof) for all relevant future payments of interest on the Notes (in respect of periods as
described above) for which the Rate of Interest (or the relevant component part thereof) was
otherwise to be determined by reference to such Original Reference Rate (subject to the
subsequent operation of, and adjustment as provided in, this Condition 3(d)). Without
prejudice to the definitions thereof, for the purposes of determining any Alternative Reference
Rate and the relevant Adjustment Spread, the Issuer will take into account any relevant and
applicable market precedents as well as any published guidance from relevant associations

involved in the establishment of market standards and/or protocols in the international debt capital markets;

- (C) if a Successor Reference Rate or, failing which, an Alternative Reference Rate (as applicable) and, in either case, an Adjustment Spread is determined by the relevant Independent Adviser or the Issuer (as applicable) in accordance with this Condition 3(d):
  - I. such Successor Reference Rate or Alternative Reference Rate (as applicable) shall subsequently be used in place of the Original Reference Rate to determine the Rate of Interest (or the relevant component part thereof) for all relevant future payments of interest on the Notes (in respect of periods as described above) for which the Rate of Interest (or the relevant component part thereof) was otherwise to be determined by reference to the relevant Original Reference Rate (subject to the subsequent operation of, and adjustment as provided in, this Condition 3(d));
  - II. such Adjustment Spread shall be applied to such Successor Reference Rate or Alternative Reference Rate (as the case may be) for all such relevant future payments of interest on the Notes (in respect of periods as described above) (subject to the subsequent operation of, and adjustment as provided in, this Condition 3(d));
  - III. the relevant Independent Adviser or the Issuer (as applicable) (acting in good faith and in a commercially reasonable manner) may in its discretion specify:
    - (i) changes to these Conditions in order to follow market practice in relation to such Successor Reference Rate or Alternative Reference Rate (as applicable), including, but not limited to, (1) the Additional Business Centre(s), the Benchmark Frequency, the Business Centre(s), the definition of "Business Day", the Business Day Convention, the Day Count Fraction, the Determination Date(s), the Interest Determination Date(s), the Mid-Swap Floating Leg Frequency, the definition of "Reference Banks", the Relevant Screen Page, the Reset Determination Date, the Reset Reference Rate and/or the Specified Period(s)/Specified Interest Payment Dates applicable to the Notes and (2) the method for determining the fallback to the Rate of Interest in relation to the Notes if such Successor Reference Rate or Alternative Reference Rate (as applicable) is not available; and
    - (ii) any other changes which the relevant Independent Adviser or the Issuer (as applicable) determines are reasonably necessary to ensure the proper operation and comparability to the relevant Original Reference Rate of such Successor Reference Rate or Alternative Reference Rate (as applicable),

which changes shall apply to the Notes for all relevant future payments of interest on the Notes (in respect of periods as described above) for which the Rate of Interest (or the relevant component part thereof) was otherwise to be determined by reference to the relevant Original Reference Rate (subject to the subsequent operation of, and adjustment as provided in, this Condition 3(d)); and

(D) promptly following the determination of any Successor Reference Rate or Alternative Reference Rate (as applicable) and the relevant Adjustment Spread, the Issuer shall give notice thereof and of any changes to these Conditions (and the effective date thereof) pursuant to Condition 3(d)(C)(III) to the Agent, the Calculation Agent and the Noteholders in accordance with Condition 13.

The Agent and any other agents party to the Agency Agreement shall, at the direction and expense of the Issuer, effect such consequential amendments to the Agency Agreement and these Conditions as may be required in order to give effect to the application of this Condition 3(d). No consent of the Noteholders shall be required in connection with effecting the relevant Successor Reference Rate or Alternative Reference Rate (as applicable) and, in either case, the relevant Adjustment Spread as described in this Condition 3(d) or such other relevant changes pursuant to Condition 3(d)(C)(III), including for the execution of any documents or the taking of other steps by the Issuer or any of the parties to the Agency Agreement.

If a Successor Reference Rate or an Alternative Reference Rate and/or, in either case, an Adjustment Spread is not determined pursuant to the operation of this Condition 3(d) or is not notified to the Agent and the Calculation Agent prior to the relevant Issuer Determination Cut-off Date, then the Rate of Interest for the next relevant Interest Period (in the case of Floating Rate Notes) or Reset Period (in the case of Reset Notes) shall be determined by reference to the fallback provisions of Condition 3(b) or 3(c), as the case may be. For the avoidance of doubt, this paragraph shall apply to the relevant next succeeding Interest Period (in the case of Floating Rate Notes) or Reset Period (in the case of Reset Notes) only and any subsequent Interest Periods or Reset Periods (as applicable) are subject to the subsequent operation of, and to adjustment as provided in, this Condition 3(d).

Notwithstanding any other provision of this Condition 3(d), none of the Agent, the Calculation Agent or any Paying Agent shall be obliged to concur with the Issuer or the Independent Adviser in respect of any changes or amendments as contemplated under this Condition 3(d) which, in the sole opinion of the Agent, the Calculation Agent or a Paying Agent (as the case may be) would have the effect of increasing the obligations, responsibilities, liabilities or duties, or reducing the rights or protections, of such party in the Agency Agreement and/or these Conditions.

Notwithstanding any other provision of this Condition 3(d), if in the Agent or Calculation Agent's opinion there is any uncertainty in making any determination or calculation under this Condition 3(d), the Agent or, as the case may be, the Calculation Agent shall promptly notify the Issuer and/or the Independent Adviser thereof and the Issuer shall direct the Agent or, as the case may be, the Calculation Agent in writing as to which course of action to adopt. If the Agent or the Calculation Agent is not promptly provided with such direction, or is otherwise unable to make such calculation or determination for any reason, it shall notify the Issuer and/or the Independent Adviser (as the case may be) thereof and it shall be under no obligation to make such calculation or determination and shall not incur any liability for not doing so.

For the avoidance of doubt, neither the Agent nor the Calculation Agent nor any Paying Agent shall be obliged to monitor or enquire as to whether a Benchmark Event has occurred or have any liability in respect thereto. The Calculation Agent shall be entitled to rely conclusively on any determination made by the Issuer or the Independent Adviser (as the case may be) and shall have no liability for any action it takes at the direction of the Issuer or the Independent Adviser (as the case may be).

Notwithstanding any other provision of this Condition 3(d) no Successor Reference Rate or Alternative Reference Rate (as applicable) will be adopted, and no other amendments to the terms of the Notes will be made pursuant to this Condition 3(d), if and to the extent that, in the determination of the Issuer, the same could reasonably be expected to:

- (i) in the case of Tier 2 Notes, prejudice the qualification of the Notes as (as applicable) (a) Tier 2 Capital of the Issuer and/or the Group and/or (b) MREL-Eligible Liabilities; and/or
- (ii) in the case of Senior Preferred Notes and Senior Non-Preferred Notes, prejudice the qualification of the Notes as MREL-Eligible Liabilities; and/or

(iii) in the case of Tier 2 Notes, Senior Non-Preferred Notes and Senior Preferred Notes, result in the Relevant Regulator and/or the Relevant Resolution Authority (as applicable) treating the next Interest Payment Date or the next Reset Date, as the case may be, as the effective maturity of the Notes, rather than the relevant Maturity Date.

If the Issuer anticipates that a Benchmark Event will or may occur, nothing in these Conditions shall prevent the Issuer (in its sole discretion) from taking, prior to the occurrence of such Benchmark Event, such actions which it considers expedient in order to prepare for applying the provisions of this Condition 3(d) (including, without limitation, appointing and consulting with an Independent Adviser to identify any Successor Reference Rate, Alternative Reference Rate, Adjustment Spread and/or other amendments to the terms of the Notes which will be made pursuant to this Condition 3(d)), provided that no Successor Reference Rate, Alternative Reference Rate, Adjustment Spread and/or other amendments to the terms of the Notes to be made pursuant to this Condition 3(d) will take effect until the relevant Benchmark Event has occurred.

#### (e) Accrual of Interest

Each Note (or in the case of the redemption of part only of a Note, that part only of such Note) will cease to bear interest (if any) from the due date for its redemption unless, upon due presentation thereof, payment of principal is improperly withheld or refused. In such event, interest will continue to accrue thereon (as well after as before any demand or judgment) at the rate then applicable to the principal amount of the Notes or such other rate as may be specified in the applicable Pricing Supplement until whichever is the earlier of (1) the date on which all amounts due in respect of such Note have been paid, and (2) the date on which the Agent having received the funds required to make such payment, notice is given to the Noteholders in accordance with Condition 13 of that circumstance (except to the extent that there is failure in the subsequent payment thereof to the relevant Noteholder).

## (f) Discretions

Notwithstanding anything included in these Conditions or any applicable Pricing Supplement, the Agent (or Calculation Agent, if so appointed) will have no obligation to exercise any discretion (including, but not limited to, determinations of alternative or substitute benchmarks, successor reference rates, screen pages, interest adjustment factors/fractions or spreads, market disruptions, benchmark amendment conforming changes, selection and polling of reference banks) and any such discretion shall instead (unless an alternative method for determination is specified by any entity other than the Agent and/or Calculation Agent in these Conditions) be exercised by the relevant Issuer (following consultation with any such independent advisers as it deems necessary).

## (g) Definitions

"Adjustment Spread" means either (a) a spread (which may be positive, negative or zero) or (b) a formula or methodology for calculating a spread, in either case which is to be applied to the relevant Successor Reference Rate or Alternative Reference Rate (as applicable) and is the spread, formula or methodology which:

- (A) in the case of a Successor Reference Rate, is formally recommended in relation to the replacement of the relevant Original Reference Rate with the relevant Successor Reference Rate by any Relevant Nominating Body; or
- (B) in the case of an Alternative Reference Rate or (where (A) above does not apply) in the case of a Successor Reference Rate, the relevant Independent Adviser or the Issuer (as applicable) determines is recognised or acknowledged as being in customary market usage in international debt capital markets transactions which reference the relevant Original Reference Rate, where

- such rate has been replaced by such Successor Reference Rate or such Alternative Reference Rate (as applicable); or
- (C) in the case of an Alternative Reference Rate (where (B) above does not apply) or in the case of a Successor Reference Rate (where neither (A) nor (B) above applies), the relevant Independent Adviser or the Issuer (as applicable) determines is recognised or acknowledged as being the industry standard for over-the-counter derivative transactions which reference the Original Reference Rate, where such rate has been replaced by such Alternative Reference Rate or such Successor Reference Rate (as applicable).

If the relevant Independent Adviser or the Issuer (as applicable) determines that none of (A), (B) and (C) above applies, the Adjustment Spread shall be deemed to be zero;

"Alternative Reference Rate" means the rate that the relevant Independent Adviser or the Issuer (as applicable) determines has replaced the relevant Original Reference Rate in customary market usage in the international debt capital markets for the purposes of determining rates of interest (or the relevant component part thereof) in respect of debt securities denominated in the Specified Currency and of a comparable duration:

- (A) in the case of Floating Rate Notes, to the relevant Interest Period(s); or
- (B) in the case of Reset Notes, to the relevant Reset Period(s),

or in any case, if such Independent Adviser or the Issuer (as applicable) determines that there is no such rate, such other rate as such Independent Adviser or the Issuer (as applicable) determines in its discretion is most comparable to the relevant Original Reference Rate;

#### "Benchmark Event" means, with respect to an Original Reference Rate:

- (A) such Original Reference Rate ceasing to be published for at least five Business Days or ceasing to exist or be administered; or
- (B) the later of (1) the making of a public statement by the administrator of such Original Reference Rate that it will, on or before a specified date, cease publishing such Original Reference Rate permanently or indefinitely (in circumstances where no successor administrator has been appointed that will continue publication of such Original Reference Rate) and (2) the date falling six months prior to the specified date referred to in (B)(1); or
- (C) the making of a public statement by the supervisor of the administrator of such Original Reference Rate that such Original Reference Rate has been permanently or indefinitely discontinued; or
- (D) the later of (1) the making of a public statement by the supervisor of the administrator of such Original Reference Rate that such Original Reference Rate will, on or before a specified date, be permanently or indefinitely discontinued and (2) the date falling six months prior to the specified date referred to in (D)(1); or
- (E) the later of (1) the making of a public statement by the supervisor of the administrator of such Original Reference Rate that means such Original Reference Rate will be prohibited from being used on or before a specified date and (2) the date falling six months prior to the specified date referred to in (E)(1); or

- (F) it has or will prior to the next Interest Determination Date or Reset Determination Date (as applicable) become unlawful for the Issuer, the Agent, the Calculation Agent or any other party specified in the applicable Pricing Supplement as being responsible for calculating the Rate of Interest to calculate any payments due to be made to any Noteholders using such Original Reference Rate; or
- (G) the later of (1) the making of a public statement by the supervisor of the administrator of such Original Reference Rate that such Original Reference Rate will, on or before a specified date, no longer be representative or may, on or before a specified date, no longer be used and (2) the date falling six months prior to the specified date referred to in (G)(1);

#### "IA Determination Cut-off Date" means:

- (A) in the case of Floating Rate Notes, in any Interest Period, the date that falls on the fifth Business Day prior to the Interest Determination Date relating to the next succeeding Interest Period; or
- (B) in the case of Reset Notes, in any Reset Period, the date that falls on the fifth Business Day prior to the Reset Determination Date relating to the next succeeding Reset Period.

"Independent Adviser" means an independent financial institution of international repute or other independent financial adviser experienced in the international debt capital markets, in each case appointed by the Issuer at its own expense;

#### "Issuer Determination Cut-off Date" means:

- (A) in the case of Floating Rate Notes, in any Interest Period, the date that falls on the third Business Day prior to the Interest Determination Date relating to the next succeeding Interest Period; or
- (B) in the case of Reset Notes, in any Reset Period, the date that falls on the third Business Day prior to the Reset Determination Date relating to the next succeeding Reset Period;

"Original Reference Rate" means the originally-specified reference rate of the Notes used to determine the relevant Rate of Interest (or any component part thereof) in respect of any Interest Period(s) or Reset Period(s) (provided that if, following one or more Benchmark Events, such originally specified reference rate of the Notes (or any Successor Reference Rate or Alternative Reference Rate which has replaced it) has been replaced by a (or a further) Successor Reference Rate or Alternative Reference Rate and a Benchmark Event subsequently occurs in respect of such Successor Reference Rate or Alternative Reference Rate, the term "Original Reference Rate" shall include any such Successor Reference Rate or Alternative Reference Rate);

#### "Relevant Nominating Body" means, in respect of an Original Reference Rate:

- (A) the central bank for the currency to which such Original Reference Rate relates, or any central bank or other supervisory authority which is responsible for supervising the administrator of such Original Reference Rate; or
- (B) any working group or committee sponsored by, chaired or co-chaired by or constituted at the request of (1) the central bank for the currency to which such Original Reference Rate relates, (2) any central bank or other supervisory authority which is responsible for supervising the administrator of such Original Reference Rate, (3) a group of the aforementioned central

banks or other supervisory authorities, or (4) the Financial Stability Board or any part thereof; and

"Successor Reference Rate" means the rate that the relevant Independent Adviser or the Issuer (as applicable) determines is a successor to or replacement of the relevant Original Reference Rate which is formally recommended by any Relevant Nominating Body.

#### 4. REDEMPTION AND PURCHASE; SUBSTITUTION AND VARIATION

#### (a) Redemption at Maturity

Unless previously redeemed or purchased and cancelled as specified below or (pursuant to Condition 4(m)) substituted, each Note will be redeemed by the Issuer at its Final Redemption Amount specified in the applicable Pricing Supplement in the relevant Specified Currency on the Maturity Date specified in the applicable Pricing Supplement.

#### (b) Redemption for Tax Reasons

If, as a result of any amendment to or change in the laws or regulations of the Hellenic Republic or of any political subdivision thereof or any authority or agency therein or thereof having power to tax or any change in the application or official interpretation or administration of any such laws or regulations, which amendment or change becomes effective on or after the date on which agreement is reached to issue the most recent Tranche of Notes of the relevant Series:

- (i) the Issuer would be required to pay additional amounts as provided in Condition 8; or
- (ii) interest payments under or with respect to the Notes are no longer (partly or fully) deductible for tax purposes in the Hellenic Republic,

the Issuer may (subject (i) in the case of Senior Preferred Notes and Senior Non-Preferred Notes, to Condition 4(k) and (ii) in the case of Tier 2 Notes, to Condition 4(l) and (if applicable) Condition 4(k)), at its option and having given not less than the minimum period and not more than the maximum period of notice specified in the applicable Pricing Supplement (ending, in the case of Notes which bear interest at a floating rate, on any Interest Payment Date) to the Agent and the Noteholders Agent and, in accordance with Condition 13, the Noteholders (which notice shall be irrevocable), redeem all (but not some only) of the outstanding Notes at their Early Redemption Amount as specified in the applicable Pricing Supplement together (if applicable) with unpaid interest accrued to (but excluding) the date of redemption provided that in the case of redemption pursuant to subparagraph (i) above, no such notice of redemption shall be given earlier than 90 days prior to the earliest date on which the Issuer would be obliged to pay such additional amounts were a payment in respect of the Notes then due. Upon the expiry of such notice, the Issuer shall be bound to redeem the Notes accordingly.

In the case of Tier 2 Notes only, any redemption of the Notes in accordance with this Condition 4(b) is subject to the Issuer demonstrating to the satisfaction of the Relevant Regulator and/or the Relevant Resolution Authority (as applicable) that such change in tax treatment of such Notes is material and was not reasonably foreseeable on the date of issue of the most recent tranche of the Notes.

## (c) Redemption following the occurrence of a Capital Disqualification Event

This Condition 4(c) is applicable only in relation to Notes specified in the applicable Pricing Supplement as being Tier 2 Notes and references to "Notes" and "Noteholders" shall be construed accordingly.

Where this Condition 4(c) is specified as being applicable in the applicable Pricing Supplement, if immediately prior to the giving of the notice referred to below, a Capital Disqualification Event has occurred and is continuing, the Issuer may (subject to Condition 4(l) and (if applicable) Condition 4k)), at its option and having given no less than the minimum period and not more than the maximum period of notice specified in the applicable Pricing Supplement (ending, in the case of Notes which bear interest at a floating rate, on any Interest Payment Date) to the Agent and the Noteholders Agent and, in accordance with Condition 13, the Noteholders (which notice shall be irrevocable), redeem all (but not some only) of the outstanding Notes at their Early Redemption Amount specified in the applicable Pricing Supplement together (if applicable) with unpaid interest accrued to (but excluding) the date of redemption. Upon the expiry of such notice, the Issuer shall be bound to redeem the Notes accordingly.

#### In these Conditions:

"BRRD" means Directive 2014/59/EU establishing a framework for the recovery and resolution of credit institutions and investment firms, as amended by Directive (EU) 2019/879 as regards the loss-absorbing and recapitalisation capacity of credit and investment firms and Directive 98/26/EC, and as may be further amended or replaced from time to time and, as the context permits, any provision of Greek law, including Greek Law 4335/2015, transposing or implementing such Directive (as it is amended or replaced from time to time);

A "Capital Disqualification Event" will occur if at any time, on or after the Issue Date of the most recent tranche of the relevant Series of Notes, there is a change in the regulatory classification of such Notes that results or would be likely to result in (i) the exclusion of such Notes in whole or, to the extent not prohibited by the Capital Regulations, in part from the Tier 2 Capital of the Issuer and/or the Group; and/or (ii) their reclassification, in whole or, to the extent not prohibited by the Capital Regulations, in part, as a lower quality form of regulatory capital of the Issuer and/or the Group, in each case other than where such exclusion or reclassification is only the result of any applicable limitation on such capital and provided (x) the Relevant Regulator considers that such change in the regulatory classification of such Notes is sufficiently certain and (y) the Issuer demonstrates to the satisfaction of the Relevant Regulator that such change in the regulatory reclassification of such Notes was not reasonably foreseeable on the date of issue of the most recent tranche of the Notes;

"Capital Regulations" means, at any time, the laws, regulations, requirements, guidelines and policies relating to capital adequacy, resolution and/or solvency applicable to the Issuer and/or the Group at such time including, without limitation to the generality of the foregoing, the BRRD, CRD IV and those regulations, requirements, guidelines and policies of the Relevant Regulator relating to capital adequacy, resolution and/or solvency then in effect in the Hellenic Republic (whether or not such requirements, guidelines or policies have the force of law and whether or not they are applied generally or specifically to the Issuer and/or the Group);

"CRD IV" means any or any combination of the CRD IV Directive, the CRR and any CRD/CRR Implementing Measures, all as amended or supplemented;

"CRD IV Directive" means Directive 2013/36/EU of the European Parliament and of the Council of 26 June 2013, as amended by Directive (EU) 2019/878 of 20 May 2019 and as may be further amended or replaced from time to time and, as the context permits, any provision of Greek law, including Law 4261/2014, transposing or implementing such Directive (as it is amended or replaced from time to time);

"CRD/CRR Implementing Measures" means any regulatory capital rules implementing the CRD IV Directive or the CRR which may from time to time be introduced, including, but not limited to, delegated or implementing acts (regulatory technical standards) adopted by the European Commission,

national laws and regulations, and regulations and guidelines issued by the Relevant Regulator, the European Banking Authority or any other relevant authority, which are applicable to the Issuer or the Group and which prescribe the requirements to be fulfilled by financial instruments for inclusion in the regulatory capital of the Issuer or the Group;

"**Group**" means the Issuer and its Subsidiaries from time to time save in relation to Condition 17 where it shall mean Alpha Holdings and its Subsidiaries from time to time;

"Subsidiary" means, in respect of an entity (the "First Entity") at any particular time, any other entity:
(a) whose affairs and policies the First Entity controls or has the power to control, whether by ownership of share capital, contract, the power to appoint or remove members of the governing body of such entity or otherwise; or (b) whose financial statements are, in accordance with applicable law and generally accepted accounting principles or standards, consolidated with those of the First Entity; and

"Tier 2 Capital" has the meaning given in the Capital Regulations from time to time.

## (d) Redemption following the occurrence of an MREL Disqualification Event

Where this Condition 4(d) is specified as being applicable in the applicable Pricing Supplement, if immediately prior to the giving of the notice referred to below, an MREL Disqualification Event has occurred and is continuing, the Issuer may from (and including) the MREL Disqualification Event Effective Date (subject to (i) in the case of Senior Preferred Notes and Senior Non-Preferred Notes, Condition 4(k) and (ii) in the case of Tier 2 Notes, Condition 4(l) and (if applicable) Condition 4(k) (as applicable)) at its option and having given no less than the minimum period and not more than the maximum period of notice specified in the applicable Pricing Supplement (ending, in the case of Notes which bear interest at a floating rate, on any Interest Payment Date) to the Agent and the Noteholders Agent and, in accordance with Condition 13, the Noteholders (which notice shall be irrevocable), redeem all (but not some only) of the outstanding Notes at their Early Redemption Amount specified in the applicable Pricing Supplement together (if applicable) with interest accrued to (but excluding) the date of redemption. Upon the expiry of such notice, the Issuer shall be bound to redeem the Notes accordingly.

#### In these Conditions:

An "MREL Disqualification Event" shall be deemed to occur if, at any time, all or part of the aggregate outstanding principal amount of the Notes ceases to be included fully or partially in the MREL-Eligible Liabilities or neither the Issuer nor the Group is required to maintain any MREL-Eligible Liabilities pursuant to the MREL Requirements; provided that an MREL Disqualification Event shall not occur (a) where the relevant exclusion is due to (i) the remaining maturity of such Notes being less than any period prescribed by any applicable eligibility criteria under the MREL Requirements effective with respect to the Issuer and/or the Group on the date of issue of the most recent tranche of the Notes, or (ii) the relevant Notes being repurchased by or on behalf of the Issuer or any of its Subsidiaries or (b) in the case of a Series of Senior Preferred Notes, where the relevant exclusion from the MREL-Eligible Liabilities is as a result of any applicable limitation on the amount of liabilities of the Issuer that may qualify as MREL-Eligible Liabilities.

"MREL Disqualification Event Effective Date" means (i) in the case of Senior Preferred Notes and Senior Non-Preferred Notes, the Issue Date of the first Tranche of the Notes and (ii) in the case of Tier 2 Notes, the date specified in the applicable Pricing Supplement or such earlier date as may be permitted under the MREL Requirements and/or the Capital Regulations (as applicable) from time to time.

#### (e) Redemption at the Option of the Issuer (Issuer Call)

If an Issuer Call is specified as being applicable in the applicable Pricing Supplement, the Issuer may, (subject (i) in the case of Senior Preferred Notes and Senior Non-Preferred Notes, to Condition 4(k) and (ii) in the case of Tier 2 Notes, to Condition 4(l) and (if applicable) Condition 4(k)), having (unless otherwise specified in the applicable Pricing Supplement) given not more than the maximum period nor less than minimum period of notice specified in the applicable Pricing Supplement to the Agent and the Noteholders Agent and, in accordance with Condition 13, the Noteholders (which notice shall be irrevocable), redeem all or (if so specified in the applicable Pricing Supplement) some only of the Notes then outstanding on any Optional Redemption Date at the Optional Redemption Amount(s) specified in the applicable Pricing Supplement together, if applicable, with unpaid interest accrued to (but excluding) the relevant Optional Redemption Date. Upon the expiry of such notice, the Issuer shall be bound to redeem the Notes accordingly.

In the event of a redemption of some only of the Notes, such redemption must be of a nominal amount being not less than the Minimum Redemption Amount or not more than the Maximum Redemption Amount, both as indicated in the applicable Pricing Supplement. In the case of a partial redemption of definitive Notes, the Notes to be redeemed will be selected individually by not more than 30 days prior to the date fixed for redemption and a list of the Notes called for redemption will be published in accordance with Condition 13 not less than 15 days prior to such date. In the case of a partial redemption of Notes which are represented by a global Note, the relevant Notes will be selected in accordance with the rules of Euroclear and/or Clearstream, Luxembourg (to be reflected in the records of Euroclear and Clearstream, Luxembourg as either a pool factor or a reduction in nominal amount at their discretion).

If "Make-Whole Redemption Amount" is specified in the applicable Pricing Supplement as the Optional Redemption Amount, the Optional Redemption Amount shall be an amount calculated by the Financial Adviser equal to the higher of (a) 100 per cent. of the principal amount outstanding of the Notes to be redeemed or (b) the sum of the then present values of the principal amount outstanding of the Notes to be redeemed and the Remaining Term Interest on such Notes (exclusive of interest accrued to the date of redemption) discounted to the date of redemption on an annual basis at the Make-Whole Reference Bond Rate, plus the Redemption Margin.

In these Conditions:

"Financial Adviser" means an investment bank or financial institution of international standing selected by the Issuer;

"First Par Call Notes Redemption Date" means, in respect of any Par Call Notes, the first Optional Redemption Date on which the Notes may be redeemed at the Par Call Amount;

"Make-Whole Reference Bond" means (i) the security set out in the applicable Pricing Supplement (if such security is then outstanding and a quote is available on the Reference Screen Page) or (ii) (x) if such security set out in the applicable Pricing Supplement is no longer outstanding or the Reference Screen Page does not quote the yield on such security, or (y) in the case of any Par Call Notes, at any time after the First Par Call Notes Redemption Date, a government security or securities selected by the Issuer in consultation with an independent investment bank of international standing on the Business Day immediately preceding the Reference Date and notified to the Financial Adviser with an actual or interpolated maturity comparable with the remaining term to the Maturity Date, or in the case of any Par Call Notes, the next occurring Par Call Notes Redemption Date that would be utilised, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities denominated in the Specified Currency and of a comparable maturity to the remaining term to the Maturity Date, or in the case of any Par Call Notes, the next occurring Par Call Notes Redemption Date;

"Make-Whole Reference Bond Rate" means, with respect to any Optional Redemption Date that does not fall on a Par Call Notes Redemption Date, either: (1) the rate per annum equal to the annual yield to maturity of the Make-Whole Reference Bond displayed on the Reference Screen Page as of approximately the Quotation Time on the Reference Date, as determined by the Financial Adviser; or (2) if the Reference Screen Page is not available as of the Quotation Time on the Reference Date: (A) the arithmetic average of the Reference Government Bond Dealer Quotations for such Optional Redemption Date, after excluding the highest such Reference Government Bond Dealer Quotation (or if, there is more than one highest Reference Government Bond Dealer Quotation, one only of those Reference Government Bond Dealer Quotation) and the lowest such Reference Government Bond Dealer Quotation, one only of those Reference Government Bond Dealer Quotations, or (B) if the Financial Adviser obtains fewer than four such Reference Government Bond Dealer Quotations, the arithmetic average of all such quotations, in each case as determined by the Financial Adviser;

"Par Call Notes" means any Notes in respect of which: (i) Issuer Call is specified as being applicable in the applicable Pricing Supplement; and (ii) any Optional Redemption Amount is specified as being an amount per Calculation Amount equal to the Calculation Amount (such Optional Redemption Amount, the "Par Call Amount");

"Par Call Notes Redemption Date" means an Optional Redemption Date on which the Notes may be redeemed at the Par Call Amount;

"Quotation Time" shall be as set out in the applicable Pricing Supplement;

"Redemption Margin" shall be as set out in the applicable Pricing Supplement;

"Reference Date" will be the date set out in the relevant notice of redemption and shall in any event be no earlier than the day falling two Business Days prior to the relevant Optional Redemption Date;

"Reference Government Bond Dealer" means each of five banks selected by the Issuer, or their affiliates, which are (A) primary government securities dealers, and their respective successors, or (B) market makers in pricing corporate bond issues;

"Reference Government Bond Dealer Quotations" means, with respect to each Reference Government Bond Dealer and any date for redemption that does not fall on a Par Call Notes Redemption Date, the rate per annum equal to the annual yield to maturity or interpolated yield to maturity (on the relevant day count basis) of the Make-Whole Reference Bond (rounded to the nearest 0.001 per cent. with 0.0005 per cent. rounded upwards) at the Quotation Time on the Reference Date quoted in writing to the Financial Adviser by such Reference Government Bond Dealer;

"Reference Screen Page" shall be set out in the relevant Pricing Supplement (or any successor or replacement page, section or other part of the information service), or such other page, section or other part as may replace it on the information service or such other information service, in each case, as may be nominated by the person providing or sponsoring the information appearing there for the purpose of displaying the mid-market yield to maturity for the Make-Whole Reference Bond, as determined by the Issuer in consultation with an independent investment bank of international standing; and

"Remaining Term Interest" means, with respect to any Note, the aggregate amount of scheduled payment(s) of interest on such Note for the remaining term to the Maturity Date or, in the case of any Par Call Notes, the next occurring Par Call Notes Redemption Date determined on the basis of the rate of interest applicable to such Note from and including the date on which such Note is to be redeemed by the Issuer pursuant to this Condition 4(e).

## (f) Early Redemption Amounts

For the purposes of Conditions 4(b), 4(c), 4(d) and 9, each Note will be redeemed at an amount (the "Early Redemption Amount") determined or calculated as follows:

- (i) in the case of a Note with a Final Redemption Amount equal to the Issue Price of the first Tranche of the Series, at the Final Redemption Amount thereof; or
- (ii) in the case of a Note (other than a Zero Coupon Note) with a Final Redemption Amount which is or may be less or greater than the Issue Price of the first Tranche of the Series, at the amount set out in the applicable Pricing Supplement or, if no such amount or manner is set out in that Pricing Supplement, at their nominal amount; or
- (iii) in the case of a Zero Coupon Note, at an amount (the "Amortised Face Amount") calculated in accordance with the following formula:

Early Redemption Amount =  $RP \times (1 + AY)^{y}$ 

where:

"RP" means the Reference Price;

"AY" means the Accrual Yield expressed as a decimal; and

"y" is the Day Count Fraction specified in the applicable Pricing Supplement which will be either (i) 30/360 (in which case the numerator will be equal to the number of days (calculated on the basis of a 360-day year consisting of 12 months of 30 days each) from (and including) the Issue Date of the first Tranche of the Notes to (but excluding) the date fixed for redemption or (as the case may be) the date upon which such Note becomes due and repayable and the denominator will be 360) or (ii) Actual/360 (in which case the numerator will be equal to the actual number of days from (and including) the Issue Date of the first Tranche of the Notes to (but excluding) the date fixed for redemption or (as the case may be) the date upon which such Note becomes due and repayable and the denominator will be 360) or (iii) Actual/365 (in which case the numerator will be equal to the actual number of days from (and including) the Issue Date of the first Tranche of the Notes to (but excluding) the date fixed for redemption or (as the case may be) the date upon which such Note becomes due and repayable and the denominator will be 365).

## (g) Clean-Up Call Option

If (i) Clean-up Call Option is specified as being applicable in the applicable Pricing Supplement and (ii) the Clean-up Call Minimum Percentage (or more) of the principal amount outstanding of the Notes originally issued has been redeemed (other than Notes redeemed at the Make-Whole Redemption Amount) or purchased and subsequently cancelled in accordance with this Condition 4, the Issuer may, from (and including) the Clean-up Call Effective Date (subject (i) in the case of Senior Preferred Notes and Senior Non-Preferred Notes, to Condition 4(k) and (ii) in the case of Tier 2 Notes, to Condition 4(l) and (if applicable) Condition 4(k)), having given not more than the maximum period nor less than minimum period of notice specified in the applicable Pricing Supplement to the Agent and the Noteholders Agent and, in accordance with Condition 13, the Noteholders at any time redeem all (but not some only) of the Notes then outstanding at the Clean-up Call Option Amount specified in the applicable Pricing Supplement together, if applicable, with unpaid interest accrued to (but excluding)

such date fixed for redemption. Upon the expiry of such notice, the Issuer shall be bound to redeem the Notes accordingly.

For the purposes of this Condition 4(g), any further securities issued pursuant to Condition 16 so as to be consolidated and form a single Series with the Notes outstanding at that time will be deemed to have been originally issued.

In these Conditions:

"Clean-up Call Minimum Percentage" means 75 per cent. or such other percentage specified in the applicable Pricing Supplement; and

"Clean-up Call Effective Date" means (i) in the case of Senior Preferred Notes and Senior Non-Preferred Notes, the Issue Date of the first Tranche of the Notes and (ii) in the case of Tier 2 Notes, the date specified in the applicable Pricing Supplement or such earlier date as may be permitted under the MREL Requirements and/or the Capital Regulations (as applicable) from time to time.

# (h) Purchases

Alpha Holdings, Alpha Bank or any other Subsidiary of Alpha Holdings may (subject (i) in the case of Senior Preferred Notes and Senior Non-Preferred Notes, to Condition 4(k) and (ii) in the case of Tier 2 Notes, to Condition 4(l) and (if applicable) Condition 4(k)) purchase Notes (together, in the case of definitive Notes, with all Coupons and Talons appertaining thereto) in any manner and at any price. Such Notes may be held, reissued, resold or, at the option of the Issuer, surrendered to any Paying Agent for cancellation.

# (i) Cancellation

All Notes which are redeemed in full or substituted will forthwith be cancelled (together with all unmatured Coupons and Talons attached thereto or surrendered therewith at the time of redemption). All Notes so cancelled and the Notes which are purchased and cancelled pursuant to Condition 4(h) above (together with all unmatured Coupons and Talons attached thereto or delivered therewith) shall be forwarded to the Agent and cannot be reissued or resold.

# (j) Late Payment on Zero Coupon Notes

If the amount payable in respect of any Zero Coupon Note upon redemption of such Zero Coupon Note pursuant to Conditions 4(a), 4(b), 4(c), 4(d), 4(e) or 4(g) or upon its becoming due and repayable as provided in Condition 9 is improperly withheld or refused, the amount due and repayable in respect of such Zero Coupon Note shall be the amount calculated as provided in Condition 4(f)(iii) above as though the references therein to the date fixed for redemption or the date upon which the Zero Coupon Note becomes due and repayable were replaced by references to the date which is the earlier of:

- (i) the date on which all amounts due in respect of the Zero Coupon Note have been paid; and
- (ii) the date on which the full amount of the moneys payable has been received by the Agent and notice to that effect has been given to the Noteholders in accordance with Condition 13.

# (k) Conditions to Substitution, Variation, Redemption and Purchase of Senior Preferred Notes, Senior Non-Preferred Notes and Tier 2 Notes that are MREL-Eligible Liabilities

This Condition 4(k) only applies to Senior Preferred Notes, Senior Non-Preferred Notes and Tier 2 Notes that are MREL-Eligible Liabilities and references in this Condition 4(k) to "Notes" and "Noteholders" shall be construed accordingly.

Any redemption or purchase of Notes in accordance with Conditions 4(b), 4(d), 4(e), 4(g) or 4(h) above is subject to:

- (i) the Issuer giving notice to the Relevant Resolution Authority and the Relevant Resolution Authority granting prior permission to redeem or purchase the relevant Notes (in each case to the extent, and in the manner, then required by the MREL Requirements); and
- (ii) compliance by the Issuer with any alternative or additional pre-conditions to redemption or purchase, as applicable, set out in the MREL Requirements (including any requirements applicable to such redemption or purchase due to the qualification of such Notes at such time (or previously, as the case may be) as MREL-Eligible Liabilities).

To the extent required by the MREL Requirements (including any requirements applicable to the modification, substitution or variation of the Notes due to the qualification of such Notes at such time (or previously, as the case may be) as MREL-Eligible Liabilities), any substitution or variation in accordance with Condition 4(m) or any modification (other than any modification which is made to correct a manifest error) of these Conditions, the Deed of Covenant or the Notes (as the case may be), or substitution of the Issuer as principal debtor under the Notes, the Deed of Covenant or the Agency Agreement, in each case pursuant to Condition 10 and/or Condition 14 (as the case may be), will only be permitted if the Issuer has first given notice to the Relevant Resolution Authority of such substitution, variation or modification (as the case may be), and the Relevant Resolution Authority has not objected to such substitution, variation or modification (as the case may be).

For the avoidance of doubt, the MREL Requirements currently include the requirements set out in Articles 77 and 78a of the CRR.

# (1) Conditions to Substitution, Variation, Redemption and Purchase of Tier 2 Notes

This Condition 4(l) only applies to Tier 2 Notes and references in this Condition 4(l) to "Notes" and "Noteholders" shall be construed accordingly.

Any redemption or purchase of Notes in accordance with Conditions 4(b), 4(c), 4(e), 4(g) or 4(h) above is subject to:

- (i) the Issuer giving notice to the Relevant Regulator and the Relevant Regulator granting prior permission to redeem or purchase the relevant Notes (in each case to the extent, and in the manner, then required by the Capital Regulations); and
- (ii) compliance by the Issuer with any alternative or additional pre-conditions to redemption or purchase, as applicable, set out in the Capital Regulations.

To the extent required by the Capital Regulations, any substitution or variation in accordance with Condition 4(m) or any modification (other than any modification which is made to correct a manifest error) of these Conditions, the Deed of Covenant or the Notes (as the case may be), or substitution of the Issuer as principal debtor under the Notes, the Deed of Covenant or the Agency Agreement (as the case may be), in each case pursuant to Condition 10 and/or Condition 14 (as the case may be), will only be permitted if the Issuer has first given notice to the Relevant Regulator of such substitution, variation or modification (as the case may be), and the Relevant Regulator has not objected to such substitution, variation or modification (as the case may be).

For the avoidance of doubt, the Capital Regulations currently include the requirements set out in Articles 77 and 78 of the CRR.

## (m) Substitution and Variation

If "Substitution and Variation" is specified as being applicable in the applicable Pricing Supplement, then with respect to:

- (i) any Series of Notes, if at any time an MREL Disqualification Event has occurred and is continuing; or
- (ii) any Series of Tier 2 Notes, if at any time a Capital Disqualification Event has occurred and is continuing; or
- (iii) any Series of Notes, if at any time any of the events described in Condition 4(b) has occurred and is continuing or in order to ensure the effectiveness and enforceability of Condition 17,

the Issuer may, subject to (i) in the case of Senior Preferred Notes and Senior Non-Preferred Notes, compliance with Condition 4(k) and (ii) in the case of Tier 2 Notes, compliance with Condition 4(l) and (if applicable) Condition 4(k) (without any requirement for the consent or approval of the holders of the relevant Notes of that Series) and having given not less than thirty nor more than sixty days' notice to the holders of the Notes of that Series, at any time either substitute all (but not some only) of such Notes, or vary the terms of such Notes (including, without limitation, changing the governing law of Condition 17) so that the Notes remain or, as appropriate, become Qualifying Senior Preferred Notes, Qualifying Senior Non-Preferred Notes or Qualifying Tier 2 Notes, as applicable, provided that such variation or substitution does not itself give rise to any right of the Issuer to redeem the varied or substituted Notes.

Any notice provided in accordance with this Condition 4(m) shall be irrevocable and shall specify the relevant details of the manner in which such substitution or, as the case may be, variation shall take effect (including the date for such substitution or, as the case may be, variation) and where the Noteholders can inspect or obtain copies of the new terms and conditions of the Notes. Such substitution or, as the case may be, variation will be effected without any cost or charge to the Noteholders.

In connection with any substitution or variation in accordance with this Condition 4(m), the Issuer shall comply with the rules of any stock exchange on which such Notes are for the time being listed or admitted to trading.

In these Conditions:

## "Qualifying Senior Non-Preferred Notes" means securities issued by the Issuer that:

(i) other than in respect of the effectiveness and enforceability of Condition 17 (including, without limitation, changing its governing law), have terms not materially less favourable to holders of the relevant Series of Senior Non-Preferred Notes as a class (as reasonably determined by the Issuer) than the terms of the Senior Non-Preferred Notes and they shall also: (A) contain terms which will result in such securities being MREL-Eligible Liabilities; (B) have a ranking at least equal to that of the Senior Non-Preferred Notes; (C) have at least the same interest rate and the same Interest Payment Dates as those from time to time applying to the Senior Non-Preferred Notes; (D) have the same redemption rights and obligations as the Senior Non-Preferred Notes prior to the relevant substitution or variation pursuant to this Condition 4(m); (E) preserve any existing rights under the Senior Non-Preferred Notes to accrued and unpaid interest; (F) do not contain terms which provide for interest cancellation or deferral; and (G) do not contain terms providing for loss absorption through principal write-

- down or conversion to ordinary shares (but without prejudice to any acknowledgement of statutory resolution powers substantially similar to Condition 17); and
- (ii) are listed or admitted to trading on a stock exchange commonly used in debt capital markets transactions in the international capital markets if the Senior Non-Preferred Notes were listed on such a stock exchange immediately prior to such variation or substitution;

# "Qualifying Senior Preferred Notes" means securities issued by the Issuer that:

- (i) other than in respect of the effectiveness and enforceability of Condition 17 (including, without limitation, changing its governing law), have terms not materially less favourable to holders of the relevant Series of Senior Preferred Notes as a class (as reasonably determined by the Issuer) than the terms of the Senior Preferred Notes and they shall also (A) contain terms which will result in such securities being MREL-Eligible Liabilities; (B) have a ranking at least equal to that of the Senior Preferred Notes; (C) have at least the same interest rate and the same Interest Payment Dates as those from time to time applying to the Senior Preferred Notes; (D) have the same redemption rights and obligations as the Senior Preferred Notes prior to the relevant substitution or variation pursuant to this Condition 4(m); (E) preserve any existing rights under the Senior Preferred Notes to accrued and unpaid interest; (F) do not contain terms which provide for interest cancellation or deferral; and (G) do not contain terms providing for loss absorption through principal write-down or conversion to ordinary shares (but without prejudice to any acknowledgement of statutory resolution powers substantially similar to Condition 17); and
- (ii) are listed or admitted to trading on a stock exchange commonly used in debt capital markets transactions in the international capital markets if the Senior Preferred Notes were listed on such a stock exchange immediately prior to such variation or substitution; and

## "Qualifying Tier 2 Notes" means securities issued by the Issuer that:

(i) other than in respect of the effectiveness and enforceability of Condition 17 (including, without limitation, changing its governing law), have terms not materially less favourable to holders of the relevant Series of Tier 2 Notes as a class (as reasonably determined by the Issuer) than the terms of the Tier 2 Notes, and they shall also (A) (1) if, immediately prior to such variation or substitution, the Tier 2 Notes qualify as Tier 2 Capital of the Issuer and/or the Group (as applicable), comply with the then-current requirements of the Capital Regulations in relation to Tier 2 Capital and/or (2) if, immediately prior to such substitution or variation, the Tier 2 Notes are MREL-Eligible Liabilities, contain terms which will result in such securities being MREL-Eligible Liabilities, (B) have a ranking at least equal to that of the Tier 2 Notes; (C) have at least the same interest rate and the same Interest Payment Dates as those from time to time applying to the Tier 2 Notes; (D) have the same redemption rights and obligations as the Tier 2 Notes prior to the relevant substitution or variation pursuant to this Condition 4(m); (E) preserve any existing rights under the Tier 2 Notes to accrued and unpaid interest; (F) do not contain terms which provide for interest cancellation or deferral other than as provided in Condition 2(c); and (G) do not contain terms providing for loss absorption through principal write-down or conversion to ordinary shares (but without prejudice to any acknowledgement of statutory resolution powers substantially similar to Condition 17); and

(ii) are listed or admitted to trading on a stock exchange commonly used in debt capital markets transactions in the international capital markets if the Tier 2 Notes were listed on such a stock exchange immediately prior to such variation or substitution.

## 5. PAYMENTS

# (a) Method of Payment

Subject as provided below:

- (i) payments in a Specified Currency other than euro will be made by credit or transfer to an account in the relevant Specified Currency maintained by the payee with a bank in the principal financial centre of the country of such Specified Currency (which, if the Specified Currency is Australian dollars or New Zealand dollars, shall be Melbourne or Auckland, respectively); and
- (ii) payments will be made in euro by credit or transfer to a euro account (or any other account to which euro may be credited or transferred) specified by the payee.

# (b) Payments subject to fiscal and other laws

Payments will be subject in all cases to (i) any fiscal or other laws and regulations applicable thereto in any jurisdiction, but without prejudice to the provisions of Condition 8, and (ii) any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the U.S. Internal Revenue Code of 1986 (the "Code") or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, any official interpretations thereof, or any law implementing an intergovernmental approach thereto.

# (c) Presentation of Notes and Coupons

Payments of principal in respect of definitive Notes will (subject as provided below) be made in the manner provided in Condition 5(a) above only against presentation and surrender (or, in the case of part payment only, endorsement) of definitive Notes and payments of interest in respect of definitive Notes will (subject as provided below) be made as aforesaid against presentation and surrender (or, in the case of part payment only, endorsement) of Coupons, in each case at the specified office of any Paying Agent outside the United States (as referred to below).

Fixed Rate Notes in definitive form (other than Long Maturity Notes (as defined below)) should be presented for payment together with all unmatured Coupons appertaining thereto (which expression shall for this purpose include Coupons falling to be issued on exchange of matured Talons) failing which the amount of any missing unmatured Coupon (or, in the case of payment not being made in full, the same proportion of the amount of such missing unmatured Coupon as the sum so paid bears to the sum due) will be deducted from the sum due for payment. Each amount of principal so deducted will be paid in the manner mentioned above against presentation and surrender (or, in the case of part payment only, endorsement) of the relative missing Coupon at any time before the expiry of ten years after the Relevant Date (as defined in Condition 8) in respect of such principal (whether or not such Coupon would otherwise have become void under Condition 12) or, if later, five years from the date on which such Coupon would otherwise have become due but in no event thereafter. Upon any Fixed Rate Note in definitive form becoming due and repayable prior to its Maturity Date, all unmatured Talons (if any) appertaining thereto will become void and no further Coupons will be issued in respect thereof.

Upon the date on which any Floating Rate Note, Reset Note or Long Maturity Note in definitive form becomes due and repayable, unmatured Coupons and Talons (if any) relating thereto (whether or not

attached) shall become void and no payment or, as the case may be, exchange for further Coupons shall be made in respect thereof. A "Long Maturity Note" is a Fixed Rate Note (other than a Fixed Rate Note which on issue had a Talon attached) whose nominal amount on issue is less than the aggregate interest payable thereon provided that such Note shall cease to be a Long Maturity Note on the Interest Payment Date on which the aggregate amount of interest remaining to be paid after that date is less than the nominal amount of such Note.

If the due date for redemption of any definitive Note is not an Interest Payment Date, unpaid interest (if any) accrued in respect of such Note from (and including) the preceding Interest Payment Date or, as the case may be, the Interest Commencement Date shall be payable only against surrender of the relevant definitive Note.

Payments of principal and interest (if any) in respect of Notes represented by any global Note will (subject as provided below) be made in the manner specified above in relation to definitive Notes and otherwise in the manner specified in the relevant global Note against presentation or surrender (or, in the case of part payment only, endorsement), as the case may be, of such global Note at the specified office of any Paying Agent outside the United States (which expression, as used herein, means the United States of America and its possessions). A record of each payment made against presentation or surrender of such global Note, distinguishing between any payment of principal and any payment of interest, will be made on such global Note by the Paying Agent to which it was presented and such record shall be *prima facie* evidence that the payment in question has been made.

The holder of the relevant global Note shall be the only person entitled to receive payments in respect of Notes represented by such global Note and the Issuer will be discharged by payment to, or to the order of, the holder of such global Note in respect of each amount so paid. Each of the persons shown in the records of Euroclear or Clearstream, Luxembourg as the beneficial holder of a particular nominal amount of Notes represented by such Global Note must look solely to Euroclear or Clearstream, Luxembourg, as the case may be, for his share of each payment so made by the Issuer to, or to the order of, the holder of the relevant global Note. No person other than the holder of the relevant global Note shall have any claim against the Issuer in respect of any payments due in respect of the Notes represented by such global Note.

Payments of principal and/or interest in respect of the Notes will be made at the specified office of a Paying Agent in the United States if:

- (i) the Issuer has appointed Paying Agents with specified offices outside the United States with the reasonable expectation that such Paying Agents would be able to make payment at such specified offices outside the United States of the full amount of principal and interest on the Notes in the manner provided above when due;
- (ii) payment of the full amount of such principal and interest at such specified offices outside the United States is illegal or effectively precluded by exchange controls or other similar restrictions on the full payment or receipt of principal and interest; and
- (iii) such payment is then permitted under United States law without involving, in the opinion of the Issuer, adverse tax consequences to the Issuer.

# (d) Payment Day

If the date for payment of any amount in respect of any Note or Coupon is not a Payment Day, the holder thereof shall not be entitled to payment until the next following Payment Day in the relevant place and shall not be entitled to further interest or other payment in respect of such delay. For these

purposes, unless otherwise specified in the applicable Pricing Supplement, "Payment Day" means any day which (subject to Condition 12) is:

- (i) a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in:
  - (A) in the case of Notes in definitive form only, the relevant place of presentation;
  - (B) any Additional Financial Centre specified in the applicable Pricing Supplement; and
- (ii) either (1) in relation to any sum payable in a Specified Currency other than euro, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial centre of the country of the relevant Specified Currency (which if the Specified Currency is Australian dollars or New Zealand dollars shall be Melbourne or Auckland, respectively) or (2) in relation to any sum payable in euro, a day on which the TARGET2 System is open.

# (e) Interpretation of Principal and Interest

Any reference in these Conditions to principal in respect of the Notes shall be deemed to include, as applicable:

- (i) any additional amounts which may be payable with respect to principal under Condition 8;
- (ii) the Final Redemption Amount of the Notes;
- (iii) the Early Redemption Amount of the Notes;
- (iv) the Optional Redemption Amount(s) (if any) of the Notes;
- (v) the Clean-up Call Option Amount (if any) of the Notes;
- (vi) in relation to Zero Coupon Notes, the Amortised Face Amount (as defined in Condition 4(f));
- (vii) any premium and any other amounts (other than interest) which may be payable by the Issuer under or in respect of the Notes.

Any reference in these Conditions to interest in respect of the Notes shall be deemed to include, as applicable, any additional amounts which may be payable with respect to interest under Condition 8.

## 6. AGENT AND PAYING AGENTS

The names of the initial Agent and the other initial Paying Agents and their initial specified offices are set out below. If any additional Paying Agents are appointed in relation to any Series, the names of such Paying Agents will be specified in the applicable Pricing Supplement.

The Issuer is entitled to vary or terminate the appointment of any Paying Agent and/or appoint additional or other Paying Agents and/or approve any change in the specified office through which any Paying Agent acts, **provided that**:

- so long as the Notes are listed on any stock exchange or admitted to listing by any other relevant authority, there will at all times be a Paying Agent with a specified office in such place as may be required by the rules and regulations of the relevant stock exchange (or other relevant authority);
- (ii) there will at all times be a Paying Agent with a specified office in a city in continental Europe other than a city in the Hellenic Republic; and
- (iii) there will at all times be an Agent.

In addition, the Issuer shall forthwith appoint a Paying Agent having a specified office in New York City in the circumstances described in the final paragraph of Condition 5(c). Notice of any variation, termination, appointment or change in Paying Agents will be given to the Noteholders Agent and the Noteholders promptly by the Issuer in accordance with Condition 13.

## 7. EXCHANGE OF TALONS

On and after the Interest Payment Date on which the final Coupon comprised in any Coupon sheet matures, the Talon (if any) forming part of such Coupon sheet may be surrendered at the specified office of the Agent or any other Paying Agent in exchange for a further Coupon sheet including (if such further Coupon sheet does not include Coupons to (and including) the final date for the payment of interest due in respect of the Notes to which it appertains) a further Talon, subject to the provisions of Condition 12. Each Talon shall, for the purposes of these Conditions, be deemed to mature on the Interest Payment Date on which the final Coupon comprised in the relative Coupon sheet matures.

## 8. TAXATION

All payments in respect of the Notes and Coupons payable by or on behalf of the Issuer shall be made free and clear of, and without withholding or deduction for or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature ("Taxes") imposed, collected, withheld, assessed or levied by or on behalf of the Hellenic Republic or any political subdivision thereof or any authority or agency therein or thereof having power to tax (the "Taxing Jurisdiction"), unless such withholding or deduction of such Taxes is required by law. In such event, the Issuer shall pay such additional amounts in respect of interest (but not, for the avoidance of doubt, principal or premium) as may be necessary in order that the net amounts of interest received by the holders of the Notes or Coupons after such withholding or deduction shall equal the respective amount of interest which would otherwise have been receivable in respect of the Notes or Coupons, as the case may be, in the absence of such withholding or deduction; except that no such additional amounts shall be payable in respect of any Note or Coupon:

- (i) presented for payment in the Hellenic Republic; or
- (ii) presented for payment by or on behalf of a Noteholder or Couponholder who is liable to such Taxes in respect of such Note or Coupon by reason of his having some connection with the Taxing Jurisdiction other than the mere holding of such Note or Coupon; or
- (iii) presented for payment more than 30 days after the Relevant Date (as defined below), except to the extent that the relevant Noteholder or Couponholder would have been entitled to such additional amounts on presenting the same for payment on the expiry of such period of 30 days; or

(iv) presented for payment by or on behalf of a Noteholder who would not be liable or subject to such withholding or deduction if it were to comply with a statutory requirement or to make a declaration of non-residence or other similar claim for exemption and fails to do so.

For the purposes of these Conditions, the "Relevant Date" means, in respect of any payment, the date on which such payment first becomes due and payable, but if the full amount of the moneys payable has not been received by the Agent on or prior to such due date, it means the first date on which, the full amount of such moneys having been so received, notice to that effect is duly given to the Noteholders in accordance with Condition 13.

If the Issuer becomes subject at any time to any taxing jurisdiction other than or in addition to the Hellenic Republic, references in these Conditions to the Hellenic Republic shall be construed as references to the Hellenic Republic and/or such other jurisdiction.

## 9. EVENTS OF DEFAULT

The events specified below are both "Events of Default":

- (i) If default is made in the payment of any amount due in respect of the Notes on the due date and such default continues for a period of 14 days, any Noteholder may, to the extent allowed under applicable law, institute proceedings for the Winding-Up of the Issuer.
- (ii) If, otherwise than for the purposes of a reconstruction or amalgamation on terms previously approved by Extraordinary Resolution of the Noteholders, an order is made or an effective resolution is passed for the Winding-Up of the Issuer, any Noteholder may, by written notice to the Issuer (with a copy to the Agent), declare such Note to be due and payable whereupon the same shall become immediately due and payable at its Early Redemption Amount as may be specified in or determined in accordance with the applicable Pricing Supplement, together (if applicable) with unpaid interest accrued to (but excluding) the date of redemption unless such Event of Default shall have been remedied prior to receipt of such notice by the Issuer.

## 10. MEETINGS OF NOTEHOLDERS, MODIFICATION AND WAIVER

The Agency Agreement contains provisions (which shall have effect as if incorporated herein) for convening meetings (including by way of conference call, including by use of a videoconference platform) of the Noteholders to consider any matter affecting their interests, including (without limitation) the modification by Extraordinary Resolution (as defined in the Agency Agreement) of these Conditions. An Extraordinary Resolution passed at any meeting of the Noteholders will be binding on all Noteholders whether or not they are present at the meeting, and on all holders of Coupons relating to the Notes.

The Issuer and the Agent may agree, without the consent of the Noteholders or Couponholders, to:

- (i) any modification (except such modifications in respect of which an increased quorum is required, as described in the Agency Agreement) of the Notes, the Coupons or the Agency Agreement which is not, in the opinion of the Issuer, materially prejudicial to the interests of the Noteholders; or
- (ii) any modification of the Notes, the Coupons or the Agency Agreement which is of a formal, minor or technical nature or is made to correct a manifest error or to comply with mandatory provisions of law.

Any such modification shall be binding on the Noteholders and the Couponholders and any such modification shall be notified to the Noteholders by the Issuer in accordance with Condition 13 as soon as practicable thereafter.

The agreement or approval of the Noteholders shall not be required in the case of any variation of these Conditions required to be made in the circumstances described in Conditions 3(d), 4(m) and 14 in connection with the variation of the terms of the Notes or the substitution of the Issuer in accordance with such Conditions.

In the case of Senior Preferred Notes and Senior Non-Preferred Notes, any modification (other than a modification which is made to correct a manifest error) of such Notes, these Conditions or the Deed of Covenant will be subject to Condition 4(k).

In the case of Tier 2 Notes, any modification (other than a modification which is made to correct a manifest error) of such Notes, these Conditions or the Deed of Covenant will be subject to Condition 4(1) and (if applicable) Condition 4(k).

Notwithstanding the above and the provisions of the Agency Agreement, the Noteholders Agency Agreement and all mandatory provisions of the Greek Bond Laws shall apply to the convening and conduct of meetings of Noteholders and the Noteholders Agent shall observe and comply with the same.

#### 11. REPLACEMENT OF NOTES, COUPONS AND TALONS

Should any Note, Coupon or Talon be lost, stolen, mutilated, defaced or destroyed, it may be replaced at the specified office of the Agent in London (or such other place as may be notified to the Noteholders), in accordance with all applicable laws and regulations, upon payment by the claimant of the costs and expenses incurred in connection therewith and on such terms as to evidence and indemnity as the Issuer may require. Mutilated or defaced Notes, Coupons or Talons must be surrendered before replacements will be issued.

#### 12. PRESCRIPTION

The Notes and Coupons will become void unless presented for payment within a period of ten years (in the case of principal) and five years (in the case of interest) after the Relevant Date (as defined in Condition 8) therefor.

There shall not be included in any Coupon sheet issued on exchange of a Talon any Coupon the claim for payment in respect of which would be void pursuant to this Condition 12 or Condition 5(c) or any Talon which would be void pursuant to Condition 5(c).

#### 13. NOTICES

All notices to Noteholders regarding the Notes shall be valid if published in the *Financial Times* or another leading English language daily newspaper with circulation in London.

Until such time as any definitive Notes are issued, there may, so long as the global Note(s) representing the Notes is or are held in its or their entirety on behalf of Euroclear and/or Clearstream, Luxembourg, be substituted for such publication as aforesaid the delivery of the relevant notice to Euroclear and/or Clearstream, Luxembourg, as appropriate, for communication by them to the Noteholders. Any such notice shall be deemed to have been given to the Noteholders on the day after the day on which the said notice was given to Euroclear and/or Clearstream, Luxembourg, as appropriate.

Notices to be given by any Noteholder shall be in writing and given by lodging the same, together (in the case of any Note in definitive form) with the relative Note or Notes, with the Agent. Whilst any of the Notes are represented by a global Note, such notice may be given by any Noteholder to the Agent via Euroclear and/or Clearstream, Luxembourg, as the case may be, in such manner as the Agent and Euroclear and/or Clearstream, Luxembourg, as the case may be, may approve for this purpose.

The Issuer shall also ensure that notices are duly published in a manner which complies with the rules of any stock exchange or other relevant authority on which the Notes are for the time being listed or by which they have been admitted to trading including publication on the website of the relevant stock exchange or relevant authority if required by those rules. In the case of Notes which have been admitted to trading on the Luxembourg Stock Exchange, the Issuer shall ensure that notices are published on the website of the Luxembourg Stock Exchange, <a href="https://www.bourse.lu">www.bourse.lu</a>.

Any such notices will, if published more than once, be deemed to have been given on the date of the first publication, as provided above.

The holders of Coupons and Talons will be deemed for all purposes to have notice of the contents of any notice given to Noteholders in accordance with this Condition.

Any notice concerning the Notes shall be given to the Noteholders Agent. Any such notice shall be deemed, for the purpose of the Noteholders Agency Agreement (as defined below), to have been given to the Noteholders on the seventh day after the day on which the said notice was given to the Noteholders Agent.

## 14. SUBSTITUTION OF THE ISSUER

- (i) The Issuer may, without the consent of any Noteholder or Couponholder, substitute for itself any other body corporate incorporated in any country in the world which is a Permitted Entity as the debtor in respect of the Notes, any Coupons, the Deed of Covenant, the Noteholders Agency Agreement and the Agency Agreement (the "Substituted Debtor") upon notice by the Issuer and the Substituted Debtor to be given in accordance with Condition 13, provided that:
  - (A) the Issuer is not in default in respect of any amount payable under the Notes;
  - (B) the Issuer and the Substituted Debtor have entered into such documents (the "Documents") as are necessary to give effect to the substitution and in which the Substituted Debtor has undertaken in favour of each Noteholder to be bound by the Conditions and the provisions of the Agency Agreement as the debtor in respect of the Notes in place of the Issuer (or of any previous substitute under this Condition 14);
  - (C) the Substituted Debtor shall enter into a deed of covenant in favour of the holders of the Notes then represented by a global Note on terms no less favourable than the Deed of Covenant then in force in respect of the Notes;
  - (D) if the Substituted Debtor is resident for tax purposes in a territory (the "New Residence") other than that in which the Issuer prior to such substitution was resident for tax purposes (the "Former Residence"), the Documents contain an undertaking and/or such other provisions as may be necessary to ensure that, following substitution, each Noteholder would have the benefit of an undertaking in terms corresponding to the provisions of Condition 8, with (a) the substitution of references to the Issuer with references to the Substituted Debtor (to the extent that this is not

- achieved by Condition 14(i)(B)) and (b) the substitution of references to the Former Residence with references to both the New Residence and the Former Residence;
- (E) the Substituted Debtor and the Issuer have obtained all necessary governmental approvals and consents for such substitution and for the performance by the Substituted Debtor of its obligations under the Documents;
- (F) legal opinions shall have been delivered to the Issuer (which legal opinions shall be made available by the Issuer to the Noteholders for inspection upon request and on a non-reliance basis) from lawyers of recognised standing in the jurisdiction of incorporation of the Substituted Debtor, in England and in Greece as to the fulfilment of the requirements of this Condition 14 and that the Notes and any related Coupons and/or Talons are legal, valid and binding obligations of the Substituted Debtor;
- (G) each stock exchange (including organised or regulated markets and multilateral trading facilities) on which the Notes are listed shall have confirmed that, following the proposed substitution of the Substituted Debtor, the Notes will continue to be listed on such stock exchange;
- (H) if applicable, the Substituted Debtor has appointed a process agent as its agent in England to receive service of process on its behalf in relation to any legal proceedings arising out of or in connection with the Notes and any related Coupons; and
- (I) such substitution shall not result in any event or circumstance which at or around that time gives the Issuer a redemption right in respect of the Notes.
- (ii) In the case of Senior Preferred Notes, Senior Non-Preferred Notes and Tier 2 Notes, any substitution pursuant to Condition 14(i) will be subject to Condition 4(k) (in the case of Senior Preferred Notes and Senior Non-Preferred Notes) or Condition 4(l) and (if applicable) Condition 4(k) (in the case of Tier 2 Notes).
- (iii) Upon such substitution the Substituted Debtor shall succeed to, and be substituted for, and may exercise every right and power of, the Issuer under the Notes, any Coupons, the Deed of Covenant and the Agency Agreement with the same effect as if the Substituted Debtor had been named as the Issuer herein, and the Issuer shall be released from its obligations under the Notes, any Coupons and/or Talons, the Deed of Covenant and under the Agency Agreement.
- (iv) After a substitution pursuant to Condition 14(i) the Substituted Debtor may, without the consent of any Noteholder or Couponholder, effect a further substitution. All the provisions specified in Conditions 14(i), 14(ii) and 14(iii) shall apply *mutatis mutandis*, and references in these Conditions to the Issuer shall, where the context so requires, be deemed to be or include references to any such further Substituted Debtor.
- (v) After a substitution pursuant to Condition 14(i) or 14(iv) any Substituted Debtor may, without the consent of any Noteholder or Couponholder, reverse the substitution, *mutatis mutandis*.
- (vi) Copies of the Documents shall be delivered by the Issuer to, and kept by, the Agent. Copies of the Documents will be available for inspection or collection free of charge during normal business hours at the specified office of each of the Paying Agents upon reasonable request or may be provided by email to a Noteholder or Couponholder following their prior written request to any Paying Agent and provision of proof of holding and identity (in a form satisfactory to the relevant Paying Agent).

- (vii) In the event of any substitution of Senior Preferred Notes issued by Alpha Holdings such that the Substituted Debtor becomes Alpha Bank or its Successor in Business the Issuer and the Substituted Debtor may (in their sole discretion) vary the terms of the Notes so that they become Senior Non-Preferred Notes and provided further that, if the Issuer has issued one or more other Series of Notes with the same ranking as the Notes (such other Notes, "Other Relevant Notes"), the Issuer may only vary the terms of the Notes in accordance with this sub-paragraph if equivalent variations to the terms of the Other Relevant Notes are made at or around the same time as the relevant variation(s) to the terms of the Notes.
- (viii) In the event of any substitution of Senior Non-Preferred Notes issued by Alpha Bank such that the Substituted Debtor becomes Alpha Holdings, any Successor in Business of Alpha Holdings or any other Holding Company of Alpha Bank (where permitted pursuant to this Condition 14), the Issuer and the Substituted Debtor may (in their sole discretion) vary the terms of the Notes so that they become Senior Preferred Notes.
- (ix) For the purpose of this Condition 14, references to:
  - (A) the "Agency Agreement" shall, where the Substituted Debtor is incorporated in the Hellenic Republic, be deemed to include the Noteholders Agency Agreement to the extent applicable and where the context so admits;
  - (B) a "**Permitted Entity**", in relation to the Issuer means:
    - I. the Successor in Business of the Issuer;
    - II. in relation to Notes issued by Alpha Holdings, Alpha Bank or any Successor in Business of Alpha Bank;
    - III. if "Substitution to Holding Company" is specified as being applicable in the applicable Pricing Supplement, in relation to Notes issued by Alpha Bank, Alpha Holdings, any Successor in Business of Alpha Holdings or any other Holding Company of the Issuer; and
    - IV. if "Substitution to Holding Company" is specified as being applicable in the applicable Pricing Supplement, in relation to Notes issued by Alpha Holdings, any Holding Company of Alpha Holdings;
  - (C) "Holding Company" means (in relation another body corporate ("Company B")) a body corporate which:
    - I. holds a majority of the voting rights in Company B; or
    - II. is a member of Company B and has the right to appoint or remove a majority of its board of directors; or
    - III. is a member of Company B and controls alone, under an agreement with other shareholders and members, a majority of the voting rights in Company B; and
  - (D) a "Successor in Business" shall mean any company (the "successor entity") which:
    (a) owns beneficially the whole or substantially the whole of the property and assets owned by the Issuer immediately prior thereto; and (b) carries on, as successor to the

Issuer, the whole or substantially the whole of the business carried on by the Issuer immediately prior thereto, provided that (in either case) in assessing the "whole or substantially the whole" of the property, assets and business of the Issuer no account shall be taken of any shares in the successor entity held by the Issuer.

#### 15. NOTEHOLDERS AGENT

Prior to the completion of an issue of Notes, if (and for so long as the Issuers consider that it is) so required by the Greek Bond Laws (to the extent applicable), the Issuers shall appoint a Noteholders Agent by way of a written contract (the "Noteholders Agency Agreement") and in accordance with provisions of the Greek Bond Laws.

The Noteholders Agent shall be an entity of the kind prescribed in the Greek Bond Laws. The applicable Pricing Supplement will specify the name of the entity (if any) acting as the Noteholders Agent.

Subject as provided in Condition 10, the Noteholders Agent shall have such rights against the Issuer and such duties and obligations as are prescribed for an entity acting in such capacity under the Greek Bond Laws but such rights, duties and obligations shall be without prejudice to the rights of Noteholders against the relevant Issuer set out in these Conditions.

The meetings of the Noteholders shall be entitled to vary or terminate the appointment of the Noteholders Agent in accordance with the provisions of the Greek Bond Laws and the Conditions of the Notes in respect of the relevant Issuer.

#### 16. FURTHER ISSUES

The Issuer shall be at liberty from time to time without the consent of the Noteholders to create and issue further notes ranking *pari passu* in all respects (or in all respects save for the amount and date of the first payment of interest thereon and the date from which interest starts to accrue) with the outstanding Notes and so that the same shall be consolidated and form a single series with the outstanding Notes.

## 17. ACKNOWLEDGEMENT OF STATUTORY LOSS ABSORPTION POWERS

Notwithstanding any other term of the Notes or any other agreement, arrangement or understanding between the Issuer and the Noteholders, by its subscription and/or purchase and holding of the Notes, each Noteholder (which for the purposes of this Condition 17 includes each holder of a beneficial interest in the Notes) acknowledges, accepts, consents and agrees:

- (i) to be bound by the effect of the exercise of any Statutory Loss Absorption Power by the Relevant Resolution Authority, which may include and result in any of the following, or some combination thereof:
  - (A) the reduction of all, or a portion, of the Amounts Due on a permanent basis;
  - (B) the conversion of all, or a portion, of the Amounts Due into shares, other securities or other obligations of the Issuer or another person (and the issue to or conferral on the holder of such shares, securities or obligations), including by means of an amendment, modification or variation of the terms of the Notes, in which case the Noteholder agrees to accept in lieu of its rights under the Notes any such shares, other securities or other obligations of the Issuer or another person;
  - (C) the cancellation of the Notes or Amounts Due; or

- (D) the amendment or alteration of the maturity of the Notes or amendment of the Interest Amount payable on the Notes, or the date on which the interest becomes payable, including by suspending payment for a temporary period; and
- (ii) that the terms of the Notes are subject to, and may be varied, if necessary, to give effect to, the exercise of any Statutory Loss Absorption Power by the Relevant Resolution Authority.

Upon the Issuer and/or any member of the Group being informed and notified by the Relevant Resolution Authority of the actual exercise of any Statutory Loss Absorption Power with respect to the Notes, the Issuer shall notify the Noteholders without delay in accordance with Condition 13. Any delay or failure by the Issuer to give notice shall not affect the validity and enforceability of the Statutory Loss Absorption Power nor the effects on the Notes described in this Condition 17.

The exercise of any Statutory Loss Absorption Power by the Relevant Resolution Authority with respect to the Notes shall not constitute an Event of Default, and these Conditions shall continue to apply in relation to the residual principal amount of, or outstanding amount payable with respect to, the Notes subject to any modification of the amount of interest payable to reflect the reduction of the principal amount, and any further modification of the terms that the Relevant Resolution Authority may decide in accordance with applicable laws and regulations relating to the resolution of credit institutions, investment firms and/or members of the Group incorporated in the relevant Member State or, if appropriate, third country (not or no longer being a Member State).

Each Noteholder also acknowledges and agrees that this provision is exhaustive on the matters described herein to the exclusion of any other agreements, arrangements or understandings relating to the application of any Statutory Loss Absorption Power to the Notes.

#### In these Conditions:

"Amounts Due" means the principal amount, together with any accrued but unpaid interest, and any additional amounts referred to in Condition 8, if any, due on the Notes. References to such amounts will include amounts that have become due and payable, but which have not been paid, prior to the exercise of any Statutory Loss Absorption Power by the Relevant Resolution Authority.

"Statutory Loss Absorption Powers" means any statutory write-down and/or conversion power existing from time to time under any laws, regulations, rules or requirements, whether relating to the resolution or independent of any resolution action of credit institutions, investment firms and/or members of the Group incorporated in the relevant Member State or, if appropriate, a third country (not or no longer being a Member State) in effect and applicable in the relevant Member State or, if appropriate, third country (not or no longer being a Member State) to the Issuer or other members of the Group, including (but not limited to) the bail-in powers provided for by articles 43 and 44 of Greek Law 4335/2015 which has transposed the BRRD, the write-down powers provided for by articles 59 and 60 of Greek Law 4335/2015 and any other such laws, regulations, rules or requirements that are implemented, adopted or enacted within the context of any European Union directive or regulation of the European Parliament and of the Council establishing a framework for the recovery and resolution of credit institutions and investment firms and/or within the context of a relevant Member State resolution regime or otherwise, pursuant to which liabilities of a credit institution, investment firm and/or members of the Group can be reduced, cancelled and/or converted into shares or other obligations of the obligor or any other person.

# 18. GOVERNING LAW AND JURISDICTION

(i) The Agency Agreement, the Deed of Covenant, the Notes and the Coupons and all noncontractual obligations arising out of or in connection with each of them are governed by English law except that Conditions 2, 15 and 17 are governed by and shall be construed in accordance with Greek law.

- (ii) The Issuer irrevocably agrees, for the exclusive benefit of the Noteholders, that the courts of England shall have jurisdiction to hear and determine any suit, action or proceedings, and to settle any disputes, which may arise out of or in connection with the Agency Agreement, the Deed of Covenant and the Notes (including any suit, action, proceedings or dispute relating to any non-contractual obligation arising out of or in connection with the Agency Agreement, the Deed of Covenant and the Notes) (together "**Proceedings**") and, for such purpose, irrevocably submits to the jurisdiction of such courts.
- (iii) The Issuer irrevocably and unconditionally waives and agrees not to raise any objection which it may have now or subsequently to the laying of the venue of any Proceedings in the courts of England and any claim that any Proceedings have been brought in an inconvenient forum and further irrevocably and unconditionally agrees that a judgment in any Proceedings brought in the courts of England shall be conclusive and binding upon it and may be enforced in the courts of any other jurisdiction. To the extent permitted by law, nothing in this Condition 18 shall limit any right to take Proceedings against the Issuer in any other court of competent jurisdiction, nor shall the taking of Proceedings in one or more jurisdictions preclude the taking of Proceedings in any other jurisdiction, whether concurrently or not.
- (iv) The Issuer irrevocably and unconditionally agrees that service in respect of any Proceedings may be effected upon Alpha Bank London Limited, whose registered address is at Capital House, 85 King William Street, London EC4N 7BL and undertakes that in the event of Alpha Bank London Limited ceasing so to act it will forthwith appoint a further person as its agent for that purpose and notify the name and address of such person to the Agent and agrees that, failing such appointment within fifteen days, any Noteholder shall be entitled to appoint such a person by written notice addressed to the Issuer and delivered to the Issuer (with a copy to the Agent). Nothing contained herein shall affect the right of any Noteholder to serve process in any other manner permitted by law.

# 19. CONTRACTS (RIGHTS OF THIRD PARTIES) ACT 1999

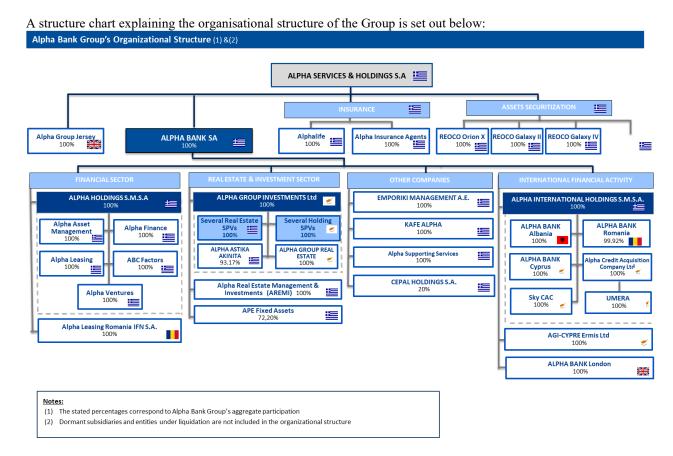

No rights are conferred on any person under the Contracts (Rights of Third Parties) Act 1999 to enforce any term of this Note, but this does not affect any right or remedy of any person which exists or is available apart from that Act.

# **USE OF PROCEEDS**

The net proceeds from each issue of Notes will be used by the relevant Issuer for the general corporate and financing purposes of the Group and to further strengthen its MREL base (in the case of Senior Preferred Notes and Senior Non-Preferred Notes) or its capital base and capital adequacy ratios (in the case of Tier 2 Notes).

#### THE GROUP

The Group is one of the leading banking and financial services groups in Greece, offering a wide range of services including retail banking, corporate banking, asset management and private banking, insurance distribution, investment banking and brokerage, treasury and real estate management. The Group is active in Greece, its principal market, and in markets in South Eastern Europe (Cyprus, Romania and Albania). The Group also maintains a presence in the United Kingdom (through its wholly-owned subsidiary Alpha Bank London Limited, although its United Kingdom branch office was moved to Luxembourg in line with the ECB/SSM Guidelines on the United Kingdom's withdrawal from the EU), Bulgaria, Jersey and Luxembourg. Following the Hive Down (as described below), the Bank is the operating company of the Group and its principal bank.

On 6 December 2021, the Group announced the Alpha Bank Albania Sale. Completion of the Alpha Bank Albania Sale is expected to take place within 2022, subject to the satisfaction of certain conditions precedent (including obtaining regulatory approvals under applicable law).

The Group has a strong market share in each of its four domestic lines of business (retail banking, corporate banking, asset management and insurance, and investment banking and treasury). Its client base comprises retail clients, small and medium-sized enterprises, self-employed professionals, large corporations, high net worth individuals, private and institutional investors and the Greek government.

The Group, through a national and international branch and ATM network, in combination with advanced online and telephone channels, offers banking and financial services to its individual and corporate customers. These features extend the Group's presence in the domestic Greek market, as well as in the international markets in which it operates.

Management considers other competitive strengths of the Group as being its large customer base, its highly motivated and trained personnel, its advanced IT systems and its reorganised and modernised branch network, which has extended its ability in product innovation and in offering a wide range of services and opportunities for cross-selling products of the Group through its traditional and alternative distribution channels.

As of 31 December 2021, the Group's total assets increased by  $\in 3.4$  billion, or 5 per cent. compared to 31 December 2020, amounting to  $\in 73.4$  billion (from  $\in 70.0$  billion as at 31 December 2020). The Group's due to banks amounted to  $\in 14.0$  billion, an increase of  $\in 0.9$  billion, or 6.69 per cent. compared to 31 December 2020 following the raising of  $\in 1$  billion of liquidity (over a three-year period) in March 2021 through the TLTRO III programme, replacing the previous funding from the Eurosystem. The Group's due to customers amounted to  $\in 47.0$  billion at 31 December 2021, an increase of  $\in 3.1$  billion or  $\in 7.16$  per cent. compared to 31 December 2020, lowering the loan-to-deposit ratio to 78 per cent. as of 31 December 2021, compared to 90 per cent. as of 31 December 2020.

Moreover, during the first quarter of 2021, Alpha Holdings (formerly Alpha Bank S.A.) issued new subordinated debt at a nominal value of €500 million, while new Alpha Bank S.A. in the second half of 2021 issued two senior preferred bonds with a nominal value of €500 million and €400 million respectively. As a result, the balance of debt securities in issue and other borrowed funds as at 31 December 2021 increased by €1.4 billion (or 112 per cent.) compared to the position as at 31 December 2020.

The balance of cash and balances to central banks as of 31 December 2021 amounted to  $\in$  11.8 billion, an increase of  $\in$ 4.3 billion as a result of additional funds of  $\in$ 1 billion being raised through the TLTRO III programme, an increase in customer deposits, the issuance of bonds as well as the share capital increase that took place in July 2021.

The balance of loans and advances to customers amounted to  $\[Epsilon]$ 3.4 billion as at 31 December 2020, due to the completion of the Galaxy Securitisation in which 51 per cent. of the mezzanine and junior bonds issued by Orion Securitisation Designated Activity Company, Galaxy II Funding Designated Activity Company and Galaxy IV Funding Designated Activity Company were sold and a securitised loan portfolio with a book value of  $\[Epsilon]$ 5.8 billion was derecognised. After the completion of the sale, the Group retained in its possession 100 per cent. of the senior notes and 49 per cent. of the mezzanine and junior notes, out of which 100 per cent. of the senior notes and 5 per cent. of the mezzanine and junior notes with a total value of  $\[Epsilon]$ 63.8 billion were classified as loans and advances to customers.

The Group's total equity amounted to €6.1 billion as of 31 December 2021, a €2.3 billion decrease compared to 31 December 2020, mainly due to the losses recognised in the context of the completion of the Galaxy Securitisation, while the total capital adequacy ratio of the Group decreased by 232 basis points (compared to the position as at 31 December 2020) to stand at 16.1 per cent. (on a phased-in basis) on 31 December 2021.

In the period from 1 January 2021 to 31 December 2021, the Group's net loss after income tax amounted to €2.9 billion.

The Group has committed to specific objectives for the period 2021-2024 through the announcement of the Updated Strategic Plan, which management will use to monitor the normalised gains/losses of the Group compared to the objectives it has set. Normalised gains/losses do not include gains/losses that have been designated as non-recurring or the gains/losses recognised either in the context of planned transactions or the Updated Strategic Plan and are analysed for the 2021 financial year below:

• The total effect in the income statement from the Galaxy Securitisation amounted to €2.1 billion. This comprises (a) losses relating to the Galaxy Securitisation of €2.2 billion, included in gains less losses on derecognition of financial assets measured at amortised cost; (b) gains from the sale of Cepal Hellas

of  $\in$ 111 million, included in gains less losses on financial transactions; and (c) tax expenses related to the above transactions of  $\in$ 12.3 million, included in income tax.

- The total effect in the income statement from Project Cosmos amounted to €22.1 million, which has been recognised in gains less losses on derecognition of financial assets measured at amortised cost.
- Expenses amounted to €265 million, relating to (a) provision for employee separation schemes of €97.7 million; (b) impairment of €16.2 million on intangible assets relating to customer relationships from the acquired credit card operations of Diners in 2015, as well as the acquired deposit base of Citibank in 2014; (c) impairment of €10.4 million related to computer applications whose use ceased during the year of 2021, in order to be replaced by other existing systems; (d) impairment of €15.1 million relating to computer applications which in the context of the Group's transformation programme were considered not to meet the new business requirements; (e) impairments and sales of real estate assets amounting to €65.7 million related to Project Sky; (f) impairments and sales of fixed assets amounting to €9.3 million; and (g) other expenses amounting to €50.2 million included as operating expenses that have been designated as non-recurring.
- Impairment losses of €1,038 million related to the incorporation of sales scenarios in the expected credit losses calculation for specific transactions included in the Bank's NPE Business Plan (the Cosmos, Orbit, Sky, Leasing and Solar projects).
- The results of financial operations that amounted to profits of €107 million.
- The results concerning the estimated loss from the Alpha Bank Albania Sale amounting to €34 million.

After excluding the above, the normalised net profit after income tax for the year ended 31 December 2021 amounted to €330 million (including a tax expense amounting to €75 million).

# Normalised net profit for the period after income tax for the period 1 January 2021 to 31 December 2021 (amounts in millions of €)

	Amount of gains/losses included in the condensed interim income statement of the period	Excluded gain/losses	Normalised gain/losses of the period
Net interest income	1,376		1,376
Net income from fees and commissions	400		400
Other income	32		32

Income tax	(10)	48	(58)
Net profit/(loss) from discontinued operations	3	1	2
Net profit/(loss) for the period after income tax	104	17	87

Normalised profit for the period 1 January 2020 to 31 December 2020 was €330 million. This is after accounting for gains/losses that have been designated as non-recurring. For the period 1 January 2020 to 31 December 2020, gains/losses recognised either in the context of planned transactions or the Updated Strategic Plan are analysed below:

- Gains less losses on financial transactions and gains less losses on derecognition of financial assets measured at amortised cost amounting to €689 million that mainly related to gains from sales of bonds and interest-bearing Greek government and other bonds.
- Expenses before impairment losses and provisions to cover credit risk amounting to €118 million that related to (a) provision for employee separation schemes of €26 million for the Group's subsidiary in Cyprus, (b) impairment of fixed and intangible assets of €22 million, (c) carve-out expenses relating to Cepal Hellas amounting to €24 million, (d) provisions for legal cases and operational risk losses and other expenses amounting to €14 million and (e) other expenses amounting to €32 million that are either related to the implementation of the Updated Strategic Plan or which are of a non recurring nature.
- Impairment losses and provisions to cover credit risk amounting to €602 million which relates (a) to the impact of the global economic crisis caused by the COVID-19 pandemic and (b) to the incorporation of sales scenarios in the expected credit losses calculation.
- Income tax on the above-mentioned results amounting to €6 million (expense) as well as €54 million (income) that concerns a reversal of deferred tax liability, which has been calculated on investments classified as "held for sale", as a result of a change in tax regime resulting from article 20 of Greek Law

4646/2019, according to which the gains from the sale of the aforementioned investments is exempt from taxation, while the losses are deductible up to the amount that have been recognised as of 31 December 2019.

Normalised net profit for the 2021 financial year increased by €243 million compared to €87 million for the year 2020 and was mainly affected by the recognition (a) of reduced interest income by €151 million mainly due to the reduction of the overdue loan portfolio partially offset by the improvement in Eurosystem borrowing costs and the use of an interest rate of -1% for the TLTRO III programme for the period from 24 June 2020 to 31 December 2021, (b) increased commissions on bond loans, mutual funds and cards and (c) in reduced credit risk impairments that do not relate to loan sale scenarios included in the transactions envisaged by the Updated Strategic Plan.

Staff costs have remained stable since the benefits from the completion of employee separation schemes of the Bank and the subsidiary company Alpha Bank Cyprus Ltd and the benefits from the reduction in social contribution costs have been offset by the impact of newly consolidated subsidiaries. The normalised net profit after income tax for the twelve months of 2021 amounted to €87 million.

On 2 July 2021, Alpha Holdings announced that it successfully completed the offering of 800,000,000 new ordinary, voting, dematerialised shares each of a nominal value of €0.30 and offer price at €1.00 per new share to (a) institutional investors pursuant to a private placement outside of Greece and (b) retail and qualified investors in the context of a public offering in Greece. As a result, the new share capital of Alpha Holdings amounted to €703.8 million divided into 2,345,981,097 shares, of which:

- 2,134,842,798 (or 91 per cent. of the share capital) are common, nominal, dematerialised shares with voting rights, of a nominal value of €0.30 each, which are listed for trading on the Securities Market of the Athens Stock Exchange (the "ATHEX"); and
- 211,138,299 (or 9 per cent. of the share capital) are common, nominal, voting, dematerialised shares of a nominal value of €0.30 each, owned by the HFSF and listed for trading on the Securities Market of the ATHEX, of which 169,174,167 are subject to the restrictions foreseen in the provision of article 7a of Law 3864/2010.

As of 31 December 2021, Alpha Holdings' equity was held by approximately 112,000 shareholders. On the same date, the shareholder base comprised the HFSF, representing approximately 9 per cent., and private shareholders representing approximately 91 per cent. of the common shareholder base. The private shareholders comprised:

- institutional shareholders representing approximately 79 per cent. of the shareholder base (of which approximately 72 per cent. were foreign institutional investors and 7 per cent. were Greek institutional investors); and
- individuals and legal entities representing approximately 12 per cent. of the shareholder base.

On 23 July 2021, the Extraordinary General Meeting of the Bank resolved the increase of its share capital in the amount of  $\in 1,000,000,000$  with cash payment and the issuance of 1,000,000,000 new common, registered, voting shares with a nominal value of  $\in 0.10$  each and offer price at  $\in 1.00$  per new share. The difference between the nominal value of the new shares and their offer price amounting to  $\in 900,000,000$  was credited to the special account "Share premium".

On 25 October 2021, the Extraordinary General Meeting of the Bank resolved the decrease by way of distribution in kind by the amount of &10,825,250 through cancellation of 108,252,500 common, nominal shares with voting rights, of a nominal value of &0.10 each and the distribution in kind to the sole shareholder of 2,042.5 mezzanine and 14,285.15 junior securitisation notes owned by the Bank and issued on 8 October 2021

by 'COSMOS SECURITISATION DESIGNATED ACTIVITY COMPANY', based in Ireland (1-2 Victoria Buildings Haddington Road Dublin, Dublin 4, D04 XN32, Ireland), with company registration number 700585 of a total value equal to the amount of the reduction of the Bank's share capital.

On 23 December 2021, the Extraordinary General Meeting of the Bank approved the increase of the share capital of the Bank in the amount of  $\in 160,000$ , with cash and the issuance of 160,000,000 new common nominal voting shares, with a nominal value of  $\in 0.10$  each and a sale price of  $\in 1.00$  per share. As a result the share capital of the Bank as of 31 December 2021 amounted to  $\in 5.2$  billion divided into 51,889,992,461 common, nominal shares with voting rights of a nominal value of  $\in 0.10$  each, all of which are owned by Alpha Holdings as the sole shareholder.

On 15 February 2022, Alpha Holdings announced that its share capital had increased by  $\[ \le \]$ 429,050.40 due to the exercise of stock options rights by 88 beneficiaries ('material risk takers') of Alpha Holdings and its affiliated companies, at an offer price of  $\[ \le \]$ 0.30 per share, pursuant to the resolution of the Ordinary General Meeting of Shareholders dated 31 July 2020 and to the relevant resolutions of the Board of Directors dated 30 December 2020, 16 December 2021 and 28 January 2022. Following such increase in share capital, Alpha Holdings' share capital amounted to  $\[ \le \]$ 704,223,379.50 divided into 2,347,411,265 common, registered shares with voting rights at a nominal value of  $\[ \le \]$ 0.30 each.

#### Financial crisis in the Hellenic Republic

Greece experienced an unprecedented financial crisis from 2008 to 2016. During this period, the Hellenic Republic faced significant pressure on its public finances and committed to certain Stabilisation Programmes, agreed initially with the IMF, the EU and the ECB (together, the "Institutions") and in 2015 with the Institutions and the ESM.

Under the first two Stabilisation Programmes the Hellenic Republic received €141.8 billion in loans from the European Financial Stability Fund (the "EFSF") between 2012 and 2015. Further, from 2010 to 2012 the Hellenic Republic received €59 billion in bilateral loans under the so-called Greek Loan Facility from EU Member States (Source: ESM Press Release 20 August 2018).

The first two Stabilisation Programmes, however, failed to stabilise the Greek economy, notwithstanding the reforms and measures implemented thereunder, although during 2014 the economic indicators had shown signs of improvement.

However, in 2015 uncertainty over the Greek economy and the implementation of the second Stabilisation Programme, resulting from the prolonged negotiations between the new government and the Institutions, reappeared. Late in June 2015, a bank holiday was declared in the Greek banking sector for three weeks and capital movement restrictions were imposed because of further deterioration of the financial situation in Greece and liquidity shortfall in the Greek banking system. These were caused by the expiration of the second Stabilisation Programme, a payment default by the Greek government under its IMF facility and the failure of the Greek government to reach an agreement with the IMF and the rest of the Eurozone members for a third Stabilisation Programme.

In August 2015 and following prolonged negotiations, the Greek government managed to reach an agreement with the EU and the ECB, with input from the IMF, for a Stabilisation Programme of approximately €86 billion granted by the ESM (the "ESM Programme").

The impact of the implementation of the ESM Programme on the Greek economy contributed to the decrease of uncertainty and the stabilisation of private sector deposit withdrawals, resulting also in the gradual relaxation of the capital movement restrictions. Thus, after eight years of recession, the economic and business environment in Greece began to improve in 2017. Additionally, GDP increased further in 2017, despite the tighter-than-

initially-expected fiscal conditions. Finally, on 28 August 2019 the capital movement restrictions were repealed by virtue of art. 86 of Greek Law 4624/2019.

Moreover, on 23 January 2017, the respective boards of directors of the ESM and the EFSF formally adopted rules on short-term debt relief measures for Greece. These measures aimed to reduce interest rate risk for Greece, including by changing some debt rates from floating to fixed, and to make the burden of debt repayment easier. As part of these measures the ESM and the EFSF, in collaboration with the Hellenic Republic, launched an exchange programme for the four systemic Greek banks, under which the  $\epsilon$ 42.7 billion EFSF notes that had been previously applied through the HFSF for the recapitalisation and resolution of Greek credit institutions were exchanged for long term newly issued ESM notes and ultimately cash in 2017. During the period of 2017 and under this agreement, Alpha Holdings (then operating as a credit institution under the company name Alpha Bank S.A.) exchanged floating rate bonds of nominal value  $\epsilon$ 2,522 million issued by EFSF, with equal in nominal value bonds, of fixed coupon, issued by the EFSF, with a maturity of 30 years. Of those, the EFSF repurchased bonds at a nominal value of  $\epsilon$ 2,349 million whilst a remaining bond with a nominal value of  $\epsilon$ 173 million was classified as available for sale which was repurchased by EFSF in January 2018. As at 31 December 2018 the book value of such bonds stood at  $\epsilon$ 0.

In August of 2018, the Hellenic Republic concluded the ESM Programme with a successful exit. This followed the disbursement of  $\epsilon$ 61.9 billion by the ESM over three years in the context of the ESM Programme in support of macroeconomic adjustment and bank recapitalisation in 2015. The remaining  $\epsilon$ 24.1 billion available under the maximum  $\epsilon$ 86 billion programme volume was not needed (Source: ESM Press release 20 August 2018).

No fourth Stabilisation Programme was requested by the Hellenic Republic. Nevertheless, as part of the post-Stabilisation Programme period, the Hellenic Republic made specific policy commitments to complete key structural reforms initiated under the ESM Programme, against agreed deadlines and made a general commitment to continue the implementation of all key reforms adopted under the ESM Programme. These include commitments to achieve demanding fiscal targets such as a primary budget surplus of 3.5 per cent. of GDP in 2018-2022 and 2.2 per cent. of GDP, on average, in the longer term.

These commitments were made against the Eurogroup's agreement to implement certain medium- and long-term debt relief measures (which were in addition to the aforesaid short-term measures), namely:

- the abolition of the step-up interest rate margin related to the debt buy-back tranche of the second Stabilisation Programme as of 2018;
- the use of 2014 Securities Market Programme ("SMP") profits from the ESM segregated account and the restoration of the transfer of the Agreement on Net Financial Assets (ANFA) and SMP income equivalent amounts to the Hellenic Republic; and
- a further deferral of EFSF interest and amortisation by 10 years and an extension of the maximum weighted average maturity by 10 years, respecting the programme authorised amount (*Eurogroup statement on Greece of 22 June 2018*).

The implementation of these measures was approved by the EFSF Board of Directors on 22 November 2018.

# Further the Board of the EFSF:

- at its meeting of 9 January 2020 decided to reduce to zero the step-up margin due from the Hellenic Republic for the period between 17 June 2019 and 31 December 2019; and
- at its meeting of 7 July 2020 decided to reduce to zero the step-up margin accrued by the Hellenic Republic for the period between 1 January 2020 and 17 June 2020.

On 11 July 2018 the European Commission activated the Enhanced Surveillance procedure for monitoring the implementation of the aforesaid commitments by the Hellenic Republic. Fourteen Enhanced Surveillance reports have been published by the European Commission on the Hellenic Republic so far, with the most recent one being published in May 2022.

With respect to liquidity, by the end of the ESM Programme, the Hellenic Republic had created a sizeable cash buffer, while increasing its liquidity through the issuance of government bonds. The Hellenic Republic entered the COVID-19 pandemic in a relatively favourable fiscal position, with a strong primary surplus, and low medium-term refinancing needs on its public debt. The Hellenic Republic in 2019 reached its agreed primary surplus target of 3.5 per cent. (Source: European Commission sixth Enhanced Surveillance Report, May 2020) and issued €2.0 billion 7-year, €3.0 billion 10-year, €2.5 billion 10-year (reopening), €2.5 billion 15-year and €2.5 billion 15-year (reopening) Greek government bonds ("GGB") (at yields of 2.013 per cent., 1.568 per cent., 1.187 per cent., 1.911 per cent. and 1.152 per cent., respectively) in 2020, a total of €12.0 billion. In 2021, GGB issuance amounted to €14 billion (€3 billion 5-year at 0.172 per cent., €3.5 billion 10-year at 0.807 per cent., €2.5 billion 10-year at 0.888 per cent. (reopening), €2.5 billion 30-year at 1.956 per cent., €1.5 billion 5-year at 0.020 per cent. (reopening) and €1 billion 30-year at 1.675 per cent. (reopening)). The Hellenic Republic's cash buffer is an important asset in view of the impact on revenues and extraordinary spending needed to tackle the COVID-19 pandemic. Including the cash reserves of general government entities already on the treasury single account, the Hellenic Republic's reserves are currently sufficient to cover, if necessary, sovereign gross financing needs for approximately three years (Source: Hellenic Republic Funding Strategy for 2022, PDMA), even without additional issuance of GGBs. The Hellenic Republic has secured fiscal flexibility similar to that applied to all Eurozone Member States in order to deal with the consequences of the COVID-19 pandemic and was not bound to the 3.5 per cent. primary surplus target for 2020 or 2021. According to the fiscal policy guidance of the European Commision for 2023 (issued in March 2022), the fiscal policy is expected to remain supportive in 2022.

Reflecting many of the developments described above:

- On 24 January 2020, Fitch upgraded the Hellenic Republic's sovereign rating from BB- to BB with a positive outlook, and on 23 April 2020 changed the outlook to stable in order to reflect the impact of the COVID-19 pandemic on economic activity. On 22 January 2021, Fitch affirmed the Hellenic Republic's BB rating with a stable outlook. On 14 January 2022, Fitch revised the outlook to positive.
- On 6 November 2020, Moody's upgraded the Hellenic Republic's sovereign rating from B1 to Ba3 with a stable outlook.
- On 24 April 2020, S&P retained the Hellenic Republic's sovereign rating at BB-, while it changed the outlook to stable due to the COVID-19 pandemic. On 23 April 2021, S&P upgraded the Hellenic Republic's sovereign rating to BB with positive outlook.

The Hellenic Republic's sovereign ratings have been improving steadily, although they are still below investment grade. Nevertheless, recent ratings upgrades, the successful graduation from the third economic adjustment programme, the successful conclusion of twelve consecutive Enhance Post Programme Surveillance (EPPS) reviews, fiscal developments, the ECB's Pandemic Emergency Purchase Programme (PEPP) and the pro-reform government formed after the 7 July 2019 general elections have all contributed to an improvement in the yield spread of 10-year GGBs relative to the equivalent German government bonds of approximately 256 basis points between the end of August 2018 and 31 December 2021.

## The Acquisition of Emporiki

On 1 February 2013 Alpha Holdings completed the acquisition of Emporiki from Crédit Agricole. As of the date of acquisition Emporiki was consolidated in the financial statements of the Group. On 28 June 2013, Emporiki was merged into Alpha Holdings.

As a result of the acquisition of Emporiki, in 2013 Alpha Holdings recognised negative goodwill of €3,283 million resulting from the difference between the fair value of the net assets acquired and the purchase price. The negative goodwill recognised is not subject to income tax. Emporiki offered a large variety of banking products and services to individuals, small and medium-sized enterprises ("SMEs") and large companies and enjoyed a strong market presence in Greece and Cyprus through an extensive network of branches in both countries. The transaction represented a major step in the restructuring of the Greek banking sector and strengthened the position of Alpha Holdings within the market, creating one of the largest financial groups in Greece and adding total assets of €19.1 billion to the Group's balance sheet as of 1 February 2013.

In addition, at the completion of the transaction, Crédit Agricole also subscribed for €150 million convertible bonds issued by Alpha Holdings. In February 2017, Crédit Agricole exercised its conversion option under the convertible bonds, which resulted in the allocation of 6,818,181 new ordinary shares in Alpha Holdings to Crédit Agricole. The transaction resulted in a net recapitalisation of the combined entity by an aggregate amount of approximately €2.9 billion and contributed towards Alpha Holdings' own recapitalisation plan.

# 2013 Capital Increase

On 16 April 2013, the second iterative meeting of the Extraordinary General Meeting of Alpha Holdings' shareholders convened and approved Alpha Holdings'  $\epsilon$ 4,571 million Capital Strengthening Plan (announced on 2 April 2013) and granted the power to the Board of Directors to implement, assessing the financial conditions, the General Meeting's resolutions (the "Capital Strengthening Plan"). On 3 June 2013, Alpha Holdings announced the successful completion of its  $\epsilon$ 457.1 million rights issue (the "Rights Issue"), and the allotment of all of the shares offered in the  $\epsilon$ 92.9 million private placement to institutional and other qualified private investors. As a consequence, Alpha Holdings was the first among the Greek banks to raise more than 10 per cent. of its total recapitalisation amount and thus to meet successfully the required private sector contribution test set by Greek Law 3864/2010. The remaining part of the  $\epsilon$ 4,571 million Capital Strengthening Plan was covered by the HFSF through direct subscription to shares. The Rights Issue was fully underwritten by a syndicate of international investment banks.

For each new share subscribed for in the capital increase by private sector investors, the HFSF issued on 10 June 2013 separately traded warrants which allow their holders to purchase shares subscribed by the HFSF at selected intervals over the four and a half years that follow the share capital increase, at the subscription price of €0.44 per share, increased by an annual margin.

# 2014 Capital Increase

On 28 March 2014 the Extraordinary General Meeting of the shareholders of Alpha Holdings approved the raising of capital by Alpha Holdings, up to the amount of  $\in$ 1.2 billion through a private placement with qualified investors, with the issuance of 1,846,153,846 new, ordinary, registered shares offered at  $\in$ 0.65 each. The offering, which was fully underwritten by a syndicate of international banks, was priced on 25 March 2014, while the new shares commenced trading on ATHEX on 4 April 2014.

The proceeds from the capital increase were used to strengthen Alpha Holdings' capital base with high-quality common equity capital and allow for the redemption of Greek state preference shares in issuance of €940 million, whereas the remaining amount of the capital raised was directed to cover the €262 million capital needs

assessed in the 2014 stress test (as described under "*ECB's Comprehensive Assessment*" below). The Greek state preference shares of €940 million were subsequently redeemed on 17 April 2014.

## Acquisition of Citibank's Greek retail operations

On 13 June 2014, Alpha Holdings announced that it had entered into a definitive agreement with Citibank for the acquisition of Citibank's Greek retail banking business, including Diners Club of Greece. Under the agreement, the acquired operations comprised Citibank's wealth management unit with customers' assets under management of approximately  $\epsilon$ 2.0 billion, out of which deposits amounted to approximately  $\epsilon$ 0.9 billion and net loans, mainly credit card balances, amounted to  $\epsilon$ 0.4 billion, as well as a retail branch network of 20 units serving around 480,000 clients. The acquisition was completed on 30 September 2014. As a result of the acquisition, the personnel working in the retail banking network of Citibank joined Alpha Holdings.

In June 2015 Diners Club Greece was merged into Alpha Holdings by way of absorption and, in September 2015, the migration of Citibank's retail banking operations and Diners Club Greece operations into Alpha Holdings' operating systems was completed.

# **ECB's Comprehensive Assessment**

On 26 October 2014 the ECB and the EBA announced the outcome of their Comprehensive Assessment (the "ECB Comprehensive Assessment"). The assumptions and methodological approach of the ECB Comprehensive Assessment were established to assess banks' capital adequacy against an 8 per cent. and a 5.5 per cent. CET1 capital benchmark under the baseline and adverse scenarios respectively. The stress test period covered a three-year time horizon (2014-2016). In the static scenario, the stress test was carried out using a static balance sheet assumption as at 31 December 2013 and did not take into account any business actions implemented after 31 December 2013, which would have impacted the capital position and/or the financial standing of Alpha Holdings.

Alpha Holdings completed the ECB Comprehensive Assessment successfully and was the only Greek systemic bank that registered no capital shortfall for the baseline and adverse scenarios under both the static and the dynamic assumptions, producing excess capital, without taking into account developments with direct capital impact realised post December 2013.

Alpha Holdings exceeded the hurdle rates of 5.5 per cent. and 8 per cent. for the adverse and baseline scenarios for both static and dynamic assumptions with a (safe) margin ranging between €1.3 billion and €3.2 billion. More specifically, Alpha Holdings concluded the adverse scenarios with a CET1 ratio of 8.07 per cent. and a capital surplus of €1.3 billion in the static assumption and a CET1 ratio of 8.45 per cent. with a capital surplus of €1.8 billion under the dynamic assumption.

The quality and level of Alpha Holdings' capital were further strengthened due to the capital issuance of &1,200 million, which took place in the first quarter of 2014, and the repayment of Greek state preference shares of &940 million (as described in "2014 Capital Increase" above). This net capital impact, amounting to &260 million, which was not included in the "join-up" result due to the methodology applied, led to a CET1 capital ratio of 8.6 per cent. (representing a surplus of 3.1 per cent.) in the static adverse scenario.

# Asset Quality Review ("AQR")

During the third quarter of 2015 the negotiations of the Hellenic Republic for the coverage of the financing needs of the Greek economy were completed on the basis of the announcements at the Euro Summit on 12 July 2015, resulting in an agreement for new financial support by the ESM. The agreement with the ESM that was signed on 19 August 2015 provided for the assessment of the four Greek systemic credit institutions (including

Alpha Holdings) by the SSM in order to determine the impact from the deterioration of the Greek economy on their financial positions as well as any capital needs (the "2015 Comprehensive Assessment").

The 2015 Comprehensive Assessment comprised the AQR and a forward-looking stress test, including a baseline and an adverse scenario, in order to assess the specific recapitalisation needs of the individual banks under the third economic adjustment programme for Greece.

On 31 October 2015 the ECB announced that the 2015 Comprehensive Assessment revealed a total capital shortfall of  $\[ \in \]$  262.6 million and  $\[ \in \]$  2,743 million for Alpha Holdings under the baseline and the adverse scenarios respectively, including an AQR adjustment ( $\[ \in \]$  1.7 billion), after comparing the projected solvency ratios against the thresholds defined for the exercise. On 13 November 2015 in connection with its approval of Alpha Holdings' capital raising plans, the ECB recognised internal capital measures of  $\[ \in \]$  180 million, thus reducing the remaining adverse scenario capital shortfall that had to be addressed by Alpha Holdings to  $\[ \in \]$  2,563 million.

#### 2015 Capital Increase

By virtue of the resolution of the Extraordinary General Meeting of the shareholders of Alpha Holdings that took place on 14 November 2015 the following items (among other things) were resolved: (i) the increase of the nominal value of each share by way of a reverse split from &0.30 to &15.00 along with a decrease of the total number of the existing shares (including the capitalisation of an amount of &42.60 in order to create an integral number of shares) from 12,769,059,858 to 255,381,200 ordinary, dematerialised, registered shares, with voting rights (each an "Ordinary Share"), by a ratio of one new share to 50 old shares and the subsequent decrease of the nominal value of each Ordinary Share from &15.00 to &0.30 and credit of the amount arising from the decrease to the special reserve in accordance with article 4 par. 4a of Greek Law 2190/1920; and (ii) the share capital increase by payment in cash (including the equivalent to cash capitalisation of money claims), along with the abolition of pre-emption rights of the shareholders of Alpha Holdings, by the issuance of new, ordinary, registered, dematerialised shares, with voting rights to be specified by the Board of Directors of Alpha Holdings.

Alpha Holdings' Board of Directors at its meeting on 19 November 2015 specified the above resolution of the General Meeting regarding the share capital increase by the issuance of 1,281,500,000 new ordinary, registered, dematerialised shares of Alpha Holdings, of a nominal value of  $\epsilon$ 0.30 per share at a  $\epsilon$ 2.00 price per share (post reverse split) through: (i) payment in cash of an amount of  $\epsilon$ 1,552,169,172.00 via a private placement through a book-building process, which commenced and was completed outside Greece, pursuant to the exception of article 3 par. 2 indent ( $\alpha$ ), to qualified investors, in accordance with article 2 par. 1 indent ( $\alpha$ ) of Greek Law 3401/2005 and pursuant to article 3 par. 2 indent ( $\alpha$ ) of Greek Law 3401/2005; and (ii) capitalisation of monetary claims of an amount of  $\epsilon$ 1,010,830,828.00, in the context of the voluntary exchange of outstanding securities by their holders that participated in a liability management exercise. The proceeds from the capital increase were intended to strengthen Alpha Holdings' capital adequacy ratios.

Alpha Holdings was the first systemic bank in the Greek banking system in 2015 to be recapitalised by private funds, with its private placement having been subscribed by 1.72 times with no further HFSF participation, as the latter held approximately 11 per cent. in the share capital of Alpha Holdings with restricted voting rights.

#### Disposal of subsidiaries / branches

On 12 December 2014, Alpha Holdings announced the agreement to sell all of the shares held in its insurance subsidiary in Cyprus, Alpha Insurance Limited, in a transaction valued at €14.5 million. The transaction was completed on 16 January 2015.

On 23 January 2015, Alpha Holdings announced the sale of the entire share capital of Cardlink S.A., formerly held by Alpha Holdings and Eurobank Ergasias S.A. at 50 per cent. each, for a total transaction consideration of

€15 million. Cardlink S.A. operates in the area of network service provision of point of sale terminals for electronic transactions with payment cards.

On 6 November 2015, Alpha Holdings concluded a definitive agreement regarding the acquisition of Alpha Holdings' branch in Bulgaria by Eurobank's subsidiary in Bulgaria, Postbank, subject to the receipt of regulatory and supervisory approvals. The sale was completed on 29 February 2016.

On 10 May 2016, Alpha Holdings announced the conclusion of the sale of 100 per cent. of Alpha Bank A.D. Skopje to Silk Road Capital, following receipt of all applicable regulatory approvals.

On 16 December 2016, Alpha Holdings concluded the sale and transfer to Home Holdings S.A., a joint venture formed by Tourism Enterprises of Messinia S.A. and D-Marine Investments Holding B.V., of its approximately 97.3 per cent. stake in the share capital of the ATHEX-listed company Ionian Hotel Enterprises S.A. ("IHE"). The total proceeds from the transaction amounted to €143.3 million, including the refinancing of the existing debt of IHE.

On 30 January 2017, it was announced that an agreement had been signed with the Serbian MK Group of companies on the sale of Alpha Holdings' 100 per cent. stake in the share capital of Alpha Bank Srbija A.D. The transaction was completed on 11 April 2017.

On 31 May 2019, the Group, through its subsidiary Alpha Group Investments Limited, following an open tender process, sold 100 per cent. of the shares of AEP Chanion S.A. to Pangaea REIC and Pavalia Enterprises Limited, an entity owned by Dimand S.A. for a total consideration of €8.7 million. AEP Chanion S.A. was the sole owner of a prominent land plot in the city of Chania.

On 11 June 2019, Alpha Holdings completed the sale of all its shares in its subsidiary Alpha Investment Property I A.E. to Mavani Holdings Limited, an entity owned by Brook Lane Special Situations Fund for consideration of €91.9 million. Alpha Investment Property I A.E. held a portfolio of prime office real estate assets and its sale was part of Alpha Holdings' strategy to deleverage non-core assets.

On 7 January 2020, the disposal of the Group's subsidiary, AGI-Cypre Alaminos Ltd, was completed.

On 30 June 2020, the sale of the Group's subsidiary, AGI-BRE Participations 3 E.O.O.D, was completed.

On 5 August 2020, the sale of the Group's subsidiary, ABC RE L1 Ltd., was completed.

On 6 October 2020, the disposal of Alpha Holdings' participation in V Telecom Investment S.C.A and V Telecom Investment General Partner S.A. based in Luxembourg was completed.

On 6 November 2020, the disposal of the total shares of the Group's subsidiary, AGI-Cypre Property 3 Ltd, was completed.

On 11 November 2020, the sale of Alpha Holdings' participation in Mastercard Incorporated was completed.

On 24 December 2020, the disposal of the total shares of the Group's subsidiary, Alpha Investment Property GI I SMSA, was completed.

On 31 January 2021, the disposal of the total shares of the Group's subsidiary, AGI-Cypre Property 10 Ltd, was completed.

On 2 February 2021, Alpha Holdings signed an agreement with a consortium of domestic and international investors for the sale of Alpha Holdings' 71.08 per cent. stake in APE Investment Property S.A.

On 12 February 2021, the disposal of the total shares of Alpha Holdings' subsidiary, Alpha Investment Property Attikis II SA, was completed.

On 15 February 2021, the disposal of the total shares of the Group's subsidiary, AGI-CYPRE Property 36 Ltd, was completed.

On 26 February 2021, the disposal of the total shares of the Group's subsidiary, ABC RE P1 Ltd, was completed.

On 17 March 2021, the disposal of the total shares of the Group's subsidiary, AGI RRE Cleopatra SRL, was completed. As a result of such disposal, AGI RRE Cleopatra SRL's subsidiary TH Top Hotels is no longer part of the Group's portfolio of participations.

On 18 June 2021, the disposal of 80 per cent. of the shares of New CEPAL (as defined below) was completed.

On 15 October 2021, the disposal of all of the shares of the Group's subsidiary, AGI-Cypre Property 11 Ltd, was completed.

#### Other material milestones and transactions

On 12 June 2014, Alpha Holdings successfully issued a €500 million senior unsecured bond, with a 3-year maturity and 3.5 per cent. yield to maturity, with the book being oversubscribed by four times.

On 9 July 2014, the European Commission announced its approval of Alpha Holdings' restructuring plan, as submitted to the European Commission by the Greek Ministry of Finance on 12 June 2014.

On 4 December 2014, Alpha Holdings completed a shipping securitisation transaction in excess of USD 500 million, the first such Greek transaction since 2008.

On 12 November 2015, Alpha Holdings concluded a liability management exercise launched on 28 October 2015. The total accepted amount of the validly tendered securities amounted to €1,010,845,000 and contributed to the 2015 share capital increase. The offer was voluntary and offered the exchange of specific series of notes for shares, achieving a high participation rate of 93 per cent.

On 26 November 2015, the European Commission's Director-General for Competition ("**DGComp**") approved Alpha Holdings' revised restructuring plan, which was found to be in line with EU state aid rules and aims to enable Alpha Holdings to return to viability.

Further to Alpha Holdings' announcement on 24 December 2014, "Cepal Hellas Financial Services S.A. - Servicing of Receivables From Loans and Credits" (former Aktua Hellas) a Law 4354/2015 company was established on 24 February 2016 which is owned by the joint venture between Alpha Holdings and Centerbridge Partners Europe, LLP. Such company was the first one, on 29 November 2016, to be granted a licence by the Bank of Greece to manage receivables from loans and credits, pursuant to Law 4354/2015, as in force.

On 14 September 2018, Alpha Holdings completed the disposal of a portfolio of non-performing and uncollateralised retail loans in Greece with a carrying amount of €64.6 million as of 31 December 2017 to a company of the Norwegian group B2Holding.

The EBA conducted further stress tests on the Greek systemic banks in 2018, the results of which were announced on 5 May 2018. Based on feedback received by the SSM, the stress test outcome, along with other factors, have been assessed by its Supervisory Board and points to no capital shortfall.

In May 2018, Alpha Holdings together with Alpha Bank Romania S.A. completed the disposal of a Romanian non-performing wholesale loans portfolio to entities financed by a consortium of international investors

including Deutsche Bank AG, funds advised by AnaCap Financial Partners LLP and funds advised by APS Investments S.à.r.l. This transaction completed the actions carried out by Alpha Holdings to sell a significant part of its Romanian NPEs, which included the sale of a non-performing retail loans portfolio to the Norwegian group B2Holding, in the third quarter of 2017.

On 31 July 2018, the four systemic banks in Greece (the credit institution now known as Alpha Bank S.A., National Bank of Greece, Eurobank and Piraeus Bank) entered into an innovative servicing agreement with a credit institution specialised on servicing of NPLs, doBank S.p.A ("doBank"), in line with their strategic framework to reduce their NPEs by protecting the viability of small and medium enterprises and supporting the recovery of the Greek economy. doBank will support the four systemic banks in the exclusive management of common NPEs of more than 300 Greek SMEs with an approximate nominal value of €1.8 billion.

On 28 November 2018, Alpha Holdings entered into a binding agreement with a consortium comprised of funds managed by affiliates of Apollo Global Management, LLC, and IFC (International Finance Corporation), a member of the World Bank Group, for the disposal of a mixed pool (i) of NPLs to Greek SMEs mainly secured by real estate assets (the "NPL portfolio") and, together with the wholly-owned Group company Alpha Leasing S.A., (ii) of repossessed real estate assets in Greece (the "REO portfolio"), with a total on-balance sheet gross book value of approximately  $\in$ 1.0 billion and  $\in$ 56 million respectively, as of 30 September 2018. The NPL portfolio transaction was completed in the first quarter of 2020.

On 21 December 2018, the sale of a non-performing and uncollateralised retail loans portfolio in Greece was completed. The transaction price as incurred, taking into consideration the transaction costs and other liabilities, amounted to  $\epsilon$ 62.6 million, whilst the gain amount of  $\epsilon$ 7.8 million was recognised as "Gains less losses from discontinued recognition of financial instruments at amortised cost".

On 31 December 2018, Alpha Holdings successfully exited the restructuring plan approved by DGComp.

In 2018 Alpha Holdings initiated an action plan for the reorganisation of its key Group subsidiaries under three pillars, which was completed in December 2020. Pursuant to the reorganisation scheme Alpha Holdings' key subsidiaries were sold to the following three Group holding companies:

- Alpha Holdings Single Member S.A acquired the shares of the financial services companies based in Greece (ABC Factors Single Member S.A., Alpha Leasing S.A., Alpha Asset Management A.E.D.A.K., Alpha Finance Investment Services S.A and Alpha Ventures S.A.).
- Alpha International Holding SA ("International HoldCo") acquired the shares of the Group's foreign credit institutions (Alpha Bank Romania S.A. and Alpha Bank Cyprus S.A.) and Alpha Credit Acquisition Company Ltd, a licensed credit acquisition company that the Group has established in Cyprus, in December 2020, whilst the acquisition of the shares of Alpha Bank Albania SHA was completed in January 2021. International HoldCo also acquired convertible securities issued by Alpha Bank Cyprus S.A. and held by Alpha Holdings.
- Alpha Group Investments Ltd acquired the shares of subsidiaries undertaking real estate related business (Emporiki Venture Capital Developed Markets Limited, Emporiki Venture Capital Emerging Markets Limited and Alpha Investment Property Attikis SA).

As at the date of this Offering Circular, all three holding companies are 100 per cent. (directly or indirectly) subsidiaries of Alpha Holdings.

On 14 October 2019, the Group subsidiaries Alpha Bank Cyprus and AGI-Cypre Ermis signed a long-term partnership agreement with DoValue S.p.A. in order to manage NPEs and the real estate portfolio in Cyprus, with a gross book value of €3.2 billion.

On 6 February 2020, Alpha Holdings priced a €500 million Tier 2 bond issue with an initial coupon of 4.25 per cent. This represented Alpha Holdings' inaugural CRD/CRR-compliant Tier 2 transaction and its first public unsecured debt transaction since 2014, with the lowest initial coupon for a Tier 2 instrument issued by a Greek bank in the prior 13 years.

On 11 February 2020, Alpha Holdings completed the establishment of a branch in Luxembourg and on 19 June 2020 the transfer of its London Branch operations to the Luxembourg Branch was completed.

On 26 June 2020, part of the performing and non-performing loans portfolio was transferred from Alpha Bank Cyprus Ltd to the Group's subsidiary Alpha Credit Acquisition Company Limited.

On 17 July 2020, Alpha Holdings completed the disposal of a pool of NPLs to Greek SMEs mainly secured by real estate assets, of a total on-balance sheet gross book value of €1.1 billion.

On 17 July 2020, Alpha Bank Romania S.A. and SSIF Alpha Finance Romania S.A signed an agreement for the absorption of the business activity of SSIF Alpha Finance Romania S.A. by Alpha Bank Romania S.A., which was completed on 5 October 2020. On 18 March 2021, the Financial Supervisory Authority (FSA) of Romania approved the withdrawal of SSIF Alpha Finance Romania S.A.'s licence.

On 22 July 2020, Alpha Holdings acquired the remaining shares in Cepal Holdings S.A., taking its shareholding in Cepal Holdings S.A. to 100 per cent.

On 30 November 2020, the participation of Alpha Holdings in the B' Cycle of the COVID-19 Loan Guarantee Fund for Businesses of the Hellenic Development Bank was announced, aiming to actively support Greek businesses to face the consequences of the health crisis, mainly focusing on SMEs and very small enterprises.

On 1 December 2020, Alpha Holdings transferred its business of servicing NPEs to Cepal Hellas, a wholly-owned licensed servicing company for loan receivables under law 4354/2015.

On 30 December 2020, Alpha Holdings agreed to enter into a new exclusive distribution agreement with Assicurazioni Generali for the sale of non-life and health insurance products through its distribution channels. The agreement will have an initial term of twenty years.

On 30 December 2020, Alpha Holdings participated in the share capital increase of IHE by subscription of preferred shares. As a result, Alpha Holdings acquired a 7 per cent. participation in IHE's share capital.

As of 10 January 2021, Alpha Holdings was fully registered with the new infrastructure 24/7/365 of the interbank pan-European payment system SEPA, having successfully completed the necessary technical tests, in cooperation with the DIAS Interbanking Systems S.A. Such registration is now held by the Bank as a result of the Hive Down. The Bank is the first bank in the Greek market to apply to all its banking channels, and with the utmost security, the innovative service of instant payments for transactions within the Hellenic territory.

The 2021 EBA EU-wide stress test launched on 29 January 2021 and its results were announced on 30 July 2021 (with a later announcement, in December 2021, that the next EU-wide stress test would be held in 2023). As per such results, Alpha Holdings successfully concluded the 2021 EU-wide stress test. In particular, the starting point of the exercise was 31 December 2020, when the Bank had a CET1 transitional ratio of 17.1 per cent., a CET1 fully loaded ratio of 14.6 per cent. as well as a leverage ratio (transitional) of 12.5 per cent. and a leverage ratio (fully loaded) of 10.7 per cent.

• Under the baseline scenario, the capital generation for the 3-year period was 2.8 per cent. absorbing 2.4 per cent. IFRS 9 phase-in, resulting in a 2023 CET1 transitional ratio of 17.4 per cent. The 2023 CET1 fully loaded ratio reached 17.3 per cent. while the 2023 leverage ratio (fully loaded) came to 13.0 per cent.

• Under the adverse scenario, the 2023 CET1 transitional ratio stood at 8.4 per cent., largely driven by the negative impact of credit risk. The 2023 CET1 fully loaded ratio came to 8.3 per cent., while the 2023 leverage ratio (fully loaded) resulted in 6.1 per cent.

On 19 February 2021, a portfolio of both performing and non-performing loans, along with the real estate portfolio of AGI-Cypre Ermis Ltd and Umera Limited were transferred (accounting wise) to the Group's subsidiary Alpha Credit Acquisition Company Limited.

On 11 March 2021, Alpha Holdings successfully issued Tier 2 subordinated bonds with a nominal value of €500 million and a 10.25-year maturity. The bonds are listed on the Luxembourg Stock Exchange's Euro MTF market.

On 23 September 2021, the Bank successfully issued €500,000,000 Fixed Rate Reset Senior Preferred Notes due 2028 followed by an issuance of €400,000,000 Fixed Rate Reset Senior Preferred Note due 2024 on 10 December 2021. The notes are listed on the Luxembourg Stock Exchange's Euro MTF market.

On 22 October 2021, Alpha Holdings announced that it had entered into a binding agreement with certain entities managed and advised by Davidson Kempner Capital Management LP in relation to the sale and transfer of 51 per cent. of the mezzanine and junior securitisation notes of a €3.4 billion gross book value portfolio consisting primarily of NPEs, known as Project Cosmos.

On 11 November 2021, Alpha Holdings and Nexi announced that they entered into a binding agreement for the establishment of a strategic partnership in respect of the Bank's merchant acquiring business unit in Greece (the "MA Business") through, *inter alia*: (i) the carve-out of the MA Business by the Bank by way of a spin-off to a newly-incorporated entity ("Alpha Payment Services S.M.S.A" or "NewCo"); (ii) the sale to Nexi of a 51 per cent. stake in the NewCo, subject to the satisfaction of certain conditions precedent; and (iii) the execution of a long-term marketing and distribution agreement by the parties, providing the NewCo with access to the Bank's network, in order to distribute payment acceptance products and services to business customers of the Bank in Greece. On 30 June 2022, following the satisfaction of conditions precedent, the strategic partnership was launched through the carve-out of the MA Business by way of a spin-off to Alpha Payment Services S.M.S.A. (which was renamed "Nexi Payments Greece S.A.") and the sale of a 51 per cent. stake in the latter entity to Nexi.

On 17 December 2021, the Bank successfully concluded a synthetic securitisation of a €1.9 billion portfolio of performing SME and corporate loans, enabling the Bank to obtain credit risk protection for the mezzanine tranche of the securitisation. The transaction achieved simple, transparent and standardised (STS) designation for the purpose of Regulation (EU) 2017/2402, as amended by Regulation (EU) 2021/557.

On 28 December 2021, Alpha Holdings announced that the Bank had entered into a binding agreement with Hoist Finance AB as part of Project Orbit. The transaction which included the disposal of a portfolio of retail unsecured non-performing loans of a total outstanding balance of Euro 2.1 billion completed on 24 March 2022.

On 12 February 2022, Alpha Holdings announced that it had entered into a binding agreement with an affiliate of Cerberus Capital Managmeent L.P. as part of Project Sky.

Russia's invasion in Ukraine, which began on 24 February 2022, has created uncertainties in the markets in which the Group operates and in macroeconomic conditions, as have the resulting sanctions imposed by, amongst others, the United States, the European Union and the United Kingdom. The Group's direct exposure to Russia/Ukraine is relatively immaterial as is the amount of funds transferred from/to Ukraine and Russia. The Group has direct exposure to Russia and Ukraine from loans to customers of around €18 million as at 31 March 2022. Nevertheless, the Group is monitoring the unfolding crisis and continues to assess the impact on its business, financial position and profitability.

# Variable remuneration for Group employees

Group companies may, from time to time, offer a variable component as part of an employee's total remuneration package (such as bonuses or other reward schemes). Offering remuneration of this type is at the discretion of the relevant Group company and will be based on both individual performance and fulfilment of the relevant Group company's goals. It is also subject to, amonst other things, regulatory requirements and various clawback and other adjustment mechanisms. There are two main performance incentive schemes in operation: (i) the Performance Incentive Programme ("PIP") for central functions staff; and (ii) a sales incentive programme (SIP) for branch network staff.

On 31 July 2020, the Ordinary General Meeting of Alpha Holdings approved the establishment and implementation of a five-year stock options plan (period 2020-2024) in the form of stock options rights by issuing new shares, in accordance with article 113 of law 4548/2018, to members of the management and of the personnel of Alpha Holdings and its affiliated companies, within the meaning of article 32 of law 4308/2014. On 30 December 2020, Alpha Holdings' Board of Directors approved the regulation of the stock options plan and awarded stock options rights under the PIP for the financial years 2018 and 2019 to identified material risk takers of Alpha Holdings and its affiliated companies.

On 11 February 2021, in the context of implementation of the approved PIP and following the exercise of the stock options rights during the first exercise period, Alpha Holdings proceeded to an increase of its share capital by the amount of 684,514.80 with payment in cash and the issuance of 2,281,716 new shares of a nominal value of 60.30 each and an exercise price of 60.30 per share as well.

On 16 December 2021, Alpha Holdings' Board of Directors awarded stock options rights under the PIP for the financial year 2020 to identified material risk takers of Alpha Holdings and its affiliated companies. Moreover, certain members of the senior management of Group companies falling within the ambit of the provisions of article 10 par. 3 of Law 3864/2010, as in force, on the establishment and operation of the Hellenic Financial Stability Fund, introducing a bonus ban and a salary cap for members of the board, general managers and deputy general managers of credit institutions having received state-aid from the HFSF ("**In-scope Senior Managers**"), were awarded a bonus. The exercise of the awarded stock options by In-scope Senior Managers is subject to the amendment or abolition of the HFSF Law provisions banning bonuses for In-scope Senior Managers, introduced by virtue of article 10 par. 3 of the HFSF Law. If such amendment or abolition has not taken effect by 15 January 2024 the exercise of the awarded stock options will not be possible.

On 3 February 2022, in the context of implementation of the approved PIP and following the exercise of the relevant stock options (deferred amounts for the financial years 2018 and 2019 and the first available exercise in respect of the financial year 2020), Alpha Holdings proceeded to an increase of its share capital by the amount of  $\[ \in \]$ 429,050.40 with payment in cash and the issuance of the 1,430,168 new shares of a nominal value of  $\[ \in \]$ 0.30 each and an exercise price  $\[ \in \]$ 0.30 per share as well.

# **Hive Down**

On 16 April 2021, the demerger of the credit institution under the name "Alpha Bank S.A." (under G.E.MI. number 223701000 and Tax Identification Number 094014249, which has been renamed "Alpha Services and Holdings S.A.") was approved pursuant to the Decision of the Ministry of Development and Investments under prot. no 45089/16.4.2021 by way of hive-down of the banking business sector with the incorporation of a new company - credit institution under the name "ALPHA BANK S.A." (under G.E.MI. number 159029160000 and Tax Identification Number 996807331), in accordance with the provisions of article 16 of Greek Law 2515/1997, as well as articles 54 par. 3, 57 par. 3, 59-74 and 140 par. 3 of Greek Law 4601/2019 and article 145 of Greek Law 4261/2014, as in force. The approval of the Hive Down was registered with the General Commercial Registry ("G.E.MI.") on 16 April 2021 under the registration code number 2528634. As a consequence of the Hive Down, the Bank substituted Alpha Holdings by operation of Greek law, as universal

successor, in all the assets and liabilities, rights and obligations and in general legal relationships of the banking business sector of Alpha Holdings. Moreover, the Bank continues its operation through the existing organisational structure, network of branch offices and premises.

Alpha Holdings, which ceased, on 19 April 2021, to operate as a credit institution but holds a licence from the ECB as a financial holding company, maintains the assets and activities not related to the banking business sector. Its shares remain listed on the Main Market of ATHEX. Alpha Holdings maintains direct and indirect participation in all companies that are included in the consolidated financial statements of Alpha Holdings, while it retains the insurance intermediary activity ("bancassurance") and the provision of accounting and tax services to affiliates and third parties. Furthermore, Alpha Holdings may proceed with the issuance of instruments (such as the Notes) in order to raise regulatory capital.

Alpha Holdings is the parent of the Bank and owns all of its shares.

# **Galaxy Transaction**

On 22 June 2021, the Bank announced the completion of the Galaxy transaction (the "Galaxy Transaction") with Davidson Kempner, pursuant to the signed definitive agreement signed between the parties on 22 February 2021. The Galaxy Transaction included:

- (b) the sale of 80 per cent. of its loan servicing subsidiary, Cepal Services and Holdings S.A. (at that time doing business as "Cepal Holding Single Members S.A.") ("New CEPAL"); and
- (c) the sale of 51 per cent. of the mezzanine and junior securitisation notes of the €10.8 billion NPEs portfolio (the "Galaxy Securitisations"),

to certain entities managed and advised by Davidson Kempner.

Upon the completion of the Galaxy Transaction, the Bank entered into an exclusive long-term servicing agreement with New CEPAL for the management of its existing Retail and Wholesale NPEs in Greece, as well as any future flows of similar assets and early collections. The term of the servicing agreement, which includes market standard terms and conditions (including key performance indicators, indemnities, etc.), is 13 years, with an option to extend.

Following the Bank's applications under HAPS pursuant to Law 4649/2019 for the inclusion of the Galaxy Securitisations SPVs (i.e. Orion X DAC, Galaxy II DAC and Galaxy IV DAC) to the Hellenic State's guarantees on the senior notes of such securitisations, Ministerial Decisions n. 2/47309/0025/14.6.2021-Galaxy II DAC, 2/47306/0025/14.6.2021-Galaxy IV DAC and 2/47307/0025/14.6.2021-Orion X DAC (Governmental Official Gazette B2602/17.6.2021) approved the affiliation to the program. The HAPS guarantee entered into force on 20 July 2021, being the signing date of the government guarantee.

# 2021 Capital Increase of Alpha Holdings (Project Tomorrow)

Following the completion of an offering of shares of Alpha Holdings and pursuant to the resolution of the Board of Directors dated 30 June 2021, the offer price was set, at the recommendation of the global coordinators and bookrunners, at €1 per new share and the final number of new shares to be issued was set at 800,000,000. On 8 July 2021, the Board of Directors of Alpha Holdings verified the certification of payment of the subscription funds of the combined offering and the successful completion of the share capital increase.

## 2021 Share Capital Increase of the Bank

The Self-Convened Extraordinary General Meeting of Shareholders of the Bank that took place on 23 July 2021 approved, among other things, the raising of common share capital amounting to up to €1 billion, through payment in cash and the issuance of new common, registered, voting shares, each of nominal value of €0.10

(the "New Shares") and set the offer price at €1.00 per New Share and the amendment of article 5 of the Articles of Incorporation of the Bank, which was approved by virtue of decision no. 85152/28.7.2021 of the Ministry of Development and Investments. The said share capital increase was fully subscribed and paid for by Alpha Holdings, whilst the Board of Directors at its meeting of 26 August 2021 verified the certification of payment of the subscription funds.

## 2021 Share Capital Decrease of the Bank

The Self-Convened Extraordinary General Meeting of Shareholders of the Bank that took place on 25 October 2021 approved, among other things, the share capital decrease of the Bank by way of distribution in kind by the amount of €10,825,250 through cancellation of 108,252,500 common, nominal shares with voting rights, of a nominal value of €0.10 each, that were held by the sole shareholder of the Bank, Alpha Holdings, and the distribution in kind to the said shareholder of 2,042.5 mezzanine and 14,285.15 junior securitisation notes owned by the Bank and issued on 8 October 2021 by COSMOS SECURITISATION DESIGNATED ACTIVITY COMPANY, based in Ireland (1-2 Victoria Buildings Haddington Road Dublin, Dublin 4, D04 XN32, Ireland), with company registration number 700585 of a total value equal to the amount of the reduction of the Bank's share capital. The amendment of article 5 of the Articles of Incorporation of the Bank was approved by virtue of decision no. 2473250/27.10.2021 of the Ministry of Development and Investments.

#### **BUSINESS OF THE GROUP**

#### Introduction

Alpha Holdings was established in 1879 as the banking branch of "J.F. Costopoulos & Company".

Following the Hive Down (as further described in "The Group – Hive Down" above), Alpha Holdings (under G.E.MI. number 223701000 and Tax Identification Number 094014249) became the holding company of the Group and the Bank was incorporated and registered in the Hellenic Republic as a limited liability company (under G.E.MI. number 159029160000 and Tax Identification Number 996807331) as the operating company of the Group. Alpha Holdings is the parent of the Bank and owns all of its shares.

The telephone number of Alpha Holdings and Alpha Bank is +30 210 326 0000, the website of Alpha Holdings is https://www.alphaholdings.gr/en and the website of Alpha Bank is https://www.alpha.gr/en.

The registered address of each Issuer is 40 Stadiou Street, GR-102 52 Athens, Greece.

The Group is subject to supervision by the ECB/SSM, the Bank of Greece, the Hellenic Capital Market Commission (the "HCMC"), the Greek Ministry of Development and Investments and is subject, amongst other things, to banking, securities and accounting legislation in force.

The scope of business of Alpha Holdings as set out in Article 4 of its Articles of Incorporation is the following:

- (a) the direct and indirect participation in domestic and/or foreign companies and undertakings that already exist or are to be established, of any form and object whatsoever;
- (b) the design, promotion and distribution of insurance products in the name and on behalf of one or more insurance undertakings in the capacity of insurance agent in accordance with applicable legislation;
- (c) the provision of supporting accounting and tax services to affiliated companies and third parties as well as the elaboration of studies on strategic and financial management; and
- (d) the issuance of securities for raising regulatory capital.

In order to serve the scope of business described above, Alpha Holdings may in particular:

- (a) establish branches in Greece or abroad, subsidiaries or undertakings and form joint ventures in Greece or abroad;
- (b) participate in any company or undertaking of any form whatsoever, newly-established, operating or not, in Greece or abroad;
- (c) cooperate in any way and conclude any kind of agreements with any natural or legal person or organisation; and
- (d) guarantee and issue letters of guarantee in favour of companies in which it participates, and/or provide loans or credit of any form to the companies in which it participates as well as carry out any kind of action, operation or transaction which, directly or indirectly, is pertinent, complementary or auxiliary to serving its scope of business.

The activities of the Group are divided into six business units, with enhanced management and administrative responsibilities. The management of its overall strategy and the coordination of activities between business units is undertaken by its executive committee. Furthermore, the Group has strengthened the distinction between retail and wholesale banking and extended this organisational principle across the Group to apply to its

operations in South Eastern Europe (Cyprus, Romania and Albania (though completion of the Alpha Bank Albania Sale is expected to take place within 2022, subject to the satisfaction of certain conditions precedent (including obtaining regulatory approvals under applicable law))). It also maintains a presence in the United Kingdom (through its wholly-owned subsidiary Alpha Bank London Limited, although its United Kingdom branch office was moved to Luxembourg in line with the ECB/SSM Guidelines on the United Kingdom's withdrawal from the EU), Bulgaria, Luxembourg, Ireland and Jersey.

At the income-generation level the Group operates the following business units:

#### **Retail Banking**

This unit includes all individuals (retail banking customers), self-employed professionals, small and very small companies operating in Greece and abroad, except for countries in South Eastern Europe. This unit also deals with the securitised loans of Galaxy III Funding Designated Activity Company and Cepal Hellas Financial Services Single Member S.A. The Group, through its extended branch network, offers all types of deposit products (deposits / savings accounts, working capital / current accounts, investment facilities / term deposits, repos, swaps), loan facilities (mortgages, consumer, corporate loans, letters of guarantee), debit and credit cards of the above customers and bancassurance products provided through affiliated companies.

#### **Corporate Banking**

This unit includes all medium-sized and large companies, corporations with international business activities, corporations that have a relationship with the Corporate Banking Division and shipping companies operating in Greece and abroad, except for those from South Eastern European countries. This unit offers working capital facilities, corporate loans, and letters of guarantee to the above mentioned corporations. This unit also offers leasing products through the Group's subsidiary, Alpha Leasing S.A., as well as factoring services which are provided by ABC Factors S.A., another Group subsidiary.

# **Asset Management and Insurance**

This unit includes a wide range of asset management services offered through the Group's private banking units, its subsidiary - Alpha Asset Management A.E.D.A.K., as well as dealing with the proceeds from the sale and the management of mutual funds. In addition, it includes income received from the sale of a wide range of insurance products through the Group's subsidiary Alphalife A.A.E.Z.

# **Investment Banking / Treasury**

This unit includes stock exchange, advisory and brokerage services related to capital markets, and also investment banking facilities, which are offered either by the Bank or specialised subsidiaries which provide the aforementioned services (Alpha Finance A.E.P.E.Y., Alpha Ventures S.A.). It also includes the activities of the Dealing Room in the interbank market (FX swaps, bonds, futures, IRS, interbank placements – loans, etc.) as well as securitisation transactions.

# International

This unit consists of the Group's subsidiaries, which operate in South Eastern Europe (including Cyprus), the United Kingdom and Luxembourg.

# Other

This segment includes the non-financial activities of the Group, as well as unallocated/non-recurring income and expenses and intersegment transactions.

A more detailed description of each business unit follows:

# **Retail Banking**

The Bank is a major participant in the retail banking sector in Greece and as at 31 December 2021 had a domestic network of 299 branches, seven private banking (customer service) centres and seven commercial centres. Each Greek branch network is supported by a nationwide network of 1,286 ATMs. Its retail banking activities and products include deposits, investment products, distribution of bancassurance and standard insurance products (most commonly, policies attached to mortgage sales), banking activities on commission (mutual funds, credit cards, capital transfers, brokerage activities and payroll services), loans to individuals (consumer and housing loans) and loans to small-sized firms.

#### Retail deposits

The retail deposits of the Greek private sector increased by €8.9 billion at the end of December 2021 on a year-on-year basis (Source: *Bank of Greece, Bank Deposits*). The Bank's market share of retail deposits reached 21.25 per cent. at the end of December 2021, while the overall market share in Greek deposits at the end of December 2021 stood at 21.69 per cent. (Source: *Market Shares, Internal Report from Strategy Division*).

#### Retail loans

Loans to customers measured at amortised cost (before provision for impairment losses) of retail lending (which includes loans to small businesses) on a consolidated basis amounted to  $\in$ 14.6 billion as of 31 December 2021, whereas for Greece they stood at  $\in$ 12.2 billion.

# Lending to Individuals

Despite the COVID-19 crisis that has inhibited any upward trends in the retail lending market, the Bank has maintained its position as one of the leading banks in the retail credit market by offering a full range of products designed to cover all personal and housing needs.

The Bank offers housing loans with variable or fixed rates that finance the purchase of a house or land, as well as construction, renovation, extension or repair works.

Regarding consumer loans, the Bank offers a wide variety of consumer finance solutions through a consumer loans product mix that has been designed to respond to the needs of its retail banking customers. The Bank's consumer loans are offered either with variable or fixed rates and finance either specific needs (purpose loans for car acquisition, educational purposes or home equipment (such as furniture or electrical appliances)) or other personal needs.

During 2021, the Bank continued to focus on alleviating the negative effects of the COVID-19 pandemic, by providing relief to individuals affected by the COVID-19 pandemic either via a moratorium scheme or via the state-supported "GEFYRA" programme.

Under the extraordinary socio-economic circumstances due to COVID-19, the Bank, aiming to boost consumer confidence and subsequent sales, has chosen to participate in the green loans market by carrying out promotional campaigns for its green consumer loans.

Additionally, the Bank continued to participate in a co-financed programme of the Ministry of Environment and Energy designed to incentivise owners of residential properties to improve the energy efficiency of their homes. Disbursements since the start of the programme in 2018 have exceeded €25 million.

As of 31 December 2021, the carrying amount (before allowance for impairment losses) of the Bank's mortgage loans measured at amortised cost stood at €7.6 billion, after the successful completion of the Galaxy Transaction.

The Group's carrying amount of consumer loans (before allowance for impairment losses) carried at amortised cost amounted to €1.8 billion as at 31 December 2021.

# Payment cards

The Bank has a leading position in the Greek market for both card issuance and acquiring. The Bank's debit and credit card portfolio exceeds four million cards. In credit cards, the Bank maintains significant market share in terms of billings and balances. The sales volume of credit and debit cards in 2021 was approximately €9.5 billion, a 20 per cent. increase compared to the 2020 sales volume. As at 31 December 2021, outstanding balances amounted to €842 million. With respect to its acquiring business, the Bank is the only acquirer in Greece of all the major payment schemes: American Express, Visa, MasterCard, Diners and UPI and operates a network of approximately 170,000 associated merchants, holding a significant position in the Greek acquiring market.

# **Corporate Banking**

#### Corporate Banking

The Bank provides a full range of corporate banking services to Greek companies, foreign corporations active in Greece and, to a lesser degree, public sector entities. Corporate clients serviced by the Bank's Corporate Banking division generally have an annual turnover of at least €75 million. The Bank's credit portfolio is mainly composed of companies in the manufacturing, wholesale and retail trade, construction, real estate, energy, fuels and infrastructure sectors.

The Bank offers a number of services to corporate customers, including acceptance of deposits, short-medium and long-term lending both in euro and foreign currencies, cashing cheques, foreign exchange transactions, transactions in treasury and money market instruments, letters of guarantee, factoring and leasing. Its services offered also include other cash and risk management services. The Bank also provides certain other banking services to corporate customers, including arrangement and participation in syndicated loans to large-sized companies and participation in bilateral debt restructuring transactions, according to clients' financial needs.

# Commercial Banking

The Bank provides services to companies located on the Greek mainland and islands. The Bank services hotel and hospitality enterprises with credit limits over  $\in 1.5$  million and annual turnover over  $\in 5$  million and additionally, all other companies operating outside the hotel and hospitality sectors with credit limits over  $\in 1.5$  million and annual turnover between  $\in 5$  million and  $\in 75$  million.

In order to provide qualitative services and appropriate solutions to each client, customised expertise is divided between two divisions. The Commercial Centres Division serves the clients of the Greek mainland that operate in sectors outside of hospitality and tourism, whilst the Hospitality and Tourism Division provides services to clientele located on the Greek islands, as well as to all companies in Greece operating in tourism and hospitality.

The Bank's centralised customer relationship management system offers a wide spectrum of tailor made solutions to meet its clients' needs. In addition, the Bank provides a wide range of other products and financing tools with the support of supranational organisations, the Entrepreneurship Fund and the Hellenic Development Bank.

# Shipping Finance

The Bank has been successfully involved in shipping finance since 1997, and also provides various other specialised products and services (fund transfers, branch operations, hedging solutions, etc.) to Greek-owned ocean-going shipping companies and coastal shipping companies.

Despite the fluctuations in the freight markets and world economy, Greek shipowners continue to demonstrate their commitment and strong position in the shipping industry. Bank lending remains the main means of raising funds and the Bank will continue to aim for the best possible response to its customers' needs.

# Alpha Leasing S.A.

Alpha Leasing S.A., established in 1981, is a wholly owned subsidiary of the Bank, and provides a wide range of financial leasing services and products to its customers. Alpha Leasing S.A. is service-oriented, focusing on the selective implementation of its customers' investment plans (1,967 customers as at 31 December 2021), while securing low risk and acceptable return levels for its portfolio. As at 31 December 2021, total receivables from leasing (after allowance for impairment losses) amounted to €384 million (compared with €383 million at 31 December 2020). As at 31 December 2021, Alpha Leasing S.A. had 36 employees.

# ABC Factors Single Member S.A.

Through ABC Factors Single Member S.A., the Bank provides a wide range of factoring services (domestic factoring with and without recourse, reverse factoring, invoice discounting, accounts receivables control, management and collection services, import and export factoring and forfaiting). Upon its establishment in 1995, ABC Factors Single Member S.A. was a pioneer of factoring services and has held a dominant position in the Greek factoring market based on the value of the assigned receivables and profit before taxes, according to a comparative analysis of the competition (Source: *Hellenic Factoring Association*). For the period from 1 January to 31 December 2021, the turnover of ABC Factors Single Member S.A. (amount of trade receivables) amounted to €4.68 billion (compared to €3.95 billion for the same period of 2020). As at 31 December 2021, the company had 78 employees. ABC Factors Single Member S.A. is a full member of Factors Chain International (a global organisation for open accounts trade receivables financing) as well as of the International Trade and Forfaiting Association.

#### Asset Management & Insurance

The Asset Management & Insurance segment includes private banking, asset management, and insurance services.

# Private Banking Unit

Since 1993, the Bank has been providing a full range of portfolio management services as well as upgraded banking services to high net worth clients. The services are provided under the trade name "Alpha Private Bank" by a network of five exclusively designated 'Private Banking Centres', seven service points at selected branches in Greece's largest cities and one Private Banking Centre accommodating assets in Greece and abroad.

The unit, operating under the supervision of the General Manager – Wholesale Banking and with support from a team of portfolio counsellors and analysts, provides the Bank's upper client segment with optimised portfolio management solutions under the Discretionary, Advisory, Transactional Advisory and Execution Only framework. The sales team consists of 50 specialised and certified private bankers. As of 31 December 2021, the unit's total assets under management stood at €5.1 billion and 6,600 investment portfolios, contributing approximately €31.3 million in gross revenues.

Since 2018 and aiming at improving its Private Banking "Customer Journey" through the enhancement of investment services, the unit introduced the:

- "InvestoR" Electronic Platform which provides flexibility and automation of the advisory investment process, in full compliance with MiFID II;
- use of mobile devices (tablets) in the provision of private banking services, facilitating direct and personalised communication between the private banker and the customer;
- use of the electronic client signature (e-signature) that, combined with the utilisation of tablets for the completion of the InvestoR session and the remittance of investment orders, enhances transaction efficiency and client experience; and
- consolidation of the Alpha Private Bank Customer Phone Service, which provides swift and secure specialised banking services to Private Banking customers during extended working hours without visiting an Alpha Bank branch.

In recognition of the consistent high quality that defines the Bank's Private Banking services, Alpha Bank was named "Best Private Bank in Greece" for 2018, 2019, 2020 and 2021 by the internationally acclaimed publications "Professional Wealth Management (PWM)" and "The Banker" of the Financial Times Group.

# Alpha Asset Management M.F.M.C.

Alpha Asset Management M.F.M.C., established in 1989, is a Greek management company organised under Directive 2009/65/EC, duly authorised and supervised by the competent Greek supervisory authority, the HCMC. Alpha Asset Management M.F.M.C is involved in the management of mutual funds (UCITS), offered to retail and institutional investors, while it also offers asset management services (discretionary portfolio management) to institutional investors, such as pensions funds, insurance companies and other entities. It is a wholly-owned subsidiary of the Bank.

Alpha Asset Management M.F.M.C. holds a leading position in Greece in the areas of mutual fund management and discretionary portfolio management. As of 31 December 2021, it enjoyed a market share of 21.2 per cent. in the domestic mutual funds industry (Source: *Hellenic Fund & Asset Management Association*), offering 24 mutual funds (€2.36 billion, as of 31 December 2021), domiciled in Greece and in Luxembourg, that cover all major asset classes and geographies. As of 31 December 2021, total assets under management stood at €3.09 billion, of which €736 million refer to discretionary segregated accounts managed for institutional investors.

In December 2018, Alpha Asset Management M.F.M.C. became a signatory to the United Nations-backed "Principles for Responsible Investments" initiative. The Group's Environmental, Social and Governance ("ESG") Policy contains guiding principles to be applied by Alpha Asset Management M.F.M.C. to ensure that information on ESG risks and opportunities is appropriately incorporated into the investment management process.

#### Alphalife Insurance Company S.A.

Alphalife Insurance Company S.A., a wholly owned subsidiary of Alpha Holdings, is a life insurance company (licensed and supervised by the Bank of Greece) and is active exclusively in the bancassurance market of investment and pension life insurance products, solely through the branch network of the Bank.

Despite the fact that the commencement of its business in 2010 coincided with the economic recession in Greece, there has been an increase in premium production, in the portfolio of insurance contracts and in reserves and assets under the management of Alphalife Insurance Company S.A. during the period between 2010 and 31

December 2021. Key figures for the period ended 31 December 2021 are: insurance premiums received of €159.1 million, assets under management of €766 million and profits before income tax of €1.6 million.

## **Investment Banking and Treasury**

#### Investment Banking

The Investment Banking unit includes the activities of Corporate Finance, Structured Finance and Real Estate Investments, as these are described below.

The Corporate Finance Division is comprised of two units (Capital Markets & Financial Advisory Services and Real Estate Investment Services), whose main activities are outlined below:

# Capital Markets and Financial Advisory Services

The Capital Markets and Financial Advisory Services arm offers services relating to mergers and acquisitions, restructurings, privatisation projects, valuations, capital markets transactions in equity and corporate bonds, public tenders and concessions and holds a leading position among the local investment banking units.

On the Capital Markets side, the Corporate Finance Division provided, in 2021, underwriting advisory services to Motor Oil S.A., Costamare Participations Plc, Prodea REIC, CPLP Shipping Holdings Plc, ElvalHalcor S.A., Noval Property REIC and GEK Terna S.A. for the listing of corporate bonds on ATHEX. Moreover, the unit acted as lead underwriter on the €0.8 billion share capital increase of Alpha Holdings.

It also acted as co-lead underwriter on the €1.35 billion share capital increase of PPC S.A. and completed a share capital increase of €75 million for Premia Properties S.A. (part in cash and part in asset contribution). The division also acted as an adviser to Belterra Investments Ltd for the tender offer of Thessaloniki Port Authority's shares. Furthermore, advisory services were also offered to private companies trading on ATHEX in connection with share capital increases, corporate bond issuances and tender offers, which are expected to close in 2022. Additionally, during the first quarter of 2022, the division acted as a financial adviser to Panagiotis G. Nikas S.A. Industrial and Commercial Company, preparing a valuation report in order for the board of directors of the company to provide its reasoned opinion in connection to the mandatory tender offer of Cryred Investments Limited.

With respect to Financial Advisory Services, in 2021, the Corporate Finance Division provided, among other things, financial advisory services to Unilever S.A. for the sale of its tomato product retail sector (Pummaro line) in Greece.

On the privatisation side, the unit advised the Hellenic Republic Asset Development Fund (HRADF) on the award of a concession to operate, maintain and commercially exploit Egnatia Motorway and also provided financial advice to Hellenic Petroleum S.A. with respect to the privatisation of DEPA Infrastructure S.A. and DEPA Commercial S.A.

# Real Estate Investments Services

Real Estate Investments Services undertakes the management, operation, formulation and execution of related strategic and business plans for real estate assets in Greece and South Eastern Europe acquired as a result of the enforcement of security under loan facility agreements. The aim of the Real Estate Investments Services unit is to safeguard and maximise recovery value of those assets, as well as to secure their efficient and risk-fenced management through the establishment of SPVs. The Real Estate Investments Services unit acts as one of the internal real estate commercialisation channels in close collaboration with Alpha Real Estate Management and Investments SA, Alpha Astika Akinita S.A., the Bank's subsidiaries in South Eastern Europe and other external partners.

In 2021, the Real Estate Investments Services unit concluded sales of real estate assets under management in Greece and Romania totalling €54.7 million. These included the sale of:

- a SPV holding a portfolio of prime commercial real estate assets in Athens, for a total consideration of €27.5 million;
- a SPV holding an industrial asset in Athens, for a total consideration of €15.2 million;
- a SPV holding a hotel portfolio in Romania, for a total consideration of €9.5 million; and
- one land plot in Bucharest, Romania, for a total consideration of €2.5 million.

In addition to the above, another €2.6 million of sales concluded within the first quarter of 2022, as follows:

• a commercial asset in Bistrita, Romania for a total consideration of €2.6 million.

#### Structured Finance

The Bank holds a leading position in the Greek structured finance market, offering project financing on a non-recourse basis for large projects in infrastructure (motorways, airports, ports, etc.) and energy (renewables, cogeneration and thermal power plants), either on a bilateral or a syndicated basis, in Greece and abroad. The Bank is also active in commercial real estate finance through structured financing of projects in Greece and South Eastern Europe.

In 2021, the Structured Finance Division was actively involved in arranging new structured financings on a syndicated or bilateral basis in the power sector, with a focus on renewable energy sources and wind farms and in public-private partnerships.

In the field of advisory services, the Structured Finance Division acts as adviser to the Hellenic Republic Asset Development Fund (TAIPED) for privatisations.

In the real estate sector, the Structured Finance Division successfully completed a number of selective transactions in Greece and Romania.

On the basis of existing mandates regarding the arrangement of financing for various projects, the volume and the performance of the loan portfolio are expected to increase in the following years, with business growth driven primarily by projects in the renewable energy sector, infrastructure projects, public-private partnerships and the development of income-producing properties.

Alpha Finance Investment Services Single Member S.A.

Established in 1989, Alpha Finance Investment Services Single Member S.A. is one of the oldest members of ATHEX. As an investment services provider regulated by the HCMC, it offers, *inter alia*, brokerage services in domestic and international equities and derivatives, as well as research. Alpha Finance Investment Services Single Member S.A. is a member of ATHEX, ENEX and the Cyprus Stock Exchange. The firm follows an open architecture strategy to broaden and diversify the investment options of its clients. It offers a wide range of investment services as well as access to the largest international stock exchanges. Alpha Finance Investment Services Single Member S.A. acts as a market maker for the stock and derivatives markets of ATHEX.

For the twelve month period ending on 31 December 2021, Alpha Finance Investment Services Single Member S.A. reported profit after tax of  $\epsilon$ 2.7 million compared to  $\epsilon$ 1.8 million for the year ended 31 December 2020. Revenues from commissions as of 31 December 2021 increased by 12 per cent. compared to the year ended 31 December 2020, to reach  $\epsilon$ 11.1 million. Shareholder's equity as of 31 December 2021 stood at  $\epsilon$ 29.5 million compared to  $\epsilon$ 26.8 million on 31 December 2020.

#### **Treasury**

The Bank participates in the interbank spot, money, bond and derivatives markets. Its use of sophisticated systems to measure risk, along with the Bank's conservative trading profile, have contributed to risk limitation, enhancement of flexibility in adapting to changing market conditions, and improved performance. The Treasury Division is particularly active in both the Greek primary and secondary bond markets as well as in the primary and secondary European and international debt capital markets.

# International

The Group is active in South Eastern Europe and has a presence in Cyprus, Romania and Albania (though completion of the Alpha Bank Albania Sale is expected to take place within 2022, subject to the satisfaction of certain conditions precedent (including obtaining regulatory approvals under applicable law)). It has a presence in the United Kingdom through the Bank's subsidiary Alpha Bank London Limited and, following relevant ECB/SSM guidelines driven by Brexit, the Bank in June 2020 established a branch in Luxembourg to which the activities of the Bank's branch in London were transferred, following which the London branch ceased its operations. The Group also has a presence in Jersey, Bulgaria and Luxembourg. As at 31 December 2021, the Group had a total of 185 branches and 2,955 employees in South Eastern Europe and Luxembourg.

As at 31 December 2021, loans and advances to customers (before allowance for impairment losses) reported under the segment of South Eastern Europe (Romania and Cyprus) amounted to  $\epsilon$ 3.6 billion corresponding to 9.3 per cent. of total loans and advances to customers (before allowance for impairment losses) of the Group on a consolidated basis, while due to customers amounted to  $\epsilon$ 4.9 billion corresponding to 10.4 per cent. of total due to customers of the Group on a consolidated basis.

#### **Other Activities**

Alpha Astika Akinita A.E.

Alpha Astika Akinita S.A. was founded in 1942 and since 1999 the company's shares have been listed on ATHEX. The company operates mainly in the Greek real estate market. It also extends its activities to the markets of Romania, Bulgaria and Cyprus through its subsidiaries, Alpha Real Estate Services S.R.L., Alpha Real Estate Bulgaria E.O.O.D., Chardash Trading E.O.O.D. and Alpha Real Estate Services L.L.C.

The main objective of Alpha Astika Akinita S.A. is to manage and value real estate properties as well as the rights relating to real estate owned by the Group. Furthermore, the company provides property management services, brokerage services, appraisals, technical consultations and comprehensive services for enhancing real estate exploitation owned by third parties. Regarding its property management services, brokerage, property valuation, investment appraisals, project management and evaluation of property development projects, Alpha Astika Akinita S.A. has been certified with ISO 9001.

Moreover, the company owns 18.42 per cent. of the share capital of Propindex S.A., a company which creates, calculates and produces indicators related to the real estate market.

#### Custodial Services

The Bank has a specialised organisational unit that performs custodial functions servicing local and foreign institutional investors and retail clients. As at 31 December 2021, total assets under the Bank's custody were approximately €10.2 billion as follows:

• the value of the institutional clientele's portfolio amounted to approximately €4.6 billion, while the fee and commission income from 1 January 2021 to 31 December 2021 amounted to approximately €2.9

million. The main categories of institutional clients under custody are insurance companies, institutions for occupational retirement provision (IORPs), banks and asset management companies;

- the value of the retail clientele's portfolio amounted to approximately €3.6 billion while the portfolio maintenance commissions earned between 1 January 2021 to 31 December 2021 amounted to approximately €1.7 million; and
- the value of Alpha Holdings' portfolio amounted to approximately €2 billion while the fee and commission income from 16 April 2021 to 31 December 2021 amounted to approximately €0.08 million.

#### NPE Management

In a challenging economic environment, the Bank set as a paramount objective the effective management of NPEs, as this will lead not only to the improvement of the Bank's financial strength but also to the release of funds towards households and productive business sectors contributing to the development of the Greek economy in general. The Bank no longer operates an NPL management unit as such operations were carved out to the Bank's wholly owned subsidiary, Cepal Hellas, on 1 December 2020. The management and servicing of all NPE and NPL exposures of the Bank was assigned to Cepal Hellas. On 1 December 2020 the Bank established a dedicated unit "Strategy Recovery and Monitoring of NPEs" which is responsible for the monitoring of the servicer's performance in relation to the goals set out in an NPE business plan. This unit is also responsible, in collaboration with Cepal Hellas, for designing new initiatives aimed at containing the formation of new NPEs.

In this context, the Bank further accelerated its NPE reduction effort in 2021, outperforming the target reduction set out in the Updated Strategic Plan. Total NPE securitisations and related transactions within 2021 amounted to €16.3 billion as a result of a dedicated effort towards achieving more than the initial NPE reduction target. Moreover, the dedicated efforts on organic NPE management resulted in a contained net NPE formation of €0.1 billion in 2021. This was the outcome of the following combined actions and initiatives within 2021:

- operationalisation of the Bank's long-term servicing agreement with Cepal Hellas;
- continuous monitoring of moratoria in order to ensure that any NPEs are contained;
- encouraging borrowers, through focused campaigns, to participate in subsidy programmes (i.e. GEFYRA I and GEFYRA II);
- coordinated actions with the Greek Ministry of Finance and the Hellenic Bank Association for new restructuring options available to borowers following the end of the GEFYRA I and GEFYRA II subsidy programmes; and
- effective human resources management focusing on know-how and training, which is further improved through attracting specialised executives.

The further successful implementation of the Bank's NPE strategy in 2022 will also be affected by a number of external / systemic factors that include, among other things, the following:

- the economic environment in the post COVID-19 era (particularly in light of the ongoing war in Ukraine); and
- acceleration of Household Insolvency Law (Law 3869/2010) court hearings through the e-platform created for this purpose.

The Bank's full commitment towards the active management and reduction of NPEs over the business plan period is reinforced through the constant review and calibration of the Bank's strategies, products, and processes to the evolving macroeconomic environment.

#### **Distribution Network**

#### **Branch Networks**

The Bank's presence in Greece and other countries in which it operates is supported by a network comprising 464 branches as at 31 December 2021, which includes approximately 299 retail branches in Greece, seven commercial centres in Greece, seven Private Banking customer service centres in Greece and 151 retail branches outside Greece.

# myAlpha

The Bank's pillar "myAlpha" includes all electronic services and electronic products, for individuals and businesses, such as "myAlpha Web", "myAlpha Mobile" and "myAlpha Phone", as well as the digital wallet "myAlpha wallet".

# e-Banking

In 2021, new e-Banking registrations increased by 31 per cent. (compared to 2020), thus exceeding 400,000 new subscribers, while one in three new customers decided to register for e-Banking remotely. Similarly, the number and value of transactions via e-Banking also increased by 19 per cent. and 20 per cent. respectively (each compared to 2020).

In the context of the COVID-19 pandemic, the Bank continued to develop online products, reflecting the everchanging needs of its customers and enabling them to carry out most of their transactions remotely with greater ease and safety and forcusing on their user experience.

# myAlpha Web

"myAlpha Web" for individuals continued its upward trend in 2021, with a 4.3 per cent. increase in active users in 2021 compared to 2020.

The new and improved myAlpha Web for individuals, which became available in May 2021, incorporated new functionalities, such as the ability for the Bank's customers to update their personal details directly via the Greek government's website without requiring a physical visit to a branch, the immediate activation of dormant accounts, any time online loan payments, as well as a dark mode version, for better usability and convenience.

#### myAlpha Mobile

"myAlpha Mobile" offers the Bank's customers modern solutions and services in order to enable them to carry out their transactions easily and quickly from their mobile devices.

To further simplify daily electronic transactions for the Bank's customers, new features were integrated in the myAlpha Mobile application in 2021, like the ability to view card details, to apply and get new online products and to add cards to a digital wallet with a single click.

In 2021, seven out of 10 subscribers to the Bank's digital networks used the myAlpha Mobile application on a monthly basis, while almost one in two e-Banking subscribers used the service exclusively for both informational and transaction purposes.

# myAlpha Phone

myAlpha phone provides information to customers and helps them carry out transactions via an automated system or with the assistance of a call centre agent. This is particularly useful for customers with reduced mobility or visual impairments.

# **Electronic payment services**

#### **Digital Wallets**

The Bank, following the success of its fully redesigned digital wallet "myAlpha Wallet" for Android users, was the first Greek bank to offer its customers all major digital wallets available on the market (Apple Pay, Google Pay and Garmin). In 2021, the Bank's customers were able to add their Visa and Mastercard cards to the digital wallet of their choice and carry out their payments contactless in an easier, fast and secure manner. The acceptance was widescale, with the number of new transactions that were carried out via the Bank's digital wallets exceeding 13,500,000 in 2021. Android users' use of myAlpha Wallet remained high, with active users reaching 28,000 in December 2021, averaging 230,000 transactions per month.

# **Electronic Services for Businesses**

#### myAlpha Web for Businesses

Online business registrations to e-Banking for business users doubled in 2021 compared to 2020, while several new businesses chose to begin their banking relationship with the Bank remotely.

At the same time, new functionalities offered via myAlpha Web improved the user experience for business customers of the Bank.

# Alpha e-Commerce

The Bank continued to develop a range of useful tools in 2021 to further assist its customers' e-commerce. The increase in the number of new businesses that chose the "Alpha e-Commerce" service, as well as the transactions that were carried out, continued in 2021, with new customers increasing by 28 per cent., the number of transactions increasing by 37 per cent. and the corresponding transaction value increasing by more than 40 per cent. (all compared to 2020).

Businesses that did not have a website or e-shop continued to show their interest in the "Payment Link" service that was launched in 2021, allowing their customers to make online purchases using their cards. The number of participating businesses in 2021 doubled compared to 2020, reaching 1,100.

# **Alpha Mass Payments**

"Alpha Mass Payments" is dedicated to collecting dues via standing orders and/or alternative networks, as well as carrying out mass payments (e.g. payroll, payment of suppliers etc.). The service's user-friendly interface offers features that allow users to create, send and monitor the progress of mass payment orders (e.g. payroll or payment of suppliers) and effectively serves SMEs.

# **Automated Banking Services**

To enhance customer service and increase the efficiency of the Bank's ATM network while rationalising their operating costs, approximately 350 feasibility studies, primarily concerning the configuration of the network of off-site ATMs (withdrawals, relocations, new installations, replacements, adjustment of rentals etc.), were carried out in 2021 and cost-benefit reports were compiled on the operation of all off-site ATMs.

The Bank also installed 60 new ATMs (50 off-site and 10 in branches) and withdrew 62 ATMs (25 off-site and 37 due to changes in the branch network). All branch network ATMs offer online cash deposits and many payments can be made more easily and faster through the use of QR codes. Deposit transactions increased by 27 per cent. over the course of 2021 compared to 2020.

To better serve customers and to reduce the workload of branch tellers involving deposits and cash payments, the Bank has installed 460 automated payment systems (APSs) in 299 branches, covering 94.4 per cent. of the branch network.

# Alpha e-statements

During 2021, the Bank's Cards Division continued to promote digitalisation through the modification of the Alpha e-statements Service for all debit card holders. Customers are prompted to monitor their transactions through the myAlpha Web and myAlpha Mobile services. An email notification is sent on a monthly basis, as a reminder and in order to urge customers to check their transactions.

Use of the Bank's e-statements service, available for all credit card holders, increased by around 2 per cent. during the 2021 financial year, with around 56 per cent. of all credit card holders now using the service.

# **Donations for Social Purposes**

e-Banking supports donations to more than 100 different social purpose organisations.

# **Retail and Business Digital Onboarding**

Having identified the opportunities and challenges of the new digital era from an early stage, the Bank, as part of its digital transformation programme, has enabled potential retail and business customers to commence their banking relationship with the Bank in a simple, straightforward, and inviting manner.

The Bank's Retail Onboarding service, introduced in 2020, has been enhanced with new features, enabling customers that wish to start their relationship with the Bank to complete the process in just 10 minutes, whichever channel they might choose: digitally from the mobile app or at the branch with the redesigned tablet process.

The Bank's Digital Business Onboarding service, also introduced to the Greek market in 2020, was recently enriched with new features, providing its new corporate customers with even more options, with corporate customers being able to obtain a deposit account, as well as a corporate e-Banking subscription, fully online, without the need for the legal representative of the company to visit the branch.

One in four retail customers and one in three business customers choose the digital channel to enroll with the Bank, without visiting a branch.

## Strategy

In order to reduce its cost of risk and to reduce the amount of NPEs on its balance sheet, Alpha Holdings announced the 2019 Strategic Plan in November 2019. The main priority and objective of the 2019 Strategic Plan was the improvement of the Group's financial structure through the reduction of its NPEs and cost of risk, which constituted the main factors impacting profitability over the past years, while also aiming to optimise the organisational and capital structure of the Group. The 2019 Strategic Plan entailed, among other things, the Galaxy Securitisation and the transfer of the Bank's business of servicing of NPEs to Cepal Hellas.

On 22 February 2021, Alpha Holdings announced that it had reached definitive agreement with funds managed by Davidson Kempner for the sale and transfer of 80 per cent. of the shares in Cepal Hellas HoldCo along with 51 per cent. of the mezzanine and the junior notes issued under the Galaxy Securitisation, which was completed on 18 June 2021.

The 2019 Strategic Plan also entailed the Hive Down. The Hive Down was completed on 16 April 2021.

On 24 May 2021, the Board of Directors of Alpha Holdings approved and announced the Updated Strategic Plan. The Updated Strategic Plan includes, but is not limited to, the following priorities:

# Significantly increase the Group's revenue base supported by active participation in RRF deployment in Greece

The Bank's current strategic priority under the Updated Strategic Plan is to capture the opportunity to participate in the expected growth in the Greek banking sector triggered by the utilisation of the RRF. The RRF is expected to bring about direct and indirect benefits to economic growth. Greece will be by far the largest net beneficiary from the fund. The Bank of Greece estimates a 7 per cent. increase in real GDP growth by 2026 and the creation of 180,000 jobs through a 20 per cent. growth in private sector investment alongside targeted reforms. The deployment of the RRF is expected to add, on average, at least 1.5 percentage points per annum to the Greek GDP growth trajectory over the six years to 2026 (Source: Governor of the Bank of Greece Report for 2020). As such, capturing the full potential of this initiative is expected to be the single most important goal for the banking system and for the Bank in particular, especially following the successful completion, in July 2021, of the €800 million share capital increase of Alpha Holdings which strengthened the Group's capital base and allows for credit expansion.

# Further reduction of NPEs through transactions

Under the Updated Strategic Plan, the Bank intends to further dispose of NPE portfolios with an aggregate gross book value of more than €8.1 billion until the end of 2022. In particular, the Bank has launched five NPE transactions with total gross book value of €8.1 billion and with an estimated aggregate impact of 1.9 per cent. on its CET1 capital, including (a) an NPE transaction securitisation of gross book value of €3.4 billion, Project Cosmos, for which a binding agreement was signed on 22 October 2021 with an application submitted under the HAPS 2 on 15 October 2021, which was completed on 17 December 2021; (b) complete with the rest of the Greek systemic banks a securitisation under Project Solar, for which application will be submitted under the

HAPS 2 scheme and in which the Bank's participation shall be  $\[Omega]$ 0.4 billion; and (c) three outright sales of NPEs, two in Greece with gross book value of  $\[Omega]$ 1.3 billion for Project Orbit, for which a binding agreement was signed on 28 December 2021 and  $\[Omega]$ 1.1 billion, for a selected wholesale, shipping and leasing receivables portfolio, and one in Cyprus with gross book value of  $\[Omega]$ 2.2 billion for Project Sky, for which a binding agreement was signed on 12 February 2022. Assuming the successful completion of the Solar, Sky and Orbit NPE transactions and the completion of Project Riviera in 2022, the pro forma total capital adequacy ratio is expected to increase by around 51 basis points compared to the 31 December 2021 position.

After the completion of Project Galaxy, the Group NPE and NPL ratio stood at 26 per cent. and 17 per cent., respectively, and it is expected to be reduced to c.7 per cent. and c.5 per cent. by the end of 2022, respectively, as a result of above-described series of NPE transactions, as well as considering the expected organic evolution of the remaining book. This would entail reduction of total stock of NPEs by approximately 75 per cent. until the end of 2022 allowing to reduce NPE stock to c.€2.9 billion.

# Leverage partnerships in driving the growth of fee and commission income

Under the Updated Strategic Plan, the Bank aims to leverage its position among affluent segment clients and the partnerships it has entered into in order to grow its net fee and commission income.

One of the key drivers for higher fee income in the coming years is expected to be the higher business activity and improvement in lending volumes in light of higher RRF-driven lending, which would in turn drive the growth in lending-related fees including letter of credit and loan guarantee fees as well as any ancillary M&A advisory and ECM and DCM business fees.

Additionally, the Bank believes that there is a scope for the Bank to increase bancassurance fee income by 2024 on the back of the exclusive partnership agreement that Alpha Holdings and the Bank signed with Generali in December 2020. This partnership expands the Group's product offering across both the life and non-life segments with particular strategic focus on the retail offering and allows the Bank to benefit from Generali's expertise combined with the Bank's distribution capabilities.

Additionally, in relation to cards and payments fees, the Bank aims to capitalise on the expected growth of Greek payment sector and its strategy is focused on attracting a strong partner going forward. In this context, on 11 November 2021 Alpha Holdings and Nexi announced that they had entered into a binding agreement for the establishment of a strategic partnership in respect of the MA Business through, *inter alia*: (i) the carve-out of the MA Business by the Bank by way of a spin-off to the NewCo; (ii) the sale to Nexi of a 51 per cent. stake in the NewCo, subject to the satisfaction of certain conditions precedent; and (iii) the execution of a long-term marketing and distribution agreement by the parties, providing the NewCo with access to the Bank's network, in order to distribute payment acceptance products and services to business customers of the Bank in Greece. On 30 June 2022, following the satisfaction of conditions precedent, the strategic partnership was launched through the carve-out of the MA Business by way of a spin-off to the NewCo, which was renamed "Nexi Payments Greece S.A.", and the sale of a 51 per cent. stake in the latter entity to Nexi.

#### RISK MANAGEMENT

# **Risk Management Framework**

The Group has established a framework for the management of risks based on best practice and supervisory requirements in accordance with common European legislation and the current system of common banking rules, principles and standards. The Group aims to continuously improve such framework and apply it over time in order to be applied in a coherent and effective way in the daily conduct of the Group's activities within and across borders, thereby supporting the effectiveness of the corporate governance of the Group.

The Group's focus is to maintain the highest operating standards, ensure compliance with regulatory risk rules and retain confidence in the conduct of its business activities through sound provision of financial services.

Since November 2014, the Group has fallen under the SSM, which is the system of financial supervision and prudential regulation comprising the ECB and the Bank of Greece. In addition, as a significant credit institution, the Group is directly supervised by the ECB.

The SSM works in cooperation with the EBA, the European Parliament, the European Commission ("EC"), the competent national resolution authorities, the Single Resolution Mechanism ("SRM"), and the European Systemic Risk Board ("ESRB"), within their respective competencies.

The Group defines its risk management strategy through (a) the determination of the extent to which the Group is willing to undertake risks (risk appetite), (b) the assessment of the potential impacts of activities in the development strategies by defining the risk management limits, so that the relevant decisions balance the anticipated profitability with the potential losses and (c) the development of appropriate procedures for the implementation of this strategy through a mechanism which allocates risk management responsibilities and accountability between the Bank units.

The Group's risk strategy and risk management framework are organised according to three lines of defence, which have a decisive role in its efficient operation. In particular:

- the business units of retail, wholesale, wealth banking and NPEs remedial management constitute the
  first line of defence and risk 'ownership', which identifies and manages the risks that arise when
  conducting banking business;
- the risk management unit and the compliance unit, which are independent from each other as well as from the first line of defence. They constitute the second line of defence in order to ensure objectivity in the decision-making process, to measure the effectiveness of these decisions in terms of risk conditions and to comply with the existing legislative and institutional framework, by monitoring internal regulations and ethical standards as well as the total view and evaluation of the total exposure of the Bank and the Group to risk, based on established guidelines; and
- internal audit, which constitutes the third line of defence. As an independent function, it reports to the Board of Directors through the Audit Committee and audits the activities of the Group, including the risk management function.

# **Risk Management Governance**

The Board of Directors of Alpha Holdings has the ultimate and overall responsibility for the Group and defines, oversees and is accountable for the implementation of the governance arrangements within the Group that seek to ensure effective and prudent management of the Group. The Board of Directors of Alpha Holdings is responsible for approval of the risk strategy and the risk appetite of the Group and the regular monitoring of

their implementation, with the support of the Risk Management Committee of the Board of Directors of Alpha Holdings (the "Risk Management Committee").

Based on the selected risk appetite, the Board of Directors ensures that the levels of risk are well understood and communicated throughout the Group. The Board of Directors determines the risks that the Group may assume, the size of such risks, the limits on the Group's significant business operations and the basic principles for the calculation and measurement of such risks. For more information on the Risk Management Committee, please see the section entitled "Directors and Management – Committees of Alpha Holdings' Board of Directors – Risk Management Committee".

The Risk Management Committee convenes at least once a month and recommends to the Board of Directors the approval of the Group's risk profile as well as the strategy on risk undertaking and risk and capital management. In accordance with the institutional framework, the Risk Management Committee, taking into account the Group's business strategy and adequacy of the technical (e.g. modelling tools, IT systems, etc.) and human resources available to implement the risk and capital strategy, is responsible for the communication of key aspects of the risk strategy throughout the Group, in terms of:

- the undertaking, monitoring and management of risks (market, credit, interest rate, liquidity, operational, concentration and other substantial risks) per category of transactions and customers and per risk level (i.e. country, profession, activity);
- the determination of the applicable maximum risk appetite on an aggregate basis for each type of risk and the further allocation of each of these limits per country, sector, currency, business unit, large exposures etc.; and
- the establishment of stop-loss limits or of other corrective actions.

Furthermore, the Risk Management Committee reviews and assesses the methodologies and models applied regarding the measurement of risks undertaken and ensures that there is an adequate level of communication among the internal auditor, the external auditors, the supervisory authorities, the Audit Committee and the Board of Directors on risk management issues.

The General Manager and Group Chief Risk Officer ("CRO") supervises the Risk Management Divisions and reports on a regular as well as *ad hoc* basis to the aforementioned management committees, the Risk Management Committee and the Board of Directors. With respect to credit risk, reporting to the aforementioned committees covers the following areas:

- the risk profile of portfolios by rating grade;
- the transition among rating grades (migration matrix);
- the estimation of the relevant risk parameters by rating grade, group of clients, etc.;
- the trends of basic rating criteria;
- the changes in the rating process, the criteria or in each specific parameter;
- the concentration risk (by risk type, sector, country, collateral, portfolio, name etc.);
- the evolution of gross loans, loans overdue by 90 days or more and NPEs and monitoring key performance indicators per segment on a Group basis;
- the cost of risk;

- the IFRS 9 staging transition of exposures per asset class; and
- the maximum risk appetite per country, sector, currency, business unit, limit breaches and mitigation plans.

# Organisational Structure of Risk Management Divisions

Under the supervision of the CRO the following Risk Management Divisions operate within the Group and have been given the responsibility of implementing the risk management framework, according to the directions of the Risk Management Committee:

- Market and Operational Risk Division
- Credit Risk Data and Analysis Division
- Credit Risk Data Management Division
- Credit Risk Analysis Division
- Credit Control Division
- Credit Risk Policy and Control Division
- Credit Risk Methodologies Division
- Credit Risk Cost Assessment Division
- Risk Models Validation Division
- Wholesale Credit Division
- Credit Workout Division
- Retail Credit Division

#### **Committees**

Risk Management Committee

For more information on the Risk Management Committee, please see the section entitled "Directors and Management – Committees of Alpha Holdings' Board of Directors – Risk Management Committee".

The Committee consists of no fewer than three Members and no more than 40 per cent. of the total number of the Members of the Board of Directors of Alpha Holdings (rounded to the nearest whole number), excluding the representative of the HFSF. The exact number of the Members of the Committee is determined by the Board of Directors or the General Meeting of Shareholders. All Committee Members are Non-Executive Members of the Board of Directors, the majority of whom are independent (excluding the HFSF representative). The representative of the HFSF is a Member of the Committee. The Committee generally includes one Member of the Audit Committee to ensure proper sharing of information in common areas of interest.

The Chair of the Committee (the "RMC Chair") is an Independent Non-Executive Member of the Board of Directors with significant experience in the financial sector. The RMC Chair cannot simultaneously act as Chair of the Board of Directors or of any other Board Committee.

All the Members of the Committee are required to have prior experience in the financial services sector and, individually and collectively, appropriate knowledge, skills and expertise concerning risk management and control practices. One Member is in charge of overseeing ESG issues.

The Chair and the Members of the Committee are appointed for a period of four years, by a resolution of the Board of Directors, on the recommendation of the Corporate Governance, Sustainability and Nominations Committee. They may be appointed for up to eight years from the date of their first appointment. To the extent possible, changes to the Committee's composition shall occur in a staggered manner.

The Risk Management Committee convenes at least once a month and may invite any Member of the Group's Management or Executive to attend its meetings. The CRO is a regular attendee of the Committee meetings and has unfettered access to the RMC Chair and Members of the Committee.

The Risk Management Committee assists the Board of Directors in achieving the following objectives:

- promoting a sound risk culture at all levels throughout the Group, fostering risk awareness and encouraging open communication and challenge across the organisation;
- ensuring that the risk and capital management strategies correspond to the business objectives of the Group;
- ensuring that the Group adopts a well-defined risk appetite statement and framework, which are embedded across the organisation and cascade into limits per country, sector, and business unit. The Committee ensures that the risk appetite framework is fully aligned with the Group's strategy, budget process, capital and liquidity planning, and remuneration framework and that the Group adequately embeds ESG risks in the overall risk appetite statement and framework, business strategy and risk management framework;
- ensuring the adequacy and effectiveness of the risk management policies and procedures of the Group;
- overseeing the implementation of effective mitigating and corrective measures, in cooperation with the Audit Committee, as appropriate; and
- ensuring that there is an adequate level of communication on risk management issues among the internal auditor, the external auditors, the supervisory authorities, the Audit Committee and the Board of Directors.

The Risk Management Committee has, among others, the following responsibilities:

- reviews regularly and recommends to the Board of Directors for approval the risk and capital management strategy, ensuring alignment with the business objectives of the Group. In this context, the Risk Management Committee considers the adequacy of the technical (e.g. modelling tools, IT systems, etc.) and human resources available to implement the risk and capital strategy and ensures the communication of key aspects of the risk strategy throughout the Group;
- reviews and recommends annually to the Board of Directors for approval the Group's risk appetite framework and statement, considering also ESG risks, i.e. the risks of any negative financial impact to the Group stemming from the current or prospective impacts of ESG factors on its counterparties, such as climate-related risks, and ensuring alignment with the Group's strategic objectives and capital allocation. The risk appetite framework is clearly communicated throughout the Group and articulated/monitored via a set of metrics;

- evaluates on an annual basis or more frequently, if necessary, the appropriateness of risk identification
  and measurement systems, methodologies and models, including the capacity of the Group's IT
  infrastructure to record, report, aggregate and process risk-related information;
- on a regular basis, discusses a report by the CRO on the Group's risk profile and performance against the risk appetite statement for the period, and the Key Risk Indicators set therein;
- collaborates with the Audit Committee as necessary on the effective oversight of certain key areas of
  risk, including ESG risks, and capital management and their repercussions on the Internal Control
  System. The Committee also convenes jointly with the Audit Committee to discuss and review issues
  relevant to the remediation plans from regulatory/supervisory assessments and certain operational risk
  or other issues of importance and common interest;
- recommends to the Board of Directors for approval high-level policies on the management of risks;
- approves the nature, structure, format and frequency of risk reports to be submitted by the CRO to the Committee, and ensures regular and high-quality reporting by the CRO to the Board of Directors;
- keeps itself informed of recent regulatory developments, emerging supervisory expectations, the results of supervisory requests and the SREP conclusions;
- reviews regularly, at least annually, the Group's Internal Capital Adequacy Assessment Process
  ("ICAAP") / Internal Liquidity Adequacy Assessment Process ("ILAAP") and related target ratios and
  recommends their approval to the Board of Directors; and
- reviews the availability of resources for the conduct of firm-wide stress tests at least annually, approves the Group's firm-wide stress test scenarios, and considers the results of stress tests.

The Risk Management Committee periodically reviews reports on the implementation of risk policies and proposes to the Board of Directors amendments, modifications and corrective measures as necessary. In particular, the Committee, in coordination with the Audit Committee, takes into account relevant reports prepared by the Internal Audit Unit and the external auditors regarding:

- the observance and the effectiveness of risk management policies and procedures; and
- the observance and the completeness of policies and procedures regarding the impairment of assets and any possible alterations thereof during the fiscal year.

The Risk Management Committee reviews and assesses the methodologies and models applied pertaining to the measurement of undertaken risks and ensures that there is an adequate level of communication on risk management issues among the internal auditor, the external auditors, the supervisory authorities, the Audit Committee and the Board of Directors.

# Compliance Division

The Compliance Division is responsible for managing the compliance risk of the Bank and monitoring the compliance risk of Group companies. The Compliance Division reports to the General Manager – Chief Legal and Governance Officer for administrative matters and to the Board of Directors through the Audit Committee. The Compliance Division is subject to the audits conducted by the competent authorities and the Internal Audit Division as to the adequacy and effectiveness of its procedures in accordance with the provisions of the Group's Compliance Audit Programme.

The main responsibilities of the Compliance Division include:

- managing compliance risk and monitoring the implementation of the regulatory framework into the Bank's activities;
- assessing compliance at a Group level;
- representing the Bank before the competent authorities and communicating with them;
- preventing and combating money laundering and terrorism financing;
- preserving banking secrecy; and
- handling public authorities and third parties' requests.

The Compliance Division is administratively independent and has unrestricted access to all data and information necessary to fulfil its purpose. The Compliance Division develops the Group's Annual Compliance Programme, as well as the Group's Compliance Policies and Procedures Framework.

The Compliance Division cooperates with the Legal Services Divisions and the Market and Operational Risk Division, aiming to jointly address matters regarding compliance with the regulatory framework.

Compliance Units have been set up and operate in major Group companies located in Greece and abroad, under the supervision of a Compliance Officer.

#### Internal Audit

Internal Audit is an independent, objective assurance and consulting activity, designed to add value and improve the operations of the Group. The Internal Audit unit reports functionally through the Audit Committee to the Board of Directors and administratively to the Managing Director – CEO.

Internal Audit performs audits regarding the adequacy and effectiveness of the Group's internal control systems and the secure and efficient operation of the Group's information systems, in accordance with the regulatory framework.

Internal Audit creates a risk-based internal audit plan, consistent with the Group's goals, on an annual basis, to determine the priorities of the Internal Audit's assurance engagements. This process takes into account the results of a documented annual risk assessment, regulatory requirements, extraordinary developments in the overall economic environment as well as the input or any requests made by the Board of Directors and management.

The annual audit plan is approved by the Board of Directors through the Audit Committee and may be reviewed and adjusted if there are any unanticipated risks that could affect the organisation.

The audit results are communicated to the audited units and action plans are agreed. The implementation of the action plans is periodically followed-up by Internal Audit.

The results of the audit engagements, the follow-up process as well as the implementation of the audit plan are communicated periodically (at least every quarter) to the Audit Committee.

# Internal Audit also:

 designs and implements appropriate organisational structure, policies, procedures and practices in compliance with the International Professional Practices Framework and best practice;

- develops and supports audit programmes and the audit methodology of information systems, as defined by the regulatory framework, the relevant international security standards and control best practices;
- assesses the cyber security risk and management's response capabilities, with a focus on shortening response time and performs *ad hoc* audits of incidents that could negatively impact the organisation and customers, both financially and in terms of reputation;
- performs investigative audits, when there is evidence that the interests of the Group are harmed; and
- assesses the adequacy and effectiveness of the Group's internal control systems and submits an annual report, through the Audit Committee, to the Board of Directors according to the regulatory framework.

In the context of continuous improvement, Internal Audit has established and performs a Quality Assurance and Improvement Program (QAIP), in order to assure the quality of its activities. The QAIP program includes assessments (internal and external) that cover the entire operation of Internal Audit and consists of the below three components:

- continuous assessment of audit planning, guidance, documentation, review and preparation of audit reports;
- periodic quality assessments which focus on the general operation of Internal Audit units; and
- measurement of performance with Key Performance Indicators (KPIs), which are used to continuously monitor Internal Audit units using pre-defined criteria. An assessment of the adequacy of the Group's internal control systems, in accordance with the Bank of Greece's Governor's Act 2577/9.3.2006, as amended and in force, and Greek Law 4706/2020, is also performed every three years by external auditors, other than the statutory auditors.

# Specific Risks

# Credit Risk

Credit risk arises from a borrower's or counterparty's potential inability to fulfil its obligations to the Group due to the worsening of its creditworthiness, particularly within a deteriorating credit and macroeconomic environment.

The primary objective of the Group's strategy for credit risk management, in order to maximise its risk-adjusted performance, is the continuous, timely and systematic monitoring of the loan portfolio and the maintenance of credit risks within the framework of acceptable overall risk limits. At the same time, the conduct of daily business within a clearly defined framework of granting credit is monitored.

The framework of the Group's credit risk management is developed based on a series of credit policy processes, systems and models for measuring, monitoring and validating credit risk. These models are subject to an ongoing review process in order to ensure compliance with the current institutional and regulatory framework, international best practices and their adaptation to the respective economic conditions and to the nature and extent of the Group's business. Dedicated departments develop credit rating and evaluation models in order to ensure that they are available for day-to-day credit processing at the various Business Units. The independent Risk Models Validation Division is responsible for validating the credit risk, market risk, interest rate risk, liquidity and operational risk models and methodologies.

# Credit Risk Management Framework

The Group has set a clear credit risk undertaking and management strategy that, in line with its business goals, reflects the risk tolerance and the profitability levels the Group expects to achieve with regard to the risks undertaken.

The credit risk management framework evolves according to the following objectives:

- the independence of the credit risk management operations from the risk undertaking activities and from the officers in charge;
- the complete and timely support of Business Units during the decision-making process;
- the continuous and regular monitoring of the loan portfolio, in accordance with the Group's policies and procedures that ensure a sound credit approval process;
- the monitoring of the credit risk profile in accordance with the credit risk appetite, which encompasses credit quality (expected loss) and credit risk concentration (limits on single names, industries and geographical regions);
- the conduct of a controls framework that ensures credit risk undertaking is based on sound credit risk management principles and well-defined, rigid credit standards;
- the accurate identification, assessment and measurement of the credit risk undertaken across the Bank and the Group, at both individual credit and lending portfolio levels;
- the approval of every new credit facility and every material change of an existing credit facility (such as its tenor, collateral structure or major covenants) by the appropriate authority level;
- the assignment of the credit approval authority to the Credit Committees in charge, which consist of Executives from both the Business and Credit Units, with sufficient knowledge and experience in the application of the Bank's internal policies and procedures; and
- the measurement and assessment of all credit exposures of the Bank and the Group companies to businesses or consolidated business groups as well as to their proprietors, in line with regulatory requirements.

The aforementioned objectives are achieved through a continuously evolving framework of methodologies and systems that measure and monitor credit risk, using a series of credit risk approval, credit risk concentration analysis and review, early warning for excessive risk undertaking and problem debt management processes. This framework is readjusted regularly according to the challenges of the prevailing economic circumstances and the nature and scope of the Group's business activities.

Under this framework and with the primary objective to further strengthen and improve the credit risk management framework the following actions have been implemented:

- update of wholesale and retail banking credit policies manuals in Greece and abroad taking into account the supervisory guidelines for credit risk management issues as well as the Group's business strategy;
- continuous strengthening of the second line of defence control mechanisms in order to ensure compliance with credit risks policies at Bank and Group level;
- ongoing validation of the risk models in order to ensure their accuracy, reliability, stability and predictive power;

- update of the Concentration Risk and Credit Threshold Policy which includes the principles and procedures that the Bank follows so as to manage concentration risk, at sector and borrower / group of borrowers level in the context of the Bank's participation in the RRF;
- support for borrowers with short-term liquidity constraints due to the COVID-19 pandemic, based on the Bank's participation in broader government schemes during 2021; and
- development of a specific credit policy, which defines the criteria and conditions for the evaluation of new lending to enterprises and self-employed people affected by the COVID-19 pandemic.

On the commercial side (which includes corporates, SMEs and small business portfolios ("SBPs")), the Bank participates in government support programmes for new lending targeted at corporates, medium and small businesses.

The Bank also participates as intermediary in other national and supranational enterprise development programmes covering working capital and other credit lines (for example, COSME and InnovFin loan guarantee facilities provided by the European Investment Fund, lending facilities in collaboration with the EIB and through the Greek National Strategic Reference Framework 2014-2020).

These schemes allow the Bank to provide liquidity to performing borrowers at favourable financing terms, while taking on lower risk, thus containing the impact of the COVID-19 pandemic on credit quality deterioration.

On the retail side (which includes mortgage, consumer as well as SBPs), both direct and indirect liquidity support measures have been announced by the Greek government. This includes a government support scheme to subsidise the instalments of existing loans collateralised by a primary residence for a nine-month period and which extends across all retail loans that qualify under the scheme. The scheme applies to borrowers of performing and non-performing status, with the extent of the government support amount increasing based on payment history to incentivise payment performance.

The Group, taking advantage of the growth opportunities arising from the RRF programme, also participates in the Greek RRF programme and has developed a strategy for loans and grants schemes.

Other steps the Group is taking or has taken in respect of credit risk include:

- adoption of supportive measures for enterprises and individuals affected by the COVID-19 pandemic, concerning mainly changes to the schedule of payments of existing loans;
- amendement of the Group Loan Impairment Policy, regarding the identification of default and the
  "Significant Increase in Credit Risk" identification criteria of exposures under payment moratoria due
  to COVID-19 pandemic, since the respective EBA Guidelines "on legislative and non-legislative
  moratoria on loan repayments applied in the light of the Covid-19 crisis" (EBA/GL/2020/02) are not
  applicable from 1 April 2021 onwards;
- amendment of the Group Default Classification Policy, regarding the forbearance classification, the unlikeliness-to-pay (UTP) assessment and the identification of default of exposures under payment moratoria due to COVID-19 pandemic, since the respective EBA Guidelines "on legislative and non-legislative moratoria on loan repayments applied in the light of the Covid-19 crisis" (EBA/GL/2020/02) are not applicable from 1 April 2021 onwards;
- completion of the project for compliance with the EBA guidelines on loan origination and monitoring (EBA/GL/2020/06). The guidelines are applicable from 30 June 2021 and apply to institutions' internal governance arrangement and procedures in relation to credit-granting processes, and throughout the life cycle of credit facilities. Furthermore, these guidelines apply to the risk management practices,

policies, processes and procedures for loan origination and monitoring of performing exposures, and their integration into the risk management frameworks;

- integration of the digitalisation of retail credit decisions through all retail banking product distribution channels for consumer loans and credit card portfolios;
- implementation of the digitalisation of retail credit decisions for housing and small business loan portfolios;
- update of the Wholesale Banking and Retail Banking Arrears and Forbearance Policies in the context of the implementation of Law 4738/2020 for the settlement of debts and the provision of a second chance to physical persons and legal entities facing problems of over-indebtedness; and
- periodic stress test exercises as a tool for assessing the impact of various macroeconomic scenarios on business strategy formulation, business decisions and the Group's capital position. Crisis simulation exercises are conducted in accordance with the requirements of the supervisory framework and constitute a key component of the Group's credit risk management strategy.

Additionally, the following actions are in progress in order to enhance and develop the internal system of credit risk management:

- continuous upgrade of databases for performing statistical tests in the Group's credit risk rating models;
- upgrade and automation of the aforementioned processes in relation to the wholesale and retail banking by using specialised statistical software;
- reinforcing the completeness and quality control mechanism of crucial fields of wholesale and retail credit for monitoring, measuring and controlling credit risk; and
- a project for the transition from the existing rating systems to a new, single and efficient Group credit rating platform, provided by Moody's.

# **Market Risk**

Market risk is the risk of losses arising from unfavourable changes in the value or volatility of interest rates, foreign exchange rates, stock exchange indices, equities and commodities. Losses may occur either from the trading portfolio or from the management of assets and liabilities.

The market risk in the Bank's trading portfolio is measured by Value at Risk ("VaR"). The method applied for calculating VaR is historical simulation with full revaluation using the 99th percentile and one tailed confidence interval. The historical observation period is one year at minimum. Risk factor returns are calculated according to the absolute or relative approach. A holding period of one and ten days is applied for regulatory purposes. Additional holding periods may be applied for internal purposes, according to the time required for the liquidation of the portfolio.

In line with regulatory requirements, back-testing is performed on a daily basis for the Bank's prudential trading book through the use of hypothetical and actual outcomes by monitoring the number of times that the trading outcomes exceed the corresponding risk measure. According to best practices, the model is validated by an independent unit at the Bank on an annual basis.

The VaR methodology is complemented with scenario analysis and stress testing, in order to estimate the potential size of losses that could arise from the trading portfolio for hypothetical as well as historical extreme movements of market parameters.

Within the scope of market risk control, exposure limits, maximum loss (stop loss) and VaR limited have been set across trading positions.

In particular, limits have been set for the following risks:

- foreign currency risk regarding spot and forward positions and foreign exchange options;
- interest rate risk regarding positions on bonds and interest rate swaps, interest futures and interest options;
- price risk regarding positions in equities, index futures and options, commodity futures and swaps; and
- credit risk regarding interbank transactions and bonds.

Positions held in these products are monitored on a daily basis and are examined for the corresponding limit percentage cover and for any limit excess.

# Foreign Exchange Risk

The Group is exposed to fluctuations in foreign exchange rates. The general management sets limits on the total foreign exchange position as well as on the exposure by currency.

The management of the foreign currency position of the Bank and the Group is centralised.

The policy of the Group is for the positions to be closed immediately using spot transactions or currency derivatives. In the case that positions are still open, they are monitored daily by the competent department and are subject to limits.

# **Interest Rate Risk of the Banking Book**

In the context of analysis of the banking portfolio, interest rate gap analysis is performed. The main measure of interest rate risk is the interest risk gap for each currency, which represents the re-pricing schedule showing assets, liabilities and off-balance sheet exposures by time band according to their maturity (for fixed rate instruments), or next re-price date (for adjustable/ floating rate instruments). The interest rate gap incorporates assumptions about the interest rate run-off for products without predefined maturities (sight deposits, savings, working capital, credit cards etc.) or other balance sheet items which exhibit strong behavioural characteristics. Statistical modelling is a widely accepted methodology used in determining a run-off profile for items of this type and is required when the future behaviour of an item cannot be directly predicted by reference to its contractual characteristics.

The earning at risk is calculated by using constant balance sheet while economic value is calculated by considering each account until maturity. Furthermore and in the context of IFRS 9 requirements, the economic value for (i) loans which failed the "Solely Payments of Principal & Interest" requirement under IFRS 9 and (ii) purchased or originated credit impaired loans are calculated.

In addition interest rate sensitivity analysis of the Bank/Group balance sheet through interest rate risk stress shocks takes place on a monthly basis examining the impact of unexpected economic losses caused by changes in interest rates.

According to BIS standards concerning interest rate limits on the banking book, the Bank implements limits on a consolidated basis in terms of both economic value and earnings. Economic value measures compute a change in the net present value of the Bank's assets, liabilities and off-balance items subject to specific interest rate shock scenarios that affect future levels of a bank's own equity capital, while earning based measures focus on changes to future profitability within a time horizon of one year. Additionally, economic value measures reflect

changes in value over the remaining life of assets, liabilities and off-balance sheet items while earnings-based measures cover only the short to medium term.

## Liquidity Risk

Liquidity risk is defined as the risk to earnings arising from the Group's inability to meet its obligations as they become due, or fund new business, without incurring substantial losses, as well as the inability to manage unplanned contraction or changes in funding sources. Liquidity risk also arises from the Group's failure to recognise or address changes in market conditions that affect its ability to liquidate assets quickly and with minimal loss in value. Liquidity risk is also a balance sheet risk, since it may arise from banking book activities. A substantial portion of the Group's assets has historically been funded by customer deposits and bonds issued by the Group. Additionally, in order to extend the period and diversify the types of lending, the Bank is also financed by issuing securities to the international capital markets and borrowing from the system of central banks. Total funding can be divided into: (i) customer deposits; and (ii) wholesale funding.

Liquidity monitoring is conducted through the use of a range of liquidity metrics for the measurement and analysis of liquidity risk. These metrics show the Group's day-to-day liquidity positions and structural liquidity mismatches, as well as its resilience under stressed conditions. In respect of the metrics for monitoring mediumlong term liquidity risk exposure, the Bank performs liquidity gap analysis for the Bank, the subsidiaries abroad and for the Group on a monthly basis. Cash flows from all assets and liabilities are classified into time buckets, according to their contractual terms. Exceptions to the above rule are loans (i.e. overdraft accounts working capital) and customer deposits (i.e. savings and current accounts) that do not have contractual maturity and are allocated according to their transactional behaviour (convention). Additionally, unencumbered securities are distributed according to their contractual maturity, taking into account relevant factors (haircuts).

#### **Operational Risk**

Operational risk is the risk of loss arising from inadequate or ineffective internal procedures, systems and people or from external events, including legal risk.

The Operational Risk Committee and Internal Control Committee is responsible for the approval of the Group policy on operational risk management and has an oversight role in its implementation. The operational risk management policy is applicable to all units of the Group in Greece and abroad.

Consistent activities for assessment, monitoring and management of operational risk have been introduced in all Bank units. Based on the results of risk assessment, action plans are scheduled in order to mitigate critical operational risks. The Group has purchased several insurance policies such as bankers blanket bond, directors and officers liability, cyber crime bond and various property-related insurance policies in order to further minimise the Group's exposure to operational risks. In addition, the Group actively monitors its operational risk profile through dedicated units and appropriate governance structures. As regards the calculation of the regulatory capital requirements for operational risk, the Group applies the standardised approach specified in Basel III, EU law, and the relevant regulations and decisions of the Bank of Greece.

# **Counterparty Risk**

Counterparty risk for the Group stems from its over-the-counter transactions, money market placements and customer repos/reverse customer repos and arises from an obligor's failure to meet its contractual obligations before the final settlement of the transaction's cash flows. A loss would occur if the transaction or the portfolio of transactions with the counterparty has a positive value at the time of default.

The Group seeks to reduce counterparty risk by standardising relationships with counterparties through ISDA and GMRA contracts, which encompass all necessary netting and margining clauses. Additionally, for almost

all active counterparties that are financial institutions, CSAs have been put into effect, so that net current exposures are managed through margin accounts on a daily basis, through the exchange of cash or debt securities collateral.

The Group avoids taking positions on derivative contracts where the values of the underlying assets are highly correlated with the credit quality of the counterparty.

The estimation of counterparty exposure depends on the type of the financial product. Risk weights are defined for every applicable category of counterparty risk regarding each product across operations such that the weighted nominal amount corresponds to the actual counterparty exposure in terms of loan equivalent risk (i.e. the amount at risk if the counterparty does not uphold their contractual obligations).

For the efficient management of counterparty risk, the Bank has established a framework of counterparty limits. Counterparty limits are submitted for approval by the competent Credit Committee. The credit evaluation takes into consideration all the available credit ratings provided by external rating agencies and/or the internal Group evaluation of the counterparty's credit rating if no external data are available, and their effective dates and the existence or risk mitigating measures (for example ISDA, CSA).

Counterparty limits apply to all financial instruments in which the Bank's Treasury department is active in the interbank market. The limits framework is revised according to the business needs of the Bank and the prevailing conditions in international and domestic financial markets. A similar limit structure for the management of counterparty risk is enforced across all of the Group's subsidiaries.

# Climate Related Environmental, Social and Governance (ESG) Risks

The Bank, acknowledging the potential implications of climate change in economic activity, which in turn affects the financial system, has developed a comprehensive action plan, submitted to the ECB in May 2021 as to how it will incorporate the climate risk assessment in its operations and risk management process.

In that context, in alignment with the ECB expectations and in the context of the action plan submitted to the ECB in May 2021, the Bank has incorporated in its Risk Appetite Framework the following qualitative statements on climate risks in the context of credit risk:

- the Bank is committed to integrate climate risks into its overall risk management framework. In this context, the Bank regularly monitors its exposure concentration in climate-sensitive sectors and areas of its loan portfolio;
- the Bank aims to enhance its due diligence process with respect to the assessment of its clients' ESG/climate risk profile, through the collection of relevant information. In this context, the Bank will take initiatives to encourage its clients to clearly define and communicate their client related commitments and to develop and execute effective strategies to mitigate climate risks;
- the Bank aims to finance its counterparties' green / sustainable transition both in the short-term and in the long-term;
- the Bank, to the extent possible, will start collecting EPC rating certificates from its clients, in order to monitor the energy performance class of its real estate secured exposures; and
- the Bank already applies an exclusion list in line with the Environmental and Social Exclusion List developed by the European Bank for Reconstruction and Development (EBRD), for the avoidance of financing, directly or indirectly, specific activities considered as harmful to the environment and society, such as thermal coal mining or coal-fired electricity generation capacity; upstream oil exploration; and upstream oil development projects, except in rare and exceptional circumstances

where the proceeds of the project exclusively target the reduction of greenhouse gas emissions or flaring from existing producing fields.

#### **DIRECTORS AND MANAGEMENT**

# Management and Corporate Governance of Alpha Holdings

The main administrative, management and supervisory bodies of Alpha Holdings are the Board of Directors and the Committees of the Board of Directors (namely the Audit Committee, the Risk Management Committee, the Remuneration Committee and the Corporate Governance, Sustainability and Nominations Committee) as well as the Executive Committee. The business address for all members of the administrative, management and supervisory bodies of Alpha Holdings (including each Member of the Board of Directors) is 40 Stadiou Street, GR-102 52 Athens, Greece.

# **Board of Directors of Alpha Holdings**

According to its Articles of Incorporation, Alpha Holdings is managed by a Board of Directors comprising of a minimum of nine and a maximum of fifteen Members (with only odd numbers of Members allowed, while an even number can be accepted temporarily for a justified reason), including Executive and Non-Executive Members in accordance with the provisions of applicable legislation and the Relationship Framework Agreement ("RFA") signed between Alpha Holdings and the Hellenic Financial Stability Fund. A legal entity may also participate in the Board of Directors as a Member, pursuant to article 77 par. 4 of Greek Law 4548/2018. The Members are elected by the General Meeting of Shareholders of Alpha Holdings and may be reelected and removed or replaced at any time.

Pursuant to Greek Law 4706/2020 (article 5), the Board of Directors consists of Executive and Non-Executive Members. Under currently applicable law, at least one-third of the total number of Members of the Board of Directors and in any case not less than two Members should be Independent Non-Executive Members within the meaning of article 9 of Greek Law 4706/2020.

Pursuant to the HFSF Law, a representative of the HFSF participates as a Member to the Board of Directors. Such Member's responsibilities are determined by the HFSF Law and the New RFA with the HFSF.

Failure on the part of a Member to attend meetings of the Board of Directors for a total of six (6) months per year, without a valid reason, shall be construed as resignation therefrom and such resignation shall be finalised as of the date of the resolution of the Board of Directors ascertaining the Member's failure to attend the Board meetings as above.

In particular, in Board of Directors meetings that have as an item the drafting of financial statements of Alpha Holdings, or where the agenda includes items which required the approval of the General Meeting of Shareholders, by increased quorum and majority, in accordance with Greek Law 4548/2018, a quorum of the Board of Directors is achieved if at least two (2) Independent Non-Executive Members are present. In the case of the unjustified absence of an Independent Member at two or more consecutive meetings of the Board of Directors, such Member is considered to have resigned. Such resignation is ascertained by a decision of the Board of Directors, which proceeds to the replacement of the Member, in accordance with the process provided above.

The Chair of the Board of Directors (the "Chair") is elected from amongst the Non-Executive Members of the Board of Directors. The Board of Directors elects its Chair by absolute majority of the present and/or represented Members. In addition, the Board of Directors may elect a Vice-Chair or Vice-Chairs, and/or Deputy CEOs and/or General Managers and/or Executive General Managers and their deputies.

The Board of Directors resolves on all matters concerning management and administration of Alpha Holdings except those which, under the Articles of Incorporation or under applicable law, are the sole prerogative of the General Meeting of Shareholders. The Board of Directors is convened by invitation of the Chair or following a

request by at least two (2) of its Members. The representative of the HFSF has the authority to convene an extraordinary meeting if the Chair has not convened such a meeting within seven days from the submission of the relevant request by the HFSF representative. In this case, the meeting is convened within five days from the expiration of the seven-day period. The representative of the HFSF may request an adjournment of any meeting of Alpha Holdings' Board of Directors for three business days, until instructions are given by the HFSF's Executive Board. Such right may be exercised by the end of the meeting of Alpha Holdings' Board of Directors. Subject to article 107 of Greek Law 4548/2018, the Members of the Board of Directors have no personal liability vis-à-vis Shareholders or third parties and are liable only towards Alpha Holdings in connection with the administration of its corporate affairs. The resolutions of the Board of Directors are passed by absolute majority of the Members present or duly represented at Board of Directors meetings, except in those cases where it is otherwise required by applicable law.

A Member who is absent from a meeting for any reason whatsoever may be represented by another Member of the Board of Directors the absentee has authorised via a letter, a telex, a cable, a telefax or an e-mail addressed to the Board of Directors. A Member may represent only one absent Member. To form a quorum, no less than one-half plus one of its Members must be present or duly represented. In any event, the number of Members personally present may never be less than six (6). By way of exception, when the Board of Directors meets (as a whole or partially) by videoconference or teleconference, the physical presence of the minimum number of Members is not required. The quorum is determined using absolute numbers.

The Board of Directors designates its Executive and Non-Executive Members. Independent Non-Executive Members are elected, according to Greek law on Corporate Governance, by the General Meeting of Shareholders. Under Greek Law 4706/2020 (articles 5 par. 2), Independent Members are elected by the General Meeting of Shareholders or appointed by the Board of Directors until the next General Meeting in the event of death, resignation or loss of the capacity of an Independent Member of the Board of Directors in any other way resulting in the number of the Independent Members being less than the minimum number required by law.

The Board of Directors was elected by the Ordinary General Meeting of Shareholders held on 29 June 2018 and was constituted in body as per the Board resolution of 29 June 2018.

On 29 June 2018, during the Ordinary General Meeting of Shareholders, Mr D.P. Mantzounis, Managing Director - CEO of the Bank, announced his intention to initiate his succession. On 29 November 2018, following a thorough search conducted by a recruitment firm and in accordance with the Policy for the Succession Planning of Senior Executives and Key Function Holders, the Board of Directors unanimously elected Mr V.E. Psaltis as a Member of the Board of Directors and new CEO to assume his duties on 2 January 2019.

At the Ordinary General Meeting of Shareholders held on 28 June 2019, the General Meeting was informed about the election of a new Member of the Board of Directors and in particular that:

- at the meeting of the Board of Directors held on 30 August 2018 Mr. I.S. Dabdoub submitted his resignation from the position of Member of the Board of Directors and of its Committees;
- at the meeting of the Board of Directors held on 29 November 2018 Mr. V.E. Psaltis was elected as Member of the Board of Directors;
- at the meeting of the Board of Directors held on 29 November 2018 Mr. D.P. Mantzounis submitted his resignation from the position of Managing Director CEO with effective date 2 January 2019; and
- through a unanimous resolution of the Board of Directors, Mr. V.E. Psaltis was appointed new CEO on 2 January 2019.

On 31 July 2020, the Ordinary General Meeting of Shareholders, among other items:

- was informed that the Board of Directors at its meeting held on 25 June 2020 proceeded with the appointment of Mr. Dimitris C. Tsitsiragos and Ms. Elanor R. Hardwick as Members of the Board of Directors, effective as of 2 July 2020, in replacement of Mr. Demetrios P. Mantzounis and Mr. George C. Aronis who resigned on 31 December 2019 and 31 January 2020 respectively; and
- approved the appointment of Mr. Dimitris C. Tsitsiragos and of Ms. Elanor R. Hardwick, who fulfil the independence conditions and criteria, according to the applicable legal and regulatory framework, as Independent Non-Executive Members of the Board of Directors. Their tenure shall be equal to the remainder of the tenure of the rest of the Members of the Board of Directors, as this was determined during their election by the resolution of the Ordinary General Meeting of Shareholders dated 29 June 2018.

Additionally, at the Board of Directors meeting held on 26 November 2020, Mr. A.Ch. Theodoridis notified his resignation from the position of General Manager of Non-Performing Loans and Treasury Management with effect as of 1 December 2020, in order to assume, as of the same date, the position of Executive Chair of Cepal Hellas, while the Board of Directors resolved for him to retain his role as Member of the Board of Directors and specifically as a Non-Executive Member. The said resignation took place in the context of the transfer of the Bank's NPEs servicing business to Cepal, which materialised on 1 December 2020. Mr. Theodoridis resigned from the position as Member of the Board of Directors on 17 June 2021.

Further to the resolution of the Extraordinary General Meeting of Shareholders of Alpha Holdings dated 2 April 2021 and the registration with G.E.MI. dated 16 April 2021 of the resolution of the Ministry of Development and Investments by virtue of which the Hive Down was approved, the Board of Directors was reconstituted into a body on 16 April 2021.

The Board of Directors, at its meeting held on 16 December 2021, elected Ms. Elli M. Andriopoulou as Member of the Board of Directors of Alpha Holdings, in replacement of Mr. Artemios Ch. Theodoridis, Non-Executive Member, who resigned on 17 June 2021. The tenure of the elected Member has been set from 1 January 2022 until the expiration of the remainder of the tenure of the Member whom she replaces.

The Board of Directors' tenure ends at the Ordinary General Meeting of Shareholders of 2022 and may be extended until the termination of the deadline for the convocation of the next Ordinary General Meeting of Shareholders and until the respective resolution has been adopted.

As of 31 December 2021 the Board of Directors consisted of twelve Members. Currently, the Board of Directors consists of thirteen Members following the appointment of Ms. E.M. Andriopoulou as Non-Executive Member.

Under the HFSF Law, the HFSF is entitled to appoint a representative on the Board of Directors of Greek credit institutions that have received recapitalisation funds from the HFSF. In line with this, the Board of Directors of Alpha Holdings, at its meeting on 26 April 2018 (then operating as a licensed credit institution under the name "Alpha Bank S.A."), elected a Member, in accordance with the HFSF Law, article 10, paragraph 2, as representative and upon instruction of the HFSF (currently, Mr. Johannes Herman Frederik G. Umbgrove).

In the event of death, resignation or loss of the capacity of a Member or Members of the Board of Directors in any other way, the Board of Directors may elect replacements for the existing vacancies. The respective election shall be implemented by a resolution of the remaining Members of the Board of Directors, provided that they are at least three, and shall be valid for the remainder of the tenure of the replaced Members. The decision for such election must be published according to article 82 of Greek Law 4548/2018 and be announced by the Board of Directors at the next General Meeting. The General Meeting may replace the substitute members with others, even if membership is not on the agenda.

In any case, the remaining Members of the Board of Directors may carry on with the management and representation of Alpha Holdings, without replacing the missing Members, provided that the number of the

remaining Members exceeds half of the Members of the Board of Directors as those were before any of the aforementioned events occurred and is not lower than three.

The Board of Directors represents Alpha Holdings and is qualified to resolve on every action concerning its management, the administration of its property and the promotion of its scope of business in general. More particularly, the Board of Directors is qualified to resolve on issues, which, in accordance with the law or the Articles of Incorporation, do not fall within the exclusive competence of the General Meeting.

The Board of Directors may, following a resolution, delegate, in whole or in part, the management and/or the representation of Alpha Holdings to one or more persons, Members of the Board of Directors, Executives or employees of Alpha Holdings or third parties, while defining simultaneously with the above resolution, the extent of the relevant delegation as well as the possibility to further assign the powers granted.

Alpha Holdings (then operating as a licensed credit institution under the name "Alpha Bank S.A.") and the HFSF have entered into a RFA, in accordance with the provisions of the Memorandum of Economic and Financial Policies and the provisions of the HFSF Law. The RFA originally entered into force on 12 June 2013 but was subsequently replaced by the New RFA entered into on 23 November 2015. The New RFA requires the following, among others, with respect to the composition of the Board of Directors: (i) the Chairman of the Board of Directors must be a Non-Executive Member and should not serve as Chairman of either the Board of Directors' Risk Management or the Audit Committees; (ii) the majority of the Board of Directors must be comprised of non-executive members, at least 50 per cent. of which (rounded to the nearest integer) and no fewer than three members (excluding the HFSF Representative) should be independent, satisfying the independence criteria of Greek Law 4706/2020 and the Recommendation 2005/162/EC; and (iii) the Board of Directors must include at least two executive members. In the context of the Hive Down, the New RFA was transferred to the Bank. The Bank has assumed the obligation to negotiate in good faith with the HFSF any amendments to the New RFA in order to preserve the rights of the HFSF at both the level of Alpha Holdings and the Bank subject to applicable law.

Moreover, pursuant to the provisions of the HFSF Law, the HFSF as holder of ordinary shares, develops, with the assistance of an independent consultant, criteria for the evaluation of the members of the Board of Directors and its committees, as well as any committees the HFSF deems necessary, taking into account international best practices. The HFSF also develops specific recommendations for changes and improvements in the corporate governance.

If a member of the Board of Directors or one of its committees does not meet the criteria set out by the HFSF Law and the HFSF, or if a management body collectively, does not satisfy the structure recommended by the HFSF with respect to the size, allocation of tasks and expertise, and the necessary changes cannot be otherwise achieved, the HFSF would propose to the General Meeting that the relevant members of the Board of Directors or a committee need to be replaced, if the Board of Directors does not take the necessary measures to implement the relevant recommendations. In the event that the General Meeting does not agree to replace such members of management or a committee within three months, the HFSF would publish on its website within four weeks a report that includes the relevant recommendations and the number of the members of the Board of Directors or its committees that do not meet the relevant criteria, specifying the criteria such members of the Board of Directors or its committees do not meet.

# **Board of Directors of Alpha Holdings**

The following table sets forth the position of each Member and his/her status as an Executive, Non-Executive or Independent Non-Executive Member (as of the date of this Offering Circular).

Position Name Principal outside activities

# **Biographical Information**

Below are brief biographies of the Members of the Board of Directors.

# Members of the Board of Directors

# Chair (Non-Executive Member)

Vasileios T. Rapanos

Year of birth: 1947

Nationality: Hellenic

He is Professor Emeritus at the Faculty of Economics of the University of Athens and has been an Ordinary Member of the Academy of Athens since 2016. He studied Business Administration at the Athens School of Economics and Business (1975) and holds a Master's in Economics from Lakehead University, Canada (1977) and a PhD from Queen's University, Canada. He was Deputy Governor and Governor of the Mortgage Bank (1995-1998), Chairman of the Board of Directors of the Hellenic Telecommunications Organization (1998-2000), Chairman of the Council of Economic Advisers at the Ministry of Economy and Finance (2000-2004), member of the Board of Directors of the Public Debt Management Agency (PDMA) (2000-2004) as well as Chairman of the Board of Directors of the National Bank of Greece and of the Hellenic Bank Association (2009-2012). In October 2021 he was re-elected as Chairman of the Board of Directors of the Hellenic Bank Association. He has been the Chair of the Board of Directors of the Bank since May 2014.

# **Executive Members**

CEO

Vassilios E. Psaltis

Year of birth: 1968

Nationality: Hellenic

He holds a PhD in Banking and a MA in Business and Banking from the University of St. Gallen in Switzerland. He held various senior management positions at ABN AMRO Bank's Financial Institutions Group in London and at Emporiki Bank wherein he has worked as Deputy (acting) Chief Financial Officer. He joined Alpha Bank in 2007. In 2010 he was appointed Group Chief Financial Officer (CFO) and in 2012 he was appointed General Manager. Through these posts, he spearheaded capital raisings of several billions from foreign institutional shareholders, diversifying the Bank's shareholder base, as well as significant mergers and acquisitions that contributed to the consolidation of the Greek banking market, reinforcing the position of the Bank. He has been a Member of the Board of Directors of the Bank since November 2018 and Chief Executive Officer since January 2019. In 2019 he was elected member of the Institut International d' Études Bancaires (IIEB). He is a Member of the Board of Directors and of the Executive Committee of the Hellenic Federation of Enterprises (SEV) since July 2021.

General Manager

Spyros N. Filaretos

Year of birth: 1958

Nationality: Greek

He studied Economics at the University of Manchester and at the University of Sussex. He joined the Bank in 1985. He was appointed Executive General Manager in 1997 and General Manager in 2005. From October 2009 to November 2020 he served as Chief Operating Officer (COO). In December 2020 he was appointed General Manager – Growth and Innovation. He has been a Member of the Board of Directors of the Bank since 2005.

## Non-Executive Members

Elli M. Andriopoulou (since 1.1.2022)

Year of birth: 1975

Nationality: Hellenic

She holds a BA in Psychology from the American College of Greece (Deree College) and an MBA from the Kellogg School of Management, Northwestern University (USA). She commenced her career at Citibank NA (Athens, Greece) (1997-1999) and then worked as a consultant (2000-2003) at Mercer Management Consulting (currently Oliver Wyman), (USA). Afterwards, she re-joined Citibank International Plc (Athens, Greece) (2004-2012), where she held various positions, including those of Sales Development Manager, Branch Expansion Project Manager, Strategy and Development Manager, Customer Interaction Unit Head, Customer Advocacy and Segment Management Head as well as Marketing Director. Subsequently, she served as Co-Chief Operating Officer (2013) at the Stavros Niarchos Foundation, as Chief Operating Officer (2014-2015) of the Stavros Niarchos Foundation Cultural Center (SNFCC) and as SNFCC Grant Manager (2016-2020). Since 2020, she has been Chairwoman and Managing Director of the SNFCC. She has been a Member of the Board of Directors of the Bank since January 2022.

Efthimios O. Vidalis

Year of birth: 1954

Nationality: Hellenic

He holds a BA in Government from Harvard University and an MBA from the Harvard Graduate School of Business Administration. He held several leadership positions for almost 20 years at Owens Corning, where he served as President of the Global Composites and Insulation Business Units. He joined S&B Industrial Minerals S.A. in 1998 as Chief Operating Officer (1998-2001), became the first non-family Chief Executive Officer (2001-2011) and served on the Board of Directors for 15 years. He was a member of the Board of Directors of Future Pipe Industries (Dubai, U.A.E.) from 2008 to 2019, Chairman of the Board of Directors of the Greek Mining Enterprises Association (2005-2009) and member of the Board of Directors of the Hellenic Federation of Enterprises (SEV) from 2006 to 2016, where he served as Vice Chairman (2010-2014) and as Secretary General (2014-2016). Furthermore, he is the founder of the SEV Business Council for Sustainable Development and was the Chairman thereof from 2008 to 2016. He was elected President of the Executive Committee of SEV during the Annual General Meeting, held in June 2020. He is a non-executive member of the Board of Directors of Titan Cement Company S.A., Fairfield-Maxwell Ltd (U.S.A.) and non-executive independent member of Eurolife FFH Insurance Group Holdings S.A. He has been a Member of the Board of Directors of the Bank since May 2014. He is a Member of the Audit Committee and of the Corporate Governance, Sustainability and Nominations Committee.

#### Independent Non-Executive Members

Dimitris C. Tsitsiragos

Year of birth: 1963

Nationality: Hellenic

He holds a BA in Economics from Rutgers University and an MBA from the George Washington University. He completed the World Bank Group Executive Development Program at the Harvard Business School. He spent 28 years at the International Finance Corporation (IFC) – World Bank Group. He held progressive positions in the Oil, Gas and Mining and in the Central and Eastern Europe Departments, including the positions of Manager, Oil and Gas, and Manager, Manufacturing and Services, based in Washington, D.C., USA (1989-2002). Furthermore, he held director positions for South Asia (India), Global Manufacturing and Services (Washington, D.C.) and Middle East, North Africa and Southern Europe (Cairo, Egypt), overseeing IFC's global and regional investment operations (2002-2011). In 2011, he was promoted to Vice President, EMENA region (Istanbul, Turkey) and in 2014 he was appointed Vice President Investments/Operations (Istanbul/Washington). He currently sits on the Board of Directors of Titan Cement International and serves as a Senior Adviser, Emerging Markets at Pacific Investment Management Company (PIMCO) in London, UK. He previously served as a non-executive independent Board member at the Infrastructure Development Finance Company (IDFC), India and at the Commercial Bank of Ceylon (CBC), Sri Lanka. He has been a Member of the Board of Directors of the Bank since July 2020. He is a Member of the Risk Management Committee and of the Remuneration Committee.

Jean L. Cheval

Year of birth: 1949

Nationality: French

He studied Engineering at the École Centrale des Arts et Manufactures, while he holds a DES (Diplôme d'Études Spécialisées) in Economics (1974) from the University of Paris I. Additionally he holds a DEA (Diplôme d'Études Approfondies) in Statistics and a DEA in Applied Mathematics from the University of Paris

VI. After starting his career at BIPE (Bureau d'Information et de Prévisions Économiques), he served in the French public sector (1978-1983) and then worked at Banque Indosuez-Crédit Agricole (1983-2001), wherein he held various senior management positions, including the positions of Chief Economist, Head of Corporate Planning and Head of Asset-based Finance and subsequently he became General Manager. He served as Chairman and CEO of the Banque Audi France (2002-2005) as well as Chairman of the Banque Audi Suisse (2002-2004). Furthermore, he served as Head of France at the Bank of Scotland (2005-2009). As of 2009 he has been working at Natixis in various senior management positions, such as Head of the Structured Asset Finance Department and Head of Finance and Risk, second "Dirigeant effectif" of Natixis, alongside the CEO. He is currently a member of the Board of Directors of EFG-Hermes, Egypt, Chairman of the Steering Committee of Natixis Algérie and Chairman of the Natixis Foundation for Research and Innovation. He has been a Member of the Board of Directors of the Bank since June 2018. He is a Member of the Risk Management Committee and of the Remuneration Committee.

Carolyn G. Dittmeier

Year of birth: 1956

Nationality: Italian and US

She holds a BSc in Economics from the Wharton School of the University of Pennsylvania. She is a Statutory Auditor, a Certified Public Accountant (CPA), a Certified Internal Auditor (CIA) and a Certified Risk Management Assurance (CRMA) professional, focusing on the audit and risk management sectors. Additionally, she has obtained a Qualification in Internal Audit Leadership (QIAL). She commenced her career in the US at the auditing and consulting firm Peat Marwick & Mitchell (now KPMG) where she reached the position of Audit Manager, and subsequently assumed managerial responsibilities in the Montedison Group as Financial Controller and later as Head of Internal Audit. In 1999, she launched the practice of corporate governance services in KPMG Italy. Subsequently, she took on the role of Chief Internal Audit Executive of the Poste Italiane Group (2002-2014). She has carried out various professional and academic activities focusing on risk and control governance and has written two books. She was Vice Chair (2013-2014) and Director of the Institute of Internal Auditors (2007-2014), Chair of the European Confederation of Institutes of Internal Auditing (2011-2012) and Chair of the Italian Association of Internal Auditors (2004-2010). Furthermore, she served as Independent Director and Chair of the Risk and Control Committee of Autogrill SpA (2012-2017) as well as of Italmobiliare SpA (2014-2017). Since 2014 she has been Chair of the Board of Statutory Auditors of Assicurazioni Generali SpA and a member of the Boards and/or the Audit Committees of some non-financial companies (Moncler, Illycaffè). She has been a Member of the Board of Directors of the Bank since January 2017 and is currently Chair of the Audit Committee and a Member of the Corporate Governance, Sustainability and Nominations Committee.

Richard R. Gildea

Year of birth: 1952

Nationality: British

He holds a BA in History from the University of Massachusetts (1974) and an MA in International Economics, European Affairs from the Johns Hopkins University School of Advanced International Studies (1984). He served in JP Morgan Chase, in New York and London, from 1986 to 2015, wherein he held various senior management positions throughout his career. He was Emerging Markets Regional Manager for the Central and Eastern Europe Corporate Finance Group, London (1993-1997) and Head of Europe, Middle East and Africa (EMEA) Restructuring, London (1997-2003). He also served as Senior Credit Officer in EMEA Emerging Markets, London (2003-2007) and Senior Credit Officer for JP Morgan's Investment Bank Corporate Credit in EMEA Developed Markets, London (2007-2015), wherein, among others, he was Senior Risk Representative to

senior committees. He is currently a member of the Board of Advisers at the Johns Hopkins University School of Advanced International Studies, Washington D.C., where he chairs the Finance Committee, as well as a member of Chatham House (the Royal Institute of International Affairs), London. He has been a Member of the Board of Directors of the Bank since July 2016. He is the Chair of the Remuneration Committee and a Member of the Risk Management Committee.

Elanor R. Hardwick

Year of birth: 1973

Nationality: British

She holds an MA (Cantab) from the University of Cambridge and an MBA from the Harvard Business School. She commenced her career in 1995 at the UK Government's Department of Trade and Industry, focusing on the Communications and Information Industries policy, and subsequently held roles as a strategy consultant with Booz Allen Hamilton's Tech, Media and Telco practice and with the Institutional Equity Division of Morgan Stanley. Since 2005, she has held various roles, including Global Head of Professional Publishing and Global Head of Strategy, Investment Advisory at Thomson Reuters (now Refinitiv). Afterwards, she joined the team founding FinTech startup Credit Benchmark, becoming its CEO (2012-2016). Then, she served as Head of Innovation at Deutsche Bank (2016-2018) and as Chief Digital Officer at UBS (2019-2020). Since 2018 she has served as a non-executive member of the Board of Directors of specialty (re)insurer Axis Capital, while she is also a member of the Risk Committee, the Compensation Committee and the Corporate Governance and Nominating Committee. She served as a non-executive member of the Board of Directors of Itiviti Group AB (July 2020 - May 2021). She is an external member of the Audit Committee of the University of Cambridge as of January 2021, a member of the Advisory Board of Concirrus as of May 2021 and a member of the Supervisory Council of Luminor Group as of April 2022. She has been a Member of the Board of Directors of the Bank since July 2020. She is the Chair of the Corporate Governance, Sustainability and Nominations Committee and she is a Member of the Audit Committee.

Shahzad A. Shahbaz

Year of birth: 1960

Nationality: British

He holds a BA in Economics from Oberlin College, Ohio, U.S.A. He has worked at various banks and investment firms, since 1981, including the Bank of America (1981-2006), from which he left as Regional Head (Corporate and Investment Banking, Continental Europe, Emerging Europe, Middle East and Africa). He served as Chief Executive Officer (CEO) of NBD Investment Bank/Emirates NBD Investment Bank (2006-2008), and of QInvest (2008-2012). He is currently the Group CIO of Al Mirqab Holding Co. He is also a member of the Board of Directors of El Corte Inglés and of Seafox. He has been a Member of the Board of Directors of the Bank since May 2014. He is a Member of the Corporate Governance, Sustainability and Nominations Committee.

Jan A. Vanhevel

Year of birth: 1948

Nationality: Belgian

He studied Law at the University of Leuven (1971), Financial Management at Vlekho (Flemish School of Higher Education in Economics), Brussels (1978) and Advanced Management at INSEAD (The Business School for the World), Fontainebleau. He joined Kredietbank in 1971, which became KBC Bank and Insurance

Holding Company in 1998. He acquired a Senior Management position in 1991 and joined the Executive Committee in 1996. In 2003 he was in charge of the non-Central European branches and subsidiaries, while in 2005 he became responsible for the KBC subsidiaries in Central Europe and Russia. In 2009 he was appointed CEO and implemented the Restructuring Plan of the group until 2012, when he retired. From 2008 to 2011 he was President of the Fédération belge du secteur financier (Belgian Financial Sector Federation) and a member of the Verbond van Belgische Ondernemingen (Federation of Enterprises in Belgium), while he has been the Secretary General of the Institut International d'Études Bancaires (International Institute of Banking Studies) since May 2013. He was also a member of the Liikanen Group on reforming the structure of the EU banking sector. Currently, he is a Board member of a private industrial multinational company and of a private equity company. He has been a Member of the Board of Directors of the Bank since April 2016. He is the Chair of the Risk Management Committee and a Member of the Audit Committee.

## Non-Executive Member pursuant to the provisions of Greek Law 3864/2010

Johannes Herman Frederik G. Umbgrove

Year of birth: 1961

Nationality: Dutch

He holds an LL.M. in Trade Law (1985) from Leiden University and an MBA from INSEAD (The Business School for the World), Fontainebleau (1991). Additionally, he attended the IN-BOARD Non-Executive Directors Program at INSEAD. He worked at ABN AMRO Bank N.V. (1986-2008), wherein he held various senior management positions throughout his career. He served as Chief Credit Officer Central and Eastern Europe, Middle East and Africa (CEEMEA) of the Global Markets Division at The Royal Bank of Scotland Group (2008-2010) and as Chief Risk Officer and member of the Management Board at Amsterdam Trade Bank N.V. (2010-2013). From 2011 until 2013 he was Group Risk Officer at Alfa Bank Group Holding and as of 2014 he has been a Risk Adviser at Sparrenwoude B.V. He has been a member of the Supervisory Board of Demir Halk Bank (Nederland) N.V. since 2016 and in 2018 he became the Chairman of the Supervisory Board thereof. He is currently the Chair of the Supervisory Board, of the Nominations and Remuneration Committee as well as a member of the Risk and Audit Committee and of the Related Party Transactions Committee of Demir Halk Bank N.V. Furthermore, since December 2019 he has been an independent member of the Supervisory Board and as of 1.1.2022 he has been the Chairman of the Audit Committee of Lloyds Bank GmbH. He has been a Non-Executive Member of the Board of Directors of the Board of Directors.

## **Executive Committee of Alpha Holdings**

In accordance with Greek Law 4548/2018 and Alpha Holdings' Articles of Incorporation, the Board of Directors established as of 2 December 2019 (at the time "Alpha Bank S.A.") an Executive Committee.

The Executive Committee acts as a collective corporate body of Alpha Holdings. The Executive Committee's powers and authorities are determined by way of a CEO act, delegating powers and authorities to the Committee.

The composition of the Executive Committee is as follows:

Chair	
V.E. Psaltis	Chief Executive Officer

Members	
S.N. Filaretos	General Manager – Growth and Innovation
S.A. Andronikakis	General Manager – Chief Risk Officer
L.A. Papagaryfallou	General Manager – Chief Financial Officer
S.A. Oprescu	General Manager of International Network
I.M. Emiris	General Manager of Wholesale Banking
I.S. Passas	General Manager of Retail Banking
A.C. Sakellariou	General Manager – Chief Transformation Officer
S.N. Mytilinaios	General Manager – Chief Operating Officer
N.R. Chryssanthopoulos	General Manager – Chief of Corporate Center
F.G. Melissa	General Manager – Chief Human Resources Officer
G.V. Michalopoulos	General Manager – Wealth Management & Treasury

Below are brief biographies of the General Managers who are members of Alpha Holdings' Executive Committee.

## Chair

# Vassilios E. Psaltis

He was born in Athens in 1968 and holds a PhD in Banking and a MA in Business and Banking from the University of St. Gallen in Switzerland. He held various senior management positions at ABN AMRO Bank's Financial Institutions Group in London and at Emporiki Bank wherein he has worked as Deputy (acting) Chief Financial Officer. He joined Alpha Bank in 2007. In 2010 he was appointed Group Chief Financial Officer (CFO) and in 2012 he was appointed General Manager. Through these posts, he spearheaded capital raisings of several billions from foreign institutional shareholders, diversifying the Bank's shareholder base, as well as significant mergers and acquisitions that contributed to the consolidation of the Greek banking market, reinforcing the position of the Bank. He has been a Member of the Board of Directors of the Bank since November 2018 and Chief Executive Officer since January 2019. In 2019 he was elected member of the Institut International d' Études Bancaires (IIEB). He is a Member of the Board of Directors and of the Executive Committee of the Hellenic Federation of Enterprises (SEV) since July 2021.

# Spyros N. Filaretos

He was born in Athens in 1958. He studied Economics at the University of Manchester and at the University of Sussex. He joined the Bank in 1985. He was appointed Executive General Manager in 1997 and General Manager in 2005. From October 2009 to November 2020 he served as Chief Operating Officer (COO). In December 2020 he was appointed General Manager – Growth and Innovation. He has been a Member of the Board of Directors of the Bank since 2005.

## Spiros A. Andronikakis

He was born in Athens in 1960. He holds a BA in Economics and Statistics from the Athens University of Economics and Business, and an MBA in Financial Management and Banking from the University of Minnesota, U.S.A. He has worked in the Corporate Banking Units of Greek and multinational banks since 1985. He joined the Bank in 1998. He was Corporate Banking Manager from 2004 to 2007. In 2007 he was appointed Chief Credit Officer and in 2012 General Manager and Chief Risk Officer.

## Lazaros A. Papagaryfallou

He was born in Athens in 1971. He studied Business Administration at the Athens University of Economics and Business and holds an MBA in Finance from the University of Wales, Cardiff Business School. He started his career in Citibank and ABN AMRO and he joined the Bank in 1998, having served as Manager of the Corporate Development, International Network and Strategic Planning Divisions. On 1 July 2013 he was appointed Executive General Manager of the Bank and has contributed to the implementation of the Group's Restructuring Plan, the capital strengthening of the Bank, the design and closing of mergers, acquisitions and portfolio transactions. On 2 January 2019 he was appointed as General Manager and CFO for the Group. During his career he served as Chairman and member in the Board of Directors of various group companies, in Greece and abroad, in banking, insurance, financial services, industry and real estate sectors.

## Sergiu-Bogdan A. Oprescu

He was born in 1963. He holds a MEng Graduate degree with concentration in Avionics from the Aeronautical Faculty, Politehnica University of Bucharest. He acquired a postgraduate degree in Banking from the University of Colorado and followed multiple executive programme studies at Harvard Business School, Stanford and London Business School. He joined Alpha Bank Romania in 1994 and held several senior positions before he was appointed Executive President in 2007. He served as Chairman of the Bucharest Stock Exchange from 2000 to 2006 and Chairman of the Board of Directors of the Romanian Association of Banks from May 2015 to May 2021. On 11 February 2019 he was also appointed as General Manager of International Network of the Bank.

## Ioannis M. Emiris

He was born in Athens in 1963. He studied Economics and Business Administration at the Athens University of Economics and Business (former Athens School of Economics and Business) and holds an MBA from Columbia Business School, as well as a US Certified Public Accounting degree. He started his career as a certified public accountant in PricewaterhouseCoopers in New York. From 1991 to 2012 he worked for the Group, initially as an Investment Banker in Alpha Finance and from 2004 as Head of the Investment Banking and Project Finance Division of Alpha Bank. From 2012 to 2014, he was the Chief Executive Officer of the Hellenic Republic Asset Development Fund (HRADF). On 5 November 2014, he was appointed Executive General Manager of the Bank and on 19 November 2019 he was appointed General Manager-Wholesale Banking.

# Isidoros S. Passas

He was born in Thessaloniki in 1967. He holds an MSc in Mechanical Engineering from the National Technical University of Athens, an MBA from the City University Business School and has attended the Advanced Management Program at INSEAD.

He started his career in Procter & Gamble and held Director Positions in Marketing and Sales functions of multinational consumer goods companies. In 2000, he started his banking career in Eurobank. He had been Deputy General Manager of Retail Banking Network for several years. In 2013, he worked as a Senior Adviser to the CEO for retail marketing distribution in Hellenic Petroleum. He joined Alpha Bank in 2014. He held the positions of Manager of Deposit and Investment Products and Greek Branch Network Division. He is Vice President at the Board of Directors of AlphaLife Insurance Company S.A. and holds the position of Counselor at

the Board of Directors of Alpha Finance. On 4 January 2016, he was appointed Executive General Manager of the Bank and on 19 November 2019 he was appointed General Manager-Retail Banking.

## Anastasia Ch. Sakellariou

She was born in 1973. She holds postgraduate degrees from the University of Reading in International Banking and from the University of Warwick in International Studies. She joined the Bank with 25 years of experience in international banking. She began her career in London in the mid-90s, having worked at bulge bracket investment banking firms. In her latest international role, she was a Managing Director in investment banking at Credit Suisse. In 2009 she repatriated; she held a public sector role as the CEO of the Hellenic Financial Stability Fund at a critical time for the reshaping of the banking landscape. Before joining Alpha, she was the CEO and driving force behind the creation of the first digital banking platform in Greece, Praxiabank. On 1 April 2020 she was appointed General Manager – Chief Transformation Officer.

## Stefanos N. Mytilinaios

He was born in Athens in 1973. He holds a First Class degree in Aerospace Engineering from the University of Bristol, UK, and an MBA with Distinction from INSEAD in Fontainebleau, France. He brings onboard extensive international and Greek experience in technology, operations and business, having assumed managerial positions in Greece and abroad. He has been the Chief Technology Officer at Commercial Bank of Qatar and later on he was appointed General Manager, Digital Business at Piraeus Bank. Previously, he served as the Deputy Group CIO at Eurobank and a business consultant with McKinsey & Company, based in Athens and London. On 1 December 2020 he was appointed General Manager – Chief Operating Officer of the Bank.

# Nicholas R. Chryssanthopoulos

He was born in Athens in 1975. He holds a degree in Philosophy, Politics and Economics from Oxford University. He has worked in the Alpha Bank Group since 2000 in the areas of Investment Banking, Corporate Development and Strategic Planning, and has also served as adviser to the Secretary General of the Ministry of Finance on banking matters. From 2016 to 2019, he served as a Senior Manager in Alpha Bank's Strategic Planning Unit, in charge of Group M&A and business planning. On 14 January 2019 he was appointed Executive General Manager of the Bank and on 20 May 2022 he was appointed General Manager - Chief of Corporate Center.

## Fragiski G. Melissa

Fragiski Melissa was born in 1968. She studied Psychology at the National and Kapodistrian University of Athens and holds postgraduate degrees in Industrial/Organizational Studies from Columbia University and in Social Studies from the New School for Social Research. She brings 25 years of experience in human resources. For the past eight years she was Head of Human Resources for Vodafone in Greece and Romania and before that she was Regional Human Resource Director for Southeastern Europe for Colgate Palmolive. Earlier in her career, she led the human resources function at Makro Cash & Carry in Greece and was Senior Manager at KPMG. On 20 May 2022 she was appointed General Manager – Chief Human Resources Officer.

## Georgios V. Michalopoulos

He was born in Athens in 1973. He studied Mathematics at the National and Kapodestrian University of Athens and holds a MBA in Business Administration and Finance from City University Business School. He joined Alpha Bank in 1994 and worked in the Treasury functions in Athens and London. He has served as Group Treasurer and Manager of Planning & Trading and Financial Markets Divisions. He has been a Member of the Board of Directors of various companies in the banking, finance and insurance sectors in Greece and abroad for a number of years. On 4 May 2016 he was appointed Executive General Manager of the Bank and on 20 May 2022 he was appointed General Manager Wealth Management & Treasury.

The indicative main responsibilities of the Executive Committee include, but are not limited to, the following:

- prepares the strategy, business plan and annual budget of Alpha Holdings and the Group for submission to and approval by the Board of Directors as well as the annual and quarterly financial statements;
- decides on and manages the capital allocation to the Business Units;
- prepares the ICAAP Report and the ILAAP Report;
- authorises and manages the implementation of actions based on the SREP Report;
- monitors the performance of each Business Unit and subsidiary of Alpha Holdings against the budget and ensures that corrective measures are taken;
- reviews and approves the policies of Alpha Holdings informing the Board of Directors accordingly;
- approves and manages any collective programme proposed by the Human Resources Division for employees and ensures the adequacy of Resolution Planning governance, process and systems; and
- is responsible for the implementation of: (i) the overall risk strategy, including the institution's risk appetite and its risk management framework, (ii) an adequate and effective internal governance and internal control framework, (iii) the selection and suitability assessment process for Key Function Holders, (iv) the amounts, types and distribution of both internal capital and regulatory capital and (v) the targets for the liquidity management.

# **Corporate Governance**

Corporate Governance is a system of principles and practices underlying the organization, operation and administration of an incorporated company, aiming to safeguard and satisfy the lawful interests of all those associated with the company.

Alpha Holdings has adopted and implements the principles of corporate governance, seeking to establish transparency in the communication with its shareholders, executives, employees, business partners, contractors and suppliers, and the provision of prompt and continuous information to investors.

In line with its constant effort to consistently respond to the expectations of its customers and of the Greek state, Alpha Holdings applies the legislative and regulatory framework governing its operation.

The Corporate Governance Code

The Corporate Governance Code is sourced from international and Greek best practices and is compatible with applicable legislation and regulations concerning the Greek public interest entities.

Alpha Holdings, following a resolution of the Board of Directors and in order to be in compliance with article 17 of Greek Law 4706/2020, has adopted the Hellenic Corporate Governance Code of the Hellenic Corporate Governance Council (the "Code").

Alpha Holdings complies with the Code, a copy of which is posted on Alpha Holdings' website (https://www.alphaholdings.gr/en/corporate-governance/corporate-governance-code).

The Corporate Governance, Sustainability and Nominations Committee of Alpha Holdings: (i) monitors the compliance of Alpha Holdings and the Group with the Code, ensuring appropriate application of the "comply or explain" principle; and (ii) provides oversight that the implementation of this principle aligns with the legislation in force, regulatory expectations and international corporate governance best practice.

# Committees of Alpha Holdings' Board of Directors

The Board of Directors may establish permanent or *ad hoc* Committees to assist it in the discharge of its responsibilities, facilitate its operations and effectively support its decision-making. The Committees have an advisory role but may also assume delegated authorities, as determined by the Board. Each Committee has its dedicated Charter prescribing its composition, tenure, functioning and responsibilities.

Four Committees operate at Board level, namely:

- the Audit Committee;
- the Risk Management Committee;
- the Remuneration Committee; and
- the Corporate Governance, Sustainability and Nominations Committee.

Each Committee consists of not less than three Members and shall be deemed quorate when at least three Members are present, whether physically or by videoconference. The composition of each Committee is proposed to the Board of Directors by the Corporate Governance, Sustainability and Nominations Committee taking into account the "Suitability and Nomination Policy for the Members of the Board of Directors" as well as the respective legal and regulatory framework.

The major focus of the Committees is placed on the oversight and diligence of policies, practices and procedures within their specific area of mandate, in the review and preparation of draft resolutions to be approved by the Board of Directors and in the submission of relevant briefings, reports, key information and recommendations to the Board. The Committees report regularly to the Board of Directors about their work.

#### Audit Committee

The Audit Committee of the Board of Directors has been established and operates in accordance with all applicable laws and regulations. The Audit Committee currently constitutes a Committee of the Board of Directors and the Members were appointed by a resolution of the Annual Ordinary General Meeting of Shareholders of 31 July 2020. It consists of a Committee Chair, who is an Independent Non-Executive Member, two Independent Non-Executive Members and two Non-Executive Members, whose tenure ends at the Ordinary General Meeting of Shareholders in 2022. The representative of the HFSF is a Member of the Audit Committee. The current Members of the Audit Committee are Carolyn G. Dittmeier (Chair), Efthimios O. Vidalis, Elanor R. Hardwick, Jan A. Vanhevel, and Johannes Herman Frederik G. Umbgrove.

The Members of the Committee, based on a self-assessment process, collectively possess adequate knowledge of the financial sector and in general the required knowledge, skills and experience to adequately discharge the Committee's responsibilities. At least one Member must be independent from Alpha Holdings, have accounting / auditing knowledge and experience and must always be present at meetings regarding the approval of the financial statements of Alpha Holdings.

Following the conclusion of the Ordinary General Meeting of Shareholders held on 31 July 2020, and in accordance with article 44 of Greek Law 4449/2017, as in force, the Chair of the Audit Committee was appointed by the Committee Members at the meeting of 31 July 2020. Finally, the majority of the Members are Independent Non-Executive Members, as per the provisions of law 4706/2020.

The specific duties and responsibilities of the Audit Committee are set out in its Charter which was approved by Alpha Holdings' Board of Directors in September 2021 and is posted on Alpha Holdings' website (https://www.alphaholdings.gr/en/corporate-governance/committees).

The main responsibilities of the Audit Committee include, but are not limited to, those presented below.

#### The Audit Committee:

- monitors and assesses, on an annual basis, the adequacy, effectiveness and efficiency of the internal
  control systems (including the ongoing development of ESG procedures) of Alpha Holdings and the
  Group based on reports by the Internal Audit Unit, findings of the external auditors, the supervisors and
  the tax authorities as well as management information, as appropriate;
- monitors the financial reporting process and submits recommendations or proposals to ensure its integrity;
- performs the oversight of the financial reporting processes and procedures for drawing up the annual
  and interim financial statements of Alpha Holdings and the Group, in accordance with the applicable
  accounting standards;
- reviews the quarterly, semi-annual and annual financial statements of Alpha Holdings and the Group, together with the statutory auditors' report where applicable and the Board of Directors' Annual Management Report prior to their submission to the Board of Directors for approval;
- assists the Board of Directors in ensuring the independent, objective and effective conduct of internal and external audits of Alpha Holdings and facilitating communication between the auditors and the Board of Directors;
- assists the Board of Directors in overseeing the effectiveness and performance of the Internal Audit Unit and of the Compliance Unit of Alpha Holdings and of the respective Units across the Group;
- meets with the statutory certified auditors of Alpha Holdings on a regular basis;
- is responsible for the procedure for the selection of the statutory certified auditors of Alpha Holdings and makes recommendations to the Board of Directors on the appointment or dismissal, rotation, tenure and remuneration of the statutory certified auditors, according to relevant regulatory and legal provisions;
- monitors the independence and performance of the statutory certified auditors in accordance with applicable laws, which includes reviewing, *inter alia*, the provision by them of non-audit services to Alpha Holdings and the Group. In relation to this, the Audit Committee examines and approves all proposals regarding the provision by the statutory certified auditor of non-audit Services to Alpha Holdings and the Group, based on the relevant policy that the Audit Committee oversees and recommends to the Board of Directors for approval; and
- performs the oversight of the Sustainability Report and non-financial information reporting, including sustainability and ESG disclosures.

The Audit Committee convenes at least once a month, adding meetings on an as-needed basis. It may invite any Member of the Management or Executive, as well as external auditors to attend its meetings. The Head of Internal Audit and the Head of Compliance are regular attendees of the Committee meetings and have unhindered access to the Chair and to the Members.

The Audit Committee keeps minutes of its meetings and regularly informs the Board of Directors of the work of the Audit Committee.

The Chair of the Audit Committee submits to the Board of Directors and to the General Meeting of Shareholders a formal annual activity report on the work of the Audit Committee conducted during the previous year.

## Risk Management Committee

The Risk Management Committee has been established and operates in accordance with all applicable laws and regulations. It consists of a Committee Chair who is an Independent Non-Executive Member, three Independent Non-Executive Members and one Non-Executive Member. The representative of the HFSF is a Member of the Risk Management Committee. The Members of the current Risk Management Committee were appointed by a resolution of the Annual Ordinary General Meeting of Shareholders of 31 July 2020.

The specific duties and responsibilities of the Risk Management Committee are set out in its Charter which was approved by the Alpha Holdings' Board of Directors in September 2021 and is posted on Alpha Holdings' website (<a href="https://www.alphaholdings.gr/en/corporate-governance/committees">https://www.alphaholdings.gr/en/corporate-governance/committees</a>).

The current Members of the Risk Management Committee are Jan A. Vanhevel (Chair), Dimitris C. Tsitsiragos, Jean L. Cheval, Richard R. Gildea and Johannes Herman Frederik G. Umbgrove.

All the Members of the Committee have prior experience in the financial services sector and, individually and collectively, appropriate knowledge, skills and expertise concerning risk management and control practices. One Member is in charge of overseeing ESG issues.

The main responsibilities of the Risk Management Committee include, but are not limited to, those presented below.

## The Risk Management Committee:

- reviews regularly and recommends to the Board of Directors for approval the risk and capital management strategy, ensuring alignment with the business objectives of Alpha Holdings and the Group. In this context, the Risk Management Committee considers the adequacy of the technical (e.g. modelling tools, IT systems, etc.) and human resources available to implement the risk and capital strategy and ensures the communication of key aspects of the risk strategy throughout the Group;
- reviews and recommends annually to the Board of Directors for approval the Group's risk appetite framework and statement, considering also ESG risks, i.e. the risks of any negative financial impact to Alpha Holdings stemming from the current or prospective impacts of ESG factors on its counterparties, such as climate-related risks, and ensuring alignment with the Group's strategic objectives and capital allocation. The risk appetite framework should be clearly communicated throughout the Group and articulated / monitored via a set of metrics;
- determines the principles which govern risk management across Alpha Holdings and the Group in terms of the identification, measurement, monitoring, control, and mitigation of risks;
- recommends to the Board of Directors for approval high-level policies on the management of risks;
- evaluates on an annual basis or more frequently, if necessary, the appropriateness of risk identification
  and measurement systems, methodologies and models, including the capacity of Alpha Holdings' IT
  infrastructure to record, report, aggregate and process risk-related information;
- reviews regularly, at least annually, the Group's ICAAP / ILAAP and related target ratios and recommends their approval to the Board of Directors; and

 assesses the overall effectiveness of capital planning, allocation processes and systems, and the allocation of capital requirements to risk types.

The CRO, while administratively reporting to the Chief Executive Officer (CEO), shall report functionally to the Board of Directors through the Committee.

The Risk Management Committee convenes at least once a month and may invite any Member of the Group's Management or Executive to attend its meetings. The Chief Risk Officer is a regular attendee of the Risk Management Committee meetings and has unhindered access to the Chair and the Members.

The Risk Management Committee keeps minutes of its meetings and regularly informs the Board of Directors of the work of the Risk Management Committee.

The Chair of the Risk Management Committee submits to the Board of Directors a formal annual report on the work of the Risk Management Committee conducted during the previous year.

#### Remuneration Committee

The Remuneration Committee of the Board of Directors has been established and operates in accordance with all applicable laws and regulations. It consists of a Committee Chair who is an Independent Non-Executive Member, two Independent Non-Executive Members and one Non-Executive Member. The representative of the HFSF is a Member of the Remuneration Committee. The Members of the current Remuneration Committee were appointed by a resolution of the Annual Ordinary General Meeting of Shareholders of 31 July 2020. The current Members of the Remuneration Committee are Richard R. Gildea (Chair), Dimitris C. Tsitsiragos, Jean L. Cheval and Johannes Herman Frederik G. Umbgrove.

The Members of the Committee have collectively appropriate knowledge, skills and professional experience concerning remuneration policies and practices, risk management and control activities as well as concerning the incentives and risks that can arise therefrom. At least one Member must have sufficient professional experience in risk management.

The specific duties and responsibilities of the Remuneration Committee are set out in its Charter which was approved by Alpha Holdings' Board of Directors in September 2021 and is posted on Alpha Holdings' website (<a href="https://www.alphaholdings.gr/en/corporate-governance/committees">https://www.alphaholdings.gr/en/corporate-governance/committees</a>).

The main responsibilities of the Remuneration Committee include, but are not limited to, those presented below.

## The Remuneration Committee:

assists the Board of Directors in ensuring that the Group Remuneration Policy as well as the "Remuneration Policy of the Members of the Board of Directors as per the provisions of Law 4548/2018" are consistent with the values, culture, business strategy, risk appetite and strategic objectives of Alpha Holdings and the Group;

- provides its support and advice to the Non-Executive Members of the Board of Directors on the design
  of the Remuneration Policies for Alpha Holdings and the Group according to the relevant legislative
  and regulatory provisions;
- recommends to the Non-Executive Members the remuneration of the Members of the Board of Directors;
- reviews and advises on fixed salaries, benefits and total compensation within Alpha Holdings;

- reviews the variable remuneration framework. Advises on variable remuneration schemes, where these
  are permitted, for employees across Alpha Holdings and the Group, and proposes the total envelope for
  variable remuneration across Alpha Holdings and the Group;
- oversees the evaluation process for senior executives and key function holders, ensuring that it is implemented adequately and in accordance with the provisions of the relevant policy; and
- on an annual basis, reviews and reports findings on remuneration data from the Group to the Board of
  Directors, with a view to monitoring the consistent application of the Remuneration Policies, assessing
  alignment with corporate goals and ensuring that the remuneration programme is completely aligned
  with the risk appetite framework.

The Remuneration Committee convenes at least quarterly in each year and may invite any Member of the Management or Executive to attend its meetings. The Head of Human Resources is a regular attendee of the Committee meetings.

The Remuneration Committee keeps minutes of its meetings and regularly informs the Board of Directors of the work of the Remuneration Committee.

The Chair of the Remuneration Committee also submits to the Board of Directors a formal annual report on the work of the Committee conducted during the previous year.

In accordance with article 10 para 3 of the HFSF Law, and for as long as Alpha Holdings is subject to the provisions of the HFSF Law, the annual compensation for each Member of the Board of Directors cannot exceed the total remuneration of the Governor of the Bank of Greece.

The Ordinary General Meeting of 22 July 2021 approved the "Remuneration Policy of the Members of the Board of Directors", in accordance with articles 110 and 111 of Greek Law 4548/2018.

# Corporate Governance, Sustainability and Nominations Committee

The Corporate Governance, Sustainability and Nominations Committee of the Board of Directors has been established and operates in accordance with all applicable laws and regulations. It consists of a Committee Chair who is an Independent Non-Executive Member, two Independent Non-Executive Members and two Non-Executive Members. The representative of the HFSF is a Member of the Corporate Governance, Sustainability and Nominations Committee. The Members of the current Corporate Governance, Sustainability and Nominations Committee were appointed by a resolution of the Annual Ordinary General Meeting of Shareholders of 31 July 2020. The Board of Directors, at its meeting held on 30 September 2021, resolved the appointment of Ms. Elanor R. Hardwick, Independent Non-Executive Member, as Chair of the Corporate Governance, Sustainability and Nominations Committee (former Corporate Governance and Nominations Committee), in replacement of the Chair, Mr. Shahzad A. Shahbaz, who resigned. Mr. Shahzad A. Shahbaz will continue to be a Member of the Committee. The current Members of the Corporate Governance, Sustainability and Nominations Committee are Elanor R. Hardwick (Chair), Efthimios O. Vidalis, Carolyn G. Dittmeier, Shahzad A. Shahbaz and Johannes Herman Frederik G. Umbgrove.

The Committee ensures and regularly evaluates that its Members collectively possess the required knowledge, skills and experience relating to sustainability and ESG issues as well as to the business of Alpha Holdings to assess the appropriate composition of the Board of Directors and, among others, the selection process and suitability requirements to adequately discharge the Committee's responsibilities. At least one Member is in charge of overseeing ESG issues. Therefore, the Board of Directors appointed Ms. C.G. Dittmeier, Independent Non-Executive Member, as the Member in charge of overseeing ESG issues.

The specific duties and responsibilities of the Corporate Governance, Sustainability and Nominations Committee are set out in its Charter which was approved by Alpha Holdings' Board of Directors in September 2021 and is posted on Alpha Holdings' website (https://www.alphaholdings.gr/en/corporate-governance/committees).

The main responsibilities of the Corporate Governance, Sustainability and Nominations Committee include, but are not limited to, those presented below.

The Corporate Governance, Sustainability and Nominations Committee:

- monitors the compliance of Alpha Holdings and the Group with the pertinent Hellenic Corporate
  Governance Code to which Alpha Holdings and Alpha Bank adhere, ensuring appropriate application
  of the "comply or explain" principle required, and provides oversight that the implementation of this
  principle aligns with the legislation in force, regulatory expectations and international corporate
  governance best practice;
- facilitates the regular review of the Charters of the Board Committees, in consultation with the relevant Committees, by providing input to each Committee in order to ensure that the Charters remain fit-for-purpose and align with the Code as well as with corporate governance best practices;
- assists the Board of Directors in establishing the conditions required for effective succession and continuity in the Board of Directors;
- develops and regularly reviews the selection criteria and appointment process for the Members of the Board of Directors:
- identifies and recommends for the approval of the Board of Directors candidates to fill vacancies, according to the "Suitability and Nomination Policy for the Members of the Board of Directors", evaluates the balance of knowledge, skills, diversity and experience of the Board of Directors and prepares a description of the roles and capabilities for a particular appointment and assesses the time commitment expected, assesses periodically, and at least annually, the structure, size, composition and performance of the Board of Directors and makes recommendations to the Board of Directors with regard to any changes;
- assesses periodically, and at least annually, the structure, size, composition and performance of the Board of Directors and makes recommendations to the Board of Directors with regard to any changes;
- assesses periodically, and at least annually, the knowledge, skills and experience of each Member of
  the Board of Directors and of the Board of Directors collectively and reports to the Board of Directors
  accordingly;
- oversees the design and implementation of the induction programme for new Members of the Board of
  Directors as well as the ongoing knowledge and skills development for Members, which support the
  effective discharge of their responsibilities;
- reviews at least annually current and emerging trends and regulatory developments in ESG issues that
  may significantly affect Alpha Holdings' activities, highlighting to the Board of Directors areas that
  may require actions;
- oversees the implementation of Alpha Holdings' policies on ESG issues; and
- ensures that there is adequate implementation of the Executive succession planning process and keeps a registry of all successors developed for senior executive positions, as per the provisions of the "Policy for the Succession Planning of Senior Executives and Key Function Holders".

The Corporate Governance, Sustainability and Nominations Committee convenes at least quarterly in each year and may invite any Member of the Management or Executive to attend its meetings.

The Corporate Governance, Sustainability and Nominations Committee keeps minutes of its meetings and regularly informs the Board of Directors of the work of the Committee.

The Chair of the Corporate Governance, Sustainability and Nominations Committee also submits to the Board of Directors a formal annual report on the work of the Committee conducted during the previous year.

## Management and corporate governance of Alpha Bank

The main administrative, management and supervisory bodies of Alpha Bank are the Board of Directors and the Committees of the Board of Directors (namely the Audit Committee, the Risk Management Committee, the Remuneration Committee and the Corporate Governance, Sustainability and Nominations Committee) and the Executive Committee, which coincide and have the same composition as the respective ones of Alpha Holdings. Alpha Bank also has General Manager-level Management Committees.

## Relationships and Other Activities

There are no potential conflicts of interest between the duties of the persons listed above pertaining to Alpha Holdings and their private interests.

# **HFSF** Influence

The HFSF acquired its participation in Alpha Holdings (then operating as a licensed credit institution under the name "Alpha Bank S.A.") by providing recapitalisation funds in the 2013 share capital increase. The HFSF, as at the date of this Offering Circular, holds 9 per cent. of Alpha Holdings' aggregate common share capital, but is only able to exercise voting rights subject to certain statutory restrictions.

For information on the New RFA and on the relevant rights of the HFSF prior and subsequent to the Hive Down, see "Regulation and Supervision—The HFSF—Relationship Framework Agreement".

# **APM Definitions**

Terms	Definitions	Relevance of the metric	Reference number	Abbreviation
Accumulated Provisions and FV adjustments	The item corresponds to (i) "the total amount of provision for credit risk that the Group has recognized and derive from contracts with customers", as disclosed in the Consolidated Financial Statements of the reported period and (ii) the Fair Value Adjustments (29).	Standard banking terminology	(1)	LLR
Impairment losses on loans	The figure equals "Impairment losses and provisions to cover credit risk on loans and advances to customers" as derived from the Consolidated Financial Statements of the reported period	Standard banking terminology	(10)	LLP
"Income from financial operations" or "Trading Income"	The figure is calculated as "Gains less losses on derecognition of financial assets measured at amortised cost" plus "Gains less losses on financial transactions and impairments on Group companies" as derived from the Consolidated Income Statement of the reported period.	Standard banking terminology	(3)	
Core Operating Income	Operating Income (4) less Income from financial operations (3) less management adjustments on operating income (26) for the corresponding period.	Profitability metric	(5)=(4-3- 26)	
Core Pre-Provision Income	Core Operating Income (5) for the period less Recurring Operating Expenses (7) for the period.	Profitability metric	(5)-(7)	Core PPI
Cost of Risk	Impairment losses on loans (10) for the period divided by the average Gross Loans (27) of the relevant period. Average balances is defined as the arithmetic average of balance at the end of the period and at the end of the previous period.	Asset quality metric	(10)/(27)	CoR
Deposits	The figure equals "Due to customers" as derived from the Consolidated Balance Sheet of the reported period.	Standard banking terminology	(8)	
Fair Value Adjustments	The item corresponds to the accumulated fair value adjustments for non-performing exposures measured at Fair Value Through P&L (FVTPL).	Standard banking terminology	(29)	FV adj.
Fully-Loaded Common Equity Tier 1 ratio	Common Equity Tier 1 regulatory capital as defined by Regulation No 575/2013 (Full implementation of Basel 3) (12), divided by total Risk Weighted Assets (13)	Regulatory metric of capital strength	(12)/(13)	FL CET 1 ratio
Gross Loans	The item corresponds to "Loans and advances to customers", as reported in the Consolidated Balance Sheet of the reported period, gross of the "Accumulated Provisions and FV adjustments" (1), excluding the accumulated provision for	Standard banking terminology	(2)	

Terms	Definitions	Relevance of the metric	Reference number	Abbreviation
	impairment losses on off balance sheet items, as disclosed in the Consolidated Financial Statements of the reported period.			
Loan to Deposit ratio	Net Loans (9) divided by Deposits (8) at the end of the reported period.	Liquidity metric	(9)/(8)	LDR or L/D ratio
Net Interest Margin	Net Interest Income for the period (annualised) (14) and divided by the average Total Assets of the relevant period (28). Average balances is defined as the arithmetic average of balance at the end of the period and at the end of the previous period.	Profitability metric	(14)/(28)	NIM
Net Loans	The figure equals "Loans and advances to customers" as derived from the Consolidated Balance Sheet of the reported period.	Standard banking terminology	(9)	
Non Performing Exposures Collateral Coverage	Value of the NPE collateral (17) divided by NPEs (16) at the end of the reference period.	Asset quality metric	(17)/(16)	NPE collateral Coverage
Non Performing Exposure Coverage	Accumulated Provisions and FV adjustments (1) divided by NPEs (16) at the end of the reference period.	Asset quality metric	(1)/(16)	NPE (cash) coverage
Non Performing Exposure ratio	NPEs (16) divided by Gross Loans (2) at the end of the reference period.	Asset quality metric	(16)/(2)	NPE ratio
Non Performing Exposure Total Coverage	Accumulated Provisions and FV adjustments (1) plus the value of the NPE collateral (17) divided by NPEs (16) at the end of the reported period	Asset quality metric	(1+17)/(16)	NPE Total coverage
Non Performing Exposures	Non-performing exposures are defined according to "EBA ITS on forbearance and Non Performing Exposures" as exposures that satisfy either or both of the following criteria: a) material exposures which are more than 90 days past-due b)The debtor is assessed as unlikely to pay its credit obligations in full without realisation of collateral, regardless of the existence of any past-due amount or of the number of days past due.	Asset quality metric	(16)	NPEs
Non Performing Loan Collateral Coverage	Value of collateral received for Non Performing Loans (19) divided by NPLs (18) at the end of the reference period.	Asset quality metric	(19)/(18)	NPL collateral Coverage
Non Performing Loan Coverage	Accumulated Provisions and FV adjustments (1) divided by NPLs (18) at the end of the reference period.	Asset quality metric	(1)/(18)	NPL (cash) Coverage

Terms	Definitions	Relevance of the metric	Reference number	Abbreviation
Non Performing Loan ratio	NPLs (18) divided by Gross Loans (2) at the end of the reference period.	Asset quality metric	(18)/(2)	NPL ratio
Non Performing Loan Total Coverage	Accumulated Provisions and FV adjustments (1) plus the value of the NPL collateral (19) divided by NPLs (18) at the end of the reference period	Asset quality metric	(1+19)/(18)	NPL Total Coverage
Non Performing Loans	Non Performing Loans are Gross loans (2) that are more than 90 days past-due.	Asset quality metric	(18)	NPLs
Normalised Net Profit after (income) tax	Normalised Profit After Tax in Q1 2022, is Reported Profit After Tax of Euro 125.4 million, excluding Income from financial operations of Euro 80 million, Losses on derecognition of financial assets measured at amortised cost of Euro 2 million, Impairment Losses on loans of Euro 25 million, non-recurring Operating Expenses of Euro 8 million, Impact from NPA transactions of Euro 57 million and gains from discontinued operations of Euro 4 million.  Normalised Profit After Tax in FY 2021, is Reported Loss After Tax of Euro 2,906.1 million, excluding Income from Financial operations of Euro 218 million, Losses on derecognition of financial assets measured at amortised cost of Euro 2,117 million(After Tax), Impairment Losses on Loans and Impact from NPA transactions of Euro 1,038 million, non-recurring Operating Expenses of Euro 265 million and Losses from discontinued operations of Euro 35 million.	Profitability metric		Normalised Net PAT
Operating Income	The figure is calculated as "Total Income" plus "Share of profit/(loss) of associates and joint ventures" as derived from the Consolidated Income Statement of the reported period, taking into account the impact from any potential restatement.	Standard banking terminology	(4)	
Other impairment losses	The figure equals "Impairment losses on other financial instruments" as derived for the Consolidated Financial Statements of the reported period.	Standard banking terminology	(11)	
Pre-Provision Income	Operating Income (4) for the period less Total Operating Expenses (6) for the period.	Profitability metric	(4)-(6)	PPI
Recurring Cost to Income ratio	Recurring Operating Expenses (7) for the period divided by Core Operating Income (5) for the period.	Efficiency metric	(7)/(5)	C/I ratio
Recurring Operating Expenses	Total Operating Expenses (6) less management adjustments on operating expenses (25). Management adjustments on operating expenses include events that do not occur with a certain frequency, and events that are directly affected by the current	Efficiency metric	(7)=(6-25)	Recurring OPEX

Terms	Definitions	Relevance of the metric	Reference number	Abbreviation
	market conditions and/or present significant variation between the reporting periods, and are quoted in the appendix of the Annual Report and Semi-Annual Financial Report.			
Tangible Book Value per share	Tangible Book Value per share is the "Tangible Book Value" divided by the outstanding number of shares (24).	Valuation metric	(20-21-22- 23)/(24)	TBV/share
Total Assets	The figure equals "Total Assets" as derived from the Consolidated Balance Sheet of the reported period.	Standard banking terminology	(15)	TA
Total Operating Expenses	The figure equals "Total expenses before impairment losses and provisions to cover credit risk" as derived from the Consolidated Income Statement of the reported period taking into account the impact from any potential restatement.	Standard banking terminology	(6)	Total OPEX
Cost/Assets	Recurring Operating Expenses (7) for the period (annualised) divided by Total Assets (15).	Efficiency metric	(7)/(15)	
Return on Equity	"Profit / (Loss) after income tax" for the period (annualised), as disclosed in Condensed Income Statement divided by Average "Equity attributable to equity owners of the Bank" as disclosed in the Consolidated Balance sheet at the reported date. Average balances is defined as the arithmetic average of balance at the end of the period and at the end of the previous period	Profitability metric	(30)/(20- 22-23)	RoE
PPI/Average Assets	Pre-Provision Income for the period (annualised) divided by Average Total Assets (28) of the relevant period. Average balances is defined as the arithmetic average of balance at the end of the period and at the end of the previous period	Profitability metric		
Leverage Ratio	This metric is calculated as Tier 1 divided by Total Assets.	Standard banking terminology	(20)/(15)	
RWA Density	This metric is calculated as Risk Weighted Assets divided by Total Assets (15) of the relevant period.	Standard banking terminology		
Securities	This item corresponds to the sum of "Investment securities" and "Trading securities", as defined in the consolidated Balance Sheet of the reported period.	Standard banking terminology		
Other income	This item is defined as the Operating Income less Trading income, less Net Interest Income and less Net Fee and Commission income, as defined in the consolidated Income Statement of the reported period.	Standard banking terminology		

Terms	Definitions	Relevance of the metric	Reference number	Abbreviation
Property, plant and equipment	This item corresponds to "Property, plant and equipment", as disclosed in the Consolidated Balance Sheet of the reported period.	Standard terminology		PPE
Core deposits	This item corresponds to the sum of "Current accounts", "Savings accounts" and "Cheques payable".	Standard banking terminology		Core depos

## OVERVIEW OF THE BANKING SERVICES SECTOR IN GREECE

In 2021, the Greek economy showed signs of recovery, although it continued to be affected by the COVID-19 pandemic. The third wave of the pandemic, in the early months of the year, forced the authorities to take strict containment measures in order to limit the spread of the coronavirus. As a result, the economic activity, after the significant contraction recorded in 2020 (-9 per cent.), declined again in the first quarter of 2021 (-1.4 per cent. on an annual basis), although less significantly than anticipated. However, GDP rebounded strongly in the rest of the year due to the gradual reopening of the economy (Q2 2021: 15.1 per cent. year on year increase, Q3 2021: 11.4 per cent. year on year increase, Q4 2021: 7.7 per cent. year on year increase).

In 2021, Greek GDP increased by 8.3 per cent. compared to 2020. Private and public consumption, gross fixed capital formation and net exports of goods and services contributed positively to GDP, whereas inventories contributed negatively. This development can be attributed, firstly, to the strong increase of private consumption, driven by the sharp increase in savings accumulated during the pandemic and the significant gains in employment secondly, to the rise in investment, especially in machinery and technological equipment and, thirdly, to the higher-than-expected performance of exports of services, due to the remarkable recovery of tourism in the summer of 2021.

In the first nine months of 2021, the Greek banks posted a loss after taxes of €4.6 billion, compared to a loss after taxes in the equivalent period of 2020 of €688 million, mainly due to the provisions related to NPL transactions (Source: *Bank of Greece, Interim Monetary Policy Report, December 2021*). In terms of capital adequacy for Greek banks, the Common Equity Tier 1 ("CET1") ratio and the Capital Adequacy Ratio on a consolidated basis remained at satisfactory levels (12.6 per cent. and 15.1 per cent., respectively) on 30 September 2021, although they retreated compared to September 2020 (Source: *Bank of Greece, Interim Monetary Policy Report, December 2021*). With a fully phased-in impact from International Financial Reporting Standard 9 (IFRS 9), the CET1 ratio and the Capital Adequacy Ratio reached 10.7 per cent. and 13.3 per cent., respectively (Source: *Bank of Greece, Interim Monetary Policy Report, December 2021*).

Liquidity conditions have continued to improve in the Greek banking system, as private sector deposits amounted to €180 billion in December 2021, increasing by €36.8 billion (cumulative net cash flows) compared to December 2019, of which household deposits were €135.1 billion and business deposits were €44.8 billion (Source: Bank of Greece, Bank Credit and Deposits: December 2021). Total deposits in the banking system (private sector and general government deposits) amounted to €188.1 billion in December 2021, representing an annual increase of 8 per cent. (Source: Bank of Greece, Bank Credit and Deposits: December 2021). The main drivers leading to the increase of deposits in the banking system were the increase of "forced" savings (due to lockdown measures in force in the first few months of 2021), the increase of "precautionary" savings (due to high uncertainty for the future), the measures adopted by the Greek government to support the economy (e.g. direct state aid credited into corporate accounts in order to support liquidity, and the use of moratoria on loan and tax obligations), as well as the rise in employment in the second half of 2021.

The outstanding amount of credit to the domestic private sector amounted to 109.6 billion at the end of December 2021, with the annual rate of change standing at 1.3 per cent. (Source: Bank of Greece, Bank Credit and Deposits: December 2021). More specifically, the annual rate change of credit to non-financial corporations stood at 3.8 per cent. from 3.2 per cent. in the previous month; the monthly net flow was positive by 1.5 billion, compared with a positive net flow of 437 million in the previous month (Source: Bank of Greece, Bank Credit and Deposits: December 2021). In parallel, Greek banks continued to draw significant resources from the Eurosystem, while they were also facilitated by the supervisory measures of the SSM. Funding from the Eurosystem increased sharply from 6.6 billion in February 2020 to 550.8 billion in December 2021 (Source: Bank of Greece Monthly Balance Sheet and Profit and Loss Account for financial year 2021, Table). The banks continued lending to the real economy with the support mainly of the Hellenic Development Bank programmes.

0036277-0000322 UKO2: - 198 - 2004495859.20

The outstanding amount of NPLs decreased further in 2021. Total NPL stock (solo basis) for the domestic banking system at the end of December 2021 amounted to €18.4 billion, compared to €20.9 billion at the end of September 2021, declining by €88.8 billion from their March 2016 peak (Source: *Bank of Greece, NPLs Time Series, December 2021*). As a result, the NPL ratio decreased to 12.8 per cent. in December 2021 (Source: *Bank of Greece, NPLs Time Series, December 2021*). The ratios for mortgages (10.4 per cent.) and the business loans portfolio (13 per cent.) performed better, compared to the respective ratio for the consumer loans portfolio (19.5 per cent.) (Source: *Bank of Greece, NPLs Time Series, December 2021*).

Today 36 banks operate in Greece, of which nine are commercial banks, six are cooperative banks and 21 are branches of foreign banks (Source: *Bank of Greece, List of credit institutions operating in Greece, May 2022*).

## REGULATION AND SUPERVISION

The Group is subject to various financial services laws, regulations, administrative actions and policies in each jurisdiction where its members operate, including but not limited to Greek Law 4261/2014 (the "Banking Law") and the CRR, as amended and in force. In addition, through the trading of its ordinary shares on ATHEX, Alpha Holdings is also subject to applicable capital markets laws in Greece.

Within the Single Supervisory Mechanism ("SSM"), the Bank, as a "Significant Institution" ("SI"), is subject to the direct supervision of the ECB, assisted by the Bank of Greece as National Competent Authority ("NCA"), in accordance with Regulation (EU) 1024/2013 (the "SSM Regulation"), Regulation (EU) 468/2014 (the "SSM Framework Regulation") and all other relevant legal acts and decisions of the ECB and the Bank of Greece. The Bank of Greece conducts the direct supervision of less significant institutions ("LSIs"), subject to the oversight of the ECB. Under certain conditions, the ECB can also take over the direct supervision of LSIs.

The ECB is the central bank of the 19 EU Member States which have adopted the euro and its main task is to maintain price stability in the euro area and so preserve the purchasing power of the single currency. In addition, the ECB is responsible for the prudential supervision of credit institutions located in the euro area and participating non-euro area Member States within the SSM, which also comprises the NCAs.

The ECB has direct supervisory responsibility over SIs in the euro area and participating non-euro area Member States. SIs include, among others, any Eurozone bank (including in the form of a financial holding company and therefore including Alpha Holdings) that meets at least one of the following criteria (set out in Article 6(4) of the SSM Regulation): (i) the total value of its assets exceeds €30 billion; or (ii) the ratio of its total assets over the GDP of the participating Member State of establishment exceeds 20 per cent., unless the total value of its assets is below €5 billion; or (iii) it has requested or received direct public financial assistance from the EFSF or the ESM; or (iv) it is one of the three most significant institutions in its home country; or (v) it is of significant relevance with regard to the domestic economy and the ECB, upon notification by the relevant NCA and following a comprehensive assessment, including a balance-sheet assessment, takes a decision confirming such significance.

If an SI fails to meet the criteria provided for in Article 6(4) of the SSM Regulation for three consecutive calendar years, it can be reclassified as an LSI. Direct supervisory responsibility for that institution then returns to the relevant NCA. If an LSI subsequently meets any of the criteria described above, it is reclassified as an SI. The NCA then hands over responsibility for direct supervision to the ECB.

In relation to Alpha Holdings and the Bank, pursuant to its decision dated 1 April 2021, the ECB has decided that: (a) Alpha Holdings and the Bank are a significant supervised group within the meaning of point (22) of Article 2 of Regulation (EU) No 468/2014 of the ECB; (b) Alpha Holdings is classified as a significant supervised entity within the meaning of Article 6(4) of Regulation (EU) No 1024/2013; and (c) Alpha Holdings is considered to be the entity at the highest level of prudential consolidation within that supervised group.

The direct supervision of the ECB over SIs includes (among other things) the power to:

- authorise and withdraw authorisations of SIs;
- for SIs that wish to establish a branch or provide cross-border services in a country outside the Eurozone, carry out the tasks which the NCA of the home Member State shall have under the relevant EU law;
- assess the acquisition and disposal of qualifying holdings in SIs;

- ensure compliance of SIs with all prudential requirements on credit institutions and set, where
  necessary, higher prudential requirements for credit institutions, for example for macro-prudential
  reasons to protect financial stability under the conditions provided by EU law;
- ensure compliance of SIs with requirements on internal governance arrangements, including the fit and
  proper assessment of the persons responsible for the management of credit institutions and key
  functions holders, risk management processes, internal control mechanisms, remuneration policies and
  practices and effective internal capital adequacy assessment processes;
- carry out supervisory reviews, including where appropriate in coordination with the EBA, stress tests
  and, on the basis of that supervisory review, impose on SIs specific additional own funds requirements,
  specific publication requirements, specific liquidity requirements and other measures, where
  specifically made available to NCAs by relevant EU law;
- carry out supervision on a consolidated basis over SIs' parent entities established within the Eurozone and to participate in supervision on a consolidated basis;
- impose a wide range of supervisory measures, depending on the credit institution's risk profile assessment;
- approve acquisitions by SIs of holdings in a non-credit institution or a credit institution outside the EU;
- approve mergers / de-mergers involving SIs;
- approve asset transfers / divestments involving SIs;
- approve SIs' statutes;
- approve / object to the appointment of external auditors (to the extent such powers are linked to
  ensuring compliance with prudential requirements) of SIs;
- impose pecuniary sanctions;
- authorise the issuance of and supervise covered bonds issued by credit institutions as of 8 July 2022 pursuant to Directive (EU) 2019/2162, which was transposed into Greek law by Greek Law 4920/2022;
- examine outsourcing of activities by SIs; and
- approve strategic decisions of SIs.

As regards the monitoring of credit institutions, the NCAs will continue to be responsible for supervisory matters not conferred on the ECB, such as: (i) macroprudential supervisory tasks; (ii) the approval of mergers from a competition law perspective; (iii) the "supervision" of external auditors; (iv) the imposition or enforcement of conditions attached by regulation to banking activities, such as product rules; (v) the imposition of penalties to absorb the economic advantage gained from the breach of prudential requirements (which primarily serve competition law purposes); (vi) consumer protection; (vii) anti-money laundering; (viii) payment services; and (ix) authorisation and supervision of branches of third country credit institutions.

Alpha Holdings, the parent of the Bank, is a parent financial holding company within the meaning of Article 3(1)(26) of the Banking Law. Following the transposition of CRD V in Greek Law, Alpha Holdings filed (in accordance with Article 22A of the Banking Law and the Executive Committee Act No. 190/1/16.06.2021 of the Bank of Greece) on 26 July 2021 an application for approval by the ECB and the Bank of Greece, in order to act as the financial holding company of the Bank. Such approval was granted on 18 January 2022, the following conditions provided in Article 22A(4) of the Banking Law having been fulfilled:

- the internal arrangements and distribution of tasks within the group are adequate for the purpose of complying with the requirements that are imposed by the Banking Law (as amended to transpose CRD V) and the CRR on a consolidated basis and, in particular, are appropriate to: (i) coordinate all the subsidiaries of the financial holding company through, among other things, the adequate distribution of tasks among subsidiary institutions, if required; (ii) prevent or manage intra-group conflicts; and (iii) enforce the group-wide policies set by the parent financial holding company throughout the group;
- the structural organisation of the group of which the financial holding company is part does not obstruct or otherwise prevent the effective supervision of the subsidiary institutions or parent institution as concerns the individual, consolidated and, where appropriate, sub-consolidated obligations to which they are subject. The assessment of that criterion must take into account, in particular: (i) the position of the financial holding company in a multi-layered group; (ii) the shareholding structure; and (iii) the role of the financial holding company within the group;
- the criteria set out in Article 14 and the requirements laid down in Article 114 of the Banking Law are met.

Where the ECB and the Bank of Greece have established that the conditions set out above are not met or have ceased to be met, Alpha Holdings shall be subject to appropriate supervisory measures to ensure or restore, as the case may be, continuity and integrity of consolidated supervision and ensuring compliance with the requirements laid down in the Banking Law and in the CRR on a consolidated basis. In accordance with Article 22(9) of the Banking Law, these supervisory measures may include:

- suspending the exercise of voting rights attached to the shares of the subsidiary institutions held by the Alpha Holdings;
- issuing injunctions or penalties against Alpha Holdings or the members of the management body and managers;
- giving instructions or directions to Alpha Holdings to transfer to its shareholders the participations in its subsidiary institutions;
- designating on a temporary basis another financial holding company, mixed financial holding company
  or institution within the group as responsible for ensuring compliance with the requirements laid down
  in the Banking Law and in CRR on a consolidated basis;
- restricting or prohibiting distributions or interest payments to shareholders;
- requiring Alpha Holdings to divest from or reduce holdings in institutions or other financial sector entities; and

requiring Alpha Holdings to submit a plan on return, without delay, to compliance.

# The Regulatory Framework - Prudential Supervision

Credit institutions operating in Greece are required, among other things, to:

- calculate, observe and report liquidity and capital adequacy ratios prescribed by the applicable
  provisions of the Banking Law, the CRR and the relevant Bank of Greece Governor's Acts, to the
  extent that such acts are not contrary to the provisions of CRD/CRR, and until replaced by new
  regulatory acts issued under the Banking Law;
- maintain efficient internal audit, compliance and risk management systems and procedures, in accordance with the Bank of Greece Governor's Act No. 2577/2006, as amended and supplemented by

subsequent decisions of the Governor of the Bank of Greece, the Executive Committee of the Bank of Greece and the Banking and Credit Committee of the Bank of Greece;

- apply specific internal governance and organisation requirements, both before entering into an outsourcing arrangement and during the term of the arrangement, maintain a register of information on all outsourcing agreements and make available to the Bank of Greece, upon request, this register, as well as any other information necessary for the exercise of effective supervision in accordance with Executive Committee Act No. 178/5/2.10.2020 of the Bank of Greece adopting the EBA guidelines on outsourcing arrangements (EBA/GL/2019/02);
- comply with the requirements of information technology and security risk management, in accordance with Executive Committee Act No. 190/2/16.6.2021 of the Bank of Greece adopting the EBA Guidelines on ICT and security risk management (EBA/GL/2019/04);
- submit to the Bank of Greece periodic reports and statements required under the Bank of Greece Governor's Act No. 2651/2012, as amended and in force;
- disclose data regarding the bank's financial position and its risk management policy;
- provide the Bank of Greece and, where relevant, the ECB with such further information as they may require;
- in connection with certain operations or activities, notify or request the prior approval of the ECB acting in co-operation with the Bank of Greece or the Bank of Greece, as the case may be, in each case in accordance with the applicable laws of Greece and the relevant acts, decisions and circulars of the Bank of Greece (each as in force from time to time); and
- permit the Bank of Greece and, where relevant, the ECB to conduct audits and inspect books and records of the bank, in accordance with the Banking Law and certain Bank of Greece Governor's Acts.

If a credit institution breaches any law or regulation falling within the scope of the supervisory power attributed to the ECB or, as the case may be, the Bank of Greece, the ECB or the Bank of Greece, respectively, is empowered, among other things, to:

- require the credit institution to strengthen their arrangements, processes and strategies;
- require the credit institution to take appropriate measures (which may include prohibitions or restrictions on dividends, requiring a share capital increase or requiring prior approval for future transactions) to remedy the breach;
- (in the case of the Bank of Greece only) impose sanctions in accordance with (i) Article 55A of the Articles of Association of the Bank of Greece, as ratified by Laws 2832/2000 and 4099/2012, and amended by Act of the Governor of the Bank of Greece No. 2602/2008; (ii) the provisions of the Banking Law; and (iii) Article 134(1) of the SSM Framework Regulation at the request of the ECB;
- (in the case of the ECB only) impose administrative penalties in accordance with Article 18 of the SSM Regulation and Articles 120 et seq of the SSM Framework Regulation;
- appoint a commissioner; and
- where the breach cannot be remedied, and as a last resort, revoke the licence of the credit institution and place it in a state of special liquidation in the circumstances set out in Article 19 of the Banking Law, which include, among other things: (i) (A) the breach of the prudential requirements set out in Articles 92-403 and 411-428 of the CRR, (B) the breach of the supervisory powers of Article 96(1)(a)

of the Banking Law, (C) the breach of the special liquidity requirements set out in Article 98 of the Banking Law or (D) the fact that it can no longer be relied on to fulfil its obligations towards its creditors, and, in particular, no longer provides security for the assets entrusted to it by its depositors; (ii) the breaches listed in Article 59(1) of the Banking Law; or (iii) its inability or unwillingness to increase its own funds.

Credit institutions established in Greece are subject to a range of reporting requirements under the European framework applying to reporting requirements (e.g. CRR; CRD Directive, as transposed in Greece by the Banking Law; Commission Implementing Regulations (EU) 2019/876 (CRR II) (EU) 680/2014 and 2016/2070; ECB Regulations 2015/534, 2017/1538 and 2020/605, as in force), and the national framework (e.g. Law 4799/2021, Acts of the Governor of the Bank of Greece Nos. 2651/20.1.2012, 2670/7.3.2014, 2679/20.6.2017, 2684/18.5.2020, 2685/22.10.2020, Executive Committee Acts No. 112/31.1.2017, 157/5/02.04.2019, 175/2/29.7.2020 of the Bank of Greece, as in force) including, *inter alia*, the submission of reports relating to:

- capital structure, qualifying holdings, persons who have a special affiliation with the institution and loans or other types of credit exposures that have been provided to these persons by the institution;
- own funds and capital adequacy ratios;
- capital requirements for all kinds of risks;
- large exposures and concentration risk;
- liquidity coverage ratio;
- net stable funds ratio;
- additional liquidity monitoring metrics;
- liquidity risk;
- leverage ratio;
- interbank market details;
- financial statements and other financial information;
- covered bonds;
- internal control systems;
- securitisation exposures;
- funding plans;
- supervisory benchmarking exercises;
- non-performing exposures;
- complaints' handling;
- prevention and suppression of money laundering and terrorist financing; and
- information technology systems.

The Bank submits regulatory reports both at an individual and Group level to the Bank of Greece and/or the ECB on a daily, monthly, quarterly, semi-annual or annual basis, as applicable.

# Transposition of Directive 2001/24/EC of the European Parliament and of the Council of 4 April 2001 on the Reorganisation and Winding-Up of Credit Institutions

Greece has faithfully transposed Directive 2001/24/EC by virtue of Greek Law 3458/2006 on the winding-up and reorganisation of credit institutions. Greek Law 3458/2006, as amended and in force, is in line with the provisions of Directive 2001/24/EC and introduces a series of conflicts of laws rules on the laws applicable to the winding-up and reorganisation of a credit institution, including among others:

#### Law Governing Reorganisation Measures

Article 4 sets the rule by providing that any reorganisation process shall be applied in accordance with the laws, regulations and procedures applicable in the Home Member State of the credit institution, subjected to such process. The process would be carried out in accordance with the provisions of the Banking Law.

## Law Governing Winding-Up Process

Article 11 introduces a conflict of laws rule on the winding-up process for credit institutions, pursuant to which any credit institution shall be wound up in accordance with the laws, regulations and procedures applicable in Greece insofar as Greek Law 3458/2006 does not provide otherwise.

The regulatory framework has been affected by the recapitalisation framework and the creation of the HFSF.

## Capital Adequacy Framework

In December 2010, the Basel Committee on Banking Supervision issued two prudential regulation framework documents which contained the Basel III capital and liquidity reform package. The Basel III framework has been partially implemented in the EU through CRD IV/V and CRR, which have been transposed into Greek law where applicable.

Full implementation of the Basel III framework began on 1 January 2014, with particular elements phased in over the period to 2019, although some minor transitional provisions provide for a phase-in extended until 2024. The framework has been amended by CRR II and CRD V, as transposed into Greek law by Law 4799/2021.

In June 2020, the EU Council approved Regulation (EU) 2020/873 ("CRR Quick Fix") amending the CRR and Regulation (EU) 2019/876 to mitigate the economic effects of the COVID-19 pandemic.

The major points of the capital adequacy framework include:

# Quality and Quantity of Capital

The definition of regulatory capital and its components has been revised at each level. A minimum CET1 capital ratio of 4.5 per cent., a minimum Tier 1 capital ratio of 6 per cent. and a minimum total capital ratio of 8 per cent. have been imposed, and there is a requirement for Additional Tier 1 ("AT1") capital instruments to have a mechanism that requires them to be written down or converted on the occurrence of a trigger event.

Capital adequacy of Alpha Holdings is monitored on a consolidated basis by the ECB and the Bank of Greece.

The main objectives of the Group related to its capital adequacy management are the following:

comply with the capital requirements regulation according to the supervisory framework.

- preserve the Group's ability to continue unhindered its operations.
- retain a sound and stable capital base supportive of the Bank's management business plans.
- maintain and enhance existing infrastructures, policies, procedures and methodologies for the adequate coverage of supervisory needs, in Greece and abroad.
- the Group applies the following methodologies for the calculation of Pillar I capital requirements:
- the standardised approach for calculating credit risk;
- the standardised method (SA-CCR) for calculating counterparty credit risk;
- a VaR model developed at a solo level for significant exposures and approved by the Bank of Greece.
   Additionally, the Bank uses a standardised approach to calculate market risk for the remaining, non-significant exposures;
- the standardised approach for calculating credit valuation adjustment risk; and
- the standardised approach for calculating operational risk.

In November 2021, the European Commission proposed a package of measures that impact both capital requirements and resolution, including a separate legislative proposal to amend the CRR in the area of resolution (the so-called 'daisy chain' proposal). The proposed rules on capital, liquidity and resolution, if adopted by the European Parliament and Council, are expected to enter into force in 2025, with a few exceptions. These new rules aim to ensure that EU banks will become more resilient to potential future economic shocks, while contributing to Europe's recovery from the COVID-19 pandemic and the transition to climate neutrality.

The package introduced a number of measures, including the following:

- Finalisation of the implementation of the Basel III agreement in the EU;
- Addressing environmental, social, and governance (ESG) risks;
- Enhancing supervisory powers;
- New rules for third country branches; and
- Amendment of the CRR in the area of resolution.

#### Full implementation of Basel III Reform

One of the key outstanding elements of the Basel III framework is the gradual introduction from January 2025 of the so-called 'output floor', which aims to set a lower limit on the capital requirements that banks calculate when using their internal models so as to address the risk that a bank's internal model incorrectly estimates the bank's capital requirements. The Bank is not expecting a negative effect from the new regulation. The reason for that is the use of the standardised approach for the calculation of the Bank's credit risk capital requirements and the Bank's small trading book. The new standardised approach for operational risk is an accounting measure based on the Bank's income (business indicator component) and historical losses experience (internal loss multiplier). It assumes that the operational risk increases in an increasing rate with the Bank's income and the likelihood of incurring operational risk losses increases in the future if the Bank has higher historical operational risk losses.

ESG Risks

The proposal introduces the requirement that credit institutions have robust governance arrangements and concrete plans signed off by the management body to deal with ESG risks and enlarges the scope of ESG disclosures to all institutions (it currently only applies to large listed ones), in a proportionate way.

## Enhancing supervisory powers

The proposal expands the list of supervisory powers available in the CRD Directive to competent authorities to cover operations such as acquisitions by a credit institution of a material holding in a financial or non-financial entity, the material transfer of assets or liabilities and merger or divisions. Moreover, the fit-and-proper criteria for the members of the management body as well as the timing of such assessment are further clarified.

## Third Country Branches

The package introduces harmonised provisions on the authorisation, capital, liquidity, governance, reporting and supervision of third country branches to address risks on financial stability arising from the lack of common authorisation or prudential requirements, or appropriate cooperation arrangements between national supervisory authorities in the EU. For third country branches with assets equal to or larger than EUR 30 billion in one or more Member States that are systemically important for the Member States where they are established and the EU, the competent authorities will be able to require their third country parent group to convert the third country branch into subsidiarity or, alternatively, impose other requirements provided these are deemed sufficient to address financial stability concerns.

## Capital Buffer Requirements

In addition to the minimum capital ratios described above, banks are required under Article 121 et seq. of the Banking Law to comply with the combined buffer requirement consisting of the following additional capital buffers:

- a capital conservation buffer of 2.5 per cent. of RWA;
- a *systemic risk buffer* ranging between 1 and 5 per cent. of RWA designed to prevent and mitigate long-term non-cyclical systemic or macro-prudential risks not covered by the CRR. The buffer has not been applied in Greece to date;
- a (firm-specific) *countercyclical buffer* ranging between 0 and 2.5 per cent. of RWA depending on macroeconomic factors. in line with previous years, this buffer has been specified at 0 per cent. for Greek banks for 2021 and the first and second quarter of 2022 (pursuant to Executive Committee Act Nos. 180/1/17.12.2020, 186/1/18.03.2021, 190/3/16.06.2021, 193/1/27.09.2021, 196/1/09.12.2021, 202/11.3.2022 of the Bank of Greece and press release dated 21 March 2022 of the Bank of Greece). The countercyclical buffer should be built up when aggregate growth in credit and other asset classes with a significant impact on the risk profile of such credit institutions are judged to be associated with a build-up of system-wide risk, and drawn down during stressed periods;
- an *other systemically important institutions ("O-SII") buffer* which, for the Bank, ranges between 1 per cent. and 3 per cent. of RWA. According to the EBA's methodology, all Greek O-SIIs are classified in bucket 4, which corresponds to a level of 1 per cent. for the O-SII buffer (the O-SII buffer was set at 0 per cent. throughout 2016, 2017 and 2018). The buffer is being phased in to reach 1 per cent. over five years from 2019 to 2023. The O-SII buffer was set at 0.25 per cent. throughout 2019 and at 0.50 per cent. throughout 2020 and has been set at 0.50 per cent. for 2021 (Executive Committee Act No. 174/26.6.2020 of the Bank of Greece). The O-SII buffer has been set at 0.75 per cent. on a consolidated basis in 2022 (Executive Committee Act No 195/1/29.11.2021); and

• a *global systemically important institutions ("G-SII") buffer* ranging between 1 per cent. and 5 per cent. of RWA designed to prevent and mitigate long-term non-cyclical systemic or macro-prudential risks not covered by the CRR. As none of the Greek credit institutions has been classified as a G-SII, the G-SII buffer has not been applied in Greece to date.

Depletion of these buffers will trigger limitations on dividends, distributions on capital instruments and variable compensation. The buffers are designed to absorb losses in stress periods.

## Supervisory Review and Evaluation Process (SREP)

The SSM conducts annually a Supervisory Review and Evaluation Process (SREP) in order to set prudential as along as other qualitative requirements to credit institutions (Article 89 et seq. of the Banking Law and Article 3 SSM Framework Regulation) This process evaluates the:

- sustainability and viability of business model;
- adequacy of governance and risk management;
- assessment of risk to capital; and
- assessment of risks to liquidity and funding.

In the SREP context, the SSM may also require institutions, in accordance with Article 96a of the Banking Law to have additional own funds in excess of the requirements set out in CRR, under the conditions set out in Article 96a of the Banking law.

On 2 February 2022, the SSM informed Alpha Holdings that from March 2022 the minimum limit for the consolidated overall capital requirement ("OCR") stands at 14.25 per cent, increased by 0.25 per cent. compared to 2021, due to the gradual increase of the O-SII buffer. The OCR is composed of the minimum own funds requirements (8 per cent.), according to article 92(1) of the CRR, the additional Pillar 2 own funds requirements ("P2R"), according to article 16(2)(a) of Regulation 1024/2013/EU, which corresponds to 3.0 per cent., and the combined buffer requirements, according to article 128(6) of Directive 2013/36/EU, which corresponds to 3.25 per cent. The above minimum ratios should be maintained on a phased-in basis under applicable transitional rules of CRD/CRR at all times.

Article 473a of CRR allows banks to mitigate the impact of the introduction of IFRS 9 on regulatory capital and leverage ratios during a five-year transitional period during which banks are allowed to add to the CET1 ratio the post-tax amount of the difference in provisions that resulted from the transition to the IFRS 9 in relation to the provisions that have been recognised at 31 December 2017 in accordance with IAS 39. The weighting factors were set per year at 0.95 in 2018, 0.85 in 2019, 0.70 in 2020, 0.5 in 2021 and 0.25 in 2022.

On 24 June 2020 as a response to the COVID-19 pandemic the EU adopted Regulation No 2020/873 of the European Parliament and of the Council amending Regulations (EU) No 575/2013 and (EU) 2019/876. The Regulation introduced a new five-year transitional period for the impairment losses that occurred due to the COVID-19 pandemic. According to the revised Article 473a, institutions are allowed to fully add back to their CET1 capital any increase in the expected credit loss provisions that they recognise in 2020 and 2021 for their financial assets that are not credit-impaired and new transitional factors introduced for the remaining period. The weighting factors were set at 1.00 for the first two years (2020 and 2021), 0.75 in 2022, 0.5 in 2023 and 0.25 in 2024.

The Bank has decided to make use of Article 473a of CRR and applies the transitional provisions for the calculation of capital adequacy on both a standalone and consolidated basis.

Pursuant to CRR Quick Fix, and according to paragraph 3 of point (6) amending article 468 of the CRR, Alpha Holdings intends to apply the amendment of article 468 of the CRR, regarding the temporary treatment of unrealised gains and losses measured at fair value through other comprehensive income in view of the COVID-19 pandemic, for the calculation of the capital adequacy ratio of the Bank on an individual basis and of Alpha Holdings on a consolidated basis.

## As at 31 December 2021, the Group's:

- CET1 ratio was 13.2 per cent. (10.8 per cent. on a fully-loaded basis, including IFRS 9 impact);
- Tier 1 capital ratio was 13.2 per cent. (10.8 per cent. on a fully-loaded basis, including IFRS 9 impact);
- Total capital adequacy ratio was 16.1 per cent. (13.8 per cent. on a fully-loaded basis, including IFRS 9 impact).

The transitional 31 December 2021 CET1 ratio following the scheduled 2022 transactions (adjusted to include the expected impact of Project Orbit, Sky & Riviera RWA relief) stands at 13.7 per cent., well above the 2022 CET1 requirements of 9.4 per cent., creating a maximum distributable amount headroom of 4.3 per cent. (assuming no capital shortfall for the AT1 and/or Tier 2 allowances under the applicable regulations) and an AT1 trigger headroom of 8.6 per cent. compared to the 5.125 per cent. trigger event as per article 54 of CRR. According to the Project Tomorrow targets, the CET1 ratio is expected to be above 15 per cent. at the end of 2024.

### Deductions from CET1

The Bank applies the provisions of the CRR, regarding the items that should be deducted from regulatory capital, on both a standalone and consolidated basis.

### Central Counterparties

To address the systemic risk arising from the interconnectedness of credit institutions and other financial institutions through the derivatives markets, a 2 per cent. risk-weight factor applies to certain trade exposures to qualifying central counterparties. The capitalisation of credit institution exposures to central counterparties is based in part on the compliance of the central counterparty with the International Organisation of Securities Commissions' standards (since non-compliant central counterparties are treated as bilateral exposures and do not receive the preferential capital treatment referred to above).

#### Counterparty Credit Risk

The counterparty credit risk management standards have been raised in a number of areas, including for the treatment of so-called wrong-way risk, that is, cases where the exposure increases when the credit quality of the counterparty deteriorates. For example, the CRR introduced a capital charge for potential mark-to-market losses associated with deterioration in the creditworthiness of a counterparty and the calculation of expected positive exposure by taking into account stressed parameters.

# Leverage Ratio

The leverage ratio is calculated by dividing a bank's Tier 1 capital by its total exposure measure and is expressed as a percentage. A key distinction between the minimum capital ratio and the leverage ratio is that no risk-weighting is applied to the assets. The leverage ratio is currently calculated, reported to supervisors and, since January 2015, disclosed publicly, although no mandatory level had been set until 2019/876 (CRRII) entered into force (29 June 2021). See, "Recent developments – Leverage ratio" below for the newly-introduced provisions

on the leverage ratio requirement, which adopt the EBA's recommendation (as set out in its report of 3 August 2016 on the leverage ratio requirement) of a Tier 1 capital leverage ratio calibrated at 3 per cent. for any type of credit institution, in accordance with the agreements at international level by the Basel Committee on Banking Supervision ("BCBS").

#### Liquidity Requirements

A liquidity coverage ratio, which is an amount of unencumbered, high quality liquid assets that must be held by a bank to offset estimated net cash outflows over a 30-day stress scenario has been introduced. The ratio requirement is 100 per cent. As of 31 December 2021, the Bank's liquidity coverage ratio was 196.4 per cent. (compared to 150 per cent. as of 31 December 2020). In addition, a net stable funding ratio ("NSFR"), which is the amount of longer-term, stable funding that must be held by a bank over a one-year timeframe based on liquidity risk factors assigned to assets and off-balance sheet liquidity exposures has been introduced. The NSFR requirement is 100 per cent. As of 31 December 2021, the Bank's NSFR was 113 per cent. See "Recent Developments – NFSR".

In order to foster consistency and efficiency of supervisory practices across the EU, the EBA is continuing to develop the EBA Single Rulebook, a supervisory handbook applicable to EU Member States. However, the EBA Single Rulebook has not yet been finalised.

## **COVID-19 pandemic related measures**

In reaction to the COVID-19 pandemic, among others:

On 12 March 2020, the ECB announced measures expected to provide capital relief to banks in support of the economy. These measures include the permission to (i) temporarily operate below the level of capital required by the capital conservation buffer and the countercyclical buffer (in addition, on 28 July 2020, the ECB announced through a press release that financial institutions are allowed to operate below the aforementioned thresholds at least up to the end of 2022) (ii) partially use capital instruments that do not qualify as CET1 capital, for example Additional Tier 1 or Tier 2 instruments, to meet their P2R, bringing forward a measure that was initially scheduled to come into effect in January 2021, as part of the latest revision of CRD/CRR. Following this announcement, the P2R may comprise 75 per cent. Tier 1 capital instruments (56.25 per cent. CET1 capital and 18.75 per cent. Additional Tier 1 capital) and 25 per cent. Tier 2 capital instruments (iii) bring forward the change that was expected from the adoption of Directive (EU) 2019/878 regarding the composition of the P2R buffer, allowing the P2R to be covered by Additional Tier 1 capital and Tier 2 capital and not only by CET1 capital.

On 20 March 2020, the ECB announced that it had introduced supervisory flexibility regarding the treatment of NPEs, in particular to allow banks to fully benefit from guarantees and moratoriums put in place by public authorities to tackle the current distress. The ECB indicated that it will exercise flexibility regarding the classification of debtors as "unlikely to pay" when banks call on public guarantees granted in the context of coronavirus, as well as certain flexibilities regarding loans under COVID-19 related public moratoria. In addition, loans which become non-performing and are under public guarantees will benefit from preferential prudential treatment in terms of supervisory expectations about loss provisioning, while supervisors will deploy full flexibility when discussing with banks the implementation of NPE reduction strategies, taking into account the extraordinary nature of current market conditions; and

CRR Quick Fix was enacted in June 2020 amending CRR and CRR II to encourage banks to continue lending to businesses and households during the crisis caused by the COVID-19 pandemic and to absorb the economic shock of the pandemic. Among other things, this regulation:

(i) extends the transitional arrangements for mitigating the impact of the IFRS 9 provisions on regulatory capital;

- (ii) applies a preferential treatment for publicly guaranteed loans under the prudential backstop for NPEs available under the CRR;
- (iii) delays until 1 January 2023 the application of the leverage ratio buffer for G-SIIs;
- (iv) reflects more favourable prudential treatment of SME and infrastructure exposures as well as loans to pensioners and employees (with a permanent contract) backed by the borrower's pension or salary;
- (v) recalibrates the mechanism for offsetting the impact of excluding certain exposures from the calculation of the leverage ratio; and
- (vi) brings forward the dates of application of certain reforms introduced by the CRR II.

On 22 December 2020, Regulation (EU) 2176/2020 of the Council of 12 November 2020, amending Regulation (EU) 241/2014 concerning the deduction of software assets from CET1 capital, was published in the Official Journal of the European Union.

On 26 June 2020, the Bank of Greece under an Executive Committee Act determined the capital buffer of systemically important institutions (O-SII) at 0.50%, maintaining stable for 2021 and extending consequently the existing phasing-in period. The third and the fourth phases have been delayed by 12 months each and will apply starting from 1 January 2022 and 1 January 2023 respectively. This decision is in the context of the response to COVID-19 pandemic in order to mitigate the subsequent financial impact.

On 16 September 2020, ECB took the decision to allow banks to exclude, temporarily, certain exposures to central banks from the total leverage exposure measure in view of the COVID-19 pandemic and in June 2021 the ECB extended that measure until the end of March 2022 and asked banks nevertheless to plan to maintain sufficient capital in anticipation of the expiry of the prudential exemption. This exclusion—until 31 March 2022—supports credit institutions in continuing to fulfil their role in funding the real economy.

On 10 February 2022, the ECB announced the end of the last temporary relief measures still available to banks, thus confirming the return to normality under the initially envisaged timeline. Consequently, the ECB expects banks to:

- operate above Pillar 2 guidance from 1 January 2023; and
- reinclude central bank exposures in their leverage ratio calculations from 1 April 2022.

# **Recent developments**

In April 2019, the European Parliament endorsed a package of measures that impact both capital requirements and resolution powers. The revised rules on capital, liquidity and resolution were published in the Official Journal on 7 June 2019 and became applicable in the second quarter of 2021, with few exceptions. The package introduced a number of measures, including:

- a leverage ratio requirement for all institutions as well as a leverage ratio buffer for all global systemically important institutions;
- a new market risk framework for reporting purposes;
- revised rules on capital requirements for counterparty credit risk and for exposures to central counterparties;
- a revised Pillar 2 framework;
- an updated macro-prudential toolkit;
- targeted amendments to the credit risk framework to facilitate the disposal of NPEs;

- enhanced prudential rules in relation to anti-money laundering;
- a new total loss absorbing capacity (TLAC) requirement for global systemically important institutions (not applicable to the Bank, as it is not a G-SII);
- enhanced MREL subordination rules for G-SIIs and other large banks referred to as top-tier banks; and
- a new moratorium power for the resolution authority.

### Leverage ratio

The financial crisis highlighted that institutions were taking on greater exposures (for example, loans, derivatives and guarantees) but raising only relatively limited amounts of additional capital. The new package introduces a binding leverage ratio requirement (that is a capital requirement independent from the riskiness of the exposures, as a backstop to risk-weighted capital requirements) for all institutions subject to the CRR. The leverage ratio requirement complements the existing framework to calculate the leverage ratio, to report it to supervisors and, since January 2015, to disclose it publicly. The leverage ratio requirement is set at 3 per cent. of Tier 1 capital and institutions must meet it in addition to/in parallel with their risk-based capital requirements (Article 92(1)(d) CRR). Unlike Basel III, CRR allows initial margin to reduce the exposure measure when applying the leverage ratio to derivatives. An additional leverage buffer applies to G-SIIs (Article 92(1a) CRR) but neither the Bank nor Alpha Holdings is a G-SII.

An additional leverage buffer applies to G-SIIs (Article 92(b) of the CRR) but it is noted that neither the Bank nor Alpha Holdings is a G-SII.

As of 31 December 2021, the Group's leverage ratio was 7.7 per cent. and the Bank's leverage ratio was 7.7 per cent. as well.

## NSFR

Consistent with the BCBS' stable funding standard, Article 8(1)(b) of the CRR adopted the NSFR requirement as the ratio an institution's amount of available stable funding to its amount of required stable funding over a one-year horizon. The NSFR requirement of 100 per cent. became binding in June 2021. The amount of available stable funding should be calculated by multiplying the institution's liabilities and own funds by appropriate factors that reflect their degree of reliability over the one-year horizon of the NSFR. Unlike Basel III, the CRR does not provide for the additional requirement to hold between 5 per cent. and 20 per cent. of stable funding against gross derivative liabilities, which is widely seen as a rough measure to capture additional funding risks related to the potential increase of derivative liabilities over a one-year horizon and is under review at BCBS level.

#### Market risk

Following the BCBS' fundamental review of the trading book, CRR has amended the framework for the calculation of the market risk, by introducing clearer and more easily enforceable rules on the regulatory boundary between the trading book and banking book to prevent regulatory arbitrage and improving risk sensitivity through modified internal models and requirements proportionate to reflect more accurately the actual risks to which banks are exposed.

# Large exposures

CRR tightens the definition of capital used to calculate the large exposure limit by requiring large exposures to be calculated only against Tier 1 capital (excluding Tier 2 capital) and imposes the use of a standardised approach for measuring counterparty credit risk. In the case of exposure of a G-SII to another G-SII, a more stringent limit of 15 per cent. of Tier 1 capital applies, but the Bank is not a G-SII. Moreover, regulatory

reporting is extended all exposures that would have been a large exposure without considering the effect of credit risk mitigation or exemption clauses.

#### Interest rate risk

Article 76 of the Banking Law (as amended by Greek Law 4799/2021 transposing CRD V in Greece) specifies further the methods (standardised approach or simplified standardised approach) for the identification, assessment, management and mitigation of the interest rate risk from non-trading book activities. EBA is expected to develop Regulatory Technical Standards and revised Guidelines on interest rate risk from non-trading book activities.

#### MREL subordination rules

In order to ensure effective and credible application of the bail-in resolution tool to impose losses on banks' creditors in the case of a banking crisis, banks are subject to an MREL, with the relevant instruments earmarked for bail-in in a crisis. The EU resolution framework requires banks to comply with the MREL at all times by holding easily "bail-inable" instruments, so as to ensure that losses are absorbed and banks are recapitalised once they get into a financial difficulty and are subsequently placed into resolution.

The package tightens the rules on the subordination of MREL instruments. Beyond, the existing G-SII category, a new category of large banks, called "top-tier banks" with a balance sheet size greater than €100 billion, has been established in relation to which more prudent subordination requirements are formulated. National resolution authorities may also select banks (such as the Bank) which are neither G-SIIs nor top tier banks and subject them to the top-tier bank treatment. An MREL minimum pillar 1 subordination policy for each of these two categories of bank has been agreed. For other banks, the subordination requirement remains a bank-specific assessment based on the principle of "no creditor worse off". No subordination requirement has been set for the Bank as of the date of this Offering Circular.

On 20 May 2020, the SRB issued a new MREL policy, which it will apply under the banking reform package, indicating that its MREL decisions implementing the new framework will be taken based on such policy in the 2020 resolution planning cycle and that those decisions were communicated to banks in early 2021 setting out binding MREL targets, including those for subordination: the fully calibrated MREL target to be met by 1 January 2024. However, in light of the COVID-19 pandemic, the SRB noted that it will take a forward looking approach for banks that may face difficulties meeting those targets, before new decisions take effect and that in the 2020 resolution planning cycle, MREL targets will be set according to a transition period, that is setting the final target for compliance by 2024 on the basis of recent MREL data and reflecting changing capital requirements. The Bank has been granted a time extension to meet the respective final target until January 2026. For the Bank, the fully calibrated MREL target to be met by 1 January 2026 is 22.76 per cent. on a consolidated basis. On 26 May 2021, SRB published an updated MREL policy under the banking package, which defines more closely among others the application of profit distribution restrictions. The MREL ratio, expressed as a percentage of RWAs, does not include the combined buffer requirement, currently at 3.25 per cent. as of 1 January 2022.

### Moratorium power for resolution authorities

In order to avoid excessive outflows of liquidity in a bank resolution, the package introduced a moratorium power, which should be triggered after a bank is declared "failing or likely to fail" but before that bank has entered into resolution ("pre-resolution moratorium"). The power to impose the pre-resolution moratorium also includes covered deposits and can be imposed for a maximum duration of two days, in line with International Swaps and Derivatives Association agreements. In the same vein, the existing in-resolution moratorium powers of the resolution authority under the BRRD Law have been extended to include covered deposits (Article 33a of the BRRD Law).

## Contractual recognition of bail-in powers

Article 55 of the BRRD Law requires the contractual recognition of the effects of the bail-in tool in agreements or instruments creating liabilities governed by the laws of third countries in order to facilitate the process of bailing in those liabilities in the event of resolution and reinforce the awareness of creditors under contractual arrangements that are not governed by the law of a Member State of possible resolution action with regard to institutions or entities that are governed by Union law. The amendments to Directive 2014/59/EU by virtue of Directive (EU) 2019/879 introduce an exemption where it would be legally or otherwise impracticable to include a contractual recognition of bail-in clause in a contract but requires banks to notify the competent resolution authority of such impracticability. The EBA has developed draft regulatory technical standards on the conditions where it would be impracticable to include a contractual recognition of bail-in clause (EBA/RTS/2020/13).

#### **Internal MREL**

Resolution entities have to satisfy MREL requirements vis-à-vis external creditors at the consolidated level of the resolution group, through own funds and eligible liabilities issued by the resolution entity and bought by external third parties (external MREL). Greek Law 4799/2021 has introduced internal Article 45f in Article 2 of the BRRD Law, ensuring that subsidiaries of a resolution entity that are not themselves resolution entities ("non-resolution entities") are subject to an internal MREL requirement, determined at individual level or subconsolidated level, where applicable. Non-resolution entities are required to issue eligible instruments, which will be acquired by resolution entities within the group. Such instruments are subject to write-down and conversion into equity, so that if a relevant entity within the group reaches the point of non-viability, losses will be transmitted up through the group to, and absorbed by, the resolution entity. A resolution authority may, under certain conditions, grant an internal MREL waiver.

## Recovery and resolution of credit institutions

On 15 May 2014, the European Parliament and the Council of the EU adopted Directive 2014/59/EU establishing a framework for the recovery and resolution of credit institutions and investment firms (commonly referred to as the BRRD) which was transposed in Greece pursuant to Greek Law 4335/2015 ("BRRD Law"). For credit institutions established in the Eurozone, such as the Bank and credit institutions' parents including financial holding companies established in the Eurozone and subject to consolidated supervision carried out by the ECB, such as Alpha Holdings, which are supervised within the framework of the SSM, Regulation (EU) No 806/2014 establishing uniform rules and a uniform procedure for the resolution of credit institutions and certain investment firms in the framework of a Single Resolution Mechanism and a Single Resolution Fund and amending Regulation (EU) No 1093/2010 (the "SRM Regulation") provides for a coherent application of the resolution rules across the Eurozone under responsibility of the SRB, which is an EU agency, with effect since 1 January 2016 (this framework is referred to as the "Single Resolution Mechanism", the "SRM"). The BRRD was amended by Directive (EU) 2019/879 (BRRD, as amended, "BRRD II"). In addition, the SRM Regulation was amended by Regulation (EU) No 2019/877 (the SRM Regulation, as amended, the "SRM Regulation II"). In Greece, BRRD II was transposed by Greek Law 4799/2021 (GG A 78/18.5.2021) amending, inter alia, the BRRD Law, which was further amended by virtue of Greek Law 4920/2022 (GG A 74/15.04.2022), while the SRM Regulation II came into force on 28 December 2020.

Within the SRM, the SRB is responsible for adopting resolution decisions in close cooperation with the ECB, the European Commission, the Council of the EU and national resolution authorities in the event that a significant credit institution and/or its parent financial holding company directly supervised by the ECB, such as the Bank and Alpha Holdings, respectively, is failing or likely to fail and certain other conditions are met. The national resolution authorities in the EU member states concerned would implement such resolution decision adopted by the SRB in accordance with the powers conferred on them under the national laws transposing the BRRD. The national resolution authority competent for Greece is the Bank of Greece.

## Single Resolution Mechanism

If the Bank and/or Alpha Holdings infringes or is likely in the near future to infringe capital or liquidity requirements, the ECB has the power to impose early intervention measures. These measures include the power to require changes to the legal or operational structure of the entity concerned, or its business strategy, and the power to require the managing board to convene a general meeting of shareholders of the entity concerned at which the ECB may set the agenda and require certain decisions to be considered for adoption by such general meeting.

The SRB is responsible for preparing resolution plans for, and directly resolving, all banks and groups directly supervised by the ECB and other cross-border groups. In most cases, the ECB would notify the SRB, the European Commission and the relevant national resolution authorities that a bank and/or its parent company is failing. The SRB would then assess whether there is a systemic threat and any private sector solution that would prevent the failure within a reasonable timeframe.

In certain circumstances, including if a bank and/or its parent company reaches a point of non-viability or where certain forms of extraordinary public financial support are required, the SRB in close co-operation with the relevant national resolution authority may take measures independently of resolution powers, including the write-down and cancellation of shares and the write-down of capital instruments (such as Tier 2 Notes) and eligible liabilities and/or their conversion into shares. If a bank and/or its parent company meets the conditions for resolution, the SRB may apply the relevant resolution tools and exercise the relevant resolution powers in line with the resolution plan prepared by the SRB. See further "— Recovery and resolution powers" below. This process is known as "Public Interest Assessment" which is one of the key policies underpinning the work of the SRB. It examines whether the resolution of a particular bank which is failing or likely to fail, would be necessary for and proportionate to achieving one or more of the following resolution objectives: ensuring the continuity of critical functions, maintaining financial stability, protecting covered depositors and safeguarding public funds by minimizing reliance on extraordinary public financial support as well as protecting client funds and client assets. If the adoption of a resolution scheme is not deemed necessary, national winding up procedures would apply.

The European Commission is responsible for assessing the discretionary aspects of the SRB's decision and endorsing or objecting to the resolution scheme. The European Commission's decision is subject to approval or objection by the European Council only when the amount of resources drawn from the Single Resolution Fund ("SRF") is modified or if there is no public interest in resolving the entity concerned. If the European Council or the European Commission objects to the resolution scheme, the SRB must amend it. The resolution scheme, once approved, is implemented by the national resolution authorities. If resolution entails state aid, the European Commission must approve the aid before the SRB can adopt the resolution scheme.

The SRB also determines the MREL targets that must be complied with at all times, see "- Resolution tools" below.

All the banks in the participating Member States contribute to the SRF. The SRF was established for the purpose of ensuring the efficient application of the resolution tools and exercise of the resolution powers by the resolution authorities. The SRF consists of contributions from credit institutions and certain investment firms in the participating Member States of the SRM. The SRF has a target funding of at least 1 per cent. of the amount of covered deposits of all the institutions authorised in their territory of the EU Member States (expected to be reached by 31 December 2024) and, as of July 2021, the current total amount in the SRF was €52 billion. The SRF is owned and administered by the SRB. See further "− Deposit and Investment Guarantee Fund" below.

## Recovery and resolution powers

The resolution powers in respect of banks are divided into three categories:

- **Preparation and prevention**: Banks and/or their parent companies are required to prepare recovery plans while the relevant resolution authority (in the case of the Bank and Alpha Holdings, the SRB in consultation with Bank of Greece and the ECB) prepares a resolution plan for each entity concerned at a stand-alone or consolidated level, as applicable, identifying, *inter alia*, the resolution entities and resolution groups within the group. The resolution authorities have supervisory powers to address or remove impediments to resolvability. Financial groups may also enter into intra-group support agreements to limit the development of a crisis;
- Early intervention: The competent authority (which, in the case of the Bank and Alpha Holdings for this purpose, is the ECB) may arrest a bank's deteriorating situation of the entity concerned, including breach of the minimum requirement for own funds and eligible liabilities referred to in Article 45e or Article 45f of the BRRD Law, at an early stage so as to avoid insolvency. Its powers in this respect include requiring the entity concerned to implement its recovery plan, replacing existing management, drawing up a plan for the restructuring of debt with its creditors, changing its business strategy and changing its legal or operational structures. If these tools are insufficient, new senior management or a new management body may be appointed subject to the approval of the resolution authority which is also entitled to appoint one or more temporary administrators; and
- **Resolution**: This involves reorganising or winding down the entity or entities concerned in an orderly fashion outside special liquidation proceedings while preserving its or their critical functions and limiting to the maximum extent possible taxpayer losses.

### Conditions for resolution

The conditions that have to be met before the resolution authority takes a resolution action are:

- the competent authority, after consulting with the resolution authority, determines that the entity involved is failing or likely to fail. An entity will be deemed to be failing or likely to fail in one or more of the following circumstances:
  - it infringes or is likely to infringe the requirements for continuing authorisation in a way that would justify the withdrawal of its authorisation, for example by incurring losses that will deplete all or a significant amount of its own funds;
  - its assets are, or there is objective evidence that its assets will in the near future be, less than its liabilities;
  - o it is, or there is objective evidence that it will in the near future be, unable to pay its debts or other liabilities as they fall due; or
  - extraordinary public financial support is required, unless the support takes one of the forms specified in the BRRD;
- having regard to timing and other relevant circumstances, there is no reasonable prospect that any
  alternative private sector action, including measures by an institutional protection scheme, or
  supervisory action, such as early intervention measures or the write down or conversion of relevant
  capital instruments and eligible liabilities, would prevent the failure of the entity concerned within a
  reasonable timeframe; and
- a resolution action is in the public interest, that is, it is necessary for the achievement of, and is proportionate to, one or more of the resolution objectives set out in the BRRD Law and the winding-up

of the entity concerned under normal special liquidation proceedings would not meet those resolution objectives to the same extent.

#### Resolution tools

When the trigger conditions for resolution are satisfied, the relevant resolution authority may apply any or all of the following tools:

- the *sale of business tool*, which enables the resolution authority to transfer ownership of, or all or any assets, rights or liabilities of, the entity concerned to a purchaser (that is not a bridge institution) on commercial terms without requiring the consent of the shareholders or, save as required by the BRRD Law, complying with the procedural requirements that would otherwise apply;
- the *bridge institution tool*, which enables the resolution authority to transfer ownership of, or all or any assets, rights or liabilities of, the entity concerned to a publicly controlled entity known as a bridge institution without requiring the consent of the shareholders. The operations of the bridge institution are temporary, the aim being to sell the business to the private sector when market conditions are appropriate;
- the *asset separation tool*, which enables the resolution authority to transfer some or all of the assets, rights and liabilities of the entity concerned, without obtaining the consent of shareholders, to an asset management vehicle to allow them to be managed and worked out over time. This tool may only be used when: (i) the market situation for the assets concerned is such that their liquidation under normal special liquidation proceedings could have an adverse effect on one or more financial markets, or (ii) the transfer is necessary to ensure the proper functioning of the entity concerned under resolution or the bridge institution, or (iii) the transfer is necessary to maximise liquidation proceeds. This tool may be used only in conjunction with other tools to prevent an undue competitive advantage for the failing entity; and
- the *bail-in tool*, which gives the resolution authority the power to write down eligible liabilities of the entity concerned and/or to convert such claims to equity. The resolution authority may use this tool only (i) to recapitalise the bank to the extent sufficient to restore its ability to comply with the conditions for its authorisation, to continue to carry out the activities for which it is authorised and to restore it to financial soundness and long-term viability or (ii) to convert to equity or reduce the principal amount of obligations or debt instruments that are transferred to a bridge institution (with a view to providing capital to the bridge institution) or that are transferred under the sale of business tool or the asset separation tool.

When using the bail-in tool, the relevant resolution authority must write down or convert obligations of the entity under resolution in the following order:

- (A) CET1;
- (B) AT1 instruments;
- (C) T2 instruments (such as Tier 2 Notes);
- (D) other subordinated debt, in accordance with the ranking of claims in special liquidation proceedings; and
- (E) other eligible liabilities (such as Senior Non-Preferred Notes and Senior Preferred Notes), in accordance with the ranking of claims in special liquidation proceedings.

A number of liabilities are excluded from the bail-in tool, including covered deposits and secured liabilities (including covered bonds). For the purposes of the bail-in tool, the designated resolution entities are required to maintain at all times a sufficient aggregate amount of own funds and eligible liabilities at a standalone and/or consolidated level, the aim of which is to ensure that they have sufficient loss-absorbing capacity.

The ranking of liabilities in the case of special liquidation proceedings against the Bank or Alpha Holdings are provided for by Article 145A of the Banking Law, as follows:

- (i) claims deriving from the provision of employment services and legal fees to the extent that the claims arose during the two years prior to the opening of special liquidation proceedings under Greek Law 4261/2014, as well as employees' and in-house lawyers' claims deriving from the termination of their employment/mandate, irrespective of the point at which such claims arose, claims of the Greek state for value added tax and other taxes aggregated with any surcharges and interest accrued, and claims of social security organisations;
- (ii) Greek state claims arising in the case of a recapitalisation by the Greek state of institutions pursuant to the BRRD's extraordinary capital support provisions;
- (iii) claims deriving from guaranteed deposits or claims of the HDIGF in respect of depositors' rights and obligations which have been compensated by the HDIGF, and for the amount of such compensation;
- (iv) any type of Greek state claim aggregated with any surcharges and interest charged on these claims;
- (v) the following claims on a pro rata basis:
  - claims of the SRF, to the extent it has provided financing to the institution; and
  - claims in respect of eligible deposits to the extent that they exceed the coverage threshold for deposits of natural persons and micro, small and medium-sized enterprises;
- (vi) claims deriving from investment services covered by the HDIGF or claims of the HDIGF in respect of the rights and obligations of investors which have been compensated by the HDIGF, and for the amount of such compensation;
- (vii) claims deriving from eligible deposits to the extent that they exceed the coverage limit and do not fall under e) above;
- (viii) claims deriving from deposits exempted from compensation, excluding claims deriving from transactions of investors for which a final court decision has been issued for a penal violation of AML/CTF rules; and
- subject to (j) and (k) below, claims that do not fall within the above listed points, and do not rank last as per the relevant agreement governing them, including but not limited to, liabilities under loan agreements and other credit agreements, agreements for the supply of goods or for the provision of services or derivatives, debt instruments issued by the credit institution, credit institution's guarantees in relation to debt instruments issued by its subsidiaries, as defined in Article 32(2) of Greek Law 4308/2014 (irrespective of whether such subsidiaries have their seat in Greece or abroad) as well as claims of such subsidiaries deriving from a loan or deposit agreement with the credit institution, through which the proceeds of debt instruments issued by such subsidiaries are lent to or deposited with the credit institution. In case of such deposit by a subsidiary, the preceding subparagraph applies to the funds that do not fall under paragraph (c) above.
- (x) claims deriving from debt instruments issued by the credit institution, if the following conditions are met: (i) the original contractual maturity of the debt instruments is at least one year; (ii) the debt

instruments contain no embedded derivatives and are not derivatives themselves (which they will not be on the mere ground that they bear a floating interest rate based on a widely used reference rate or are denominated in a foreign currency, if the capital, repayment and interest are denominated in the same currency) and (iii) the relevant contractual documentation and, where applicable, the prospectus related to the issuance explicitly refer to this lower ranking. The same ranking applies to claims deriving from the credit institution's guarantee in relation to debt instruments issued by its subsidiaries which meet the requirements under (i) to (iii) above (irrespective of whether such subsidiaries have their seat in Greece or abroad) as well as claims of such subsidiaries deriving from a loan or deposit agreement with the credit institution, through which the proceeds of the subsidiaries' issue are lent or deposited to the credit institution. In case of such deposit by a subsidiary, the preceding subparagraph applies to the funds that do not fall under paragraph (c) above.

claims deriving from subordinated debt instruments or T2 instruments or hybrid instruments or AT1 instruments or preference shares or capital instruments qualifying as Common Equity Tier 1 instruments issued by the credit institution, with due regard being given to the differentiated treatment among the various categories of claims that fall under this paragraph. The same ranking applies to claims deriving from the credit institution's guarantee in relation to debt instruments issued by subsidiaries of the credit institution which meet the requirements under paragraph (k) (irrespective of whether such subsidiaries have their seat in Greece or abroad) as well as claims of such subsidiaries deriving from a loan or deposit agreement with the credit institution, through which the proceeds of the subsidiaries' issue of such debt instruments or hybrid instruments or other instruments listed in paragraph (k) are lent or deposited to the credit institution. In case of such deposit by a subsidiary, the preceding subparagraph applies to the funds that do not fall under paragraph (c) above.

The claims listed under (i) and (ii) of paragraph (e) rank pari passu.

Subject to the above, the provisions of Articles 975 to 978 of the Greek Code of Civil Procedure apply *mutatis mutandis*.

The BRRD separately contemplates that certain capital instruments (including Tier 2 Notes) and eligible liabilities may be subject to non-viability loss absorption in addition to the application of the general bail-in tool. At the point of non-viability of the Bank or the Group, the SRB, in co-operation with the competent resolution authority, may write down such capital instruments and eligible liabilities and/or convert them into shares. The "no creditor worse off" principle (as set out in Article 34(1)(g) of the BRRD) does not apply to non-viability loss absorption pursuant to Article 59 of the BRRD.

An additional tool, *i.e.* a moratorium tool, has recently been endorsed by the European Parliament. See "— Capital adequacy framework—Recent developments—Moratorium power for resolution authorities".

## Extraordinary Public Financial Support

In an exceptional systemic crisis, extraordinary public financial support may be provided through the public financial stabilisation tools listed below as a last resort and only after having assessed and utilised, to the maximum extent, the other resolution tools, in order to avoid, through direct intervention, the winding-up of the relevant bank or other entity concerned and to enable the resolution purposes to be accomplished. The use of extraordinary public financial support requires a decision of the Minister of Finance following a recommendation from the Systemic Stability Board (Greek Ministry of Finance) and consultation with the relevant resolution authorities.

The public financial stabilisation tools are:

• public capital support provided by the Ministry of Finance or, in respect of credit institutions, by the HFSF following a decision by the Minister of Finance; and

• temporary public ownership of the entity concerned by the Greek state or a company which is wholly owned and controlled by the Greek state.

All of the following conditions must be met for the public financial stabilisation tools to be implemented:

- the entity concerned meets the conditions for resolution;
- the shareholders, owners of other instruments of ownership, holders of relevant capital instruments and the holders of eligible liabilities have contributed, through conversion, write down or by any other means, to the absorption of losses and the recapitalisation by an amount equal to at least 8 per cent. of the total liabilities, including own funds, of the entity concerned, calculated at the time of the resolution action; and
- prior and final approval by the EC regarding the EU state aid framework for the use of the chosen tool has been granted.
- In addition to the above, for the provision of public financial support, one of the following conditions must also be met:
- the application of the resolution tools would not be sufficient to avoid a significant adverse effect on financial stability;
- the application of the resolution tools would not be sufficient to protect the public interest, where extraordinary liquidity assistance from the central bank has previously been given to the entity concerned; and/or
- in respect of the temporary public ownership tool, the application of the resolution tools would not be sufficient to protect the public interest, where capital support through the public capital support tool has previously been given to the entity concerned.

By way of exception, extraordinary public financial support may be granted to the entity concerned in the form of an injection of own funds or the purchase of capital instruments without the implementation of resolution measures, if all of the following conditions, to the extent relevant, are satisfied:

- in order to remedy a serious disturbance in the economy of an EU Member State and preserve financial stability;
- in relation to a solvent entity in order to address a capital shortfall identified in a stress test, assets quality review or equivalent exercise;
- at prices and on terms that do not confer an advantage upon the entity concerned;
- on a precautionary and temporary basis;
- subject to final approval of the EC;
- not to be used to offset losses that the entity concerned has incurred or is likely to incur in the near future;
- the entity concerned has not infringed, and there is no objective evidence that the bank will in the near future infringe, its authorisation requirements in a way that would justify the withdrawal of its authorisation;
- the assets of the entity concerned are not, and there is no objective evidence that its assets will in the near future be, less than its liabilities;

- the entity concerned is not, and there is no objective evidence that it will be, unable to pay its debts or other liabilities when they fall due; and
- the circumstances for the exercise of the write down or conversion powers in respect of AT1 and T2 capital instruments of the entity concerned do not apply.

### Resolution authority's powers

The resolution authority has a broad range of powers when applying resolution measures and tools. When applying the resolution tools and exercising its resolution powers, the resolution authority must have regard to the following objectives:

- ensuring the continuity of critical functions;
- avoiding significant adverse effects on financial stability, including by preventing contagion, and maintaining market discipline;
- protecting public funds by minimising reliance on extraordinary public financial support;
- avoiding unnecessary deterioration of value and seeking to minimise the cost of resolution;
- protecting depositors and investors covered by deposit guarantee schemes and investor compensation schemes, respectively; and
- protecting client funds and client assets,

as well as the following principles:

- the shareholders of the entity concerned under resolution bear losses first;
- the creditors of the entity concerned under resolution bear losses after the shareholders in accordance with the order of priority of their claims under normal special liquidation proceedings;
- senior management or the management body of the entity concerned under resolution are replaced unless it is deemed that retaining management is necessary for the resolution purposes;
- senior management or the management body of the entity concerned under resolution shall provide all necessary assistance for the achievement of the resolution objectives;
- natural and legal persons remain liable, under applicable law, for the failure of the entity concerned;
- except where specifically provided in the BRRD Law, creditors of the same class are treated in an
  equitable manner;
- no creditor incurs greater losses than would be incurred if the entity concerned would have been wound up under normal special liquidation proceedings;
- covered deposits are fully protected, subject to the moratorium powers mentioned above; and
- resolution action is taken in accordance with the applicable safeguards provided in the BRRD Law.

Article 33a of the BRRD Law provides for the power of the competent resolution authority (which, in the case of the Bank and Alpha Holdings is the SRB and the Bank of Greece), in consultation with the ECB, to suspend payment or delivery of certain obligations, including covered deposits, for a maximum duration of two days if an entity is declared "failing or likely to fail" but before entry into resolution, and subject to certain conditions.

In the context of this provision, the resolution authority is also empowered to potentially restrict secured creditors from enforcing security interests and suspend termination rights for the same duration. During the resolution proceedings, Article 69 of the BRRD Law empowers the competent resolution authority to suspend payment or delivery of certain obligations, including covered deposits, for a maximum duration of two days. Such resolution stay powers must be contractually recognised in case of financial contracts governed by third-country law (Article 71A of the BRRD Law).

Moreover, the competent resolution authority has the power to impose a MREL-specific prohibition of distributing more than the maximum distributable amount, where the entity concerned has insufficient resources to meet its combined buffer requirement, in addition to its MREL requirements, through: (a) distribution in connection with CET1 capital; (b) payment of variable remuneration or discretionary pension benefits, or variable remuneration if the obligation to pay was created at a time when the entity failed to meet the combined buffer requirement; or (c) coupon payments to holders of AT1 instruments (Article 24a of the BRRD Law).

### The HFSF

The HFSF is a private law entity with the purpose of (a) maintaining the stability of the Greek banking system and (b) disposing efficiently of shares or other financial instruments held in credit institutions on the basis of a divestment strategy within a specific time period not extending beyond the end of the HFSF's duration.

The HFSF supports the capital adequacy of both Greek credit institutions and subsidiaries of foreign credit institutions lawfully operating in Greece and acting in compliance with the commitments of the Greek state under Greek Law 4046/2012, in relation to the Second Economic Adjustment Programme, as updated from time to time, and under the Agreement for Fiscal Targets and Structural Reforms dated 19 August 2015, a draft of which was ratified by Greek Law 4336/2015, as updated from time to time. The liquidity support provided under Greek Law 3723/2008 or under the operating framework of the Eurosystem and the Bank of Greece does not fall under the scope of the HFSF. The HFSF pursues its purpose based on a strategy agreed between the Ministry of Finance, the Bank of Greece and itself.

The HFSF was established by virtue of Greek Law 3864/2010 which was repeatedly amended, among others by virtue of Greek Laws 4254/2014, 4340/2015, 4346/2015, 4431/2016, 4456/2017, 4537/2018, 4549/2018, 4701/2020 and most recently by Greek Laws 4783/2021, 4842/2021 and 4941/2022 (the "**HFSF Law**"). The HFSF's initial duration, which was set to expire on 30 June 2017, has been extended to 31 December 2025.

## Capital

The HFSF's capital consists of funds that were raised within the context of EU and IMF support mechanism for Greece by virtue of Greek Law 3845/2010. It was gradually paid up by the Hellenic Republic and is evidenced by instruments which are not transferable until the expiry of the term of the HFSF. The HFSF's capital is provided from (a) funds drawn under the support mechanism for Greece set up by the EU and the IMF by virtue of Greek Law 3845/2010 and the Master Financial Assistance Facility dated 15 March 2012; and (b) from funds drawn under the Financial Assistance Facility dated 19 August 2015, as in force from time to time, and are paid to the HFSF by the Hellenic Republic.

The Greek Minister of Finance may request the return of capital from the HFSF to the Hellenic Republic. Before the expiry of the HFSF's term or the initiation of a liquidation process, the Minister of Finance decides jointly with the European Financial Stability Facility ("EFSF") and the European Stability Mechanism ("ESM"), the entity to and the manner by which the capital and assets and liabilities of HFSF will be transferred due to its expiration or liquidation. Accordingly, the Minister of Finance may entrust by direct award the preparation of a study on the process of transition to an independent provider of financial or business and management advisory services pursuant to a previously issued joint decision of the Minister of Finance and the ESM. The above transfer will be to an entity independent of the Hellenic Republic and will take place in a manner that ensures

that the financial and legal position of the EFSF and ESM will not deteriorate for that reason. If, at the expiry of the HFSF's term, the HFSF has no obligation towards the EFSF and the ESM, and holds no assets over which the former have a security interest or other rights, the assets of the HFSF following completion of its liquidation process, will be transferred to the Hellenic Republic by operation of law.

#### Organisation

The HFSF is, as of the date of this Offering Circular, managed by a seven-member General Council and a three-member Executive Committee. The General Council consists of seven (7) non-executive members: five (5) members (including the Chairman of the General Council), having international experience in banking issues, one member being representative of the Ministry of Finance and one member appointed by the Bank of Greece. The Executive Committee consists of three (3) members: two (2) members, including the Managing Director, having international experience in banking or issues regarding the recovery of credit institutions and one (1) member nominated by the Bank of Greece. One member of the Executive Committee is assigned the task of enhancing the HFSF's role in facilitating the management of NPLs of the credit institution in which the HFSF has a participation.

The members of the General Council and the Executive Committee are selected by a Selection Committee, established by a decision of the Greek Minister of Finance according to Article 4A of the HFSF Law, as in force, following a public invitation for expression of interest and are appointed by a decision of the Greek Minister of Finance for a three-year period, with the possibility for renewal, but in any case not exceeding the HFSF's duration. The Selection Committee consists of six independent renowned experts of integrity, from which three, including the Chairman, are appointed by the EC, the ECB and the ESM respectively, two by the Greek Minister of Finance and one by the Bank of Greece. The above five institutions have an observer in the Selection Committee, the term of which is set at two years with a possibility of renewal. Representatives of the EC as well as of the ECB and the ESM may also participate in the Executive Committee as observers. The Euro Working Group's prior consent is required for the appointment of the members of the General Council and the Executive Committee, as well as the renewal of their term of office and remuneration, excluding the appointment of the Ministry of Finance representative in the General Council and the member appointed by the Bank of Greece. The members of both the aforementioned bodies must be persons of impeccable reputation, not engaged in activities set out in Article 4(6) of the HFSF Law, as in force, and not engaged in activities incompatible with their participation in the said bodies, set out in Article 4(7) of the HFSF Law, while their appointment may be terminated prior to its expiry by a decision of the Minister of Finance if (a) they are rendered non-eligible due to the occurrence of events provided in Article 4(6) and (7) of the HFSF Law, as in force, or (b) following a reasoned decision of the Selection Committee for the reasons and by the process described in Article 4A of the HFSF Law, as in force.

The General Council convenes at least ten (10) times per year and the Executive Committee at least once a week. In the meetings of the General Council and the Executive Committee, one (1) representative of the EC, one (1) of the ESM and one (1) of the ECB or their substitutes can also participate as observers without voting rights. A quorum is established in the General Council when at least five (5) members are present and in the Executive Committee when at least two (2) members are present. Each member of the General Council is entitled to one vote. In case of a tied vote, the Chairman has a casting vote. The General Council decides by majority of the present members, unless otherwise provided for by the HFSF Law, as in force. Accordingly, each member of the Executive Committee is entitled to one vote and, unless otherwise provided for by the HFSF Law, as in force, the Executive Committee decides by a majority of two of the present members.

The members of the General Council and the Executive Committee, except for the representative of the Ministry of Finance, operate independently in the exercise of their powers and do not seek or receive mandates from the Greek government or any other governmental entity or financial institution supervised by the Bank of Greece and they are not subject to any influence whatsoever. The General Council provides information, at least twice a year and in any other case deemed necessary, to the Minister of Finance, the Greek Parliament, the EC, the ESM

and the ECB regarding the progress of its mission. The General Council informs, via prospectuses issued every two months, the Minister of Finance who may request to be further informed by the Chairman or the Managing Director. The HFSF publishes an annual report on its operational strategy and a semi-annual report of progress on the above strategy. Persons having any of the following positions during the last three years may not be appointed as members of the Selection Panel: members of the Greek Parliament or government, officers, employees or counsels of any Greek Ministry or other governmental authority or of the Bank of Greece, executive members, officers, employees or counsels of any credit institution operating in Greece or of the EC or of the ECB or of the ESM or holders of shares of a credit institution operating in Greece with a total value exceeding €100,000 or persons having a financial interest, directly or indirectly linked to a credit institution operating in Greece, with a total value exceeding €100,000.

The meetings of the Executive Committee and of the General Council are confidential. The General Council may decide to publish its decision in relation to any item of the agenda.

With effect from 16 July 2022, the organisation of the HFSF will be modified, following amendment of the HFSF Law by Greek Law 4941/2022. In particular, as of 16 July 2022, the HFSF will be managed by a nine (9)member Board of Directors; the Executive Committee and the General Council above will be dissolved. The Board of Directors will consist of nine (9) members, out of which six (6) are non-executive and three are (3) executive members of the Board of Directors. Four (4) of its non-executive members, including its Chairman, will be selected among persons with international banking experience ("independent non-executive members"). The remaining two (2) non-executive members of the Board of Directors will be a representative of the Ministry of Finance and a representative of the Bank of Greece. The executive members of the Board of Directors will include: (a) the Managing Director, who will be selected from persons with international experience in banking and will be in charge of the execution of the HFSF's decisions and monitoring the HFSF's management and actions; (b) a member nominated jointly by the Bank of Greece and the Ministry of Finance; and (c) a member selected from persons with international banking experience. The Managing Director, the executive member under (c) above and the independent non-executive members of the Board of Directors will be selected by the Selection Committee. The members of the Board of Directors will be appointed by decision of the Minister of Finance, with a three (3)-year term, which can be renewed but cannot be extended beyond the HFSF's duration. The Euro Working Group's prior consent will be still required for the appointment of the members of the Board of Directors as well as the renewal of their term of office and remuneration, excluding the appointment of the executive member of the Board of Directors nominated by the Ministry of Finance and the Bank of Greece, as well as the two non-executive members appointed by the Ministry of Finance and the Bank of Greece. The Board of Directors will convene as often as required and, in any case, at least once (1) per month. In the meetings of the Board of Directors, one (1) representative of the EC, one (1) of the ESM and one (1) of the ECB or their substitutes will be invited to participate as observers without voting rights. A quorum will be established in the Board of Directors when at least five (5) members are present. Each member of the Board of Directors will be entitled to one (1) vote. In case of a tied vote, the Chairman will have a casting vote. The Board of Directors makes decisions by majority of the present members, unless otherwise provided for by the HFSF Law, as in force. The Greek State or any other state body and institution shall refrain from giving instructions of any kind to the members of the Board of Directors.

### Provision of Capital Support by the HFSF

# Activation of Capital Support

With regards to the supply of capital support, a credit institution experiencing a capital shortfall, as such shortfall has been determined by the competent authority which is defined in Article 2(1)(5) of the BRRD Law, as in force, may submit a request for capital support to the HFSF up to the amount of the determined capital shortfall, accompanied by a letter of the competent authority determining (i) the capital shortfall; (ii) the date by

which the credit institution needs to meet the said shortfall; and (iii) the capital raising plan submitted to the competent authority.

For credit institutions with an existing restructuring plan approved by the European Commission at the time of such request, the request is accompanied by a draft amended restructuring plan. In respect of credit institutions without an existing restructuring plan approved by the European Commission at the time of submission of such request, the request is accompanied by a draft restructuring plan.

The draft restructuring plan (for credit institutions without an approved restructuring plan) or the draft amended restructuring plan shall describe by what means the credit institution shall return to sufficient profitability in the next three (3) to five (5) years, under prudent assumptions. The HFSF shall monitor and evaluate the proper implementation of the restructuring plan and any amended restructuring plan, as the case may be. The HFSF may request amendments and addenda to the above-mentioned restructuring plan.

The HFSF may request from the credit institution amendments or additions to the draft restructuring plan or the draft of the restructuring plan under amendment. Following approval of the HFSF of the draft restructuring plan or the draft of the restructuring plan under amendment, the latter is forwarded to the Minister of Finance and is submitted to the EC for approval.

Any restructuring plan approved by the HFSF shall comply with EU rules on state aid and shall be approved by a decision of the European Commission. Additionally, it shall ensure the credit institution's restoration of adequate profitability, the burden-sharing to its shareholders and limit any distortion of competition. The HFSF monitors and evaluates the implementation of such approved restructuring plans. For the pursuit of its goals and the exercise of its rights the HFSF determines the outline of a framework agreement or an amended framework agreement with all credit institutions which receive or have received financial support by the EFSF or the ESM. The credit institutions enter into the aforementioned framework agreement. The credit institutions provide the HFSF with all the information reasonably requested by the EFSF or the ESM so that the HFSF may relay it to the EFSF or the ESM, unless the HFSF informs the credit institutions that they must send the requested information directly to the EFSF or the ESM.

The HFSF may grant a credit institution a letter of commitment that it will participate in the recapitalisation of such credit institution, subject to and in accordance with the procedure laid down in the HFSF Law (Articles 6a and 7), as in force, and up to the amount of the capital shortfall determined by the competent authority, provided that the credit institution falls within the exception of Article 32(3)(d)(cc) of the BRRD Law as in force (in other words, the credit institution is not deemed by the SSM to be failing or likely to fail and such capital support will constitute precautionary recapitalisation, i.e. the support being provided is required in order to remedy a serious disturbance in the national economy and preserve financial stability). The HFSF provides the letter before the fulfilment of the conditions for the provision of the capital support set out in Article 6a of the HFSF Law, as in force, regarding the compulsory application of the burden sharing process. The above-mentioned commitment does not apply if, for any reason whatsoever, the licence of the credit institution is revoked or one of the resolution measures provided in the BRRD Law is undertaken.

Conditions for the Provision of Capital Support for the purpose of Precautionary Recapitalisation

If the voluntary measures that are provided in the restructuring plan or the amended restructuring plan cannot cover the total capital shortfall of the credit institution, as such has been determined by the competent authority, and in order to avoid a serious disturbance in the economy with negative consequences affecting citizens and in order for the state aid to be as minimal as possible, the mandatory application of the following measures may be decided by virtue of a Cabinet Act, following a proposal by the Bank of Greece, for the purpose of allocating the remainder of the capital shortfall to the holders of capital instruments and other liabilities, as deemed necessary.

The relevant measures include:

- the absorption of any losses by the shareholders so that the credit institution's net asset value is zero, where necessary by the reduction of the nominal value of the shares, following a decision by the competent body of the credit institution;
- (ii) the reduction of the nominal value of preference shares and other CET1 instruments, and following this, if necessary, of the nominal value of AT1 instruments and following this, if necessary, of the nominal value of T2 instruments (such as Tier 2 Notes) and other subordinated liabilities and, following this, if necessary, of the nominal value of unsecured senior liabilities not preferred by mandatory provisions of law (including Senior Non-Preferred Notes and Senior Preferred Notes, to the extent applicable) in order to restore the credit institution's net asset value to zero; or
- (iii) where the credit institution's net asset value exceeds zero, the conversion of other CET1 instruments and following this, if necessary, of AT1 instruments and following this, if necessary, of T2 instruments and following this, if necessary, other subordinated liabilities and following this, if necessary, unsecured senior liabilities not preferred by mandatory provisions of law, into common shares in order to restore the necessary capital adequacy ratio, as required by the competent authority.

The allocation is completed by the publication of the relevant Cabinet Act at the Government Gazette. Without prejudice to the above, the allocation is made according to the following sequence, which applies according to the CRR and Article 145A(1) of Banking Law, as in force:

- (i) common shares and other Tier 1 instruments that fall under Article 26 of CRR;
- (ii) if necessary, other Tier 1 instruments that fall under Article 31 of CRR;
- (iii) if necessary, AT1 instruments;
- (iv) if necessary, T2 instruments;
- (v) if necessary, all other subordinated liabilities; and
- (vi) if necessary, unsecured senior liabilities not preferred by mandatory provisions of law.

In case of conversion of the preference shares issued according to Article 1 of Greek Law 3723/2008, as amended and in force, into common shares, the latter have full voting rights. The ownership of such common shares passes to the HFSF as of their conversion without the need for any formalities.

Any liabilities undertaken by the credit institution through guarantees granted in relation to the issue of capital instruments or liabilities of third legal entities included in its consolidated financial statements, as well as any claims against the credit institution from loan agreements between the credit institution and the above legal entities may also be subjected to the above measures.

The above Cabinet Act, following a proposal by the Bank of Greece, determines the instruments or liabilities subject to the above measures, by class, type, percentage and amount of participation, on the basis, if necessary, of a valuation by an independent valuer appointed by the Bank of Greece. The above instruments or liabilities are converted mandatorily to capital instruments in the context of a share capital increase decided by the credit institution according to Article 7 of the HFSF Law.

Exceptionally and provided there is a prior positive decision of the EC according to Articles 107 to 109 of the Treaty on the Functioning of the European Union, the above measures may not be used either in their entirety or in relation to specific instruments, if the Ministerial Cabinet decides, following a proposal of the Bank of Greece that:

(i) such measures may jeopardise financial stability; or

(ii) the application of such measures may have disproportionate results, as in the case of capital support to be provided by the HFSF is small in comparison with the credit institution's risk weighted assets or when a significant part of the capital shortfall has been covered by private sector measures.

The final appraisal of the above exceptions belongs to the EC, which will decide on a case-by-case basis. On the basis of the above reasons under (a) and (b), deviations may apply to the above sequence of liabilities and the principle of equal treatment.

The above measures are deemed, for the purposes of the recapitalisation, as reorganisation measures as per the definition of Article 3 of Greek Law 3458/2006, as amended and in force.

The application of the measures, voluntary or mandatory, may not in any case (a) constitute grounds for the activation of contractual clauses which apply in cases of winding-up or insolvency or the occurrence of any other event, which may be considered or treated as a credit event or may lead to the breach of contractual obligations by the credit institution or (b) be considered as non-fulfilment or breach of contractual obligations of the credit institution that gives the counterparty a right of early termination or cancellation of the agreement for a material reason. The above applies also in the case of insolvency or an event of default *vis-à-vis* third parties by a group member when this is due to the application of the measures on its claims against another member of the same group.

Contractual clauses contrary to the above have no legal effect.

The holders of capital instruments or other claims, including unsecured senior liabilities not preferred by mandatory provisions of law of the credit institution that is subject to the above recapitalisation measures must not, following application of such measures, be in a worse financial position compared to the one they would be in if the credit institution had been wound up under normal insolvency proceedings (no creditor worse off principle). If the above principle is breached, the above holders of capital instruments and other claims, including unsecured common liabilities not preferred by mandatory provisions of law have a right to compensation from the Hellenic Republic, provided they prove that their loss, directly due to the application of the mandatory measures, is greater than the loss they would have incurred if the credit institution were placed under special liquidation. In any case, the compensation may not exceed the difference between the value of their claims following the application of the relevant measures and the value of their claims in case of special liquidation, as such value is estimated by an independent entity appointed by the Bank of Greece in order to determine whether shareholders and holders of subordinated claims would have been in a better financial position if the credit institution had been placed under special liquidation immediately before the application of the relevant decision.

The Cabinet Act which decides the application of the above mandatory measures is published in the Government Gazette and a summary thereof is published in the Official Journal of the European Union in Greek, in two daily newspapers published nationwide in the members states where the credit institution has established a branch or where it directly provides banking and other mutually accepted financial services, in the official language of such state.

The summary will include the following:

- (i) the reason and legal basis for the issuance of the Cabinet Act;
- (ii) the legal remedies available against the Cabinet Act and the deadlines for their exercise; and
- (iii) the competent courts before which the above legal remedies against the Cabinet Act may be exercised.

Article 6a(11) provides that the necessary details for the application of Article 6a of the HFSF Law, as in force, regarding the application of the above mandatory measures, including the process for the appointment of the

independent valuators, the content of the independent valuations and the proposal of the Bank of Greece, the valuation methods of the claims or the capital instruments being converted, the substitution option of the issuer of the instruments, the completion of the conversion as well as the details for any compensation of the instrument holders, are regulated by a Cabinet Act.

### Implementation of Public Financial Stability Measures

Following the decision of the Minister of Finance pursuant to Article 56(4) and Article 2 of the BRRD Law, upon the implementation of the measure of public capital support, the HFSF is designated as the vehicle for applying Article 57 of the BRRD Law, as in force. In this case, the HFSF participates in the recapitalisation of the credit institution and receives in return the instruments set forth in Article 57(1) of the BRRD Law, as in force. The HFSF participates in the capital increase and receives in return capital instruments after the application of any measures adopted in accordance with Article 2 of the BRRD Law.

## Type of Capital Support

The HFSF provides capital support for the sole purpose of covering the credit institution's capital shortfall, as determined by the competent authority and up to the amount remaining uncovered, as long as such support is preceded by the application of the measures of the restructuring plan (referred to in Article 6 of the HFSF Law, as in force), any participation of private sector investors, the European Commission's approval of the restructuring plan and either:

- (i) any mandatory burden sharing measures (of Article 6a of the HFSF Law as in force), where the European Commission confirms as part of the approval of the restructuring plan that the credit institution falls within the exception of item d(cc) of Article 32 (3) of the BRRD Law (the credit institution is not failing nor likely to fail and the capital support is provided in the context of precautionary recapitalisation); or
- (ii) the credit institution has been placed under resolution and measures have been taken pursuant to Article 2 of BRRD Law.

The relationship framework agreement between the HFSF and the credit institution has to be duly signed before any capital support is provided. Capital support shall be provided through the participation of the HFSF in the share capital increase of a credit institution through issuance of ordinary shares or the issuance of contingent convertible bonds or other convertible instruments which shall be subscribed by the HFSF. The breakdown of the above participation of the HFSF between ordinary shares and contingent convertible bonds or other convertible instruments is defined by Cabinet Act No. 36 dated 2 November 2015, as follows:

- (i) to common shares and by 75 per cent. to contingent convertible bonds up to the amount necessary to cover losses already incurred or likely to be incurred shortly in the future; and
- (ii) for the remaining amount that would correspond to a precautionary recapitalisation, by 25 per cent. to common shares and by 75 per cent. to contingent convertible bonds.

## Contingent Convertible Bonds

### General Terms

The contingent convertible bonds issued in accordance with Article 7 of the HFSF Law, as in force, are governed by Greek law and may be issued in dematerialised form and be included, following an application of the HFSF, in the electronic files of non-listed securities maintained by ATHEX.

The contingent convertible bonds are issued following a decision by the General Meeting of Shareholders before or after the completion of a share capital increase according to Article 7 of Law 3864/2010, as in force. The bonds are transferred only with the consent of the credit institution, not to be unreasonably withheld and the consent of the supervisory authorities, according to Article 7(5)(c) of the HFSF Law, as in force.

The bonds have a nominal value of  $\in 100,000$  each, are issued at par and are of indefinite duration without a fixed repayment date. They are direct, unsecured and subordinated investments in the credit institution and rank at all times *pari passu* with themselves. The bonds' terms do not expressly contain events of default and as a consequence all bondholders will be able to enforce the terms of the bonds only during the liquidation procedure.

In case a credit institution is placed under special liquidation they rank:

- (i) after all other claims (including those of subordinated creditors), including (indicatively) claims against the credit institution from liabilities recognised as AT1 or T2 Capital, but with the exception of Same Ranking Liabilities (the "Higher Ranking Liabilities"); and
- (ii) pari passu with the credit institution's common shares and any other claim, which is agreed to rank pari passu with the bonds ("Same Ranking Liabilities").

During the special liquidation of the credit institution, the bondholders, prior to any conversion date, have a right over any remaining assets of the credit institution (available for distribution after repayment in full of all Higher Ranking Liabilities) for the nominal amount of their bonds plus any accrued and unpaid interest.

Subject to any mandatory provisions of law, the bondholders do not have any set-off right, security or guarantee that may upgrade the ranking of their claim during special liquidation.

#### Conversion

If, at any time, the credit institution's CET1 capital ratio, calculated on a consolidated or individual basis, is below 7 per cent. ("Activation Event"), the credit institution must:

- (i) convert the bonds by issuing to each bondholder Conversion Shares (as defined below), the number of which is determined by dividing 116 per cent. of the outstanding bonds' nominal value by the conversion price and further dividing by the percentage by which the bondholder participates in the total amount of the bond loan;
- (ii) procure the publication of a conversion notification towards the bondholders, informing them, among other things, of the relevant conversion date, which may not be later than one month (or earlier if required by the supervising authorities), after which date the bonds will be converted; and
- (iii) immediately inform the ECB, acting in the context of the SSM, of the occurrence of an Activation Event.

The above Act defines as "Conversion Shares" the common shares of the credit institution issued upon conversion of the bonds by dividing 116 per cent. of the specific nominal value by the price per common share of the credit institution, as set at the share capital increase taking place in accordance with Article 7 of Greek Law 3864/2010, as in force.

Following their conversion as per the above, the bonds will be cancelled and may not be reissued nor may their nominal value be restored for any reason. The terms and conditions of the bonds provide for readjustments to the conversion price on standard terms in case of specific corporate actions.

The bonds are converted automatically to common shares of the credit institution if for any reason the credit institution does not pay, in full or in part, the interest due on two, not necessarily consecutive, interest payment dates.

#### Interest

The bonds have an interest rate equal to (a) an annual rate of 8 per cent. (the "**Initial Interest Rate**") from the issue date and up to the seventh anniversary of the issue date and (b) following this, if not repaid, the current Adjusted Interest Rate. The "**Adjusted Interest Rate**" is defined as the sum of: (a) the 7-year mid-swap rate for the relevant interest period plus (b) a margin equal to the difference between the Initial Interest Rate and the 7-year mid-swap rate applicable on the issue date.

Payment of interest (in full or in part) is exclusively at the discretion of the board of directors of the credit institution, but if paid, it is payable in cash. If the credit institution elects not to pay interest, such interest is cancelled and does not accumulate. The credit institution may not pay dividends on its common shares if it has decided not to pay interest on the preceding interest payment date.

The credit institution's board of directors may, in its absolute discretion, pay interest in the form of common shares of the credit institution. The number of common shares issued according to this option must be equal to the amount of interest divided by the price of common shares on the interest payment date (for as long as the common shares are listed in an organised market), otherwise to the value of CET1 capital corresponding to one common share as deriving from the financial statements of the credit institution most recently published prior to the payment date or the nominal value of the common share, whichever is higher. If so decided by the board of directors of the credit institution, the share capital increase takes place automatically and without any other procedural requirements or corporate decisions (including the shareholders' consent) and the corresponding common shares are issued automatically. Any interest payment is subject to the restrictions of the maximum distributable amount according to Article 141 of the CRD Directive (Article 131 of the Banking Law).

The credit institution may, in its absolute discretion, elect to repay all or some of the bonds at any time, at their nominal value, plus any accrued and unpaid interest (excluding any cancelled interest), provided that it has received the consent required at the time according to the CRD Directive or the Banking Law and that other claims, the repayment or repurchase of which must precede, as may be determined by the CRD Directive, have been repaid. Repayment by choice of the credit institution must be in cash.

Bondholders may not request the repayment of their bonds but only their conversion into common shares on the seventh anniversary.

If, due to a legislative change, either (a) the bonds cease to be included in the credit institution's CET1 capital or (b) a tax burden arises for the credit institution in relation to the bonds, as provided for in the above Act, the credit institution may substitute all the bonds or amend their terms, without the consent or approval of the bondholders, so that they may continue to be recognised in the credit institution's regulatory capital on terms that are not materially less beneficial to the bondholders.

## Disposal of Shares and Bonds

The manner and process for the disposal of all or part of the shares of a credit institution held by the HFSF within five years from the entry into force of Greek Law 4340/2015 are, as of the date of this Offering Circular, determined by a decision of the HFSF. The disposal may take place in one transaction or in instalments, in HFSF's discretion, provided that the disposal takes place within the above time limit and in compliance with state aid rules. Within the above deadline the shares may not be disposed of to an undertaking that belongs directly or indirectly to the state according to the legislation in force. The five year deadline has been extended

until 1 November 2022, following the HFSF's proposal, by decision No 121/2020 of the Ministry of Finance (GG B 4739/26.10.2020).

In order to take the above decision, the General Council of the HFSF receives a report from an internationally renowned independent financial adviser with experience in such matters. The report is accompanied by a detailed timetable for the disposal of shares and justifies sufficiently the conditions and manner of disposal as well as the necessary actions for the completion of the disposal and compliance with the timetable. The disposal takes place in a manner that is consistent with the purposes of the HFSF.

Without prejudice to the relevant provisions of Regulation (EU) 2017/1129 (as amended) and Greek Law 4706/2020, the disposal may take place by a public offer or an offer to one or more specific investors: (i) through an open contest or interest solicitation from selected investors; (ii) through exchange trade orders; (iii) by public offer of shares for cash or in exchange of other securities; and (iv) by book building.

The HFSF may reduce its participation in credit institutions through a share capital increase of the credit institutions by waiving or disposing of its pre-emption rights.

The HFSF Law provides specific provisions for the disposal price and reduction of the HFSF's participation in favour of a specific investor or investor group, which apply also in case of ordinary share capital increase of the credit institution under Greek Law 4548/2018. The disposal price of the shares by the HFSF and the minimum share cover price for private investors shall be determined by the General Council, on the basis of a valuation report produced by two (2) independent financial advisers with experience in relevant matters and in particular in the valuation of credit institutions, opining that the book building process carried out in the case at issue complies with international best practice in light of the particular circumstances, and in accordance with the abovementioned report. The disposal price or acquisition price may be lower than the most recent acquisition price of the shares by the HFSF or than the current stock market price, provided that they are consistent with the purpose of the HFSF and the aforementioned internationally renowned independent adviser's report in relation to the disposal decision. In the case of sale of blocks of shares by the HFSF, the Greek Minister of Finance shall receive the relevant reports and valuations and has a right of veto if the proposed disposal price is outside the range of these valuations.

In the event the shares of the credit institution are acquired by a specific investor or investor group or the HFSF's participation is reduced by a share capital increase in favour of a specific investor or investor group, the HFSF may:

- invite the interested investors to submit offers, setting, at the relevant invitation, the procedure, deadlines, offer content and other terms for their submission, among which also the provision by investors, at any stage of the procedure deemed necessary, of a proof of funds and letters of guarantee;
- (ii) conclude a shareholders' agreement, if it deems necessary, which will govern the relationship between the HFSF and the specific investor or investor group as well as amend the framework agreement with the relevant credit institution. In that context it may be provided that the investors and/or the HFSF must maintain their holding for a specific time period; and
- (iii) provide a first offer and first refusal right to investors fulfilling certain criteria (such as those provided in point (d) of Article 8(5) of Greek Law 3864/2010).

The investor or group of investors is selected by following assessment criteria such as the experience of the investor in the specific business and in the restructuring of credit institutions, its credibility, ability to complete the transaction and the price to be offered. The assessment criteria applicable to each process shall be notified to the interested investors prior to the submission of their binding offer.

The methodology for the disposal of shares by a public offer for the exchange of warrants issued according to Cabinet Act 38/2012 and the adjustment of their terms and conditions in the case of a share capital increase with a reverse split on terms determined by the credit institution, as well as a share capital increase without abolition of the pre-emption rights of existing shareholders, are determined by a Cabinet Act. In case of a share capital increase without abolition of the pre-emption rights of existing shareholders the adjustment may affect only the exercise price of the options embodied in the warrants. The adjustment may be up to the amount corresponding to the income of the HFSF from the sale of the pre-emption rights and takes place following the sale.

With effect from 16 July 2022, the process for the disposal of all or part of the shares or other financial instruments of a credit institution held by the HFSF will be amended. The HFSF's Board of Directors shall prepare a reasoned divestment strategy, which includes the general programme of disposal of shares or other financial instruments of credit institutions held by the HFSF, as well as specific guidelines for each credit institution, taking into account the specific characteristics of the HFSF's participation in such credit institution. The divestment strategy observes free competition principles and is governed, indicatively and not exhaustively, by the following principles: (a) the financial and operational viability of the credit institution; (b) market conditions, macroeconomic conditions, and conditions applying to the credit sector; (c) the reasonably expected impact of the divestment strategy on Greece's financial sector, markets and wider economy; (d) the observance of the principle of transparent action; (e) the need to draw up a timetable for the implementation of the divestment strategy, taking into account, *inter alia*, the HFSF's duration; (f) the need to dispose of the HFSF's participations in a reasonable and timely manner; and (g) the need to restore a purely private shareholding structure in the Greek banking sector. The divestment strategy includes provisions indicative of the following: (i) the appropriate competitive bidding procedures and participation conditions; (ii) the requirements of transparency and compliance with capital markets legislation; and (iii) the potential disposal methodologies.

The HFSF's Board of Directors may consult with any institutions it deems appropriate on matters relating to the divestment strategy, including credit institutions, ensuring the confidentiality of such consultations and the applicable market abuse regulations. In order to take the decision to adopt the divestment strategy, the HFSF's Board of Directors entrusts the preparation of a report to an independent financial adviser with international reputation and experience in relevant matters ("strategic divestment adviser"). The role of a strategic divestment adviser is incompatible with the role of the disposal adviser, as explained below. The divestment strategy is subject to the previous consent of the Ministry of Finance, which may request the prior opinion of the Bank of Greece. The divestment strategy is to be kept up to date. The Ministry of Finance notifies the HFSF on a quarterly basis of its views concerning the divestment strategy and its implementation. The HFSF is obliged to notify the Ministry of any concerns in writing, within ten (10) working days.

In order to take the decision to dispose of the shares or other financial instruments, the HFSF will be required to receive a report from an independent financial adviser, with international reputation and experience in relevant transactions ("disposal adviser"). The report is prepared in view of an envisaged disposal by a specific credit institution and includes at least the recommendation of the disposal adviser to the HFSF concerning the following matters: (a) proposal of a specific disposal transaction in accordance with the divestment strategy; (b) description and assessment of the prevailing market conditions; (c) a reasoned proposal of the most appropriate transaction structure. The report shall be accompanied by a reference timetable for the disposal of shares or other financial instruments. The report shall adequately justify the conditions and manner of disposal of the shares or other financial instruments held by the HFSF, as well as the necessary actions for the completion of the process and the observance of the schedule. The disposal adviser provides advisory support to the HFSF after the submission of its report, as well as at all stages of the transaction. The disposal of the HFSF's participation in each credit institution takes place in a manner consistent with HFSF's purposes. The mere fact that the disposal price is lower than the most recent market price or acquisition price by the HFSF is not sufficient on its own to postpone the adoption or implementation of the strategic disposal by the HFSF, without prejudice to any other provisions of the HFSF Law.

Concerning the selection of the disposal adviser, the Ministry of Finance provides its opinion to the HFSF based on a list of at least three (3) candidates, which is submitted by the HFSF. The HFSF ensures, by taking all reasonable measures, the avoidance of conflicts of interest between the adviser and the HFSF. The disposal adviser enters into a contract including, among others, liability clauses in case of non-execution or incomplete execution of his advisory work. For a period of one (1) year from the expiration of the above contract, the disposal adviser is prohibited from providing consulting services to any third party or entity on any issue relating to the content of the divestment strategy.

The disposal price of the shares and pre-emption rights held by HFSF will be determined by HFSF's Board of Directors based on a valuation report submitted to the HFSF by the disposal adviser as part of its obligation to provide advisory services to the HFSF at all stages of the transaction implementation, as well as an additional valuation report produced by an independent financial adviser with reputation and experience in the valuation of credit institutions and in accordance with the aforementioned reports of the disposal adviser and the strategic divestment adviser. The role of such independent financial adviser will not be incompatible with the role of the strategic divestment adviser.

### Cabinet Act No. 44/5.12.2015

Cabinet Act No. 44/5.12.2015, issued under Article 6a(11) of the HFSF Law, as amended by virtue of both Greek Laws 4340/2015 and 4346/2015, replaced Cabinet Act No. 11/11.4.2014.

Cabinet Act No. 44/5.12.2015 determines the procedure for the appointment by the Bank of Greece of a valuer for the valuation of the assets and the liabilities of the credit institution in case of and prior to the implementation of the burden sharing measures of Article 6a of the HFSF Law, as well as the content and purpose of such valuation.

The aforementioned act further specifies the details for the implementation of the mandatory measures of Article 6a of the HFSF Law, as in force and the details for the determination of any compensation claimed by the holders of the capital instruments and liabilities subject to the mandatory burden sharing measures of Article 6a of the HFSF Law, as in force.

## Voting Rights

The HFSF shall fully exercise the voting rights attached to the shares it subscribed for in its capital support, following the amendment of the HFSF Law by Greek Law 4340/2015, as in force. Currently, the HFSF is entitled to exercise the voting rights with the limitations set out below in the following cases:

- (a) for the shares taken by the HFSF during its first participation in the recapitalisation of credit institutions in 2013, when certain limitations applied with regards to the HFSF's voting rights due to the private sector participation in the said increase being at least 10 per cent. of the amount of the share capital. Since the involvement of the private sector fell short of 10 per cent. the HFSF could exercise without any limitation its voting rights with regards to its participation in the relevant systemic bank; and
- (b) for the shares acquired during the period when the HFSF contributed to the recapitalisation of credit institutions under conditional voting rights, but said restrictions did not apply due to the failure to reach the required percentage of private sector involvement. These restrictions on the HFSF's voting rights apply, provided that private participation in the first share capital increase, following the effective date of Greek Law 4254/2014, as in force, which amended the HFSF Law, as in force, was at least equal to 50 per cent.

For the shares mentioned under (a) and (b) above, the HFSF may vote in the general meeting of shareholders of the credit institution concerned only for decisions amending the articles of association, including capital increases or capital decreases or the provision of the relevant authorisation to the Board of Directors, merger, division, conversion, revival, extension of term or dissolution of the credit institution, asset transfer, including the sale of subsidiaries, or for any other subject matter that requires an increased majority, as provided for by Greek Law 4548/2018, as in force. For the purposes of calculating both the quorum and the majority at such general meeting, these shares are not taken into account when deciding on matters other than the above issues.

Even in cases where the above-mentioned restrictions are in force the HFSF will fully exercise the voting rights attached to those shares under points (a) and (b), without the above-mentioned restrictions, as long as it is established by a decision of the General Council of the HFSF that the credit institution concerned has failed to fulfil material obligations provided for in the restructuring plan or which promote its implementation or described in the New RFA, as amended and in force.

Any disposal of shares by the HFSF to private sector investors that takes place, either pursuant to the sale of the HFSF's participation or following the exercise of warrants issued by the HFSF, shall be deemed to result in a reduction in the participation of the HFSF with regards first to the shares upon which the HFSF exercises limited voting rights.

With effect from 16 July 2022, the HFSF shall be entitled to fully exercise all voting rights attached to any shares it holds, including shares it acquired in the context of capital support pursuant to Article 7 of the HFSF Law and any existing limitation to the exercise of HFSF's voting rights shall be repealed.

### Powers of the HFSF Representative

The HFSF is represented by one director on the board of directors of a bank having received capital from the HFSF according to the HFSF Law, as in force, as its representative. The HFSF representative has the following powers:

- to veto any decision of the credit institution's board of directors:
  - regarding the distribution of dividends and the remuneration and bonus policy concerning the chairman, the chief executive officer and the other members of the board of directors, as well as any person who exercised general manager's powers and their deputies, where the ratio of NPEs to total exposure, as calculated for the purposes of Article 11(2)(g)(ii) of the Implementing Regulation (EU) 2021/451 of the Commission 17 December 2020 (the "2020 Implementing Regulation"), exceeds 10 per cent.; or
  - in relation to the amendment of the articles of association, including share capital increase or share capital decrease or the granting of a relevant authorisation the Board of Directors, merger, demerger, conversion, revival, extension of the period of existence or dissolution of the credit institution, transfer of assets, including sale of its subsidiaries, or for any other matter for which a qualified majority pursuant to Greek Law 4548/2018 is required and which can have a significant effect on the HFSF's participation in the credit institution's share capital;
- to request an adjournment of any meeting of the credit institution's board of directors for three business days, until get instructions are given from the HFSF's Managing Directors (such right may be exercised until the end of the board of directors meeting); and
- to call a meeting of the credit institution's board of directors.

In exercising its rights, the HFSF representative takes into account the business autonomy of the credit institution.

The HFSF has free access to the books and records of the credit institution through executives and consultants of its choice.

#### General

During the participation of the HFSF in the share capital of credit institutions, such credit institutions cannot buy their own shares without the HFSF's approval.

The HFSF may additionally provide guarantees to countries, international organisations or others, and in general proceed with any necessary action for the implementation of decisions of the Eurozone bodies in connection with the support of the Greek economy. The HFSF may provide guarantees to the credit institutions of Article 2(1) of the HFSF Law and grant security on its assets for the fulfilment of its obligations from such guarantee as well as a loan to the HDIGF, guaranteed by the credit institution that participates in the HDIGF *pro rata* to their contributions either to the Resolution Fund or the Deposits Coverage Bench, as the case may be. The Minister of Finance by a decision may provide for any necessary detail for the implementation of the above.

In case the ratio of NPEs to total exposure, as calculated for the purposes of Article 11(2)(g)(ii) of the 2020 Implementing Regulation, exceeds 10 per cent., and in any event until the end of the 2022 financial year, the fixed remuneration components of the chairman, the chief executive officer and the other members of the board of directors, as well as those who have the role or perform the duties of general manager, as well as their deputies, may not exceed the total fixed remuneration of the Governor of the Bank of Greece. No additional variable remuneration components shall be paid to the aforementioned persons throughout the period of the restructuring plan submitted to the European Commission for approval and until its implemention or as long as the ratio of non-performing exposures to total exposure, as calculated for the purposes of Article 11(2)(g)(ii) of the 2020 Implementing Regulation, exceeds 10 per cent. or until the end of the financial year 2022. Similarly, as long as the institution participates in the capital support program set out in Article 7 of the HFSF Law, the variable remuneration components shall only take the form of shares or stock options or other instruments within the meaning of Articles 52 or 63 of CRR, pursuant to Article 86 of the Greek Banking Law.

## **PSI Programme**

Within the context of implementation of the PSI Programme, a number of legislative and regulatory acts were enacted. Initially, Greek Law 4046/2012 which was enacted on 14 February 2012 aimed to enable the voluntary bond exchange between the Hellenic Republic and certain private sector investors, as described in the statement of the Euro Summit dated 27 October 2011.

Greek Law 4050/2012 on the rules for the amendment of debt securities issued or guaranteed by the Hellenic Republic with the bondholder's agreement, which became effective on 23 February 2012, introduced the legal framework for the amendment of eligible securities, governed by Greek law and issued or guaranteed by the Hellenic Republic by the introduction of retroactive collective action clauses and their exchange with new securities. Pursuant to said law, the proposed amendments would be considered approved by the bondholders, if bondholders of at least 50 per cent. in aggregate principal amount of the eligible securities participate in the modification process set out in the relevant invitation and at least two-thirds of the participating principal of the participating bondholders consent to the proposed modification. Finally, by virtue of said law the Ministerial Council was authorised to decide the specific terms for the implementation of the above transactions and subdelegate the PDMA to issue invitations to the bondholders to amend and exchange the eligible debt securities with new securities.

The implementation of Ministerial Council Act No. 5 dated 24 February 2012 provided for the redemption of the eligible securities governed by Greek law, in exchange for new securities issued by the Hellenic Republic and the EFSF and governed by English law, set the specific terms of the process, defined the eligible debt

securities governed by Greek law and issued prior to 31 December 2011 and specified the basic terms governing the new securities to be issued and exchanged.

Furthermore, the PDMA issued an invitation to the bondholders of the eligible debt securities, governed by both Greek and non-Greek law, seeking their consent for the amendment of the terms governing the eligible debt securities proposed by the Hellenic Republic in exchange for new securities issued by the Hellenic Republic and the EFSF and governed by English law and specified the terms of the process. The invitations, according to Greek Law 4050/2012, included, among others, terms relevant to: the eligible bonds and other terms such as subdivisions of the bonds, the proposed amendments, grace period, currency, terms and methods of payment, repayment and repurchase, termination reasons, negative obligations of the Bank (negative pledges), rights and obligations of the trustee acting for the bondholders, etc.

Finally, the Ministerial Council Act No. 10 dated 9 March 2012 approved and ratified the decision of the Bondholders of the eligible debt securities governed by Greek law to consent to the proposed amendments in accordance with the applicable legal framework, as such consent was confirmed by the Bank of Greece, in its capacity as process manager. Pursuant to Greek Law 4050/2012, following publication of the above approving decision of the Ministerial Council, the proposed amendment became binding on all holders of eligible debt securities and supersedes all contrary provisions of Greek law, regulatory acts or contractual terms.

The PDMA also issued parallel invitations to holders of designated securities issued or guaranteed by the Hellenic Republic and governed by a law other than Greek law, to consent to the amendment of the terms of such designated securities and exchange them for new securities issued by the Hellenic Republic and the EFSF and governed by English law, in accordance with the terms of the invitation and the law and contractual terms governing said designated securities.

Subsequently, with Ministerial Decision No. 2/20964/0023A the details for the implementation of the amendment of the terms of the eligible securities and the issue of new securities were decided.

## **Debt Buy-Back**

The PDMA announced the terms of the buy-back on 3 December 2012.

The offer entailed the exchange of 20 designated bonds which were issued by the Hellenic Republic within the framework of the PSI and were governed by English law (of a total outstanding nominal amount of €62 billion), for up to €10 billion aggregate principal amount of 6-month, zero-coupon, EFSF notes governed by English law, under a separate modified Dutch auction for each series of designated bonds. The purchase prices set in the modified Dutch auction ranged between 30.2 per cent. and 40.1 per cent. depending on the designated bonds' maturity.

More particularly, for each €1,000 principal amount of a designated bond, the bondholder would receive: (a) EFSF notes with a principal amount equal €1,000 multiplied by the purchase price (expressed as a percentage to be applied to the principal amount of the relevant designated bond) selected by the Hellenic Republic for that series of designated bonds under the modified Dutch auction; and (b) EFSF notes with the principal amount equal to the amount of the accrued unpaid interests to but excluding the settlement date on that series of designated bonds (subject to rounding).

The exchange was settled on 11 December 2012 and the Hellenic Republic finally exchanged €11.3 billion value of EFSF notes for €31.8 billion value of designated bonds, resulting in a reduction of the debt to GDP ratio by 9.5 per cent., below the originally targeted 11 per cent.

#### **Interest Rates**

Under Greek law, interest rates applicable to bank loans are not subject to a legal maximum, but they must comply with certain requirements intended to ensure clarity and transparency, including with regard to their readjustments. Specifically, the Act of the Governor of the Bank of Greece No. 2501/31.10.2002 regarding customer information requirements on the terms of their transactions with credit institutions provides that credit institutions operating in Greece should, among other things, determine their interest rates in the context of the open market and free competition rules, taking into consideration the risks undertaken on a case-by-case basis, potential changes in the financial conditions and data and information specifically provided by counterparties for this purpose.

Furthermore, the Decision of the Banking and Credit Committee of the Bank of Greece No. 178/3/19.7.2004 clarifies the Acts of the Governor of the Bank of Greece Nos. 1087/1987, 1216/1987, 1955/1991, 2286/1994, 2326/1994 and 2501/2002 concerning the determination of interest rates and customer information by credit institutions. Specifically, this decision expressly provides that the determination of the maximum limit for banking interest rates by administrative authorities, or their correlation with the maximum limit for non-banking interest rates, is not compatible with the principles governing the monetary policy of the European central bank system. Banking interest rates are freely determined taking into consideration the estimated risks on a case-by-case basis, the conditions on financial markets from time to time and the general obligations of the banks from the provisions governing their operation.

Limitations apply to the compounding of interest. In particular, the compounding of interest with respect to bank loans and credits only applies if the relevant agreement so provides and is subject to limitations that apply under Article 30 of Greek Law 2789/2000, as in force and Article 39 of Greek Law 3259/2004, as in force. It is also noted that with respect to interest of loans and other credits, Greek credit institutions must also apply Article 150 of Banking Law, which, notwithstanding the accounting treatment under the applicable accounting standards, precludes credit institutions to account for interest income from loans which are overdue for more than a 3-month period, or six months in the case of loans to natural persons secured by real estate.

Moreover, according to Article 150(2) of Banking Law it is prohibited to grant new loans for the repayment of overdue interest or to enter into debt settlement having a similar result, unless such actions are taken in the context of an agreement for the settlement of the entirety of the debts of the borrower, which shall be based on a detailed examination of the borrower's capacity to fulfil the undertaken obligations under specific timeframes. Furthermore, compounding of interest is prohibited unless provided so in the initial relevant agreement of a medium-long term financing or in the relevant debt settlement agreement.

# **Secured Lending**

According to Article 11 of Banking Law, among the activities that Greek credit institutions are permitted to engage is lending including, *inter alia*: consumer credit, credit agreements relating to immovable property, factoring, with or without recourse, and financing of commercial transactions (including forfeiting).

The provisions of legislative decree 17.7/13.08.1923 regulate issues regarding the granting of loans secured by in rem rights and Greek Law 3301/2004, as amended and in force, regulates issues regarding financial collateral arrangements.

Mortgage lending is extended mostly on the basis of mortgage pre-notations, which are less expensive and easier to record than mortgages and may be converted into full mortgages upon final non-appealable court judgment.

Directive 2014/17/EU on credit agreements for consumers relating to residential immovable property lays down a common framework for certain aspects of the laws, regulations and administrative provisions of the Member States concerning agreements covering credit for consumers secured by a mortgage or otherwise relating to

residential immovable property, including an obligation to carry out a creditworthiness assessment before granting a credit, as a basis for the development of effective underwriting standards in relation to residential immovable property in the Member States, and for certain prudential and supervisory requirements, including for the establishment and supervision of credit intermediaries, appointed representatives and non-credit institutions. Greece transposed Directive 2014/17/EU into national legislation by means of Greek Law 4438/2016 (Government Gazette issue A' 220/28.11.2016).

## **Relationship Framework Agreement**

For the realisation of the objectives and the exercise of the rights of the HFSF, the HFSF determines the relationship framework agreement or the amended relationship framework agreement, as the case may be, with all credit institutions that are or have been beneficiaries of financial assistance provided by the EFSF and the ESM. Moreover, the HFSF exercises the special rights stemming from relevant relationship framework agreements concluded under Article 6, paragraph 4 of the HFSF Law in the beneficiary credit institution that emerged through the transfer of the banking sector, via partial demerger or spin-off, in the context of a corporate transformation governed by Greek Law 4601/2019 of the credit institution that has received capital support from the HFSF. The credit institutions that are parties to such relationship framework agreement provide to the HFSF all information that the EFSF or the ESM might reasonably ask for, with a view to the HFSF transmitting such information to the EFSF or the ESM, except if the HFSF informs the credit institutions that they are under the obligation to transmit said information directly to the EFSF or the ESM.

Alpha Holdings and the HFSF have entered into a Relationship Framework Agreement (the "RFA"), in accordance with the provisions of the Memorandum of Economic and Financial Policies and the provisions of the HFSF Law. The RFA was originally entered into force on 12 June 2013 but was subsequently replaced by a new RFA (the "New RFA") entered into on 23 November 2015. In the context of the Hive Down, the New RFA was transferred to the Bank as part of such banking sector. There is an obligation to negotiate in good faith with the HFSF any amendments to the New RFA in order to preserve the rights of the HFSF at both the level of Alpha Holdings and the Bank subject to applicable law.

In addition to the above-mentioned powers, by virtue of the New RFA and for the period which the HFSF holds shares of Alpha Holdings, the HFSF's appointed representative on the Board of Directors of the Bank has the power, among other things, to include items in the agenda of the General Meeting of their ordinary shareholders, of their Board of Directors and of their committees in which the representative participates. The same rights are given in relation to both Alpha Holdings and the Bank under the HFSF Law. In addition, in accordance with the New RFA, the HFSF's Representative is appointed as a member of each of the Board Committees (including in the Audit, Risk Management, Remuneration, Corporate Governance and Nominations Committee). Such HFSF's Representative has the right to include items in the agenda of the meetings of the committee in which he participates and to request the convocation of such committee within seven (7) days of his written request to the chairman of the relevant committee. The HFSF has also appointed an observer who will participate in all Committees of Alpha Holdings and the Bank (but will have no voting rights), as well as in the Board of Directors of Alpha Holdings and the Bank.

Under the New RFA, the Bank's decision-making bodies will continue to determine independently their day-to-day business, commercial strategy and policy. The New RFA remains in force for as long as the HFSF holds shares in Alpha Holdings, irrespective of the percentage of its holding. The New RFA may be amended pursuant to the HFSF Law, as in force.

The HFSF may grant a "resolution loan" (as defined in the Financial Facility Agreement of 19 August 2015) to the HDIGF for the purposes of funding bank resolution costs, subject to the provisions of the above-mentioned Financial Facility Agreement and in compliance with EU rules on state aid. For the repayment of such loan the credit institutions participating in the HDIGF are liable as guarantors at the ratio of their contribution either in the resolution scheme or in the deposit guarantee scheme, as the case may be. The amount, the time and the

manner of drawdown on such loan, as well as any other necessary matter in connection therewith, are determined on an ad hoc basis by a decision of the Minister of Finance, following a request by the HDIGF and the opinion of the Bank of Greece.

#### **Restrictions on the Use of Capital**

The compulsory commitments framework of the Bank of Greece is in line with Eurosystem regulations. Reserve ratios (the level of minimum deposits that credit institutions are required to hold on account with their national central bank, which is calculated in accordance with Regulation (EU) 2021/378 of the European Central Bank of 22 January 2021 on the application of minimum reserve requirements (recast) (ECB/2021/1), repealing as of 26 June 2021 Regulation (EC) 1745/2003 of the ECB of 12 September 2003 on the application of minimum reserves (ECB/2003/9) are determined by category of liabilities at 1 per cent. for all categories of liabilities comprising the reserve base, with the exception of the following categories to which a zero ratio applies:

- deposits with agreed maturity over two years;
- deposits redeemable at notice over two years;
- repos; and
- debt securities with agreed maturity over two years.

This requirement applies to all credit institutions.

### **Restrictions on Enforcement**

According to Greek Law 4224/2013 and the Cabinet Act No. 6 of 17 February 2014, as amended by Cabinet Act No 20 of 14 August 2015 and replaced by Greek Law 4389/2016 (art. 72 to 98), as amended and in force, an intergovernmental Council for the Management of Private Debt was established (the "Council"). The Council is composed of the Ministers of Finance, Development and Tourism, Justice, Transparency and Human Rights, Labour, Social Security and Welfare, and Finance and introduces and monitors the necessary actions for the creation of a permanent mechanism for the resolution of the non-serviced/performing private debt of individuals, legal entities and undertakings.

Moreover, according to the provisions of Greek Law 4224/2013, as amended and in force, the Council provided a definition of "cooperating borrower" specifying when a borrower is classified as cooperating towards his/her lenders and assessed a methodology for determining "reasonable living expenses". A "debtor" is considered cooperating if: (i) it provides its creditor with its own or its representative's full and up-to-date contact details; (ii) it is available to communicate with its creditor and reverts with honesty and clarity on its creditor's calls and letters within 15 business days; (iii) it notifies its creditor fully and honestly of its current economic condition within 15 business days from any change thereto or from the relevant creditor's request; (iv) it communicates fully and honestly to its creditor any information that may significantly impact its economic condition within 15 business days from the date it obtained such information; and (v) it consents to explore any alternative options for the restructuring of its debt.

Greek Law 4224/2013, as in force, in conjunction with ministerial decision no. 5921/2015, provides that the consumer ombudsman will act extra judicially as mediator solely for the amicable settlement of the dispute between lenders and borrowers for the purpose of settling non-accruing loans within the framework of the Banks' Code of Conduct for the management of non-accruing loans.

Bank of Greece has published a new regulatory framework concerning the management of loans in arrears and non-accruing loans and specifically:

- Executive Committee Act No. 42/30.5.2014, as amended by Executive Committee Acts No. 47/9.2.2015 and No. 102/30.08.2016 determined the framework of obligations of the credit institutions in relation to the administration of loans in arrears and NPLs, providing for an independent unit of each credit institution for the administration of such loans, the establishment of a separate procedure for the administration thereof supported by appropriate IT systems and periodic filing of reports to the management of the credit institutions and the Bank of Greece; and
- Executive Committee Act No. 42/30.5.2014 was supplemented by Credit and Insurance Committee Decision No. 116/1/25.8.2014 of the Bank of Greece "Introduction of a Code of Conduct" under Greek Law 4224/2013, as further amended by Credit and Insurance Committee Decision No. 148/10/05.10.2015 and as revised by Credit and Insurance Committee Decision No. 195/1/29.07.2016, as in force regarding the Revision of the Code of Conduct under Greek Law 4224/2013 (the "Code of Conduct").

Executive Committee Act No. 42/30.5.2014, as in force, lays down a special framework of requirements for credit institutions' management of past due and non-accruing loans, in the framework of the provisions of Banking Law, CRR and the relevant Bank of Greece decisions. This framework imposes, among other things, the following obligations on credit institutions:

- (i) to establish an independent arrears and NPLs management ("ANPLM") function;
- (ii) to develop a separate, documented ANPLM strategy, the implementation of which will be supported by appropriate management information systems and procedures; and
- (iii) to establish regular reporting to the management of the credit institution and the Bank of Greece.

The Code of Conduct lays down general principles of conduct and introduces best practices, aimed to strengthen the climate of confidence, ensure engagement and information exchange between borrowers and lending institutions, so that each party can weigh the benefits or consequences of alternative forbearance or resolution and closure solutions for loans in arrears for which the loan agreement has not been terminated, with the ultimate goal of working out the most appropriate solution for the case in question. The Code of Conduct is applied by credit institutions supervised by the Bank of Greece, as well as by all financial institutions of Article 4 of the CRR and by Receivables Management Companies and Receivables Acquisition Companies of Greek Law 4354/2015 ("Receivables Law"), as in force. Furthermore, the debtors subject to the Code of Conduct may be natural persons, professionals or enterprises, regardless of their legal form.

Each institution falling within the framework of the Code of Conduct has to implement, *inter alia*, an Arrears Resolution Procedure (hereinafter "ARP"), a detailed record with categorisation of loans and borrowers, in which the details of the examination procedure of the objections are recorded, and to establish an Objections Committee composed of at least three of its senior executives.

In dealing with cases of borrowers in arrears or pre-arrears, every institution shall apply an ARP involving the following steps:

- Step 1: Communication with the borrower
- Step 2: Collection of financial and other information
- Step 3: Assessment of financial data
- Step 4: Proposal of appropriate solutions to the borrower
- Step 5: Objections review procedure

It should be noted that the Bank of Greece will not deal with individual cases of disputes between creditors and borrowers that may arise from the implementation of the Code of Conduct. Furthermore, Articles 1 to 3 of Receivables Law, as replaced by Article 70 of Greek Law 4389/2016 and as further amended by Greek Laws 4393/2016, 4472/2017, 4549/2018 and 4701/2020, as well as Executive Committee Act No. 118/19.5.2017 of the Bank of Greece, as amended and in force, establish the framework for the management and transfer of claims from loans that can include NPLs by setting the requirements for the operation of loan management companies and loan transfer companies.

On 20 March 2017, the ECB published final guidance on NPLs. The guidance outlined measures, processes and best practices which banks should incorporate when tackling NPLs. Moreover, on 15 March 2018, the ECB published an addendum to the ECB's guidance to banks on NPLs. The addendum supplemented the qualitative NPL guidance and specified the ECB's supervisory expectations for prudent levels of provisions for new NPLs.

Under Ministerial Decision 2/94253/0025 as published in Government Gazette 5960/08.01.2018, credit institutions and borrowers (natural persons and businesses) may settle their loans under Article 103 of Greek Law 4549/2018, as recently amended by Greek Law 4597/2019, which are guaranteed by the Greek state, in accordance with the provisions of Greek Laws 2322/1995 and 4549/2018 and their delegated ministerial decisions without the intervention of the Greek state.

Specific restrictions on enforcement against an individual debtor's primary residence may apply following a debtor's submission to recently introduced Greek Law 4605/2019 (published in Government Gazette No. 52/01.04.2019) as adopted by the Greek Parliament on 29 March 2019. For a detailed description, see "— Settlement of amounts due by over-indebted individuals under Greek Law 3869/2010—protection of main residence of the debtor".

#### Management and/or transfer of loans

The Receivables Law, in conjunction with Executive Committee Act No. 118/2017 of the Bank of Greece, as amended and in force, provides the framework for the management and the transfer of receivables from both performing and non-performing loans and credits.

According to Article 1(1) of the Receivables Law, the management of receivables stemming from loan agreements and credits that have been granted by credit or financial institutions is only assigned to (a) *société anonymes* of a special and exclusive purpose established in Greece; and (b) entities domiciled in a Member State of the European Economic Area, provided that they have a permanent establishment in Greece through a branch with the purpose of managing claims from loans and credits.

The above entities shall obtain a special licence from the Bank of Greece, subject to governance and organisational requirements imposed by the Receivables Law and shall be subject to the supervision of the Bank of Greece. These entities are further registered with special registries held with the General Commercial Registry and are governed by the provisions of the Receivables Law and the Greek Law 4548/2018, as amended and in force. Moreover, the application to the Bank of Greece for the granting of the special licence referred to above must be accompanied with certain information including, *inter alia* (a) the articles of association of the applicant company, as amended and in force, (b) the identity of the natural or legal persons holding directly (or indirectly, namely by exercising control through intermediary legal entities), a participation percentage or voting rights equal to or more than ten per cent. of the applicant company's share capital, (c) the identity of the natural or legal persons who, although not falling under (b) above, exercise control over the company through a written agreement or otherwise or by acting jointly, (d) the identity of the members of the board of directors or management, (e) certain questionnaires filled in by the shareholders and the directors of the applicant company in order to assess their capacity and suitability for this position ('fit-and-proper' test), (f) the organisational chart and internal documented procedures of the applicant, (g) the applicant's business plan and (h) a detailed report recording thoroughly the main methods and principles ensuring the successful reorganisation of the loans.

Irrespective of the above, the Bank of Greece may request any additional information that it considers important for the assessment of the application. The shares of the applicant company shall be registered shares.

Under the Receivables Law, the transfer of claims from loan agreements and credits that have been granted by credit or financial institutions can only take place by way of sale by virtue of a relevant written agreement and only to the following entities which:

- (i) are *société anonymes* that according to their articles of association may acquire claims from loans and credits, have their registered seat in Greece and are registered with the General Commercial Registry;
- (ii) are domiciled within the EEA, which according to their articles of association may proceed to the acquisition of claims from loans and credits, subject to the EU legislation.; or
- (iii) are domiciled in third countries, which according to their articles of association may proceed to the acquisition of claims from loans and credits, subject to the EU legislation and have the discretion to be established in Greece through a branch, provided that: (i) their registered seat is not located in a state having a privileged tax regime, as such term is determined in the regulatory acts issued from time to time pursuant to Greek Law 4172/2013, as in force ("Greek Income Tax Code") and (ii) their registered seat is not located in a non-cooperative state, as such term is determined in the regulatory acts issued from time to time pursuant to the Greek Tax Income Code.

The purchase of the aforementioned receivables is valid only to the extent that a relevant management agreement has been entered into between an entity falling within one of the categories under (a), (b), or (c) above and an entity for the management of claims that has been licensed and is supervised by the Bank of Greece pursuant to the Receivables Law. Entering into a management agreement is always required for every subsequent transfer of such receivables.

The Executive Committee Act No. 118/19.05.2017 of the Bank of Greece, as amended by the Executive Committee Acts No. 153/08.01.2019 and 179/06.11.2020 of the bank of Greece, and as may be further amended from time to time, sets out in detail the rules on the establishment and operation of companies acquiring and/or managing receivables from loans and credits under the Receivables Law.

The aforesaid Act lays down in detail the procedure for the granting of a licence to these companies, the prudential supervision requirements, as well as the main principles for the organisation and corporate governance of the aforementioned entities, including the data and report to be submitted to the Bank of Greece on a periodic basis, the fees to be paid to the Bank of Greece, as well as the liabilities of credit institutions which assign the management or transfer receivables under the Receivables Law.

# **Solvency II**

Directive 2009/138/EC on the taking-up and pursuit of the business of Insurance and Reinsurance ("Solvency II") of 25 November 2009, is a fundamental review of the capital adequacy regime for the European insurance sector business. The Solvency II Directive was amended by Directive 2014/51/EU of the European Parliament and of the Council of 16 April 2014 (the "Omnibus II Directive") (jointly referred to as the "Solvency II framework"), and supplemented by the Delegated Regulation (Delegated Regulation (EU) 2015/35) containing implementing rules for Solvency II, as well as Delegated Regulation 2016/467, amending Commission Delegated Regulation (EU) 2015/35, concerning the calculation of regulatory capital requirements for several categories of assets held by insurance and reinsurance undertakings. Greece transposed the Solvency II framework by virtue of Greek Law 4364/2016, which sets out the regulatory requirements for insurance and reinsurance undertakings operating in Greece, the relevant supervisory regime and the resolution and liquidation framework for insurance undertakings.

Solvency II repealed the previously applicable regime under Solvency I and is aimed at creating a new solvency framework under which the financial requirements that apply to an insurance company, reinsurance company and insurance group better reflect such company's specific risk profile. Solvency II introduces economic risk-based solvency requirements across all Member States for the first time. While Solvency I included a relatively simple solvency formula based on technical provisions and insurance premiums, Solvency II introduces a new "total balance sheet" type regime where insurers' material risks and their interactions are considered. In addition to these quantitative requirements ("Pillar I"), Solvency II also sets requirements for governance, risk management and effective supervision ("Pillar II"), and disclosure and transparency requirements ("Pillar III").

Pursuant to Pillar I, specific risk-based solvency capital requirements are introduced and the insurers are required to hold capital against market, credit and operational risk. Law 4364/2016, as amended and in force, sets out specific rules for the calculation of own funds, the valuation of assets and liabilities and the valuation of technical provisions. In particular, with respect to own funds calculation, the resources held by insurance or reinsurance companies must be sufficient in order to cover both a Minimum Capital Requirement ("MCR") and a Solvency Capital Requirement ("SCR"). The SCR shall be calculated on the basis of the company's assets and liabilities, either by using a standard model or by developing an internal model adjusted to the needs of each company following approval by the supervisory authority (i.e. the Bank of Greece).

Pursuant to Pillar II, strict requirements with regard to identification, measurement and proactive management of risks have been established through the introduction of "Own Risk and Solvency Assessment" ("ORSA"). ORSA shall be used for the valuation and assessment of risks that may be incurred by an insurance or reinsurance company depending on its risk profile and their impact on the company's solvency. An internal risk management control system shall also be introduced in the daily functions of insurance and reinsurance companies and the companies shall be required to report the way in which they undertake the risk management exercise and demonstrate how this affects their business activity and decision making procedures. Outsourcing of insurance or reinsurance activities to individuals or legal persons is permitted (subject to certain exceptions), but it does not discharge the company from its civil, penal, administrative and other obligations that are set out in Law 4364/2016.

Pursuant to Pillar III, an extensive and detailed reporting of financial and risk information is required to facilitate the supervisory review process through which the supervisor shall evaluate insurers' and reinsurers' compliance with the laws, regulations and administrative provisions adopted under the Solvency II framework and any implementing measures. In this context, the insurance and reinsurance undertakings are required to publish, on an annual basis, a report regarding their solvency and financial condition. Moreover, in the case of crucial developments that have affected their MCR or SCR, insurance or reinsurance companies may be required to disclose the amount of such variation and announce any corrective measures that they purport to apply.

The Bank of Greece, in its capacity as supervisory authority, is responsible for the proper operation of the insurance and reinsurance market and the implementation of the new regulatory framework on a preventive, corrective and suppressive basis. The Bank of Greece exercises financial supervision on insurance and reinsurance companies operating in Greece, in order to confirm their solvency in accordance with the provisions of Greek Law 4364/2016. Moreover, it evaluates, on a regular basis, the corporate governance principles applied by the supervised entities, their capital adequacy, including the quality and adequacy of own funds, their technical provisions, their risk assessment process and the companies' ability to identify risks and adjust the decision-making process accordingly. The Bank of Greece may request to be provided with any information that is considered necessary to exercise its powers and it may impose on the insurance and reinsurance companies additional capital requirements under exceptional circumstances, as set out under Article 26 of Greek Law 4364/2016.

### Derivatives Transactions—European Market Infrastructure Regulation

In order to address the roots of the financial crisis, the G20 countries committed to address risks related to the derivative markets. In order to make that commitment effective, the European Parliament and the European Council have adopted a regulation that requires OTC derivative contracts to be cleared, derivative contracts to be reported and sets a framework to enhance the safety of central clearing counterparties ("CCP") and for Trade Repositories ("TR"). Regulation (EU) No. 648/2012 ("EMIR") of the European Parliament and of the Council of Europe of 4 July 2012, on OTC derivatives, CCPs and TRs entered into force on 16 August 2012 and is directly applicable in all the Member States. EMIR has been supplemented by several Commission Delegated Regulations, including Regulations (EU) 148/2013 to 153/2013, 1002/2013 and 1003/2013, 285/2014, 667/2014, 2016/2251, 2017/104 and 2017/323. EMIR was amended by Regulation (EU) 2019/834, which applies as of 17 June 2019, with some exemptions.

## Extrajudicial debt settlement mechanisms

Extrajudicial debt settlement mechanism for businesses under Greek Law 4469/2017 (applications submitted until 30 April 2020)

Greek Law 4469/2017 provided for an extrajudicial procedure for settling debts towards any creditor, which derived from the debtor's business activity or other cause, *provided that* the settlement of those debts is considered vital by the participants in order to secure the debtor's business viability. Applications under the framework of Greek Law 4469/2017 could be submitted electronically to the Special Private Debt Management Secretariat ("EGDICH") by 30 April 2020 on the dedicated electronic platform in EGDICH's website.

The approval of the debt restructuring proposal required the debtor's consent and the formation of a majority of 3/5 of participating creditors, which includes 2/5 of participating creditors with special privilege.

The extrajudicial procedure is concluded by the execution of a debt restructuring agreement between the debtor and consenting creditors, otherwise the procedure is deemed unsuccessful. Certain specific types of claims and creditors whose claims do not exceed certain thresholds are excluded from the scope of this extrajudicial procedure and are not bound by the debt restructuring agreement. The debtor or a participating creditor may submit an application for ratification of the debt restructuring agreement to the Multi-Member Court of First Instance of the debtor's registered seat. The ratification decision is binding upon the debtor and all creditors, regardless of their participation in the negotiations of or their consent as to the debt restructuring agreement.

In case the debtor fails to pay any amount due to any of the creditors in accordance with the terms of the debt restructuring agreement for more than 90 days, the creditor has the right to request cancellation of the agreement towards all parties, by submitting a petition to the court which ratified the debt restructuring agreement, or, in case the debt restructuring agreement has not been ratified by a court, to the Multi-Member Court of First Instance of the debtor's registered seat.

It is noted that, when a debtor, who is deemed to be in a state of present or imminent inability to fulfil its financial obligations, has debts towards several credit or financial institutions or credit servicing firms under Greek Law 4354/2015, which have acquired or manage overdue receivables of that same debtor; such entities may cooperate to submit a common proposal to this debtor, in order to reach a sustainable solution. By means of joint ministerial decision no. 130060/29.11.2017, as applicable, a simplified procedure was introduced for businesses eligible to apply for an extrajudicial debt settlement mechanism under Greek Law 4469/2017, with total debt up to €300,000.

In case of a business debt settlement process pursuant to Greek Law 4469/2017, any individual and collective enforcement measures against the debtor, pending or not, for the satisfaction of claims, the settlement of which is pursued through the extrajudicial debt settlement, are automatically suspended for a 90-day period, starting from the date on which the invitation for participation in the procedure is sent by the coordinator to the creditors. The above suspension includes any request for preventive measures and the registration of a prenotation of mortgage, unless the taking of preventive measures aims at the prevention of the depreciation of the debtor's business due to the disposal of its assets. In case of non-completion of the extrajudicial procedure within the 90-day suspension period, due to extensions granted to creditors for the taking of actions, the

suspension of enforcement and preventive measures is extended until the completion of the extrajudicial procedure, and only with respect to those creditors. If an extension is requested after the 90 days have lapsed, the suspension applies to the creditor requesting the extension and for as long as that extension is in force. The above suspension ceases automatically in case: (i) the procedure is terminated without success due to lack of quorum or for any reason whatsoever, or (ii) a decision is taken by the majority of the participating creditors to that effect.

The out-of-court debt settlement process pursuant to the Insolvency Code (entry into force from 1 June 2021)

The new out-of-court debt settlement process pursuant to the Insolvency Code, which came into effect on 1 June 2021, replaces the procedure under the prior regime. Within the context of the out-of-court debt settlement process provided for by the Insolvency Code, individuals or legal entities, eligible to be declared bankrupt, may apply online to the Special Secretariat for Private Debt Management of Ministry of Finance through an electronic platform for the settlement of their debt towards: (a) financial institutions, including servicers, (b) the Greek state, and (c) social security institutions, subject to certain exemptions (e.g., a debtor may not file an application for the opening of an out-of-court debt settlement process in case 90% of its total debts is to a single financial institution). It is noted that investment service providers, undertakings for collective investment in transferable securities, alternative investment funds and their managers, credit, financial and (re-) insurance institutions constitute entities falling outside the scope of the Insolvency Code, and thus, may not apply as debtors for the opening of the out-of-court debt settlement process.

Creditors that are financial institutions may accept the invitation for debt settlement, and submit a settlement proposal to the debtor. Subsequently, a restructuring agreement is executed provided the debtor and the majority (60%) (in terms of the value of the relevant claims) of the participating creditors who are financial institutions and participating secured creditors representing at least 40% of the total secured claims of the financial institutions, consent. The results of such settlement apply to all financial institutions. If the proposal provides for debt settlement against the Greek state and social security institutions, such creditors are deemed to have automatically consented, subject to certain requirements being fulfilled.

The process may also be initiated by the creditor(s), at their own discretion, upon service of an invitation to the debtor to apply for the opening of such procedure within 45 days as of such invitation. The lapse of this period without the filing of a relevant application by the debtor terminates the process.

All actions under the Banks' Code of Conduct, *i.e.*, Act no. 195/2016 of the Governor of the Bank of Greece, issued under Article 1 of Greek Law 4224/2013, are automatically suspended as of the filing of the out-of-court debt settlement application and so long as such process is not terminated. As of the conclusion of a restructuring agreement all enforcement actions and measures, pending or not, are also automatically suspended, with the exemption of the auctions scheduled to take place within three (3) months as of the filing date of the application by the debtor and of any relevant preparatory procedural action of the auction by a secured creditor, including foreclosure. Should a restructuring agreement not be signed by the debtor and the participating creditors within (2) two months as of the application filing date, excluding the period from 1st to 31st August 2021, the process is terminated without success. The restructuring agreement can be terminated by any creditor whose claims are covered by the restructuring if the debtor is in default on the payment of an aggregate amount equal to either three payment instalments or 3% of the total amount due under the restructuring agreement. Termination of the restructuring agreement results in the reinstatement of the debtor's liabilities vis-à-vis the terminating creditor that become due and payable to the pre-settlement debt amount less any amount already paid under the settlement. Such termination does not affect the legal position of the debtor vis-à-vis other creditors covered by the restructuring.

It is noted that the performance of debts secured with a mortgage on the main residence of the debtor may be partially subsidised by the Greek state, subject to certain conditions. The subsidy is provided for five years, commencing on the application submission date. The subsidy requirements include, *inter alia*, a *de minimis* provision regarding the amounts owed to financing institutions, the Greek state and social security institutions (set at  $\epsilon$ 20,000), as well as a cap to the amounts owed to each creditor (set at a  $\epsilon$ 135,000 for individuals and a maximum of  $\epsilon$ 215,000 per household). Finally, under Article 30 of the Insolvency Code financial institutions have the option of cooperating as to their common debtors by establishing common policies regarding, indicatively, the conditions of processing and approval of applications, a procedure of automated processing, the establishing of notification mechanisms for clients susceptible to financial hardship. Additionally, financial

institutions have the option of amending the terms of loans guaranteed by the Greek State, indicatively with respect to their duration, interest rate, and the amount and frequency of instalments; without any quantitative increase of the guarantee liability and shall be applied otherwise and only in accordance with paragraphs 3 and 4 of Article 60.

Early warning mechanism and debtors' service centres (entry into force from 1 June 2021)

The Insolvency Code has introduced an early warning electronic mechanism for natural and legal persons, aiming to detect circumstances which could lead to their insolvency and creation of non-sustainable debts. The early warning mechanism, which is supervised by the Special Secretariat for Private Debt Management of Ministry of Finance, provides for the classification of debtor applicants into three risk levels (low, medium and high). Following the classification process, any natural person with no income from business or freelance activity classified as of medium or high risk, may contact the competent Borrowers' Service Centres or the Borrowers' Support Service Offices so that they receive free, specialised advice relating to the status of their debts and the possible settlement options under the Insolvency Code. The same applies for debtors with income from freelance activity and debtors with income from business activity, natural or legal persons, which can seek free, specialised advice by the respective Professional Chambers or Associations or Institutional Social Partners.

Settlement of business debts under Greek Law 4307/2014 and the Insolvency Code.

Greek Law 4307/2014 provided for urgent interim measures for the relief of private debt, especially the settlement of debt of viable small businesses and professionals towards financing institutions (namely credit institutions, leasing and factoring companies, supervised by the Bank of Greece), the Greek state and social security institutions, as well as for emergency procedures for the rehabilitation ("εξυγίανση" in Greek) or liquidation of operating over-indebted but viable businesses, provided certain pre-conditions were met. In particular, this law introduced provisions on: a) incentives to small businesses and professionals, as well as to financing institutions for the settlement/write-off of private debt; b) debt relief and settlement of small businesses and professionals to the Greek state and social security institutions; c) an extraordinary debt settlement process as to corporate debts (binding on all creditors); d) an extraordinary special administration process; and e) the establishment of a committee to monitor and coordinate the implementation of the measures adopted with a view to their rapid and effective implementation.

Natural or legal persons with bankruptcy capacity and their centre of main interests in Greece, including small businesses and professionals, could file an application for the opening of an extraordinary debt settlement process. In particular, such debtors, could file a petition to the competent court (the Single-member Court of First Instance of the debtor's centre of operations) for the settlement of their debts, *provided that* their creditors consent and the petition is filed along with a restructuring agreement co-signed by such creditors. The law provides that the consenting creditors should represent at least 50.1% of the total claims, including at least 50.1% of secured creditors with *in rem* security rights or special privilege or with any other form of security right resulting from a security agreement over assets on 30.06.2014 (*i.e.*, pledge, assignment of claim, pledge under the provisions of Greek Law 2844/2000, or prenotation of mortgage), including at least two financing institutions, if the debtor has been financed by more than one financing institution, and such creditors should represent (at least) 20% of such debtors' total liabilities, in accordance with the Greek General Accounting Plan (presidential decree no. 1123/1980) or in accordance with International Accounting Standards.

If ratified by the court, the restructuring agreement was binding on all creditors, and a 12-month suspension of collective enforcement measures, including the debtor's declaration of bankruptcy, was imposed by law, starting from the publication of the said decision. If provided for in the restructuring agreement, any (individual or collective) actions could be suspended for a maximum duration of three months, starting from publication of the court's ratification decision. The deadline for filing such applications lapsed on 31 March 2016.

Additionally, Greek Law 4307/2014 provided for an extraordinary special administration process, with regard to natural persons or legal entities with bankruptcy capacity, that have their centre of main interests in Greece are, among other conditions, unable to repay their due debts in a general and permanent manner. This process intended to facilitate the sale of the debtor's business as a going concern, or the sale of individual business sectors and of individual assets, which do not constitute business sectors.

However, as of 1 March 2021 Articles 68 to 77 of Greek Law 4307/2014 on special administration proceedings have been repealed by the Insolvency Code. As of that date, new applications for the opening of special administration proceedings may no longer be submitted under Greek Law 4307/2014, which will, however, continue to apply to proceedings pending before the entry into effect of the Insolvency Code, unless otherwise expressly provided by the Insolvency Code. By virtue of a decision of the special administration creditors' meeting, which is to be convened by an invitation of the special administrator, the special administration proceedings may be exceptionally subjected to the Insolvency Code. In such event, the provisions of the equivalent procedural stage of the Insolvency Code will govern such proceedings by way of analogy and the special administrator will exercise the duties and responsibilities that are entrusted to the bankruptcy trustee as per the Insolvency Code.

Similarly to special administration proceedings provided for in Greek Law 4307/2014, the Insolvency Code provides for the power of the bankruptcy trustee to conduct a public tender for the sale of the business as a whole or the sale of separate operation unit(s) of the business. The liquidation process is followed pursuant to a relevant decision of the bankruptcy court. The main differences between the special administration proceedings under Greek Law 4307/2014 and the new process provided for by the Insolvency Code, are the following:

- a notary public is hired to conduct the auction;
- the auction is carried-out electronically, namely through the e-auction platform; and
- following the auction, the creditors' meeting approves or opposes to the transaction, in which case the creditors' meeting may provide its approval subject to specific conditions (e.g., an increase of the proposed sale price).

In case of liquidation of separate assets, although the procedural aspects are the same as those of Greek Code of Civil Procedure, it is noted that there is no legal remedy that can be used to challenge the initial offering price set by independent evaluators.

Settlement of amounts due by over-indebted individuals under Greek Law 3869/2010—protection of main residence of the debtor

On 3 August 2010, Greek Law 3869/2010 came into effect with respect to the settlement of amounts due by over-indebted individuals. The law allowed the settlement of debts of individuals evidencing permanent and general inability (without intention) to repay their due debts, by submitting an application for a three-year settlement of their debts and writing off the remainder of their debts, in accordance with the terms of the settlement agreed. All individuals, both consumers and professionals, were subject to the provisions of Greek Law 3869/2010, as amended and in force, with the exception of individuals who could be declared bankrupt under the Bankruptcy Code.

This regulatory regime, as amended, allowed for the settlement of all amounts due to credit institutions (consumer, mortgage and commercial loans either promptly serviced or overdue), as well as those due to third parties with the exception of debts ascertained, during the year before the submission of the application, from intentional torts, administrative fines, monetary sanctions as well as obligations for spousal or child support. Following the amendment of the law by Greek Law 4336/2015, the scope of its provisions was widened to include ascertained debt towards the Greek state, tax authorities, municipalities and prefectures and social security funds, *provided that* such institutions are not the only creditors of the applicant and that the relevant debt was being subjected to restructuring along with its debt towards private creditors. Greek Law 3869/2010 was further amended, among others, by Greek Law 4346/2015, which introduced provisions on the partial funding by the Hellenic Republic of the amount of monthly payments set by court decision.

On 29 March 2019, the Greek Parliament replaced the regime of Greek Law 3869/2010 for the protection of primary residence by adopting Greek Law 4605/2019. The new provisions, which entered into force on 30 April 2019, introduced, *inter alia*, important amendments to the eligibility criteria for admission of debtors to the protective framework. Pursuant to the amended legal framework, eligible over-indebted debtors could apply online through a digital platform until 31 July 2020 for the settlement of their debts by arranging a partial repayment of their due debts in accordance with Greek Law 4605/2019.

Pursuant to Article 68 of Greek Law 4605/2019, debts eligible for settlement were restricted to those owed to credit institutions and, in the case of a house loan, to the Hellenic Consignment Deposit and Loans Fund and credit companies, for which a mortgage or a pre-notation of mortgage has been registered in favour of the aforementioned entities over the debtor's main residence and *provided that* such debts were in arrears for at least 90 days as at 31 December 2018. Ownership of the main residence did not have to be exclusive and complete in order to be protected. However, debts of natural persons cannot be settled if they are guaranteed by the Greek state. Within the framework mentioned above, the debtor should pay in equal monthly instalments and within 25 years an amount of 120% of the commercial value of its main residence, as determined on 31 December of the year prior to the submission of the application, plus interest calculated as 3-month Euribor +2%. The Greek state may also contribute to the payment of these monthly instalments under certain conditions.

It is also explicitly provided in the amended legal framework that (i) only a single application per debtor may be filed for the settlement of amounts owed; (ii) from the notification of the application to the creditor(s) until the lapse of the deadline provided by law for the debtor to request the judicial settlement, in case a consensus arrangement is not reached, auction proceedings against the debtor's main residence are suspended; (iii) a settlement proposal accepted by both the creditor and the debtor constitutes an enforceable title by virtue of which enforcement proceedings may be either initiated in relation to the remaining debtor's assets (except for their main residence) or initiated also for their main residence in case the debtor fails to meet the payment settlement conditions (*i.e.*, if the debtor owes in total more than three monthly instalments); and (iv) transfer of claims of credit institutions, the assignment of their claims to credit servicing firms of Greek Law 4354/2015, their securitisation in accordance with the provisions of Greek Law 3156/2003, or the replacement of the guarantor or co-debtor of such claims, do not prevent the settlement of amounts owed by the over-indebted individuals.

In case a consensus arrangement is not reached between the parties (*i.e.*, the credit institution or the Hellenic Consignment Deposit and Loans Fund and the debtor), the debtor may request the protection of its main residence by the competent court, on the terms mentioned herein above. If the borrower successfully completes the settlement plan and fully complies with it, then the remaining portion of the loan exceeding 120% of the value of the applicant's main residence plus interest calculated as three-month Euribor +2% will be written off. In addition, any mortgage or mortgage pre-notation that has been registered over the main residence securing a claim under the settlement plan, is lifted. However, if the debtor fails to meet the payment settlement conditions (*i.e.*, if the debtor owes in total more than three monthly instalments), enforcement proceedings may be initiated against the debtor even on their main residence.

As of 1 June 2021, pursuant to the Insolvency Code, new applications may no longer be submitted under Greek Law 3869/2010, which will, however, continue to apply to proceedings pending before 1 June 2021.

Settlement of Amounts Due by Indebted Individuals under the Insolvency Code (entry into force from 1 March or 1 June 2021, depending on the applicable provision).

The Insolvency Code consolidated the provisions of several statutes dealing with excessive indebtedness and debt settlement (such as Laws 3588/2007, 3869/2010, 4307/2014, 4469/2017 and 4605/2019) into one comprehensive legal framework of expanded scope, with all existing tools for debt settlement consolidated, regardless of their subject (such as indebted households, protection of main residence and extrajudicial settlement mechanisms). As at 1 March 2021, the provisions of the until then applicable legal regime contained in Greek Law 3588/2007 were repealed and the legal framework governing bankruptcy is now governed by the relevant provisions of the Insolvency Code.

The Insolvency Code establishes a special regime for protecting main residences of eligible individuals considered to be vulnerable distressed debtors, which provides for a sale and lease-back scheme for main residences and the establishment of a new organisation to implement the relevant process. The definition of vulnerable debtors is aligned with the criteria set out in Article 3 of Greek Law 4472/2017, as applicable (*i.e.*, the eligibility criteria for the provision of housing benefits, including, *inter alia*, an individual yearly income cap set at €9,600). The respective applications are submitted to EGDICH, in accordance with the Decision of the Ministers of Finance and Labour and Social Affairs no. 96550/04.08.2021 (Government Gazette Issue B' 3571/04.08.2021. The objective of the new framework is the liquidation of a debtor's main residence for the purposes of debt settlement, without the vulnerable debtor having to relocate or definitively lose ownership of

their asset. This is effected by the establishment of a sale and lease-back private entity, contracting with the Greek state pursuant to a call for tenders of the latter.

According to this scheme, in the event that a vulnerable debtor is declared insolvent or that enforcement proceedings regarding their main residence are initiated, they may submit a request under the new regime, which then acquires ownership right over the debtor's immovable property at market value price as determined by a certified valuator. In return, the new organisation leases the same property to the debtor for 12 years for a set amount of monthly rent (to be determined primarily based on the applicable housing loans' average interest rate). However, the price may be adjusted, if, in the context of an auction, the first offering price is significantly higher (15% or more) than the valuation price, in which case the purchase price is the lower of the first offering price and the price provided by a second certified evaluator appointed by the creditor seeking enforcement. Should no third-party, holder of right in rem, pose any objections to the transfer, the sale and lease-back entity purchases the residence free of any encumbrance or claim. The debtor maintains its status as beneficiary of the aforementioned housing benefits of Greek Law 4472/2017, which are now credited to the sale and lease-back entity as a partial payment of the relevant lease instalment. The lease is terminated in the event that the debtor has defaulted on 3 instalments and remains in default for at least 1 month after relevant notice is served. The termination of the lease leads to the abolishment of the debtor's buy-back rights. It is further noted that any rights of the debtor deriving from the lease are non-transferable, save for instances of universal succession.

The debtor may be entitled to re-purchase the property at a price objectively determined under the provisions of the said law upon fulfilment of its rental payment obligations. After full repayment at the end of the 12-year period or prior to that, the debtor (or its successors) is entitled to exercise a buy-back right. The buy-back price is defined pursuant to a Decision of the Minister of Finance, in accordance with Article 225 of the Insolvency Code, yet to be issued.

Further protective measures related to the COVID-19 pandemic

Greek Law 4790/2021 entered into force on 31 March 2021 and provides for urgent measures in response to the COVID-19 pandemic, including with respect to (i) the suspension of enforcement proceedings (and relevant deadlines); and (ii) the protection of the main residence of individuals who were financially affected by the consequences of the COVID-19 pandemic.

With respect to the suspension of enforcement proceedings it is noted that:

- (a) the time period spanning from 7 November 2020 until 6 April 2021, *i.e.*, the date on which the temporary cessation of operations of courts in Greece was lifted, will not be counted against any legal deadline for undertaking procedural and extrajudicial actions (this is not the case for proceedings under Greek Law 4307/2014). No statutory litigation interest ("τόκοι επιδικίας" in Greek) will be payable for this period;
- (b) all auctions of a borrower's non-perishable movable property, immovable property, ships and aircrafts, in the context of liquidation proceedings, scheduled between the reopening of courts in Greece and 13 May 2021 are cancelled; and
- (c) all auctions scheduled between 07 November 2020 and 13 May 2021 that were cancelled in accordance with item (b) above, may be rescheduled by the creditor for a new auction date set after 6 July 2021, provided that the deadline for filing legal remedies against the proceedings by a third party had not expired by 7 November 2020.

With respect to the protection of the main residence of individuals who were financially affected by the consequences of the pandemic, it is noted that:

- (a) Individuals who qualify (in accordance with criteria set by Greek Law 4790/2021 and after being verified by EGDICH) as financially affected by the consequences of the COVID-19 pandemic may not be the subject of any seizure, auction of and enforcement proceedings against their main residence that would result in them having to vacate said property. This protection is granted until 31 May 2021; and
- (b) The above does not preclude the adjudication of claims, the issuance of a payment order, the service of an enforcement order, or interim measures proceedings, relating to the main residence.

## Securitisations—the Hellenic Asset Protection Scheme (HAPS and HAPS 2)

#### Securitisations

Greek Law 3156/2003 (the "Securitisation Law") sets out a framework for the assignment and securitisation of receivables in connection with either existing or future claims, originated by a commercial entity with registered seat in Greece or, resident abroad and having an establishment in Greece (a "Transferor") and resulting from the Transferor's business activity. Article 10 of the Securitisation Law allows a Transferor to sell its receivables to a special purpose vehicle (an "SPV"), which must also be the issuer of notes to be issued in connection with the securitisation of such receivables. In particular, it provides that:

- (a) the assignment of the receivables is to be governed by the assignment provisions of the Greek Civil Code, which provides that ancillary rights relating to the receivables including mortgages, guarantees, pledges and other security interests will be transferred by the Transferor to the SPV along with the transfer of the receivables;
- (b) the transfer of the receivables pursuant to the Securitisation Law does not change the nature of the receivables, and all privileges which attach to the receivables for the benefit of the Transferor are also transferred to the SPV;
- (c) a summary of the receivables sale agreement must be registered with the competent Registry of Transcription, in accordance with the procedure set out under Article 3 of Greek Law 2844/2000 of the Hellenic Republic, following which registration (i) the validity of the sale of the receivables and of any ancillary rights relating to the receivables is not affected by any insolvency proceedings concerning the Transferor or the SPV; (ii) the underlying obligors of the receivables will be deemed to have received notice that there has been a sale of the receivables; and (iii) the legal pledge by operation of law over the securitised receivables and the separate account is established, as analysed under items (f) and (g) below;
- (d) the collection and servicing of the securitised receivables must be carried out by:
  - (i) a credit institution or financial institution licensed to provide services in accordance with its scope of business in the European Economic Area; or
  - (ii) the Transferor; or
  - (iii) a third party that had guaranteed or serviced the receivables prior to the time of transfer to the SPV;

(each of the entities under items (i) to (iii), referred to as the "Servicer").

- (e) if the SPV does not have a registered seat in Greece, and the securitised receivables are claims against consumers, payable in Greece, the Servicer of the securitised receivables must have an establishment in Greece;
- (f) any collection by the Servicer, in respect of the receivables, is made on behalf of the noteholders and the respective amounts are deposited in a collections account in the name of the issuer (separate from both the Transferor's and the Servicer's bankruptcy estate) held by it (if a credit institution) or with a credit institution operating in the EEA; and such collections account, any monies standing to its credit, and any security interest on behalf of the noteholders, may not be subjected to attachment, set-off or any other encumbrance sought to be imposed by any creditor of the Transferor, the Servicer, or by the account bank's creditors.
- (g) following the transfer of the receivables and the registration of the receivables sale agreement with the Registry, in accordance Article 3 of Greek Law 2844/2000 and the Securitisation Law, no security interest or encumbrance can be created over the receivables other than the one which is created pursuant to the Securitisation Law, in favour of the noteholders and the other creditors of the SPV, constituting a pledge by operation of law. Additionally, a pledge by operation of law is created on the collections account for the benefit of the noteholders and all other creditors of the SPV.

(h) the claims of the holders of the notes issued in connection with the securitisation of the receivables and also of the other creditors of the SPV from the enforcement of the pledge operating by law will rank ahead of the claims of any statutory preferential creditors.

The Hellenic Asset Protection Scheme (HAPS and HAPS 2)

Greek Law 4649/2019, as amended by Greek Law 4818/2021, provides the terms and conditions under which the Greek state guarantee may be provided in the context of securitisation of non-performing receivables from loans, credit agreements or leasing agreements by credit institutions under the asset protection scheme. This law provides for the conditions under which the securitisation must be implemented in order to qualify for the provision of the State guarantee, in line with initial decision no. 10.10.2019 C (2019) 7309 of the European Commission and decision 9.4.2021 C (2021) 2545 of the European Commission regarding the prolongation of the Hellenic Asset Protection Scheme. Such conditions include, inter alia, that the notes to be issued in the context of the securitisation must include at least senior and junior notes and the price paid to the Greek banks for the sale and transfer of non-performing receivables cannot exceed their aggregate net book value. The Greek state irrevocable and unconditional guarantee will be provided to the senior noteholders for the full repayment of principal and interest thereunder throughout the term of the notes. The initial aggregate commitment of the Greek state under the HAPS law amounted up to €12 billion. The aggregate commitment under the HAPS scheme extension, i.e. the HAPS 2, entered into force by virtue of Ministerial Decision 45191/13.4.2021, amounts to an additional €12 billion. Under HAPS 2, applications for the provision of the Greek state guarantee may be filed exclusively within 18 months as of 9 April 2021, i.e., by 9 October 2022 or such other date as may be designated by a decision of the Minister of Finance on the basis of a decision of the European Commission.

The Greek state guarantee is granted by a decision of the Minister of Finance and becomes effective upon (i) transfer through sale to private investors, for positive value, of at least 50% plus one of the issued junior notes, (ii) transfer through sale to private investors, for a positive price, of such number of the issued junior notes and of mezzanine notes (if issued) that allows the accounting derecognition of the securitised receivables in the financial statements of the transferor and its group; (iii) the senior tranche of the notes being rated at no less than BB- by an External Credit Assessment Institution (as defined in point (98) of Article 4(1) of the Capital Requirements Regulation); and (iv) assignment of the servicing of the securitised non-performing loans portfolio to an independent servicer (not controlled by the transferor of the receivables). If the State guarantee has not become effective within 12 months as of the publication of the respective Ministerial Decision granting the guarantee, then such decision ceases automatically to be in force and the amount of the guarantee is released. New applications for the same securitisation may not be submitted before the lapse of 6 months. Certain ministerial decisions have been issued to set out the details for the implementation of the aforementioned law.

## **Deposit and Investment Guarantee Fund**

Pursuant to Greek Law 3746/2009, the HDIGF was established as a private law entity and a general successor of the Deposit Guarantee Fund provided for by Article 2 of Greek Law 2832/2000. The provisions currently applicable to the HDIGF are set out in Greek Law 4370/2016, as in force, transposing into Greek Law Directive 2014/49/EU. Greek Law 4370/2016 came into force on 7 March 2016 and repealed the previously applicable law 3746/2009, setting out the rules for the operation of guarantee schemes.

Pursuant to Greek Law 4370/2016, as in force, all credit institutions licensed, in accordance with the Banking Law, to operate in Greece, with certain exemptions, and the local branches of credit institutions which have been established in non-EU Member States and are not covered by a guarantee scheme equivalent to that of the HDIGF mandatorily participate in the HDIGF. Greek branches of foreign credit institutions established in EU Member States may also become members of the investments cover scheme of the HDIGF at their discretion.

The HDIGF has its registered seat in Athens, is supervised by the Minister of Finance, is not a state organisation or public legal entity and does not belong to the Greek public sector or the broader Greek public sector, as the latter is defined from time to time. The HDIGF is managed by a seven-member board of directors the Chairman of which is one of the Deputy Governors of the Bank of Greece. Of the remaining six members, one comes from

the Ministry of Finance, three from the Bank of Greece and two from the Hellenic Bank Association. When reviewing and taking decisions in respect of requests for a credit institution's resolution under the BRRD Law, the Board of Directors is constituted only by five directors, i.e. without the participation of the two directors appointed by the Hellenic Bank Association. Members of the above board of directors are appointed by a decision of the Minister of Finance and have a five-year tenure. 60 per cent. of the HDIGF's constitutive capital was covered by the Bank of Greece and 40 per cent. by the members of the Hellenic Bank Association.

The objective of the HDIGF is (1) to indemnify depositors of credit institutions participating in the HDIGF obligatorily or at their own initiative that are unable to fulfil their obligations towards their depositors and finance resolution measures of credit institutions through the deposits cover scheme (the "Deposits Cover Scheme") in accordance with Article 104 of the BRRD Law; (2) to indemnify investor-customers of credit institutions participating in the HDIGF obligatorily or at their own initiative, in relation to the provision of investment services from these credit institutions in case the latter are unable to fulfil their obligations from the provision of "covered investment services" (the "Investments Cover Scheme"); and (3) to provide financing in the context of the reorganisation measures of Articles 37 et seq. of the BRRD Law – in accordance with the applicable provisions – with the aim of fulfilling the HDIGF's mission under Article 95 of the BRRD Law (the "Resolution Scheme").

Under the Deposits Cover Scheme, the maximum coverage limit for each depositor with deposits not falling within the "exempted deposits" category is €100,000, taking into account the total amount of its deposits with a credit institution minus any due and payable obligations towards the latter, subject to set-off in accordance with Greek law. This amount is paid in euro (with regard to foreign currency deposits, the payable amount is determined in accordance with the exchange rate which is applied by the Bank) to each depositor as an indemnity irrespective of the number of accounts, the currency or the country of operation of the branch in which it holds the deposit. In the case of joint bank accounts, as defined by Law 5638/1932 (Government Gazette 307/A), each depositor's share shall be taken into account for the purposes of the calculation of the maximum indemnification amount as a separate deposit and is entitled to cover up to the aforementioned limit with his or her other deposits, as analysed above. The deposit of a group of persons without legal personality shall be aggregated and treated as if made by a single depositor for the purpose of calculating the abovementioned limits. By way of exemption, the Deposits Cover Scheme covers deposits at an additional limit of up to a maximum amount of €300,000 deriving from specific activities (such as sale of a private property by an individual, payment of social security/insurance benefits, etc.) expressly specified in para 2 of Article 9 of Greek Law 4370/2016 credited to the relevant accounts, subject to the time limits and other conditions specified in Greek Law 4370/2016, as in force.

The HDIGF also indemnifies the investor-clients of credit institutions participating in the Investment Cover Scheme with respect to claims from investment services up to the amount of €30,000 for the total of claims of such investor, irrespective of covered investment services, number of accounts, currency and place of provision of the relevant investment service. In the case where the investors of HDIGF member credit institutions are cobeneficiaries of the same claim to guaranteed investment services, each investor's share in the claim shall be taken into account for the purposes of the calculation of the maximum indemnification amount as a separate claim and is entitled to cover up to the aforementioned limit in aggregate with his or her other investment claims, as analysed above. If the part of the claim corresponding to each co-beneficiary is not specified in the agreement signed by the co-beneficiaries and the HDIGF member credit institution, for the purposes of compensation each co-beneficiary is considered as having an equal share in the investment. For the purposes of compensation, the claim of a group of persons without legal personality shall be treated as if made by a single investor.

With regard to the Deposits Cover Scheme and the Investments Cover Scheme, the HDIGF is funded by the following sources: its founding capital, the initial and annual contributions of credit institutions obligatorily participating in the HDIGF's Deposits Cover Scheme and the Investments Cover Scheme, and supplementary contributions, as well as special resources coming from donations, liquidation of the HDIGF's claims, the

management of the assets of the HDIGF's Deposit and Investment Cover Schemes and loans. Pursuant to Articles 98, 99 and 100 of BRRD Law, the Resolution Scheme of the HDIGF is funded by regular ex ante contributions and extraordinary ex post contributions of credit institutions mandatorily participating in the Resolution Scheme, and, if the regular ex ante contributions are not adequate or the ex post contributions are not adequate or immediately available, alternative financing, including loans or financial support by credit institutions, financial institutions or other third parties.

In accordance with Article 16 of Greek Law 3864/2010, as amended by Greek Laws 4340/2015 and 4346/2015, the HDIGF may be granted a resolution loan, as set out in the Financial Facility Agreement dated 19 August 2015, by the HFSF for the purpose of covering expenses relating to the financing of banks' resolution pursuant to the provisions of the aforementioned Financial Facility Agreement without prejudice to the state aid rules of the European Union. The repayment of such loan will be guaranteed by the credit institutions participating in the HDIGF proportionately to their contributions to the Resolution Scheme or the Deposits Cover Scheme, as the case may be.

## **Single Resolution Fund**

On 30 November 2015, by virtue of Greek Law 4350/2015, the Greek Parliament ratified the Intergovernmental Agreement "on the transfer and mutualisation of contributions to the Single Resolution Fund ("SRF"), an essential part of the Single Resolution Mechanism" (the "IGA"), concluded between 26 EU Member States (the "Contracting Parties"), including Greece, on 21 May 2014, as amended on 22 April 2015.

Pursuant to the IGA, the contracting EU Member States, the credit institutions of which participate in the SRM and SSM, undertook to:

- (i) irrevocably transfer contributions collected at national level through the resolution financing arrangements for the purpose of their resolution schemes (in Greece the Resolution Fund, namely the Resolution Scheme of the HDIGF) from the credit institutions authorised within their territory, pursuant to Regulation (EU) No. 806/2014 and Directive No. 2014/59/EU, to the SRF established by the aforementioned Regulation; and
- (ii) allocate such contributions to separate parts corresponding to each Contracting Party, for a transitional period commencing on the date the IGA enters into force and ending on the date the SRF achieves the target level of financing provided for in Article 69 of Regulation (EU) No. 806/2014, but no later than eight years from the entry into force of the IGA. The use of the different national parts shall be gradually rendered mutual, in order for the separation to cease to exist by the end of the transitional period.

The above-mentioned contributions include: (i) the ex-ante annual contributions from the credit institutions authorised within each Member State's territory at the latest until the 30 June of such year, the first transfer taking place at the latest until 30 June 2016; (ii) contributions collected by the Contracting Parties pursuant to Articles 103 and the BRRD prior to the entry into force of the IGA, minus the amount the national resolution arrangements may have used prior to the entry into force of the IGA for resolution actions within their territories; and (iii) extraordinary ex-post contributions promptly upon their collection, where the available financial means of the SRF are not sufficient to cover the losses, costs or other expenses incurred by the use of the SRF in resolution actions.

The IGA further provides for the way the separate national parts of contributions of the SRF are formed based on the amount of contributions paid by the institutions authorised within each Member State as well as the way each national part shall be used in case of recourse to the SRF for resolution purposes of an institution within a Member State's territory prior to the mutualisation of the SRF's contributions. Also, the IGA provides for the "temporary transfer of contributions" between the separate national parts, namely the cases under which the

contracting Member States may require using the contributions of parts of the SRF corresponding to other Member States and not yet mutualised during the transitional period.

#### **Prohibition of Money Laundering and Terrorist Financing**

Greece, as a member of the Financial Action Task Force ("FATF") and as a Member State of the EU, fully complies with FATF recommendations and the relevant EU legal framework.

Directive (EU) 2015/849 on the prevention of the use of the financial system for the purposes of money laundering or terrorist financing, amending Regulation (EU) No 648/2012 and repealing Directive 2005/60/EC and Directive 2005/60/EC (4th AML/CTF Directive) was transposed in Greece through Greek Law 4557/2018. Law 4557/2018 was recently amended by Greek Law 4734/2020 transposing in Greece Directive (EU) 2018/843 amending Directive (EU) 2015/849 and Directives 2009/138/EC and 2013/36/EU (5th AML/CTF Directive), Greek Law 4816/2021 transposing Directive (EU) 2018/1673 on combating money laundering by criminal law (6th AML/CTF Directive) and Greek Law 4855/2021. The Bank of Greece has also signed the "Multilateral Agreement on the practical modalities for the exchange of information between the European Central Bank and national competent authorities responsible for supervising compliance with Anti-Money Laundering (AML) and Countering the Financing of Terrorism (CFT) framework, pursuant to article 57a(2) of Directive (EU) 2015/849.

The main provisions of the Greek legislation, as in force, provide, inter alia, the following:

- categorisation of money laundering and terrorist financing as criminal offences;
- a list of basic offences which includes, among others, bribery of political persons, bribery of employees, computer fraud, human trafficking, tax evasion, smuggling and non-payment of debts towards the state;
- designation of persons falling within the ambit of Greek Law 4557/2018, including, among others, credit institutions; financial institutions; payment institutions; investment firms; electronic money institutions;; credit companies; insurance undertakings operating in the field of life insurance; insurance intermediaries, when operating in the field of life insurance or investment-related services, with the exception of affiliated insurance intermediaries; leasing companies; factoring companies; credit servicing companies for loans and credits subject to the conditions set out in Article 1(25) of Receivables Law; estate agents in relation to transactions of a value up to at least €10,000, irrespective of whether such amount corresponds to the sale/purchase price or monthly rent; notaries and lawyers under certain circumstances; external auditors and any person that undertakes to provide, directly or by means of other persons to which that other person is related, material aid, assistance or advice on tax matters as principal business or professional activity; persons trading or acting as intermediaries in the trade of works of art; service providers of exchange services between virtual currencies and fiat currencies as well as custodian digital wallet providers; (the "obliged persons");
- definition of the beneficial owner and establishment of a national central beneficial owner registry providing accurate and up-to-date information on the 'ultimate beneficial owner status' of any natural person(s) who ultimately owns or controls an entity and/or on whose behalf a transaction or activity is being conducted;
- interconnection of the beneficial ownership registers at EU level;
- improving transparency on the real owners of trusts;
- obliged persons' obligation to identify customers, build KYC procedures, retain documents and report suspicious/unusual transactions to the competent AML/CTF national authorities;

- description of the circumstances, under which the obliged persons must display due diligence as well as risk factors and simplified and enhanced customer due diligence;
- definition of Politically Exposed Persons ("PEPs");
- adoption of risk-based approach to AML compliance;
- identify lower/higher AML risk areas;
- setting up centralised bank account registers or retrieval systems;
- disapplication of banking secrecy in case of money laundering activities;
- lifting the anonymity on electronic money products (prepaid cards) in particular when used online;
- obligation to maintain evidence and records of transactions;
- appointment of the competent national AML/CTF Authority which is responsible, among others, for
  examining reports filed by banks and other individuals or legal persons with respect to suspicious
  transactions and for ordering sanctions against individuals who are suspected of terrorism;
- enhanced due diligence and special measures applicable in relation to high risk third countries and improving checks on transactions involving such countries;
- enhancing the powers of EU Financial Intelligence Units and facilitating their cooperation;
- enhancing cooperation between financial supervisory authorities; and
- criminal, administrative and other penalties that are imposed in case of breach of the AML/CTF Framework. Criminal sanctions may be imposed against natural persons, including persons who aid or abet or act as accessories, noting that, for the purposes of conviction for several offences, it is not necessary to establish all the factual elements or all circumstances relating to that criminal activity, including the identity of the perpetrator. While no criminal proceedings can be brought against legal entities under Greek law, they may face administrative sanctions (including dissolution and liquidation) for breaches of the AML/CTF Framework committed for their benefit by any person, acting either individually or as part of an organ of the legal person and having a leading position within the legal person.

The provisions of Greek Law 4557/2018 are complemented by Regulation (EU) 2015/847 on information accompanying transfers of funds and repealing Regulation (EC) No 1781/2006, which applies from 26 June 2017. It sets out rules on the information on payers and payees, accompanying transfers of funds, in order to help prevent, detect and investigate AML/CTF cases.

In the context of combating tax evasion, Directive (EU) 2016/2258 provides for the access of tax authorities to the mechanisms, procedures, documents and information applied and held by the obliged persons (including banks) for AML/CFT purposes. The Directive has been transposed into Greek law by Greek Law 4569/2018.

The Banking and Credit Committee of the Bank of Greece has issued Decision 281/5/17.03.2009 on the "Prevention of the use of the credit and financial institutions under Bank of Greece supervision for money laundering and terrorist financing", Decision 285/6/09.07.2009 which sets out an indicative typology of unusual or suspicious transactions within the meaning of article 4(13), (14) Greek Law 3691/2008 and Decision 290/12/11.11.2009 on the "Framework governing the imposition of administrative sanctions on the institutions supervised by the Bank of Greece in accordance with Article 52 of Greek Law 3691/2008". The aforementioned Decisions 281/5/17.03.2009 and 285/6/09.07.2009 were amended by the Act of the Governor of the Bank of

Greece No. 2652/29.02.2012 providing for, inter alia, an indicative typology of unusual or suspicious transactions pertaining to tax evasion. Moreover, Decisions 281/5/17.03.2009 and 290/12/11.11.2009 were further amended by Decision 300/30/28.07.2010 of the Banking and Credit Committee of the Bank of Greece setting out further obligations of the credit institutions under the AML/CTF legislation. Decisions 281/5/17.03.2009 was amended again by Decision 94/23/15.11.2013 of the Credit and Insurance Committee of the Bank of the Greece and Executive Committee Act 172/29.5.2020 of the Bank of Greece.

Decision 281/5/17.03.2009 takes into account the principle of proportionality, and includes the obligations of all credit and financial institutions and FATF recommendations. This decision also reflects the common understanding of the obligations imposed by Regulation (EU) 1781/2006 on the information on the payer accompanying transfers of funds. It is noted that Regulation (EU) 1781/2006 was repealed by Regulation (EU) 2015/847 of the European Parliament and of the Council of 20 May 2015 on the information accompanying transfers of funds and repealing Regulation (EC) No 1781/2006.

Recently, the Executive Committee Act No. 172/1/29.05.2020 of the Bank of Greece laid down the terms and conditions for digital customer identification by credit institutions and other supervised entities. The Executive Committee Act No. 172/1/29.05.2020. It contains a combination of organisational, technical and procedural measures that ensure a reliable identity identification of natural persons and are designed to prevent identity fraud. Two methods of digital onboarding are envisaged: (a) by videoconference with a trained agent; and (b) an automated procedure via a dynamic-selfie, subject to additional safeguard measures. The identification documents for natural persons that are acceptable are those incorporating enhanced security features. Exceptionally, for Greek citizens and only as part of the videoconference method, ID cards issued by the Hellenic Police, with data written in Latin characters, may be accepted following valuation of any underlying risks and subject to validity and authenticity checks through the central digital portal of the public administration.

# The HCMC has adopted the following decisions:

- HCMC Decision No 1/506/8.4.2009 for the prevention of the use of the financial system for money laundering and terrorist financing.
- HCMC Decision No. 34/586/26.5.2011 for the application of due diligence measures in case of outsourcing functions or agency relationship.
- HCMC Decision No. 35/586/26.5.2011, amending the HCMC decision No. 01/506/08.04.2009 for the
  prevention of the use of the financial system for money laundering and terrorist financing. The above
  decision has, among others, extended the enhanced due diligence measures applicable to high-risk
  customers, and introduced the obligation of companies, subject to it, to freeze the assets of persons who
  are included in relevant lists.
- HCMC Decision No. 20/735/22.10.2015, amending article 2 of the HCMC decision No. 01/506/08.04.2009 for the prevention of the use of the financial system for money laundering and terrorist financing. with respect to the application of due diligence measures.
- HCMC Decision No. 5/820/30.05.2018, amending article 10(2) of the HCMC decision No. 01/506/08.04.2009 for the prevention of the use of the financial system for money laundering and terrorist financing, by introduction of the obligation for preparation of annual report and submission to the HCMC by the compliance officer.
- HCMC Decision No. 4/894/23.10.2020 for the remote electronic identification of natural persons by obliged persons supervised by the HCMC when concluding business relationships or carrying out occasional transactions.

• HCMC Decision 5/898/3.12.2020 for the establishment of a register of providers of exchange services between virtual currencies and fiat currencies and a register of custodian digital wallet providers

In July 2002, the Greek Parliament passed Greek Law 3034/2002, which transposed into Greek law the International Convention for the Suppression of the financing of terrorism, with which the Group fully complies.

In 2013, the Bank of Greece issued two Decisions (no. 94/23/2013 and no. 95/10/22.11.2013) which further strengthen the regulatory framework within which the supervised entities in Greece operate. Decision no. 95/10/22.11.2013 on "information to be periodically disclosed by supervised institutions to the Bank of Greece" was further amended by Decision no. 108/1/04.04.2014, enhancing the frequency of reporting. The amendments mainly harmonise the applicable provisions to the revised FATF recommendations with respect to PEPs by categorising local PEPs as high risk customers and by imposing on the supervised banks additional reporting obligations pertaining to suspicious cross border transfer of funds, as well as to high risk banking products and customers.

Moreover, the European Commission issued Regulation (EU) 2016/1675 supplementing Directive (EU) 2015/849 by identifying high-risk third countries with strategic deficiencies in their national AML/CTF frameworks, as amended and in force.

Furthermore, it should be noted that on 5 December 2017 the Council of the European Union adopted its list of non-cooperative tax jurisdictions and published two Annexes containing: (i) the EU list of non-cooperative tax jurisdictions; and (ii) the different jurisdictions cooperating with the EU with respect to commitments taken to implement tax good governance principles. The Council of the European Union list is intended to promote good governance in taxation worldwide, maximising efforts to prevent tax avoidance, tax fraud and tax evasion. Furthermore it is also noted that the current list, as in force, is to be revised at least once a year and the competent EU authorities may recommend an update at any time. The latest revised list was adopted in February 2022.

# **Payment Services in the Internal Market**

On 23 December 2015, Directive 2015/2366/EU ("PSD2"), which intends to incorporate and repeal the Directive 2007/64/EC on payment services in the internal market (the "Payment Services Directive" or "PSD") was published in the Official Journal of the European Union. PSD2 aims at improving the functioning of the internal market for payment services and more broadly for all goods and services given the need for innovative, efficient and secure means of payments.

PSD2 was transposed into Greek law by virtue of Greek Law 4537/2018, as in force. The new legislative regime provides high protection regarding the rights of the users of the payment services. In particular, law 4537/2018:

- expands the reach of the original PSD to include payments to and from third countries, where at least one (and not anymore both) payment service provider is located within the EU. Moreover, the extension in scope will also have as an effect that the same rules will apply to payments that are made in a currency that is not denominated in Euro or another EU Member State's currency;
- introduces new a Strong Customer Authentication (SCA) requirement. This involves the use of two authentication factors for bank operations that were not previously required, including payments and access to accounts online or via apps, as well as a stricter definition of what counts as an authentication factor;
- introduces new security requirements for electronic payments and account access, along with new security challenges relating to AISPs and PISPs. Specifically, customers have the right to reclaim the amount of money transferred in cases where: (a) unauthorised credit of the customer's account was used for the purchasing of products or services; (b) authorised credit of the customer's account was

used for the purchase of products or services (i) that did not mention the exact amount of the payment transaction and (ii) the amount of the payment transaction exceeded the amount reasonably expected by the customer, taking into account previous spending patterns, the framework contract's terms and the circumstances of the specific case; or (c) here was a non-execution or defective execution of the payment transaction by the Bank;

- encourages new players ("TPPs") that offer specific payment solutions or services to customers to enter the payment market. The TPPs will have to follow the same rules as the traditional payment service providers: registration, licensing and supervision by the competent authorities. Furthermore, it opened the EU payment market for TPPs to offer payment services based on the access to the information from the payment account. These TPPs are categorised as account information service providers ("AISPs") that allow consumers and businesses to have a global view on their financial situation, and the payment initiation service providers ("PISPs") that help consumers to make online credit transfers and inform the merchant immediately of the payment initiation, allowing for the immediate dispatch of goods or immediate access to services purchased online. Moreover, PSD2 allows payment service providers that do not manage the account of the payment service user to issue card-based payment instruments to that account and to execute card-based payments from that account. Such "third party" payment service provider which could be a bank not servicing the account of the payer will be able, after consent of the user, to receive from the financial institution where the account is held a confirmation (a yes/no answer) as to whether there are sufficient funds on the account for the payment to be made;
- standardises the different approaches to surcharges on card-based transactions, which are not allowed for those consumer cards affected by the interchange fee cap; and
- enhances consumer rights by introducing: (a) reduced liability for non-authorised payments from €150 to €50; and (b) unconditional refund right for direct debits in euro for a period of 8 weeks.

The Hellenic General Secretariat of Trade and Consumer Protection is appointed as competent authority to handle complaints of payment services users and other interested parties (i.e. consumer associations).

On 24 July 2013, the EC also published a proposal for a Regulation on interchange fees for card-based payment transactions which led to the adoption on 29 April 2015 of Regulation (EU) 2015/751 of the European Parliament and of the Council on interchange fees for card-based payment transactions. Specifically, the Regulation, which is applicable as of 8 June 2015:

- caps interchange fees at 0.2 per cent. of the transaction value for consumer debit cards and at 0.3 per cent. for consumer credit cards;
- allows EU countries to define percentage caps lower than 0.3 per cent. for consumer credit card transactions;
- allows EU countries to impose a fee of no more than 5 eurocents per transaction interchange fee in combination with the 0.2 per cent. cap for consumer debit card transactions; and
- increases transparency on the level of fees paid by retailers, thus enabling them more easily to select which payment cards to accept.

## **EU General Data Protection Regulation**

The GDPR represents a new legal framework for the data protection in the EU. It has applied directly in all EU Member States since 25 May 2018. Although a number of basic principles under previous Greek data privacy

laws remain the same under the GDPR, the GDPR also introduces new obligations on data controllers and enhanced rights for data subjects.

The GDPR applies to organisations located within the EU and also extends to organisations located outside of the EU if they offer goods and/or services to EU data subjects. Regulators have power to impose administrative fines and penalties for a breach of obligations under the GDPR, including fines for serious breaches of up to 4 per cent. of the total worldwide annual turnover of the preceding financial year or  $\epsilon$ 20 million and fines of up to 2 per cent. of the total worldwide annual turnover of the preceding financial year or  $\epsilon$ 10 million for other specified infringements. The GDPR identifies a list of points to consider when imposing fines (including the nature, gravity and duration of the infringement).

In Greece, Greek Law 4624/2019 implements and/or makes use of the derogations allowed by the GDPR and complements Greek Law 2472/1997, as amended and in force. However, there is still very little guidance as to how the Hellenic Data Protection Authority will enforce the GDPR. The Hellenic Data Protection Authority issued its opinion on Greek Law 4624/2019 in January 2020, which heavily criticised the lack of conformity of some of its provisions with the GDPR and Directive 2016/680 (the "LED"), which was also transposed into Greek law by virtue of Greek Law 4624/2019. Concerning Article 52, the Hellenic Data Protection Authority stated that Article 11 of the LED has been poorly transposed because Greek Law 4624/2019 does not provide the appropriate safeguards for the rights and freedoms of the data subject and at least the right to obtain human intervention on the part of the controller.

The Bank has taken measures to comply with the GDPR and Greek law requirements.

## **Consumer protection**

Credit institutions in Greece are subject to legislation aimed at protecting consumers from abusive terms and conditions. In particular, Greek Law 2251/1994, as supplemented by the Ministerial Decision no. 5338/17.01.2018, with effective date as of 17 March 2018, and as amended and in force, sets forth rules on the marketing and advertisement of consumer financial services, prohibits unfair and misleading commercial practices and includes penalties for violations of such rules and prohibitions.

In addition, consumer protection issues are regulated through administrative decisions, such as Ministerial Decision Z1-798/2008 (Government Gazette Issue B' 1353/11.07.2008) on the prohibition of general terms which have been found to be abusive by final court decisions, as amended by Ministerial Decisions Z1-21/2011 (Government Gazette Issue B' 21/18.01.2011) and Z1-74/2011 (Government Gazette Issue B' 292/22.02.2011).

Further to the above, Directive 2008/48/EC of the European Parliament and of the Council of Europe on credit agreements for consumers and repeal of Council Directive 87/102/EEC, as amended and in force, provides for increased consumer protection in the context of consumer credit transactions and prescribes, among others, the inclusion of standard information in advertising and the provision of pre-contractual and contractual information to consumers.

The aforesaid Directive was transposed into Greek legislation by Ministerial Decision Z1-699/2010 (Government Gazette Issue B' 917/23.06.2010) with effect from 23 June 2010. The said Ministerial Decision provides for increased consumer protection in the context of consumer credit transactions and prescribes, among others, the inclusion of standard information in advertising and the provision of pre-contractual and contractual information to consumers. Ministerial Decision Z1-699/2010 was amended by Greek Law 4438/2016, Ministerial Decision Z1-111/2012 (Government Gazette Issue B' 627/2012) and Joint Ministerial Decision 108544/2018, that transposed into Greek Law European Directive 2011/90/EU providing additional assumptions for the calculation of the annual percentage rate of charge.

The Ministerial Decision Z1-699/2010, as amended and in force, contains specific provisions regarding the provision of standard information for the advertising of credit agreements, and the minimum information that

should be provided to consumers so as to enable them to compare different offers. In order for the consumers to make informed decisions, they must receive adequate information in a clear and precise manner through standard information that should be available to them prior to execution of the agreement, including, among others, the total amount of credit, the terms governing money withdrawals, duration, interest rate, and relevant examples. The credit agreements should be executed in writing or by any other relevant means.

Before the conclusion of the credit agreement, the creditor assesses the consumer's creditworthiness and solvency on the basis of sufficient information, where appropriate obtained from the consumer during the precontractual stage, but also on the information provided by the consumer during a long-term transactional relationship, and after research on the proper data base, in accordance with the special provisions for the supervision of credit and financial institutions.

Consumers have the right to withdraw from their contracts within fourteen days without providing any justification. In order to withdraw from their contracts, consumers must inform the creditor and pay the principal and any accrued interest calculated from the date of the granting of the credit up to the date of its repayment, without any undue delay and at the latest within thirty days from the date of notification to the creditor. Consumers have the right to fulfil the entirety or part of their obligations before the date specified in the agreement. In case of early partial or full repayment, creditors are entitled to a reasonable and objectively justified compensation for any expenses directly related to the early repayment of the credit, provided that such early repayment is taking place within the time period for which a fixed interest has been agreed.

Finally, the Act of the Governor of the Bank of Greece No. 2501/2002, as supplemented by Act of the Governor of the Bank of Greece No. 178/2004 and in force, sets out fundamental disclosure obligations of credit institutions operating in Greece *vis-à-vis* any Contracting Party.

Ministerial Decision 56885/2014 set a code of conduct for the protection of consumers during sales, offer periods and promotional actions while Joint Ministerial Decision 70330/2015 transposed Directive 2013/11/EU on alternative dispute resolution for consumer disputes and introduced supplementary measures for the application of Regulation (EU) 524/2013 on online dispute resolution for consumer disputes.

Joint Ministerial Decision 5921/2015 (entered into force on 19 January 2015) set out the terms and the procedure for mediation of the consumer ombudsmen between credit institutions and debtors pursuant to the provisions of the Code of Conduct.

Presidential Decree No. 10/2017 introduced the "Code of Consumer Conduct" and set the principles to be applied to trade and the trading relations between suppliers and consumers and their associations. Finally, Ministerial Decision 31619/2017 introduced a Code of Consumer Conduct for e-commerce.

Greek Law 4512/2018, which has been effective since 17 March 2018, as amended and in force, brought significant amendments to Greek Law 2251/1994. The most important of such amendments for the credit institutions or financial institutions and servicers supervised by the Bank of Greece are the following:

- (i) change in the definition of "consumer" falling within the ambit of the protection of Greek Law 2251/1994 to include only individuals (and no longer legal entities); and
- (ii) in the field of unfair terms in consumer contracts, protection is also provided only to the very small businesses, either natural or legal persons, as if it was offered to an individual.

The above applies only to contracts entered into, or renewed after 17 March 2018. Old contracts are not affected by the introduced amendments.

## **Equity Participation by Banks in Other Companies**

The Banking Law does not contain any provision regarding the equity participation of banks in other companies. Article 89 of the CRR provides that the competent authorities of Member States must publish their choice among the available options included in such article in relation to the conditions applicable to the acquisition by credit institutions of a qualified holding in other companies.

The Bank of Greece has not published its choice as per the above to date.

According to the Act of the Governor of the Bank of Greece No. 2604/04.02.2008, issued by authorisation of the now abolished Greek Law 3601/2007 for the acquisition by credit institutions of qualifying holdings in the share capital of undertakings in the financial sector, as amended by Decision 281/10/17.03.2009 of the Banking and Credit Committee of the Bank of Greece, credit institutions were required to obtain the Bank of Greece's prior approval to acquire or increase a qualifying holding in the share capital of credit institutions, financial institutions, insurance and reinsurance companies, investment firms, information technology management companies, real estate property management companies, asset and liability management companies, payment systems management companies, external credit assessment institutions and financial data collection and processing companies. The extent to which the above act remains applicable following the entry into force of the Banking Law is unclear.

Subject to EU regulations, new and significant holdings (concentrations) must be reported to the Greek Competition Commission according to Greek Law 3959/2011 and must be notified to the EC, provided that they have community dimension within the meaning of Regulation (EU) 139/2004 on the control of concentrations between undertakings, following the procedure set in such Regulation (as supplemented by Regulation (EU) 802/2004).

The HCMC and ATHEX must also be notified once certain ownership thresholds are exceeded with respect to listed companies according to Greek Law 3556/2007 as amended and in force, and the relevant decisions of the HCMC and the ATHEX Regulation.

# **Equity Participations in Greek Credit Institutions**

Article 23 of Banking Law provides for a specific procedure by which the Bank of Greece is notified of the intention of an individual or a legal entity to acquire, directly or indirectly, a participation reaching or exceeding the thresholds set by such article (namely, 20 per cent., 1/3, 50 per cent., or so that the credit institution would become its subsidiary, or acquire control of a Greek credit institution within the meaning of Article 3(1)(34) of the Banking Law, through written or other arrangements or concerted action, ) of the percentage of the total share capital or voting rights of a credit institution authorised by the Bank of Greece, including the appraisal of the acquirer or the approval, as the case may be of the above acquisition. An envisaged acquisition of a percentage between 5% and 10% entails the obligation to inform the competent authority on the contemplated acquisition so that such authority confirms whether the above would entail the exercise of significant influence, in which case fulfilment of the relevant assessment criteria is also reviewed. It is noted that the notification obligation exists also where an individual or a legal entity decides to cease holding directly or indirectly a participation in a credit institution seated in Greece or to reduce an existing participation below the above thresholds.

Executive Committee Act No. 22 of the Bank of Greece, issued on 12 July 2013, was abolished and replaced by Executive Committee Act No. 142/11.6.2018 of the Bank of Greece, as amended by Executive Committee Act No. 178/02.11.2020 of Bank of Greece, and as in force, codifies the provisions regarding the authorisation of credit institutions in Greece and the acquisition of a qualifying holding in a credit institution. Furthermore, this act specifies the necessary information for the prudential assessment of the proposed shareholders, the proposed members of the management body and the proposed key function holders of a credit institution by the Bank of

Greece, issued on 24 March 2015, as amended by Executive Committee Act No. 142/11.6.2018 of the Bank of Greece, issued on 24 March 2015, as amended by Executive Committee Act No. 142/11.6.2018 of the Bank of Greece, the aforementioned information should be accompanied by appropriate privacy statements included in this Act concerning personal data processing. Given that: (a) no other implementing act(s) of the relevant provisions of the Banking Law has been issued as of the date of this Offering Circular and (b) the provisions of this Act do not appear to be at any point contradictory to the relevant provisions of the Banking Law, the provisions of the Executive Committee Act No. 142/11.6.2018 of the Bank of Greece, as amended by Executive Committee Act No. 178/02.11.2020 of Bank of Greece, shall be considered as applicable and in force, pursuant to Article 166(2) of the Banking Law.

As at 4 November 2014, the supervisory tasks described above were conferred on the ECB in cooperation with the Bank of Greece, according to the provisions of the SSM Framework Regulation.

# **Deferred Tax Assets (DTAs)**

Greek Law 4302/2014 introduced Article 27A to the Greek Income Tax Code, which was initially replaced by Greek Law 4303/2014 and then by Greek Law 4340/2015 and was most recently amended by Greek Law 4549/2018, 4722/2020 and, most recently, 4831/2021 ("DTA Framework"), to allow, under certain conditions, from 2016 onwards, credit institutions to convert DTAs falling within the scope of such law and arising (a) from the participation in the PSI and the buy-back programme and (b) from the sum of (i) the unamortised part of the crystallised loan losses from write-offs and disposals, (ii) the accounting debt write-offs and (iii) the remaining accumulated provisions and other general losses, with respect to existing amounts up to 30 June 2015, into final and due receivables from the Hellenic Republic ("Tax Credit"). In the case of an accounting loss in a specific year, the Tax Credit will be calculated by multiplying the total amount as per the above of the deferred tax asset by the percentage represented by the accounting losses over net equity before such year's losses as appearing in the annual financial statements of the credit institution, excluding such year's accounting losses.

Pursuant to the new provisions of Greek Law 4831/2021, the transaction loss from the exchange of Greek government bonds or corporate bonds guaranteed by the Greek state, in application of a participation programme in the redistribution of Greek debt (of par. 2 of article 27 of law 4172/2013), deducts as a priority compared to the transaction loss due to credit risk. The amount of the annual transaction loss from credit risk deduction is limited to the amount of annual gains determined under tax law, before the deduction of these losses resulting from credit risk and after the deduction of the loss resulting from the PSI bond exchange, see "Regulation and Supervision - PSI Programme". The remaining amount of the annual deduction that has not been offset is carried forward for deduction in subsequent tax years within the twenty-year period, in which the remaining profits will remain after the annual deduction of the transaction losses corresponding to those years. The order of deduction of the transferred amounts is preceded by the older transaction loss balances compared to the newer ones. If at the end of the twenty-year amortisation period there are balances that have not been offset, these are losses subject to the five-year transfer rule. It is noted that the above provision does not affect the rate of the depreciation for regulatory purposes of the DTA, neither retrospectively nor in the future, i.e. the DTA will continue to be depreciated on a straight line basis (one-twentieth per year), for both previous, as well as for future sales of NPLs. In this context, the purpose of this amendment is to avoid a significant one-off impairment of DTAs, as a result of the tax amortisation of accumulated loan losses. The above applies from 1 January 2021 and concerns debit differences due to credit risk that have arisen since 1 January 2016.

This legislation allows Greek credit institutions to treat such eligible DTAs as not "relying on future profitability" according to the CRD Directive, and as a result such DTAs are not deducted from Common Equity Tier I capital but rather risk weighted, thereby improving an institution's capital position. As of 31 December 2021, the Group's DTAs falling within the scope of the DTA Framework amounted to €2,891.0 million, comprising 53.3 per cent. of its total DTAs and 8.2 per cent. of RWAs while the Bank's DTAs falling within the scope of the DTA Framework amounted to €2,891.0 million, comprising 53.5 per cent. of its total DTAs and 8.9 per cent. of RWAs.

The Tax Credit can be offset against income taxes payable. Any excess amount of the Tax Credit that cannot be offset against income taxes payable is immediately recognised as a receivable from the Hellenic Republic. Upon conversion of DTA to DTC, the credit institution will issue conversion rights on its ordinary shares which will belong to the Hellenic Republic and correspond to common shares of the credit institution of a total market value equal to 100 per cent. of the Tax Credit prior to the set-off, and create a special reserve of an equal amount. The conversion price of the conversion rights will be based on the average trading price per share of the last 30 business days prior to the date that the Tax Credit becomes payable, weighted by trading volume. The exercise of such rights will take place without the payment of consideration. Existing shareholders will have, proportionate to their participation in the share capital of the credit institution, a call option on the conversion rights. Following the end of a reasonable period during which such option was not exercised, the rights are freely transferable.

The conversion mechanism (DTA to DTC) is also triggered in the case of resolution, liquidation or special liquidation of the institution concerned, as provided for in Greek or EU legislation, as the latter has been transposed into Greek legislation. In this case, any amount of DTCs which is not offset with the corresponding annual corporate income tax liability of the institution concerned gives rise to a direct payment claim against the Hellenic Republic.

The Extraordinary General Meeting of Shareholders of the Bank held on 7 November 2014 approved the Bank's submission in the scope of the DTA Framework, which is applicable from the tax year 2017 onwards for Tax Credits arising from the tax year 2016.

#### **TAXATION**

The comments below are of a general nature and are not intended to be exhaustive. Any Noteholders who are in doubt as to their own tax position should consult their professional advisers.

## **Taxation in the Hellenic Republic**

The following is a summary of certain material Greek tax consequences of the purchase, ownership and disposal of the Notes. The discussion is not exhaustive and does not purport to deal with all the tax consequences applicable to all possible categories of purchasers, some of which may be subject to special rules and also does not touch upon procedural requirements, such as the issuance of a tax registration number or the filing of a tax declaration or of supporting documentation required. Further, it is not intended as tax advice to any particular purchaser and it does not purport to be a comprehensive description or analysis of all of the potential tax considerations that may be relevant to a purchaser in view of such purchaser's particular circumstances. Also, the discussion below is limited to the payment of interest under Notes as per the terms of which the redemption amount of such Notes may not be less than the principal amount thereof upon their issue.

The summary is based on the Greek tax laws in force on the date of this Offering Circular, published case law, ministerial decisions and other regulatory acts of the respective Greek authorities as in force at the date hereof and does not take into account any developments or amendments that may occur after the date hereof, whether or not such developments or amendments have retroactive effect. Nevertheless, since a new Greek income tax code was brought into force (by virtue of Greek Law 4172/2013, effective as of 1 January 2014, as amended from time to time) limited (if any) precedent or authority exists and there are still certain matters which have not, as at the date hereof, been clarified by the Greek tax administration. Further, non-Greek tax residents may have to submit a declaration of non-residence or produce documentation evidencing non-residence in order to claim any exemption under applicable tax laws of Greece.

Prospective purchasers of the Notes are advised to consult their own tax advisers as to the laws of Greece and other tax consequences of the purchase, ownership and disposal of the Notes.

# A. Greek withholding tax

## Payment of principal under the Notes

No Greek income tax will be imposed on payments of principal to any Noteholders in respect of the Notes

# Payments of interest on the Notes

Subject as described in "Payments of interest on Listed Notes" below, payments of interest on the Notes held by:

(a) Noteholders who neither reside nor maintain a permanent establishment in Greece for Greek tax law purposes ("Non-Resident Noteholders") will be subject to Greek withholding income tax at a flat rate of 15 per cent., which is made in respect of payments of interest to Non-Resident Noteholders by the relevant Issuer. Such withholding exhausts the tax liability of both individual and entity Non-Resident Noteholders. Further, such withholding is in each case subjected to the provisions of any applicable tax treaty for the avoidance of double taxation of income and the prevention of tax evasion (a "DTT") entered into between Greece and the jurisdiction in which such a Non-Resident Noteholder is a tax resident, subject to the submission of recent tax residence certificates or other evidence of non-residence; and

(b) Noteholders who either reside or maintain a permanent establishment in Greece for Greek tax law purposes ("Resident Noteholders") will be subject to Greek withholding income tax at a flat rate of 15 per cent., which is made in respect of payments of interest to Resident Noteholders by the relevant Issuer; otherwise, the interest payments will be taxed via the annual income tax return of the Resident Noteholders. This 15 per cent. withholding will, as a rule, exhaust the tax liability of Resident Noteholders who are natural persons (individuals), while it will not for other types of Resident Noteholders.

#### Payment of interest on Listed Notes

From 1 January 2020, for so long as the Notes are listed on a trading venue within the EU (which includes the regulated market of the Luxembourg Stock Exchange and the Euro MTF), or are listed on an organised stock market outside the EU which is supervised by a regulatory authority accredited by the International Organization of Securities Commissions (IOSCO) (the "Listed Notes"), interest income arising under the Listed Notes which is paid to:

- (i) Non-Resident Noteholders, shall be exempt from Greek income and withholding tax; and
- (ii) Resident Noteholders, shall be taxable in the manner which is mentioned above in respect of Resident Noteholders; however, the 15 per cent. Greek withholding income tax shall be made by a paying or other similar agent who either resides or maintains a permanent establishment in Greece for Greek tax law purposes, and not by the relevant Issuer.

# B. Disposal of Notes – Capital Gains

Generally, taxable capital gain equals the positive difference between the consideration received from the disposal of Notes and the acquisition price of the same Notes. For these purposes, expenses directly linked to the acquisition or sale of the Notes are included in the acquisition or sale price.

Capital gains resulting from the transfer of the Notes and earned by:

- (a) Non-Resident Noteholders who are natural persons (individuals) and tax residents in a jurisdiction with which Greece has entered into a DTT will not be subject to Greek income tax, provided they furnish appropriate documents evidencing that they are tax residents in such jurisdiction; in respect of Listed Notes, such documentation is furnished to the custodian of such Notes;
- (b) Non-Resident Noteholders who are natural persons (individuals) but they are not tax residents in a jurisdiction with which Greece has entered into a DTT, will be subject to Greek income tax at a flat rate of 15 per cent.; in the event such transfer is treated as deriving from business activity, income tax will be imposed according to the applicable tax rate scale which rises progressively to 44 per cent.; according to the Greek Ministry of Finance, if said Noteholder is a resident of a "non-cooperative" jurisdiction or state, the tax which is chargeable on the gain is payable before the transfer of the Notes via the filing of a special tax return; the procedure and the details for such filing have not been determined yet;
- (c) Non-Resident Noteholders who are legal persons or other entities will not be subject to Greek income tax on the basis of the Greek domestic tax law provisions;
- (d) Resident Noteholders who are natural persons (namely individuals) will be subject to Greek income tax at a flat rate of 15 per cent.; in the event such transfer is treated as deriving from business activity, income tax will be imposed according to the applicable tax rate which rises progressively to 44 per cent.;

- (e) Resident Noteholders who are legal persons or other entities will be subject to Greek corporate tax, via the annual corporate tax return, currently at the rate of 22 per cent.; for income generated in tax year 2021 and onward; credit institutions which have submitted in the scope of the DTA Framework (for more information, see "Regulation and Supervision Deferred Tax Assets (DTAs)") are taxed at 29 per cent.; and
- (f) both Resident Noteholders and Non-Resident Noteholders who are natural persons (individuals): (i) will not be considered as generating income deriving from business activity in case of a sale of Notes after a holding period which exceeds five (5) years and/or in the case of a sale of Notes which have been acquired by reason of inheritance or gift from a first or second degree kin; (ii) will not be subject to the presumption of business activity which is provided by article 21 para. 3 of the Greek income tax code, according to which, in the case of making three (3) similar transactions within any six (6) month period, the relevant income qualifies as income deriving from business activity, which does not apply for transactions comprising a transfer of the Notes; and (iii) will not be considered, in the event of a single isolated transaction in respect of the Notes, as generating income deriving from business activity.

In case of an issue of notes, such as the Notes, under Greek Law 4548/2018 and article 14 of Greek Law 3156/2003, the gain resulting from the transfer of such Notes is exempt from income tax on the basis of the Greek domestic tax law provisions; such exemption is final in respect of Non-Resident Noteholders, as well as in respect of Resident Noteholders who are natural persons (individuals) or legal persons or other entities retaining single entry books; for Resident Noteholders retaining double entry books, said exemption operates as tax deferral.

# C. Solidarity Levy

The overall net income of a natural person (individual) which is reported in an annual personal Greek income tax return and exceeds EUR 12,000 is subject to an annual levy called a solidarity levy ( $\varepsilon\iota\sigma\varphi\circ\rho\dot{\alpha}$   $\alpha\lambda\lambda\eta\lambda\varepsilon\gamma\gamma\dot{\nu}\eta\varsigma$ ). The rate of the solidarity levy rises progressively from 2.2 per cent. to 10 per cent. and is calculated with reference to both taxable and tax exempt income.

Pursuant to article 21 par. 3 and article 66 par. 19 of Greek Law 4646/2019, the interest income arising under Listed Notes and paid to holders who are Non-Resident Noteholders shall be exempt from the solidarity levy. According to Guidelines of the Independent Authority for Public Revenue E2009/2019 and Decision no. 2465/2018 of the Council of State, the solidarity levy is not imposed on income generated in Greece and acquired by a non-Greek tax resident or to income generated outside Greece and acquired by a Greek tax resident, when Greece is not entitled to impose tax on the basis of a DTT.

# The proposed financial transactions tax

On 14 February 2013, the European Commission published a proposal (the "Commission's Proposal") for a Directive for a common financial transactions tax ("FTT") in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the "participating Member States"). However, Estonia has since stated that it will not participate.

The Commission's Proposal has very broad scope and could, if introduced, apply to certain dealings in the Notes (including secondary market transactions) in certain circumstances. Primary market transactions referred to in Article 5(c) of Regulation (EC) No 1287/2006 are expected to be exempt.

Under the Commission's Proposal the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in the Notes where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, "established" in a participating Member State in a broad range

of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

However, the Commission's Proposal remains subject to negotiation between participating Member States. It may therefore be altered prior to any implementation, the timing of which remains unclear. Additional EU Member States may decide to participate.

Prospective holders of the Notes are advised to seek their own professional advice in relation to the FTT.

## Foreign Account Tax Compliance Act

Pursuant to certain provisions of the U.S. Internal Revenue Code of 1986, commonly known as FATCA, a "foreign financial institution" (as defined by FATCA) may be required to withhold on certain payments it makes ("foreign passthru payments") to persons that fail to meet certain certification, reporting or related requirements. The Issuers are foreign financial institutions for these purposes. A number of jurisdictions (including the UK and Greece) have entered into, or have agreed in substance to, intergovernmental agreements with the United States to implement FATCA ("IGAs"), which modify the way in which FATCA applies in their jurisdictions. Under the provisions of IGAs as currently in effect, a foreign financial institution in an IGA jurisdiction would generally not be required to withhold under FATCA or an IGA from payments that it makes. Certain aspects of the application of the FATCA provisions and IGAs to instruments such as Notes, including whether withholding would ever be required pursuant to FATCA or an IGA with respect to payments on instruments such as Notes, are uncertain and may be subject to change. Even if withholding would be required pursuant to FATCA or an IGA with respect to payments on instruments such as Notes, such withholding would not apply prior to the date that is two years after the date on which final regulations defining foreign passthru payments are published in the U.S. federal register and Notes characterised as debt (or which are not otherwise characterised as equity and have a fixed term) for U.S. federal income tax purposes that are issued on or prior to the date that is six months after the date on which final regulations defining foreign passthru payments are filed with the U.S. Federal Register generally would be grandfathered for purposes of FATCA withholding unless materially modified after such date (including by reason of a substitution of an Issuer). However, if additional Notes (as described under Condition 16) that are not distinguishable from previously issued Notes are issued after the expiration of the grandfathering period and are subject to withholding under FATCA, then withholding agents may treat all Notes, including the Notes offered prior to the expiration of the grandfathering period, as subject to withholding under FATCA. Noteholders should consult their own tax advisers regarding how these rules may apply to their investment in Notes.

#### SUBSCRIPTION AND SALE

The Dealers have, in a programme agreement (as may be amended, supplemented and/or restated from time to time, the "**Programme Agreement**") dated 6 July 2022, agreed with the Issuers a basis upon which they or any of them may from time to time agree to subscribe for Notes. Any such agreement will extend to those matters stated under "*Form of the Notes*" and "*Terms and Conditions of the Notes*" above. In the Programme Agreement, the Issuers have agreed to reimburse the Dealers for certain of their expenses in connection with the update of the Programme and the issue of Notes under the Programme.

#### **United States**

The Notes have not been and will not be registered under the Securities Act or the securities laws of any state or other jurisdiction of the United States, and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except in certain transactions exempt from, or not subject to, the registration requirements of the Securities Act.

The Notes are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to a U.S. person, except in certain transactions permitted by U.S. Treasury regulations. Terms used in this paragraph have the meanings given to them by the U.S. Internal Revenue Code of 1986 and regulations thereunder. The applicable Pricing Supplement will identify whether the TEFRA C rules ("TEFRA C") or TEFRA D rules ("TEFRA D") apply or whether TEFRA is not applicable.

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it will not offer, sell or deliver Notes (i) as part of their distribution at any time or (ii) otherwise until 40 days after the completion of the distribution of all the Notes of the Tranche of which such Notes are a part within the United States or to, or for the account or benefit of, US persons except in accordance with Regulation S of the Securities Act and it will have sent to each distributor, dealer or person receiving a selling concession, fee or othe remuneration that purchases Notes from it during the distribution compliance period a confirmation or other notice setting forth the restrictions on offers and sales of the Notes within the United States or to, or for the account or benefit of, US persons. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act.

In addition, until 40 days after the commencement of the offering of any Series of Notes, an offer or sale of such Notes within the United States by any dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act if such offer or sale is made otherwise than in accordance with an available exemption from registration under the Securities Act.

#### **Prohibition of Sales to EEA Retail Investors**

Unless the Pricing Supplement in respect of any Notes specifies "Prohibition of Sales to EEA Retail Investors" as "Not Applicable", each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Notes which are the subject of the offering contemplated by this Offering Circular as completed by the Pricing Supplement in relation thereto to any retail investor in the EEA. For the purposes of this provision:

- (a) the expression "**retail investor**" means a person who is one (or more) of the following:
  - (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; or

- (ii) a customer within the meaning of the Insurance Distribution Directive, where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or
- (iii) not a qualified investor as defined in the Prospectus Regulation; and
- (b) the expression an "offer" includes the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe for the Notes.

If the Pricing Supplement in respect of any Notes specifies "Prohibition of Sales to EEA Retail Investors" as "Not Applicable", in relation to each Member State of the EEA, each Dealer has represented, warranted and agreed, and each further Dealer appointed under the Programme will be required to represent, warrant and agree, that it has not made and will not make an offer of Notes which are the subject of the offering contemplated by this Offering Circular as completed by the Pricing Supplement in relation thereto to the public in that Member State except that it may make an offer of such Notes to the public in that Member State:

- (a) *Qualified investors*: at any time to any legal entity which is a qualified investor as defined in the Prospectus Regulation;
- (b) Fewer than 150 offerees: at any time to fewer than 150 natural or legal persons (other than qualified investors as defined in the Prospectus Regulation) subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the relevant Issuer for any such offer; or
- (c) Other exempt offers: at any time in any other circumstances falling within Article 1(4) of the Prospectus Regulation,

**provided that** no such offer of Notes referred to in paragraphs (a) to (c) above shall require the relevant Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Regulation, or supplement a prospectus pursuant to Article 23 of the Prospectus Regulation.

For the purposes of this provision:

- the expression an "offer of Notes to the public" in relation to any Notes in any Member State means
  the communication in any form and by any means of sufficient information on the terms of the offer
  and the Notes to be offered so as to enable an investor to decide to purchase or subscribe for the Notes;
  and
- the expression "**Prospectus Regulation**" means Regulation (EU) 2017/1129 (as amended).

#### **United Kingdom**

# Prohibition of Sales to UK Retail Investors

Unless the Pricing Supplement in respect of any Notes specifies "Prohibition of Sales to UK Retail Investors" as "Not Applicable", each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Notes which are the subject of the offering contemplated by this Offering Circular as completed by the Pricing Supplement in relation thereto to any retail investor in the UK. For the purposes of this provision:

(c) the expression "**retail investor**" means a person who is one (or more) of the following:

- (i) a retail client as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of UK domestic law by virtue of the EUWA; or
- (ii) a customer within the meaning of the provisions of the FSMA and any rules or regulations made under the FSMA to implement the Insurance Distribution Directive, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of UK MiFIR; or
- (iii) not a qualified investor as defined in Article 2 of the UK Prospectus Regulation; and
- (d) the expression an "offer" includes the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe for the Notes.

If the Pricing Supplement in respect of any Notes specifies "Prohibition of Sales to UK Retail Investors" as "Not Applicable", each Dealer has represented, warranted and agreed, and each further Dealer appointed under the Programme will be required to represent, warrant and agree, that it has not made and will not make an offer of Notes which are the subject of the offering contemplated by this Offering Circular as completed by the Pricing Supplement in relation thereto to the public in the UK, except that it may make an offer of such Notes to the public in the UK:

- (a) Qualified investors: at any time to any legal entity which is a qualified investor as defined in Article 2 of the UK Prospectus Regulation;
- (b) Fewer than 150 offerees: at any time to fewer than 150 natural or legal persons (other than qualified investors as defined in Article 2 of the UK Prospectus Regulation) in the UK subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the relevant Issuer for any such offer; or
- (c) Other exempt offers: at any time in any other circumstances falling within section 86 of the FSMA,

**provided that** no such offer of Notes referred to in paragraphs (a) to (c) above shall require the relevant Issuer or any Dealer to publish a prospectus pursuant to section 85 of the FSMA or supplement a prospectus pursuant to Article 23 of the UK Prospectus Regulation.

For the purposes of this provision:

- the expression an "offer of Notes to the public" in relation to any Notes means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe for the Notes; and
- the expression "UK Prospectus Regulation" means Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the EUWA.

# Other regulatory restrictions

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that:

(a) No deposit taking: in relation to any Notes which have a maturity of less than one year, (i) it is a person whose ordinary activities involve it in acquiring, holding, managing or disposing of investments (as principal or agent) for the purposes of its business and (ii) it has not offered or sold and will not offer or sell any Notes other than to persons whose ordinary activities involve them in acquiring, holding, managing or disposing of investments (as principal or as agent) for the purposes of their businesses or

who it is reasonable to expect will acquire, hold, manage or dispose of investments (as principal or agent) for the purposes of their businesses where the issue of the Notes would otherwise constitute a contravention of Section 19 of the FSMA by the relevant Issuer;

- (b) Financial promotion: it has only communicated or caused to be communicated and will only communicate or cause to be communicated any invitation or inducement to engage in investment activity (within the meaning of section 21 of the FSMA) received by it in connection with the issue or sale of any Notes in circumstances in which section 21(1) of the FSMA does not apply to the relevant Issuer; and
- (c) General compliance: it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to any Notes in, from or otherwise involving the United Kingdom.

#### Japan

The Notes have not been and will not be registered under the Financial Instruments and Exchange Act of Japan (Act No. 25 of 1948, as amended, the "FIEA") and each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it will not offer or sell any Notes, directly or indirectly, in Japan or to, or for the benefit of, any resident of Japan (as defined under Item 5, Paragraph 1, Article 6 of the Foreign Exchange and Foreign Trade Act (Act No. 228 of 1949, as amended)), or to others for re-offering or resale, directly or indirectly, in Japan or to, or for the benefit of, a resident of Japan, except pursuant to an exemption from the registration requirements of, and otherwise in compliance with, the FIEA and any other applicable laws, regulations and ministerial guidelines of Japan.

#### Singapore

Each Dealer has acknowledged, and each further Dealer appointed under the Programme will be required to acknowledge, that this Offering Circular has not been registered as a prospectus with the Monetary Authority of Singapore. Accordingly, each Dealer has represented, warranted and agreed, and each further Dealer appointed under the Programme will be required to represent, warrant and agree, that it has not offered or sold any Notes or caused the Notes to be made the subject of an invitation for subscription or purchase and will not offer or sell any Notes or cause the Notes to be made the subject of an invitation for subscription or purchase, and has not circulated or distributed, nor will it circulate or distribute, this Offering Circular or any other document or material in connection with the offer or sale, or invitation for subscription or purchase, of the Notes, whether directly or indirectly, to any person in Singapore other than (i) to an institutional investor (as defined in Section 4A of the SFA pursuant to Section 274 of the SFA, (ii) to a relevant person (as defined in Section 275(2) of the SFA) pursuant to Section 275(1) of the SFA, or any person pursuant to Section 275(1A) of the SFA, and in accordance with the conditions specified in Section 275 of the SFA, or (iii) otherwise pursuant to, and in accordance with the conditions of, any other applicable provision of the SFA.

Where the Notes are subscribed or purchased under Section 275 of the SFA by a relevant person which is:

- (a) a corporation (which is not an accredited investor (as defined in Section 4A of the SFA)) the sole business of which is to hold investments and the entire share capital of which is owned by one or more individuals, each of whom is an accredited investor; or
- (b) a trust (where the trustee is not an accredited investor) whose sole purpose is to hold investments and each beneficiary of the trust is an individual who is an accredited investor,

securities or securities-based derivatives contracts (each term as defined in Section 2(1) of the SFA) of that corporation or the beneficiaries' rights and interest (howsoever described) in that trust shall not be transferred

within six months after that corporation or that trust has acquired the Notes pursuant to an offer made under Section 275 of the SFA except:

- (1) to an institutional investor or to a relevant person, or to any person arising from an offer referred to in Section 275(1A) or Section 276(4)(c)(ii) of the SFA;
- (2) where no consideration is or will be given for the transfer;
- (3) where the transfer is by operation of law;
- (4) as specified in Section 276(7) of the SFA; or
- (5) as specified in Regulation 37A of the Securities and Futures (Offers of Investments) (Securities and Securities-based Derivatives Contracts) Regulations 2018 of Singapore.

## Republic of France

Each of the Dealers and the Issuers represents and agrees that it undertakes to comply with applicable French laws and regulations in force regarding the offer, the placement or the sale of the Notes and the distribution in France of the Offering Circular or any other offering material relating to the Notes.

## Republic of Italy

The offering of the Notes has not been registered pursuant to Italian securities legislation and, accordingly, no Notes may be offered, sold or delivered, nor may copies of the Offering Circular or of any other document relating to any Notes be distributed in Italy, except:

- (i) to qualified investors (investitori qualificati), as defined pursuant to Article 2 of the Prospectus Regulation and any applicable provision of Legislative Decree No. 58 of 24 February 1998, as amended (the "Financial Services Act") and Italian Commissione Nazionale per le Società e la Borsa ("CONSOB") regulation; or
- (ii) in other circumstances which are exempted from the rules on public offerings pursuant to Article 1 of the Prospectus Regulation and Article 34-ter of Regulation No. 11971 of 14 May 1999, as amended from time to time, and the applicable Italian laws.

Any offer, sale or delivery of the Notes or distribution of copies of the Offering Circular or any other document relating to the Notes in the Republic of Italy under paragraphs (i) or (ii) above must be:

- (a) made by an investment firm, bank or financial intermediary permitted to conduct such activities in the Republic of Italy in accordance with the Financial Services Act, CONSOB Regulation No. 20307 of 15 February 2018 (as amended from time to time) and Legislative Decree No. 385 of 1 September 1993, as amended (the "Banking Act"); and
- (b) in compliance with any other applicable laws and regulations or requirements imposed by CONSOB, the Bank of Italy (including the reporting requirements, where applicable, pursuant to Article 129 of the Banking Act and the implementing guidelines of the Bank of Italy, as amended from time to time) and/or any other Italian authority.

#### Greece

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has complied and will comply with: (i) the provisions described above in

this section under "*Prohibition of Sales to EEA Retail Investors*"; (ii) all applicable provisions of the Prospectus Regulation and the relevant provisions of Greek Law 4706/2020 as in force from time to time; (iii) all applicable provisions of Greek Law 4548/2018 as in force from time to time; (iv) all applicable provisions of Greek Law 4514/2018 as in force from time to time, which transposed into Greek Law MiFID II (including without limitation the provisions of article 16 par. 3 of Greek Law 4514/2018) as well as any regulation or rules made thereunder, as supplemented and amended from time to time, with respect to anything done in relation to the offering of the Notes in, from or otherwise involving the Hellenic Republic; and (v) the Bank of Greece Executive Committee Act No. 147/27.07.2018 and the HCMC Decision No. 1/808/7.2.2018, implementing in Greece MiFID II Delegated Directive (EU) 2017/593.

#### General

Each Dealer has represented, warranted and agreed, and each further Dealer appointed under the Programme will be required to represent, warrant and agree, that it has complied and will (to the best of its knowledge and belief having made all due and proper enquiries) comply with all applicable securities laws and regulations in force in any jurisdiction in which it purchases, offers, sells or delivers Notes or possesses or distributes this Offering Circular and will obtain any consent, approval or permission required by it for the purchase, offer, sale or delivery by it of Notes under the laws and regulations in force in any jurisdiction to which it is subject or in which it makes such purchases, offers, sales or deliveries and neither the Issuers nor any other Dealer shall have any responsibility therefor.

Neither of the Issuers nor any of the Dealers represents that Notes may at any time lawfully be sold in compliance with any applicable registration or other requirements in any jurisdiction, or pursuant to any exemption available thereunder, or assumes any responsibility for facilitating such sale.

#### **GENERAL INFORMATION**

#### **Authorisation**

The update of the Programme and the issue of Notes by Alpha Holdings have been duly authorised by resolutions of the Board of Directors of Alpha Holdings dated 26 May 2022. The update of the Programme and the issue of Notes by Alpha Bank have been duly authorised by resolutions of the Board of Directors of Alpha Bank dated 26 May 2022.

## Listing and Admission to Trading

Application has been made to the Luxembourg Stock Exchange to approve this Offering Circular in respect of Alpha Holdings and Alpha Bank. Application has also been made to the Luxembourg Stock Exchange for Notes issued under the Programme to be admitted to trading on the Euro MTF and to be listed on the Official List of the Luxembourg Stock Exchange.

#### **Documents Available**

For so long as any Notes are listed on the Luxembourg Stock Exchange and, in any event, for the period of 12 months following the date of this Offering Circular, copies of the following documents will, when published, be available for inspection free of charge at the registered office of the Issuers and at https://www.alphaholdings.gr/en/investor-relations:

- (i) the constitutional documents of Alpha Holdings and Alpha Bank (in English);
- (ii) the Agency Agreement, the Deed of Covenant, the forms of the temporary global Notes, the permanent global Notes, the Notes in definitive form, the Coupons and the Talons;
- (iii) a copy of this Offering Circular; and
- (iv) any future offering circulars, prospectuses, information memoranda and supplements to this Offering Circular, each Pricing Supplement and any other documents incorporated herein or therein by reference.

In addition, this Offering Circular, any Pricing Supplements (in relation to Notes to be listed on the Luxembourg Stock Exchange), the documents incorporated by reference into this Offering Circular and any notices published in Luxembourg in accordance with Condition 13 may be available in electronic form on the website of the Luxembourg Stock Exchange (www.bourse.lu).

## **Clearing Systems**

The Notes have been accepted for clearance through Euroclear and Clearstream, Luxembourg. The appropriate Common Code and ISIN for each Tranche allocated by Euroclear and Clearstream, Luxembourg will be specified in the applicable Pricing Supplement. If the Notes are to clear through an additional or alternative clearing system the appropriate information will be specified in the applicable Pricing Supplement.

The issue price and the amount of the relevant Notes will be determined before filing of the applicable Pricing Supplement in respect of each Tranche, based on then prevailing market conditions.

The address of Euroclear is 1 Boulevard du Roi, Albert II, B-1210 Brussels, Belgium and the address of Clearstream, Luxembourg is 42 Avenue JF Kennedy, L-1855 Luxembourg. The address of any alternative clearing system will be specified in the applicable Pricing Supplement.

#### Yield

In relation to any Tranche of Fixed Rate Notes, an indication of the yield in respect of such Notes will be specified in the applicable Pricing Supplement. The yield is calculated at the Issue Date of the Notes on the basis of the relevant Issue Price. Unless otherwise indicated in the relevant Pricing Supplement the yield indicated will be calculated as the yield to maturity as at the Issue Date of the Notes and will not be an indication of future yield.

# Material Change and Significant Change

There has been no material adverse change in the prospects of either Issuer or the Group since 31 December 2021, and no significant change in the financial position of either Issuer or the Group since 31 March 2022.

#### Litigation

Subject as disclosed under "Risk Factors – Risks relating to the Group – Risks relating to the Group's business – Litigation risk", neither Issuer nor any other member of the Group is or has been, in the last twelve months, involved in any governmental, legal or arbitration, proceedings (and, so far as the Issuers are aware, no such proceedings are pending or threatened) which may have, or have had, a significant effect on their financial position or profitability.

#### **Auditors**

The current statutory auditors of each of the Issuers are Deloitte Certified Public Accountants S.A. ("**Deloitte**"), whose registered address is 3a Fragkoklissias & Granikou Str., GR-151 25 Maroussi, Athens, Greece. Deloitte is a member of the Body of Certified Public Accountants of Greece (SOEL) and is also registered with the Public Company Accounting Oversight Board (PCAOB) and Hellenic Accounting and Auditing Oversight Board (ELTE). Deloitte has no material interest in either Issuer.

Deloitte's reports on (i) Alpha Holdings' 31 December 2020 and 31 December 2021 consolidated and separate financial statements and (ii) Alpha Bank's 31 December 2021 consolidated and separate financial statements, prepared, in each case, in accordance with IFRS as adopted by the European Union, were not qualified.

The annual financial reports of (i) Alpha Holdings for the financial years ended 31 December 2020 and 31 December 2021 and (ii) Alpha Bank for the period ended 31 December 2021 were, in each case, prepared in accordance with IFRS as adopted by the European Union.

## **Dealers transacting with the Issuers**

Certain of the Dealers and their affiliates (including their parent companies) have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may provide services to, the Issuers and their affiliates in the ordinary course of business. In addition, in the ordinary course of their business activities, the Dealers and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of the Issuers or the Issuers' affiliates. Certain of the Dealers or their affiliates that have a lending relationship with the Issuers routinely hedge their credit exposure to the Issuers consistent with their customary risk management policies. Typically, such Dealers and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in securities, including potentially any Notes issued under the Programme. Any such short positions could adversely affect future trading prices of Notes issued under the Programme. The Dealers and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that

they acquire, long and/or short positions in such securities and instruments. For the avoidance of doubt, the	term
"affiliates" also includes parent companies.
